Description: International is no longer afraid that on the eve of the same day, China's largest LGBTQ organization "Beijing Comrade Center" has announced the termination of operations without warning of social media on Monday. The Chinese authorities have strengthened their efforts in recent years. The LGBTQ organization has successively closed the Chinese LGBTQ athlete or that it is not surprising to the results, but I believe that the LGBTQ community has a way to continue sports energy.

In the past few years, several LGBTQ groups have been announced by the government for pressure.

(Voice of Germany in Chinese) The "Beijing Comrade Center" (north of the north), which was established for 15 years (north), issued a statement on its social media account on Monday (May 15th), announcing that the center will terminate the operation. After the news came out, many Chinese netizens left a message under their posts to contribute to the organization's contribution to the Chinese LGBTQ community in 2008, and also lamented that they would like group.

Andy (pseudonym), who has long promoted the LGBTQ community movement in China for a long time, said in an interview with DW that it was not surprising that Beitong announced the termination of operations, because in the past few years, several university LGBTQ communities or folk LGBTQ groups were received by the Chinese government. After suppression, the LGBTQ society has "no room for doing things." He said: "The North Tong Center mentioned the "force majeure", which must be the order of the Chinese government to make them unable to continue operation, so I was not surprised by this result."

In 2020, China's largest diversified gender activity "Shanghai Pride Festival" was announced to be suspended without warning on the official website. At that time, speculation was related to the Chinese government's pressure on

the host team. 2021, At that time, the accounts that shared the blocked list on WeChat were also stopped.

Andy told DW that he was found "drinking tea" by the local government for holding activities related to the LGBTQ community in the near future and asked what activities he did before, which made him feel that if he continued to do activities in a similar way to do activities In the case, maybe it will start facing the interference of some government Essence He said: "If there are too many participants in the event, it may not work. Recently, I heard that the American consulate is going to do an event and want to invite comrades and friends to participate, but the local comrades did not send the relevant news to the public account of the social media. Because in addition to calling comrades and friends, the organizer of the event is the American consulate. These two factors are inappropriate in the eyes of the Chinese government. "

Lv Xinjie, the "Outright Operation" (OutrichtInformational), the development of the LGBTQ campaign in Asian countries for a long time, said in a DW interview that the various signs of China in the past few years have shown that the end operation of the North Tong Center is inevitable. Many Chinese LGBTQ athletes told her that when an organization cannot operate various activities or has no space to promote affairs, it is very difficult to continue operating. She said, "I feel regretful but not surprised by the news."

同同: China LGBTQ "Safety Space"

Lu Xinjie told DW that for the Chinese LGBTQ athletes, the Beitong Center established in 2008 provided a safe space for the community, and had deep ink in terms of consulting, domestic violence and cross -sex equity advocacy. She said: "For the gay movement, it is important to have a safe space, because in the early days of China, when the LGBTQ community office activity, it was stressed in space issues The group can go, and when you encounter difficulties, you can ask for help. This is a very basic service in the gay movement. "

In addition to providing a safe space, Beitong is also a "very stable" role in China LGBTQ athletes. Lu Xinjie added: "When many groups may suffer different pressures, the North Tong Center has always been there, so for Chinese athletes, the North Tong Center stops operations and will make them feel more desperate."

She also mentioned that in the past few years, many Chinese LGBTQ groups, including Beitong Center, intend to terminate operations because

they will be concerned as long as they do activities. However, when they want to terminate operations, the Chinese government has repeatedly stopped them from doing so. Lu Xinjie pointed out that the main reason is that the Chinese government believes that once these LGBTQ groups announce the termination of operations, related incidents will cause public discussion. She said: "This is very hard for operators. They can't do things and have to stay there. Now it seems that they have made a decision, but I believe they will find different spaces to continue to promote what they want to do. Work."

Andy also mentioned that because of the earliest establishment of the Beibei Center, the services it launched often promoted LGBTQ institutions in other regions to follow up. He told DW: "In recent years, they have turned to this piece of spiritual consultation, and this field should look very safe. They provide consulting services through friendly psychologists who are friendly to the LGBTQ community, so even if the North Tong Center is closed, these are the service should still exist. "

Both Andy and Lu Xinjie said that they believed that the Chinese LGBTQ athletes could finally find a way to break through the status quo after working hard for so long and advance the entire movement to the areas that the Chinese authorities are difficult to control.

Where do you go from the Chinese gay movement?

The LGBTQ organizations across China have been under pressure to be put on pressure by the Chinese government. However, Andy believes that the

communication of the LGBTQ community will not disappear because of this, and community members will come up with more and more new activities and communication forms. He said, "On the surface, it feels that the policy has tightened, but this development may be a good reminder for friends of the LGBTQ institution, that is, they need to change their ideas. When the policy has changed, it is more flexible. "

Lu Xinjie also believes that although the termination of the operation of the Beibei Center is a great impact for many people, and the space for LGBTQ exercise can also be more limited, from other perspectives, the LGBTQ movement of China now has lost one of one. The clear land is not an absolute bad thing. She told DW: "Now the Chinese authorities are to monitor all kinds of roles they think they will cause social turmoil. Therefore, a specific space will allow the government. If this community becomes a relatively flowing state, I think that in the current atmosphere of China, the LGBTQ movement can produce more appearance, which may not necessarily be bad. "

Both Andy and Lu Xinjie said that they believed that the Chinese LGBTQ athletes could finally find a way to break through the status quo after working hard for so long and advance the entire movement to the areas that the Chinese authorities are difficult to control. Andy said: "There are so many comrades' communities, everyone must have different needs. These things will not continue to operate because of a government policy."

On May 16, the Hudson Institute, Washington, USA held a seminar. Reporter Tang Yuanyuan As the competition in the United States and China has become increasingly upgraded, the peace and stability of the Taiwan Strait has become the focus of attention from all walks of life. On May 16th, President You Xizheng, the president of Taiwan Legislative President visiting in Washington, the capital of the United States, delivered a public

speech, calling on the United States and allies to continue to support the stability of the Taiwan Strait.

Member of the US -China Middle School of the United States and China Meeting You Xixi to discuss how to support the Taiwan Anti -China * *
You Xizheng meets the President of the U.S. Human Rights Fund: Co - maintenance of democracy

On Tuesday, the Hudson Institute of Washington think tank in the United States held a seminar on issues such as Taiwan's attack on Taiwan's attacks on Taiwan.

You Xizheng: Taiwan is just the goal of Xi Jinping in the pedal is to dominate the world

On the occasion of visiting Washington, it coincides with the eve of the Seventh Kingdom Group Summit (G7) on the eve of Hiroshima, Japan, and the focus of this summit will also focus on China's economic coercion.

At the meeting, I first thanked the United States for their increasingly clearer support in recent years: "We thank your country (the United States) at the end of last year to pass the" National Defense Authorization Act 2023 "at the end of last year, and agreed to provide Taiwan's \$ 10 billion in Taiwan's \$ 10 billion in five years. Military aid, I also thank the Biden government for the recent use of presidential appropriation rights to directly provide weapons worth 500 million US dollars to Taiwan. We are very grateful to President Biden as saying that if Taiwan has been attacked before, the United States will Will send troops to defend Taiwan. "

You Xizheng also warned that Taiwan is not the ultimate goal of the Chinese authorities. The ultimate goal of the Chinese authorities is to reshape the international order: "Taiwan is not the ultimate destination of the Communist Party of China, the CCP's goal is to rise to the west, it is Europe and the United States, the world, and the world. Become a world empire. Taiwan is just a pedal when it moves forward The practice meeting on March 23 this year, (Xi Jinping) also reached the "consensus that jointly promotes the centennial change" with Putin (Putin). The intention of order has not been concealed So we can say certain that protecting Taiwan is to protect Europe and the United States and ensure that Taiwan's security is to ensure public interests around the world. "

You Xizheng: Thanks to Japan, South Korea, and Fei for strengthening support for Taiwan

You Xizhen also talked that the support of American allies such as Japan, South Korea, the Philippines, and other American allies have also increasingly strengthened: "Prime Minister of Japan Kishida and President Yin Xiyue in South Korea stated that the Taiwan issue is a global issue that will continue to strengthen the cooperation between the United States, Japan, and South Korea. And resolutely oppose the status quo of peace in the Taiwan Strait; Philippine President Macos (Ferdinand Marcosjr) also said that if a war in the Taiwan Strait occurs, the US military may be allowed to use the Philippines base ... (the above allies), plus the assistance of the United States, , Becoming the most important stability of the security and peace in the Indo -Pacific region. "

You Xizheng also called on the meeting that the United States and the United States allies would support Taiwan to join international civil aviation

organizations, the World Health Organization, and International Monetary Fund to ensure that Taiwan can jointly protect the prosperity, security and stability of the Indo -Pacific region.

Scholars: US policy to Taiwan should be more clear

Niryturkel, a senior researcher at the Hudson Institute, suggested at the meeting that the US government should be clearer and consistent in terms of rights and Taiwan policies. Threat of force.

He said: "If we cannot explain to the American people why Taiwan's democracy and sovereignty are important, we cannot get the support of the American people. This is very dangerous and it is not helpful for Taiwan. On the other hand, for Taiwan, if the United States, the United States, if the United States is in the United States The government's inconsistent signal will weaken the courage to defend Taiwan's sovereignty. In addition, the inconsistent signal will also affect Beijing, which will make Beijing think that the United States has weaknesses. "

Russia launched an unusually violent air strike on Tuesday (May 16). The Ukrainian army claimed that 18 Russian missiles had been shot down, including six supersonic missiles.

Reuters reported that the Russian army launched the eighth round of air strikes on Kiev in the early morning of Tuesday. Vitali Klitschko, the mayor of Kiev, confirmed that at least three people were injured and a building was damaged.

Popko, head of the military management department of the Kiev City, said on the instant messaging platform: "The missile launch is very dense and launch the most attack missile in the shortest time."

The Ukrainian army pointed out that Russia launched 18 missiles at Ukraine at night, all of which have been shot down. The Ukraine also destroyed six Iranian drones and three reconnaissance drones.

The Ukraine Armed Forces Joint Commander Serhiy Naev said: "The enemy's task is to spread panic and create chaos. But in the northern combat area, including Kiev, everything is under the complete control of the Ukraine."

The Russian military news media quoted the Russian Ministry of Defense reported that a Russian hypersonic missile destroyed Ukraine's American Patriot -to -air missile system.

The Malaysian government shows that the government has revoked , But this judgment is only applicable to Sarawak, and does not affect the laughs of other states. In other words, in addition to Sarawak, Christians in other states of Malaysia are still not allowed to accuse God in the word "Allah".

The Minister of the Malaysian Minister Saifine on Monday (May 15) announced that the government withdrew the appeal on April 18 this year, and no longer challenged the Malaysian Christians who sentenced the Sarawans two years ago to the Kuala Lumpur High Court. Judgment. This caused the dissatisfaction of Malay and Muslim Right Organization, and the National Alliance also made a big article, claiming that the Anwar government did not defend Muslim.

Saviding said on Tuesday (16th) that the Kuala Lumpur High Court's judgment on the case was aimed at the Christian textbook CD of Christian textbooks containing the word "Alla" at that time. In addition, the case was a civil lawsuit, so the government decided to revoke the appeal.

When Anwar attended the Eid in Malacca on Tuesday, the relevant ruling of the Kuala Lumpur High Court was limited to Sarawak instead of other states. "This is a case that belongs to Sarawak. Sarawak is not restricted by other states (prohibiting non -Muslims from using Arahan eyes). But this does not mean that (the ruling of the Kuala Lumpur High Court) is suitable for Malacca, Penang, Selangor or other states. "

The Ministry of Political Affairs of the Malaysia and the states of West Malaysia are prohibited from using Arahan's eyes. When Sarawan Christians, Pill El returned to Kuala Lumpur from Indonesia in May 2008, was charged by customs personnel at the airport and charged eight Christian textbooks containing the word "Arahan". Gil filed a lawsuit in August 2008, demanding a decision to withdraw the filled disc.

Kuala Lumpur High Court issued a benchmark ruling on March 10, 2021. In terms of religious and educational purposes, Christians have the right to use the word "Arahan" and have the right to use "Baituallah" and "Solat" And the words "Kaabah" (Kaabah). The Malaysian government appealed immediately.

This incident also attracted the attention of the unity of the party member of the government. Aharina, who is responsible for the reform of the law and system reform, issued a statement on Tuesday that she and other Umno ministers were preparing to bring the case into the cabinet meeting for discussion.

Southern Listening: There are many problems in Chinese society. For example, the local government's fines for electric vehicles are very serious. One fine is 1500 yuan. Everyone dare not go out by bike, and even dare not go out for consumption. No one is here now, it is very difficult to make money. People have no money and cannot consume. The vicious incidents in the society often occur, because the society has a problem, and the people are still unable to resolve when they encounter unfairness and find the government.

Tibetan friends: The organization of overseas Tibetans has no effect for so many years. Very disappointed. Overseas Tibetans enjoy freedom, just to speak verbally, to protect Tibet's language, culture, etc., but without the army, it will not be effective.

Jiangsu Listening: I hope to "remove the wall" very much, so that the Chinese people can use short -wave radios to listen to overseas Chinese radio. In terms of Taiwan Strait relations, I hope that Taiwan will have an atomic bullet, so that the mainland will not dare to martial arts.

The European Council held a summit in Iceland. In a statement of the Sunak office, a spokesman for the Sunak office stated: "Prime Minister and Prime Minister Lutter agreed that they will commit to establishing (one) international alliance for Ukraine provides air combat capabilities, from training to delivery of F16 jet machines to give full support."

Ukraine President Volodymyr Zelenskyy visited Sunak at the Chequers villa in the outskirts of London yesterday that he was very optimistic about the establishment of the "Jet Machine Alliance" in the Ukrainian War.

So far, Western countries have been reluctant to provide advanced jet machines to help Ukraine to grasp air control.

However, Sunak said yesterday that Britain is preparing to open a flight school to train Ukraine pilots.

At the same time, French President Emmanuel Macron proposed the possibility of training Ukrainian fighter pilots, but eliminated fighters to Ukraine.

Sunak's spokesman said that the Prime Minister "reiterated his belief, that is, the legitimate status of Ukraine in the North Atlantic Convention Organization (NATO). The two leaders agreed to the importance of the allies to provide the importance of Ukraine's long -term security assistance to ensure that they could A scolding attack in the future. "

(Agence France -Presse Abu, 16th) The Nigerian police and a U.S. official said that the gunman attacked the US Embassy Faculty in ANAMBRA in the southeast of Nigeria. Essence Washington officials confirmed this attack, but indicated that there were no Americans in the team. Tochukwu Ikenga, spokesman for Nigerian police, said, "there is no U.S. citizen in the fleet." US National Security Conference spokesman Johnkirby confirmed to reporters in Washington to confirm the attack.

Aika said that the gunman "killed 2 policemen and two staff members of the police and the consulate," and "then set fire to burn their vehicles." These two staff members are locals hired by the embassy.

Inca said in a statement that the "rescue / recovery action" was still ongoing in the evening.

Cerbin said, "The American Embassy Faculty has been attacked. I can be sure that there is no American citizen."

A U.S. State Department spokesman said that "the US Embassy in Naita and Lia is under investigation with the Nigerian Security Department."

Akenga pointed out that the joint security forces have been deployed at the scene, but the gunman abducted two police officers and one driver.

Nigeria officials blame the attack on the separatist group, "INDIGENOUS PeOPLE of Biafra (IPOB", officially determined that they are terrorist groups. The organization has repeatedly denied violent incidents.

In 2019, Italy, where debt -owned, became the only country that has developed democratic countries. The only country signed the China Belt and Road Initiative. Critics condemned this plan to buy political influence and predatory "Trojama".

The Belt and Road Agreement in Italy and China will be automatically renewed in March next year. Unless Italy exits before the end of this year, it is not easy to withdraw.

Melonney's Right -wing "Brothers of Italy" won the election last September, and the party was keen to show the Roman authorities' loyalty to the United States, NATO and the European Union.

In terms of whether Melony can get the first White House invitation letter, it is also facing domestic pressure, because political observers believe that the Belt and Road Agreement with a high symbolic significance between Italy and China will become a potential obstacle.

Meloni said during the campaign last year that it was a "serious mistake" to reach an agreement with China. Italy's current Minister of Defense also said that "unlikely" renewed the Belt and Road Initiative.

However, in order to prevent the Beijing authorities from angering the Beijing authorities and the risk of being retaliated by Italian enterprises, the Roman authorities are very cautious about this; under COVID-19 (2019 coronary virus disease) epidemic and Russia suffer from sanctions on the Russian and Ukraine War, Italy Enterprises have been hit.

Meloni said last week that it has not yet made any decisions and said that this situation "must be very careful."

In the G7 summit held in Hiroshima, Japan, the participating leaders will seek the same consensus on China's growing military and economic strength.

A government source told AFP that Italy would not issue a statement at the G7 summit, but it is expected that without exaggerating the tension, it will discuss how to keep a distance from China.

Former British Prime Minister Liz Truss visited Taiwan from the 16th to 20th. Today, at the invitation of the Vision Foundation, he delivered a speech in Taipei. Foreign Minister Wu Zhaozheng and Kelleycurrie, Ambassador, Ambassador of the U.S. Global Women's issue, also translated: Koli), Vice Minister of Japan's Avant -Gunno Minister Zhongshan Taixiu, Chairman of the Forespers Foundation Chen Tangshan, and CEO Lai Yizhong attended the event.

In his speech, Traz said that he had always wanted to visit Taiwan, but he was unable to achieve restrictions during his past as the Prime Minister.

Tellas said that when the authoritarian camp and democratic camp are opposed, Taiwan is on the front line of democracy, and the challenge is not far away. Therefore, this trip to Taiwan is expressed by the people of Britain or European countries with the people of Taiwan to ensure that it is ensured Taiwan's successful story can continue.

Tellas said that Taiwan is a leader in many fields in the world. Regardless of whether it is in the semiconductor field or the pearl milk tea industry, it has brought influence on the world. Western countries can use mirrors to learn from Taiwan's experience.

For example, in the 1989 Tiananmen incident, the impact of the Hong Kong National Security Law, and the persecution of the Uyghur people in Xinjiang, it can be seen that China does not keep up with their promises; now China has frequently disrupted Taiwan with military aircraft ships and cognitive operations against Taiwan. Sri Lanka believes that European countries should take the initiative to take action and respond to China's threatening moves, "because there is no freedom of democracy, nothing is."

The UK has successfully joined the Capital Pacific Partnership Comprehensive Progress Agreement (CPTPP), which is the largest trade agreement involved in Brexit in 2020 after the Britain in 2020. Tellas said that Taiwan's application process will be smooth and call on countries to support Taiwan to join CPTPP, because deepening cooperation in the economic and trade fields in the UK, Japan and Canada and Taiwan will inevitably help.

Tellas pointed out that for China's obstruction and threats, European countries should not stand by, not only show support for Taiwan, but also respond to Chinese accountability. The democratic world must work together, "because your future is our future."

Organization held a joint counter -terrorism exercise in Kyrgyzstan, which includes China, Russia and many Central Asian countries.

(Voice of Germany Chinese) Chinese President Xi Jinping will host this week The leaders of Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan will all attend.

On the day before the Hiroshima Conference of the Seventh Kingdom Group (G7), the China -Central Asian Summit was held on Thursday (May 18) in Xi'an for 2 days. Since the establishment of diplomatic relations with China and Central Asian countries for more than 30 years, this summit is Xi Jinping's first high -level talks with Central Asian leaders.

According to the Ministry of Foreign Affairs of China, Xi Jinping will speak important speeches, and then discuss with regional leaders to discuss major international issues between China and Central Asia and Central Asia. After the meeting, they also expected to sign "important political documents."

Nivayau, a guest researcher at the Global China Center of the Washington Think Tank Atlantic Council (Atlantic Council) believes that Beijing is trying to establish a "regional unity" to promote its goals.

Qiu Yien told DW: "This summit is a new model. It has been tested for several years, and it has indeed improved Degree. "

China is the world's second largest energy consumer country and has invested billions of dollars in Central Asia to facilitate the acquisition of natural gas contained in the area. In addition, the railway that connects in Central Asia and connects Europe and China is also an important project of China's "Belt and Road" initiative.

"Because of Russia's sanctions, Central Asia played a more prominent role in international affairs." Bradley Jardine, director of the research department of the Oxus Society for Central AsianaFFAIRS , Central Asia is regarded as a relay station for trade circulation between China and Europe. "

The Chinese government regards the "Central and European trains" as an important construction of trade exchanges with countries along the Belt and Road. The picture shows a celebration in Duisburg, Germany last year.

visa -free agreement will promote relationships

Over the past three years, economic growth has been interrupted by the new crown epidemic, and China is now seeking economic relations with Central Asia. According to the Chinese official media "Global Times", the Ministry of Commerce of China as of the end of March this year shows that China's direct investment in all Central Asian countries has exceeded \$ 15 billion.

Raffaello Pantucci, a senior researcher at the Nanyang Institute of Technology, said: "Before the epidemic, China originally became the largest trading partner of all Central Asian countries. It will believe that China will restore its status in trade with Central Asia in the next year. "

After the Xi'an Summit, it is expected that China will launch a new visa -free agreement with several Central Asian countries. At present, Kazakhstan and Uzbekistan have reached related agreements with China. Kyrgyzstan is still agreed with Beijing.

Qiu Yien of the Atlantic Council told DW that the visa -free system is related to the opening of Central Asia to China Export. Over the years, Central Asian countries have been working hard to sell more types of products to China.

Qiu Yien said that the visa -free system is a "card played by China" in Central Asia. To achieve this, there must be no free flow of businessmen. She added that China has established a similar agreement with Southeast Asian countries.

Experts believe that one of Central Asia's important significance to China lies in the district close to Xinjiang. The picture shows the third detention center of Urumqi, Xinjiang. (Data photo)

RSIS's Pan Ruifan mentioned that several Central Asian countries bordered the Xinjiang Uygur Autonomous Region. In Xinjiang, Essence

Pan Ruifan told DW: "For China, the importance of Central Asia is that it is close to Xinjiang, so the development of Xinjiang has a close relationship with this area."

Will China play a greater role in safety?

Russia has long been regarded as an important role in providing security for Central Asia. However, in recent years, China has been deepening a security agreement with countries such as Tagikistan, and Tagikistan has held joint counter -terrorism exercises with the Chinese army every 2 years. Pan Ruifan said that China mainly cares about bilateral counter -terrorism agreements.

Pan Ruifan said that China's approach to security threats will not be the same as the way Russia may adopt. The latter will mobilize or deploy a large number of troops, and China does not adopt expansionism in Central Asia.

Qiu Yien added, [] Instead(<https://www.dw.com/zh/zh/中國做和平使者習近平博鰲論壇提全球安全倡議/a-61552667>), For example And surveillance.

She said to DW: "China is outputting these behavioral standards to Central Asia; now it can be observed that the civil society space in Kyrgyzstan and other countries has narrowed rapidly, but the country's civic society was originally the best in the region."

"This directly reflects, fact. Today, Russia cannot provide so much funding to Central Asia as before. At this time, China has been involved and has given Central Asian leaders a lot of investment and guarantees. Qiu Yien concluded.

Last September, the Shanghai Cooperation Organization held a leader summit in Uzbekistan, and Chinese President Xi Jinping also attended. The organization includes China, Russia and Central Asia.

One of the defendants Wang Weibao served as a software engineer at Apple from 2016 to 2018 (the schematic diagram of the Apple store)

(Voice of Germany) Reuters reported that the United States announced 5 cases on Tuesday (May 16), accusing the defendant suspected of stealing technology to [] to One of the defendants was an engineer of the former Apple Company. He was accused of stealing the company's self -driving autonomous system (AS) technology (AS) technology, and then fled to China.

Detailed at the press conference that all these 5 cases were Essence Two of them involved the "purchasing network" referred to by US officials, that is, a channels have been established to help the Russian military and intelligence agencies obtain sensitive technologies.

Reuters reported that Matt Olsen, director of the National Security Department of the United States Department of Justice, said: "We are determined to do our best to prevent these advanced (technology) tools falling into the hands of other countries."

In February this year, the United States established the "Disruptive Technology Strikeforce" to protect sensitive technologies, which aims to use intelligence and data to help identify the threat of commercial secrets. These five prosecutions were the first time that the army announced the case since its establishment, although the relevant investigation had begun before its establishment.

Sanhua involved in the case

According to the prosecution released by the department on the 16th, one of the defendants is 35 -year -old Chinese citizen Wang Weibao. He served as software engineer in Apple from 2016 to 2018 to obtain "extensive access permissions" of the database. In 2017, he was hired by a Chinese company in the United States. The company was engaged in the development of autonomous vehicles, but only 4 months after getting new jobs, he left from Apple.

The indictment pointed out that Apple discovered that Wang Weibao visited a lot of proprietary data a few days before his departure. In June 2018, the US federal agent searched his home and also found a large amount of data from Apple. Soon after the search, Wang Weibao took the opportunity to go to China.

The U.S. prosecutors pointed out that one of the defendants stole the self - driving technology of Apple's automotive industry and used it to the Chinese competition. (The picture shows the car brand set of China Baidu)

ISMailramsey, a prosecutor of the North, USA, said at a press conference that Wang Weibao was charged with six independence charges. If he was extradited successfully and convicted, each charges would face 10 years of imprisonment. According to reports, Wang Weibao is the third apple employee who has been controlled by China to steal the secret of automatic technology.

Reuters reported that Apple refused to comment on the case. Since 2014, Apple's car industry, the Projecttitan, plans to design a car from scratch, but the development is not stable. The company issued a report last December that the launch time of the car will be extended to 2026, and according to the latest report, Apple has conducted road tests on the car in California, USA.

The other two prosecuted Chinese were 39 -year -old Chinese citizen Qiao Xiangjiang (transliteration) and 64 -year -old Li Liming (transliteration).

Qiao Xiangjiang was suspected of using a sanctioned Chinese company to provide Iran with materials to produce large -scale lethal weapons and ballistic missiles, and was sued for sanctions, money laundering and bank fraud; others are still in China.

Li Liming was accused of stealing the commercial secrets of California employers in the United States and established a competitive enterprise in China; he was arrested earlier this month and was detained so far. His lawyer refused to comment to the media.

Martinestrada, a federal prosecutor in the California Central District, said in the press release: "Li (Li Ming) stole thousands of sensitive technical documents that did not belong to him, and used these documents to help foreign companies establish competitive technologies ——The technology that can be used to manufacture nuclear submarines and military aircraft. Case involved in Russian citizens

The other two cases are related to assisting Russia to obtain sensitive technologies.

The defendant of one of the cases was a Greek citizen. He was arrested on May 9th and was charged with suspected of obtaining more than 10 different types of sensitive technologies on behalf of the Russian government, and served as two Russian "special designated nationals" (SDN). Procurement agents to help the Russian intelligence department work. The SDN list is a sanction list implemented by the US terrorist, warlords, tyranny officials, or damaging the interests of the United States and its allies.

There were two other cases of Russian citizens who were sued and they were arrested for participating in a procurement plan. They are suspected of providing a number of Russian commercial airlines [] Parts and parts.

Skype is one of the few communications software that can be legally operated in China. Jiangsu Skype user, Mr. Qin, said in an inquiry that he did not know if overseas called domestic can be connected, but recently using Skype for point -to -point voice calls also need to turn over the wall: "I

sometimes (Skype) can turn over the wall to get through to get through to get through , I don't need it before. If the file is issued, it can be uploaded without turning the wall. "

According to reports, in a online forum, some landlords said that he "playing friends with the mainland with mobile phone Skype on the United States; since last week, it has been unable to make it. When a person encounters this situation, it is suspected that China's online firewall has been upgraded again.

Another netizen responded with posts: "Yes!My family can't get through ... I don't know when it can be repaired." "It's nauseous, this is the case in China."

Zhang Jianping, a commentator from Yixing in Jiangsu, said that he did not know that foreign friends called his mobile phone via Skype or calling him, but every time he came abroad, there was a voice reminder. He said to this station: "Every international phone received by the receiver will remind this as an international phone on the phone, please beware of fraud. So if Skype will be blocked, I don't know now. Said that the authorities should have this ability, but in law, Skype should bear the corresponding legal responsibility. It has the obligation to maintain smooth communication. "

Chinese operators call "technical problems" caused faults

The Weibo account of Skype Chinese operator did not release the news. The last one promoted the new version of Skype from March last year. The netizens' messages almost complained, such as the account was frozen for no reason, and the uploading picture failed.

On the official website of Skype Chinese operator "Time Spectrum Information Technology (Shanghai) Co., Ltd.", "Skype Emergency Notice" was hung on May 6, "Due to technical issues, Skype could not call in mainland China for the time being. The technicians are doing their best, please wait patiently, so we apologize!"

Some network insiders analyzed that the authorities stopped SKYPE applied customers and calls in China. It may be to improve the monitoring function of voice calls, and plug -in may be added to the Skype call system to facilitate monitoring the content of the call.

Li Yanhe, the editor -in -chief of Taiwan's Eight Banner Culture, went to China in March and was arrested and lost for more than 50 days. Ma Xiaoguang, a spokesman for the Taiwan Affairs Office of China, said on the 17th that Li Yanhe was suspected of inciting criminal activities in seizing the division, and related cases were being handled further.

Ma Xiaoguang said that the last press conference had announced that on March 21, 2023, the Shanghai National Security Bureau took criminal compulsory measures on Li Yanhe, a suspect suspected of inciting split national criminal activities in accordance with the law. The current cases are being processed. The case handling unit has arranged Li Yanhe's wife to make calls and communications with him in Shanghai, and will continue to protect Li Yanhe's legitimate rights and interests in accordance with the law.

Ma Xiaoguang said that Li Yanhe was suspected of inciting criminal campaigns to seduce a national crime. This was a case. "As long as the majority of Taiwan compatriots do not have such subjective malice and behaviors, there is no need to have any doubts about cross -strait exchanges."

Zhan Zhihong, deputy chairman and spokesman of the Taiwan MAC, talked about the Standing Committee of the Communist Party of China on the 4th through revising the "Anti -Spy Law" to expand the scope of spy behavior and greatly increase the people to the central risk. The U.S. Senate Allocation Committee held a hearing on Tuesday (May 16) to hear the report from the 2024 budget of the 2024 budget of the State Council, the Ministry of Defense and the Ministry of Commerce. Reporter Wang Yun Photography The U.S. Senate Allocation Committee held a hearing on Tuesday (May 16) to hear the report from the 2024 budget of the

2024 budget of the State Council, the Ministry of Defense and the Ministry of Commerce.

Focus on the Chairman of the Foreign Committee of the US and China
Competition of the United States and the United States, the President of the US Public House of the United States and the Public Committee of the United States urged to strengthen export control to China **

This hearing is the first meeting of the first membership of the US government's budget during the 2024 U.S. government's budget. Austin) and Minister of Commerce Gina Raimondo.

Senator Christophercoons emphasized the significance of the three government members at the same time at the hearing. "At the same time, they actually emphasized that when facing real challenges from China, we need Adopting a joint method to strengthen the national security, diplomacy, development and economic competitiveness of the United States. "

This statement has an extensive response at the hearing on the day. Minister of Defense Austin and several other senators also mentioned that when facing Chinese competition, the United States needs to adopt the power of the "whole government" and jointly the government's various departments.

Budget, still budget

A problem encountered in the process of the US government's budget in 2024 is that the new House of Representatives of the Parliament proposed a huge budget reduction plan, which brought challenges to the administrative department's plan to deal with Chinese challenges.

U.S. Secretary of State Broskens arrived at the hearing scene on May 16, 2023 (Reporter Wang Yun Photography) Senior government officials emphasized at the hearing that if sufficient budgets cannot be obtained, it will affect the implementation of relevant policies with Chinese competition.

The Minister of Defense Austin takes the construction of a military ship as an example to illustrate the importance of this budget. "This may affect the \$ 9.7 billion budget for improving the construction efficiency of the ship. The second phase of the contract, the construction of the Virginia -class nuclear submarine cannot be started. "

State Secretary of State Brills pointed out that the reduction of budgets may affect the diplomatic goals that have been agreed with the two parties. "More specifically, on the Chinese issue, there are several projects in our budget. Regional influence against China; (budget reduction) will affect us to contact various interests in these places and establish partnerships. "

When the Minister of Commerce Raymond explained this problem, the Ministry of Commerce's Industry and Security Bureau first pointed out(BIS)The importance, "If we return to the situation in 2022, (cut budget) means that we will lack 125 hands, and the work of these people is to verify the user in export control; last year we carried out more than 1,100 in 54

countries. Users verify that most of them are about China. Without these 125 people, we cannot complete these tasks, and American technology will fall into the hands of illegal users in China. "

Budget, or will?

But the general understanding of some key issues is different. Although the three senior government officials came to the hearing to explain the necessity of budgeting their budgets, some of the senators of government supervisors believed that against countries like China mainly depending on the government's wishes, not budgets.

Senior Senator Lindsey Graham, a senior senator in South Carolina, said, "That kind of statement that believes that we have a very strong Chinese policy is nonsense, not to prevent China with a budget. Willing to confront China. "

Graham said, "I have to say that China has intercepted all the topics here!" He emphasized that to fight against China, he should not look at the vacancies on the budget, or how much local diplomats in the United States have. He said, "In my opinion, all we have done in the past two years are just making all bad guys bolder."

But Brinken has previously pointed out that the number of diplomats in China currently in the world is more than 100 more than the United States. In this sense, the United States has deficit in diplomacy. He said that there are many vacancies in US diplomats at present, and 14 diplomat candidates are still waiting for confirmation in the Senate. They have been waiting for a year or longer, and there are 40 in different stages of the appointment process.

Brinken warned that the vacancy of US diplomats will produce vacuum in terms of international influence, and China is filling this vacuum.

OpenAI CEO Sam Altman attended the U.S. Senate Judicial Committee hearing today. The two -party members asked Atman on the extensive influence of AI and regulatory measures.

Josh Hawley, a US Republican Federal Senator, pointed out that the development scale of the generation AI (Generativeai) is like the Internet, one of the most important technological innovations in human history, and then warned, "This may lead to recruitment Similar consequences of atomic bullets. "

Atman said that the appearance of generating AI is like a "printing machine" and can improve and create work. He emphasized that regulatory measures are essential to risk control, and said Hope to cooperate with the government to prevent problems in new technologies.

Several Congress members and experts may affect the election of the AI system, such as spreading unreasonable messages or manipulating voters, expressing solemn concerns.

Democratic Senator Richard BlumenThal played a recording generated by AI, pointing out that the content of the generated content supports Ukraine surrender or supports Russian President Vladimirputin, "this scene is terrible."

Atman said he was very worried about the general manipulation, persuasion or creation of false interaction information.

In addition, members of Congress also worried about the excessive concentration of AI technologies in the use of a few large enterprises.

Democratic Senator CoryBooker ordered OPENAI to cooperate with Microsoft and said that technology giants control public life, and their influence is increasing. It is scary.

Atatman responded that only a few companies could provide generatory AI models, but in this case, not much of the government's attention to "may be beneficial to supervision". He believes that there will be more competition in the future.

OpenAI launched a chatbot ChatGPT at the end of last year. The two -month active user exceeded 100 million, and the outside world has risen to accelerate the control of AI. Recently, the US government and Congress have discussed the legislative supervision of the legislative supervision. It is regarded as an important step for the two parties to seek consensus on this issue.

Attman suggested that the U.S. government considers the implementation of three plans: setting up new institutions to approve AI models, establishing a set of security standards for AI models, and requiring independent experts and scholars to review the AI model.

At the same time, he supports the establishment of a standard for the establishment of an international organization for AI, and it has the previous example of controlling nuclear weapons.

Protestant of tens of thousands of people in Radakh Picture intercept the video uploaded by the people uploaded by the people of Ladaka

Me: There is another point, I wonder if you noticed that the incident of the Internet violent respected incident has aroused the most response, or the most powerful protest is the people in the Himalayas. They rally, march, and emotionally shouting emotionally. Essence Not only Tibetans and Tibetan Buddhist believers, Ladaka has many Muslims, as well as Christians and other religious believers. In other words, not all protesters are Tibetan Buddhists. The historic Ladaka is also a sensitive area itself. It is a sensitive

area between China and India today. There are tens of thousands of rallies for Radaks to protest against the Dalai Lama's stain. Such a large -scale protest is said to have not been in the history of Radakh. This phenomenon should not be ignored.

The significance of geopolitics in the Himalayas is important. In fact, China is very concerned, and China is very concerned about the pickups of the Aima. The "Belt and Road" has long studied Himalayan. I have read related books and articles. China and Nepal, China and India, China and Bhutan and so on. In these areas connected by the border, the influence of Jiawa Rinpoche is quite large. So, have you noticed this before?

What I have observed is that Sina Weibo, which was previously in China, was particularly fierce for the demonization of Jiawa Rinpoche. The click rates of various scolding various comics were hundreds of thousands or more.

Ranking is third. But when it was rushing up, it suddenly cooled down, and now it has been cooling. Why is this? In Chinese social media, if the topic of politics is a hot topic, it is impossible to be a hot topic, let alone a sensitive topic related to the Dalai Lama. So I saw that Sina Weibo on April 15th began to cool down, and on April 17th, it was particularly obvious to cool down.

These two times are the days when the Ladaka people are protested on a large scale. A protests in the Himalayas.

The Tibetans of Ladaka are different from Tibetans in exile Tibet. Tibetans in an exile community in India are refugees, while the Tibetans of Radak are Indians and have India identity. I also noticed that the Radak authorities have passed a decision to announce that some of the media in India's media and some big coffeees. If they do not make public apology to the Garva Rinpoche, which are stigmatized, Radaks will not allow them to enter Waldling them to meet to travel and so on. Is Radak doing so is related to the influence of His Holiness in the Himalayan region over the years? We can see that at each French conference held by His Holiness, the people from Himalayan are the most, and Radakh's traditional costumes are very eye -catching. Last summer, the new crown epidemic in India relieved, and His Holiness went to Radakh and lived for more than a month, and had a good relationship with Radakh's Muslims.

His Holiness Dalai Lama held a three -day law meeting in Lingcheng Lingcheng in Radakh in July last year. (The picture intercepts itself) Friends: I feel that there are two views of the Dalai Lama in the world: one is to look at the Dalai Lama as a person, and if a person will make mistakes. But the Dalai Lama represented not only individuals, he represents God, this is the second

view. And not just a god, but also a perfect god in people's minds. Politics, culture, army, etc. can not explain or solve such a phenomenon.

The Dalai Lama is recognized by the people of the Himalayas a year than the year a year. In fact, it is not just the people in the Himalayas. I have recently attended several gatherings of Western Buddhists. There are many people. They may be suspicious when the stigma of the Dalai Lama was just occurred, but they observed and understood. After that, they thought that the Dalai Lama was not wrong, and it was innocent. In this way, the Dalai Lama really became a Buddha. After becoming a Buddha, he would not die. Even if the flesh is dead, the spirit will not die.

In fact, India has a lot of worries, and they are worried that they are afraid of the Buddhism of the Himalaya, and they are afraid of this. India has a director of a strategic research institute, Radakians, and he does not like the Buddhism of the Himalaya Tibetan biography and wrote a book. Indian political decision makers and military decision makers have this concern. If the Buddhism of the Himalaya Tibetan biography, all the Himalayas such as the border areas such as India, Darwon and other border areas, and some border areas in Nepal will become more and more Tibetan Buddhism, and the power of Buddhism may allow India to India. Feeling trouble. Therefore, some of the decision makers in India have such considerations, that is, the Himalayan region should not be tibetan Buddhism, but they did not consider the stigma of the Dalai Lama this time may bring another effect. Those media in India have no strategic considerations. They may not like the Dalai Lama, mainly because they don't like the influence of Tibetan Buddhism, but they have not taken into account what they will stimulate in the Himalayas after a distorted report. The response, they did not expect.

In fact, people in the Himalayas have not been as close to Tibetan Buddhism in the past. They did not know what religious believers they were, whether they were Hindu or Tibetan Buddhism. As the Tibetans exiled in India for longer and longer, gradually, Rinpoche has increased more temples and monks. After Cheng, there were more monks who returned from the temple from the temple to his hometown. After decades, Tibetan Buddhism has achieved results in India. Some Indian decision makers are unwilling to see it, but they have no way. Since they say that people in these areas are Indians, they should give these people the same rights as all Indians.

This time, the stigma of the Dalai Lama, Indian politics will find that the side effects of the words from the perspective of political perspective are too great.

This is not only the case for the Indian government, but also the same to the Chinese government. What happened now? The Himalayan area and the Tibetan community in exile have been unified in a sense, and they believe in the Dalai Lama very much. The Dalai Lama has indeed become a Buddha.

Tibetans living in Europe protested the stigma of the Dalai Lama. (The picture

is taken from Facebook)

Whether it is some Indian politicians, some media people, or many people in China, they really do not understand the power of faith, and they do not understand the psychology of faith. These people now make a person they should not mess with. If this person does something wrong, then his divinity will disappear. But this person did not do wrong at all, then his divinity would double. We can see: If any country, if you want to eliminate a religion, you will give him freedom and he will slowly weaken, but if you oppress religion, especially in a society like India If you do it, religion will be stronger. Today, a Western scholar and I talked about this incident and these topics. He said, "This is a gift from God to you." He believes in God, so he said that. Of course, Tibetans are very painful and believers are very painful. We saw that Tibetans and believers publicly expressed this pain. We also saw that the Dalai Lama is not human now, but God. Hand Thousand Eyes Guanyin Bodhisattva)!

Hahaha. So the biggest problem is here. Politicians consider this today and consider that one tomorrow. Today, it slipped to the side tomorrow, and the news was also a hot spot and was quickly covered by another hot spot. But Tibetans and people in the Himalayas have been talking about and will not end.

From the perspective of political science, those politicians are unwilling to treat a person as God. But now many people's minds are the Dalai Lama as a martyr, He Becomes AMartyr (he becomes a martyr)!He had nothing wrong, but he was oppressed by many forces. But they were unwilling to see someone like him as martyrs and gods. Especially those who treat him as an enemy are even more unwilling. Because the Dalai Lama becomes a martyr, it will be an eternal existence. From the perspective of political science, those people have failed and 100 % failed. Just as Jesuswas First Martyr (Jesus is the first martyr), the same is true of the Dalai Lama.

Me: You said so well!I feel like this too. That's it. Garva Rinpoche was originally the Guanyin Bodhisattva in our minds. The Tibetans and Tibetan Buddhists regard the His Holiness as the Guanyin Bodhisattva, and at other others, they think of the His Holiness as a person, and he is an old man. In this incident, some people say that the elderly dementia and the elderly are the elderly. Degenerate and so on, and so on, take it for granted. You are so right that after being stigmatized and demonized, Jiawa Rinpoche has become a martyr like Jesus. Jesus suffered, Jesus was crucified, martyrdom,

this image was extremely deep and inextricable. Garva Rinpoche has become a bodhisattva that saves sentient beings in this world in the way of being hurt by the world. Now the stains of these people perfectly perfect the image of the Guanyin Bodhisattva of the His Holiness. (Serial)

The reason for the fire was unclear, but the police said that on the evening of the 15th, the sofa was on fire 2 hours before the deadly fire, but the police did not call at the time.

"We will seek any connection between the sofa and the subsequent deadly fire." Said

The top floor of the new town's suburban hotel Loafers Lodge had a fire in the morning yesterday, causing major structural damage and difficulty recovering for a while.

After a healthy and safety assessment, the police said that investigators hoped to enter the building with 92 rooms in the afternoon to conduct investigations and find and confirm the deceased.

"This on -site inspection will be a wide and systematic process. We expect some time to take a few days."

"I can be sure that we are regarding this fire as a fire arson."

Description: Kiev said that all 18 missiles launched by Russia overnight, including 6 of which were hailed by Moscow as the "irresistible" dagger hypersonic missile. However, the Russian Ministry of Defense refuted Ukraine, and said that a hypersonic missile "destroyed" the American -made Patriot -made air defense missile system. At the same time, the US statement is different.

The picture shows Kiev in dawn on May 14th, the Ukrainian capital is sounding the air strike alert

(Voice of Germany Chinese) Ukraine said on Tuesday (May 16) that 18 Russian missiles were shot down one night, including six Russian hypersonic missiles "Kinzhal" (dagger hypersonic missile, Kinzhal is the Russian "dagger" "the meaning of"). Moscow had previously claimed that the super weapon was unstoppable.

This is the first time Ukraine claims to shot down a row of high -speed supersonic missiles. If the news is confirmed, it will be a high -profile display of the effectiveness of the newly deployed Western air defense system.

Russian President Putin announced the dagger hypersonic missile in 2018 as one of the "new generation" weapons. He often touts the missile to show that Russia's military hardware is world -class and can confront NATO.

More reading:

The dagger hypersonic missile can carry a conventional warhead or nuclear warhead up to 2,000 kilometers. And only admit that they are launched in a few cases.

"Unbelievable success"

Valeriy Zaluzhnyi, chief of the Ukrainian armed forces, said that in the night, the Ukraine forces intercept all 18 missiles launched by Russia, namely 6 dagger hypersonic missiles launched from the plane and ships from the Black

Sea. 9 Kalibr cruise missiles (caliber cruise missiles), and 3 Iskanders (Issege missiles) launched from land.

According to Germany, Zaluzi said that the Ukraine air defense forces also destroyed the 6 Kamikaze Drones.

Ukraine Minister of Defense Oleksiyreznikov wrote on Twitter: "The Ukrainian Air Force has achieved another incredible success! Last night, our Sky Guardian shot down 6 Russian dagger hypersonic missiles and" 12 other missiles ...".

Russia has not confirmed Kiev's statement, and its statement is contrary to Kiev.

Reuters reported that after the missile was blown from the air, the Kiev was shined by the flash, and the fragments were like rain. Kiev Municipal Authority said that three people were injured by fragments.

Earlier this month, Ukraine claimed for the first time, **### Moscow: "Generally, Ukraine claims that the number of missiles intercepted is three times that of our launch"**

According to the Russian News Agency, when asked about Ukraine's claim that all the hypersonic missiles launched by Russia that night, Russian Defense Minister Sergei Shoigu refuted.

Sho Gulu said that in general, the number of missiles claimed to be intercepted in Ukraine is "three times the number of launch", "and" they always make the type of missiles wrong, this is why they can't hit them. "Explanation.

Russia claims that its night attack hit all the targets, saying that its long -range precision hitting missiles is the facilities of ammunition, weapons and military equipment provided by Ukraine in the West.

"Dagger" vs. "Patriot"

The Russian Ministry of Defense also stated that a dagger hypersonic missile destroyed the Patriot's Patriot's air -missile defense system.

In a statement, the Russian Ministry of Defense said: "A high -precision strike of a dagger hypersonic missile hit a Patriot -made air defense missile system made by Kiev."

Ukraine claims on Tuesday that the air defense system provided by the West has intercepted Russian missiles 100%at night.

At present, a Patriot air defense missile system provided by the United States to Ukraine may indeed be damaged. Two U.S. officials who did not want to disclose their name told Reuters that a patriotic system may be damaged in Russia's attacks, but has not been destroyed. One of the officials said that the discussion of repairing the system is in progress, and it seems that the system does not need to withdraw from Ukraine.

Ukraine denied Wednesday that Russia's supersonic missiles destroyed the Patriot missile defense system in the United States in the air raid against Kiev. Ukrainian Air Force spokesman Yuriyihnat told the Ukrainian media: "I want to say, don't worry about the fate of the patriot", he said that it is "impossible" to destroy the system with a dagger missile, saying that this is Russia's propaganda strategy Essence

The Patriot System is considered one of the most advanced air defense systems in the United States. It can be used to deal with aircraft, cruise missiles and ballistic missiles, usually containing launchers, radars and other support vehicles.

Russia and Ukraine are completely contrary to each other, which also contains a contest of weapon technology. Russian dagger high supersonic missile, against the Patriot missile defense system against the West. Earlier, the ability of patriots to intercept the dagger hypersonic missile is only theoretical. If you can hit all six at a time, it will indicate that it may be a reliable defense method.

Russia's high -frequency air strike Ukraine to prepare a big counterattack

As the Ukrainian army is ready to launch an offensive, Russia is now launching a long -range air strike at the highest frequency in the war.

According to Reuters, Russia has launched 8 drones and missiles this month, which is higher than the frequency of previous March, April and winter. Kiev claimed that most of them shot down.

The Ukrainian Ministry of Defense said on May 12 that the Ukraine's offensive at the front line of Bachmut made significant progress

In the past week, , Retu some territories in the northern and southern suburbs of Bachurt. Moscow acknowledged that some troops had retreated, but denied that the front on both sides of the city was collapsed.

Kiev said that these progress is local and does not represent the full power of its upcoming counterattack. Kiev plans to use hundreds of modern tanks and armored vehicles sent by the West this year. Ukraine's counterattack will

bring the war into the next important stage. Russia said that it is necessary to launch a war in Ukraine to respond to the threat of the security composition of Kiev and the West. Ukraine and its allies claim that this was an unseen and illegal war. Kiev said that all the Russian troops would not stop fighting before leaving their land.

The founder of advanced chat robots ChatGPT called on US legislators to regulate the development and application of artificial intelligence (AI).

BBC reported that Sam Altman, president of American artificial intelligence company OPENAI, attended the hearing of the Senate Judicial Committee on Tuesday (May 16) to testify the potential and trap of ChatGPT.

In just a few months after the development of OpenAI's development of ChatGPT, several such AI models appeared in the market.

38 -year -old Ultraman said the US government should set up a new institution to issue licenses for artificial intelligence companies.

ChatGPT and other similar AI programs can create extremely human answers, but when they answer questions, they may also provide a big wrong answer.

Ultraman, who has become a spokesperson for the AI chat robot, has not avoided ethical issues caused by artificial intelligence and promotes the government for more supervision.

Ultraman said that the potential of artificial intelligence may be as huge as the printing industry technology, but he also acknowledges that artificial intelligence has potential danger.

He also admits the impact of artificial intelligence on the economy, including , Lead to layoffs in some areas.

Ultraman said: "This will impact employment opportunities. We must admit this as well as much as possible."

Ultraman also expressed concerns on the potential impact of artificial intelligence on democracy, and may be used to send targeted error information during the election period.

Companies like OPENAI should accept independent audit

He made several suggestions on how a new institution for artificial intelligence can monitor AI chat robots, including the issuance or cancellation of artificial intelligence companies.

He also believes that companies like OpenAi should accept independent audits.

Republican Senator Holy said that the AI chat robot may be revolutionary, but this new technology is also like the invention of atomic bombs.

Democratic Senator Bulumon Sar said that the future led by AI chat robots "not necessarily the future we want".

He warned: "We need to use its benefits to the greatest extent rather than its disadvantages. Congress can now make a choice. We also face the choice when social media appeared. We have missed a chance."

Both party senators who attended the hearings on Tuesday obviously supported the establishment of a new institution to monitor the emerging industry of AI chat robots.

However, technological development is changing with each passing day, and legislators still have doubts about whether new institutions can catch up with advanced technologies.

The Kuomintang held a regular meeting in the afternoon. Party Chairman Zhu Lilun announced that he called Hou Youyi to run for 2024 President. Zhu Lilun raised Hou Youyi's hand and vowed to return to ruling.

In his speech, Hou Youyi said that thank you for your affirmation. More importantly, thank you Hon Hai's founder Guo Taiming. After making great contributions to the economy, the spirit of working hard for the country and the people, and united everyone. He personally admires it. It is more willing to

unite and go hand in hand to go hand in hand, and to win the election for the land of the Republic of China and Taiwan.

Hou Youyi pointed out that at this stage, the country's international situation is in the international situation, confrontation between domestic conflicts, and hundreds of wastes. Young people cannot see the future. Therefore, it is necessary to break the political party to rotate, save the country, and save Taiwan.

Hou Youyi said that three times will let the political party rotate again, and the applause and applause are constantly; when Hou Youyi shouted, to show his determination to break the boat, the applause sounded again.

Hou Youyi, a 66 -year -old, graduated from the 45th issue of the Central Police School. He has had many major criminal cases and has been repeatedly promoted. During his tenure of President Chen Shui -bian, he was promoted to the Director of Police in 2006, becoming the youngest leader in the history of the Police Department.

The Kuomintang finally announced the call today. Hou Youyi, who had been hidden in the election, stood on the 2024 starting line. Although the opponent and Hon Hai founder Guo Taiming fought for the nomination, the expression would keep the promise to support him to win the election, and the initial disassembly split quotes. Hou Youyi's last mile, the severe challenge has just begun.

Australian Prime Minister Albanis announced on Wednesday (May 17) announced the cancellation of the Sifang Safety Dialogue Summit next week.

Reuters report, Albanis then discussed with Indian Prime Minister Modi and Japanese Prime Minister Kishita.

Quad Security Dialogue (QUAD) consists of the United States, Australia, India, and Japan. The Sicuke summit was originally scheduled to be held in Sydney on May 24.

Albanis said that the Sifang Security Dialogue will meet at the Summit of the Seventh Kingdom Group (G7) Group (G7). He and Modi's bilateral meetings will still be held in accordance with the original plan, and Kishida Wenxiong will cancel visit Australia.

Bayeng will go to Japan to attend the G7 summit on Wednesday, and then Then sequel to Australia to attend the Quartet Conference.

The Sifang Security Dialogue is a concept proposed by the late Japanese Prime Minister Shinzo Abe. After the rise of China, the friction with the United States, Japan, and India and Australia increased. Abe found four democratic countries to cooperate with each other. China condemned the Sifang's security dialogue to be encircled in China.

The G7 Summit was held in Hiroshima, Japan from May 19th to 21st.

Zelei Sky Speed at the opening ceremony of the European Commission Summit

(Voice of Germany Chinese) for several months, Kiev has been fighting for Western fighters. It was reported on Tuesday evening that Britain and the Netherlands agreed to establish an international fighter alliance to support Ukraine, but the Dutch media denied the statement on Wednesday. Later on Wednesday, according to Germany, the British Defense Minister also stated that he would not transport fighters to Ukraine in the future.

According to the Dutch media NRC reports on Wednesday, a spokesman for the Dutch Prime Minister Lutter told the media that he did not reach a specific agreed purchase or transport F-16 fighter.

According to PA News Agency, a British government spokesman said on Tuesday evening that Britain and the Netherlands are willing to establish an international alliance to help Ukraine get the US F-16 fighter.

A spokesman said: "The Prime Minister agrees with the Dutch Prime Minister Lutter to establish an international alliance in order to provide air combat resources for Ukraine, from training to obtaining F-16 fighters." It agreed with the British Prime Minister to support Ukraine to maintain close contact.

Zelenski has made a brief visit to many European countries in the past few days. He said in a evening video speech on Tuesday: "We agreed with the Prime Minister of the United Kingdom and the Prime Minister of Rich (Sunak), and committed to the establishment of a fighter alliance-training, aircraft, and implementation." He added: "Yesterday, French President Macron yesterday Support, Rute, the Prime Minister of the Netherlands today, supports it. This is the good start of the league. Thank you for everyone!"

However, Macron and Essence According to Deguanglian, Macron had previously expressed his willingness to provide training for Ukrainian fighter pilots, but refused to provide fighters to Kiev.

Zelei Sky Visit Britain on May 15th

When Zessky visited the United Kingdom, Sonak announced that London hoped to train Western fighter aircraft to Ukrainian soldiers soon. The Prime Minister announced that it would set up a flight school for Ukrainian pilots to allow them to receive training of different models. On Tuesday, a spokesman for Sunak also said that Prime Minister believes that Ukraine should have a place in NATO.

Schildez at the Reykjavik Summit

Sharz: Don't interrupt the connection with "another Russia"

German Prime Minister Shulz said at the European Commission Summit that he should not interrupt the connection with "another Russia" outside the Putin government. At the opening ceremony of the Social Democratic Party politicians, one day, Russia's war against Ukraine would end. "One thing is clear. That day will not end with Putin's imperialism." People have always supported Ukraine until they achieve fair peace. The European Commission has 46 member states.

穆: The Ukraine is called the formation of the "mouse clip"

The battle of Bachmut, the city of Eastern Ukraine, showed two fronts of contradictions in the development situation. The Ukrainian troops continued to advance in the periphery of Bachurut, while the Russian army continued to retreat from the defending Ukraine in the city. As the Ukraine advances in the periphery, the Russian troops called ULEXandersyrskyi, which can form Ulexandersyrskyi, entered the "mouse clip".

Ukraine Military estimates Russia's investment in 400,000 troops

The U -military intelligence department estimates that about 400,000 troops in Russia are currently engaged in fighting, of which about 370,000 soldiers were sold in pure military personnel, and about 20,000 members of the

Russian guards, and nearly 7,000 private mercenaries, such as Wagner Group.

Kiev estimates that Russian personnel have lost nearly 200,000 since Russia invaded Ukraine last February. But the daily updated number did not indicate whether it was a dead person or a wounded. Both parties of the conflict did not announce the input force and loss.

The European Commission will formulate the Russian Invasive Ukrainian War Losses Registration Book

On Wednesday, the 46 countries of the European Commission will decide to formulate a Ukrainian war loss registration book at the Summit of Reykjavik. This records the losses caused by the Russian aggression war. In this way, Russia must be responsible for this. All member states, as well as observers and other countries, can participate in the registry. This idea is also from a UN resolution. French President Macron also supports this: "I call on all countries to join in and actively participate in this affairs."

Czech President Peter Pavlík talked to reporters at a press conference at Copenhagen Democratic Summit at Copenhagen Democratic Summit in Copenhagen, Denmark on May 15, 2023. Reuters picture Czech President Petr Pavel recently said that China attempts to dominate the world is more dangerous than Russia. He explained that the principle of communication between the Czech Republic and China and Taiwan is "one China and two systems".

Czech Republic's newly elected president as a security threat to China as a security threat Czech President Paeville staged a lecture on May 15th in the 6th Copenhagen Democracy Summit in Denmark. China has no intention of establishing a peer partnership, but attempting to dominate the world. In the long run, China is far more dangerous than Russia.

Ukrainian President Zelegiski and Taiwan President Tsai Ing -wen also delivered a speech. Paville alert China has claimed that Taiwan will take all means such as force and other means to unify Taiwan.

On May 15, 2023, President Tsai Ing -wen invited by the "Alliance of Democracies (AOD) (AOD) to make a speech at the 6th" Copenhagen Democratic Summit "with a video video. (Provided by the Presidential Palace in Taiwan) Paville said that most countries respect the "One China Policy", and the Czech Republic also has its own "No. 1 China Policy." "One system" is different.

Paville emphasized that the Czech Republic is closely related to Taiwan in many fields and share the same value.

Regarding the new federation of the Czech President of Taiwan's policy "one and two systems", Ding Shufan, a honorary professor of Taiwan Politburo, accepted an interview with Radio Free Asia and pointed out: "The so -called

'one China' principle," Taiwan has been part of China since ancient times' "The myth has gradually shattered. Two different political systems. "

How can the Czech president define whether the "One Middle School" can be accepted on both sides of the strait? **

Ding Shufan believes that other countries are basically "just do not say". The question is how the Czech president defines "one middle"? In the end, refer to the "Chinese" in culture, descent, and race, or "China" with national sovereignty?

Ding Shufan judged that Beijing would not agree to the saying that foreign countries and Taiwan called "one China and two systems": "Beijing is the most worried about you '—' to define it? . Why does Beijing like 'one country, two systems', because this 'is a' country ', the "People's Republic of China'."

As for whether Taiwan can accept the "one China and two systems"? Ding Shufan analyzed that the Kuomintang recognized that "Chinese" should be acceptable, and the DPP may not be able to accept the "Chinese".

Ding Shufan said: "Talking about the Chinese people have traps, and the Chinese are citizens of the People's Republic of China. This is the DPP most worried, so the DPP would rather talk about Chinese. Standing in Southeast Asia, Chinese are the concept of a ethnic group, like Singapore, like Singapore, like Singapore, like Singapore, like Singapore, like Singapore There are Chinese, Malay, Indians. "

Zhang Mengren, the convener of Foreign and International Affairs of Foreign and International Affairs of Taiwan, was interviewed and analyzed by Radio Free Asia. Pavil was a NATO retirement general and was more pro -Western. For one. Unlike Milošzeman, the former Czech President, who stepped down in March this year, belongs to his relatives. Pavili talked with Cai Yingwen as soon as he was elected president earlier this year, setting a precedent for the "prospective head of state" and Taiwan's president, and expressed his expectations to meet with Cai.

Zhang Mengren also pointed out that Pavier mentioned the "one middle and two systems", and the European Union and the United States have long been implemented. Whenever Beijing protests, the United States and the European Union will clarify that they respect the "One China Policy", but they will make up the sentence "We have our own definition of a China policy."

Zhang Mengren said: "Pavier mentioned the" two systems and two systems "at this time, which is more obvious. Under the principles of the first China,

the Taiwan democratic system and the Chinese authoritarian system are clearly distinguished. Especially the recent international relations have clearly distinguished the democratic camps. And authoritarian camp. "

Zhang Mengren believes that the three countries of the Baltic Sea may also take the Czech policy as the benchmark point, and soon follow up the two systems under the so -called "No. 1 China Policy".

Zhong Zhidong, an assistant researcher at the Taiwan Institute of Defense and Security, was interviewed by Radio Free Asia. The Czech and Taiwan Speaker visited each other. The relationship was very good. The newly appointed President Parvi Military was actively faced with the threatening issue.

Scholars: The two systems of the Czech President "One Middle School" are not the same as Beijing's "one country" and two systems

Zhong Zhidong believes that "One China" and "One Country" are different concepts: "He reflects that the international community has gradually accepted the facts of China and Taiwan. In the past, the policy of China and the principles of one China was under pressure. . One China and two systems separate Taiwan and China. In fact, the United States has gradually separated."

Zhong Zhidong mentioned that in the past few days, the problem of the so - called 2758 resolution of the United Nations: "China uses the so -called one - China principle and compresses the international status living space of the Republic of China. It is related China's representative rights. The United States and European countries have not clearly stated their sovereignty status. They only acknowledge that there is only one China in this world. This China is called the People's Republic of China. Because in 1971, there was a competition with him from the Republic of China. "

Zhong Zhidong said that the 2758 resolution did not explain Taiwan's positioning.

#我心長照中華民國

台銘投入爭取參與國民黨總統候選人徵召，純粹出於在國際局勢詭譎的環境中，冀望將我多年在國際、經濟、科技方面的經驗與思考，貢獻中華民國，也為台灣人民創造更好更幸福的生活。

自始便立定主意：

第一、只提最高層次的政策討論意見

第二、絕不訴諸負面攻訐手段

第三、過程與結果同等重要，宣揚和平、繁榮、清廉價值理念，與取得提名同等重要

我深信我的活動遵循此三大原則，以民主的風度來爭取人民的認同，也提出了許多刺激大家思考的議題。

最重要的，我提出了可以做為兩岸未來長遠和平基礎的具體主張，發表「金門和平宣言」中，希望人民渴望和平的心聲，能夠刻劃在從政者心中。

過去這一個月中，國民高度關注國民黨選情，往復思辨國家前途關鍵路線，雖然有許多攻擊意見針對我而來，但和社會國家所得到的好處相比，實在微不足道。

恭喜侯友宜市長獲得徵召提名，代表國民黨挑戰2024總統大位，侯市長是國民黨內最穩固的民意礎石，由他承擔更大的責任，是理所當然，也是國民黨內最好的人選。

我將信守承諾會盡最大努力支持侯市長勝選，戰勝2024的大選，讓無能的政府下架！

昨日晚間面賀侯市長被徵召時，已委託原先關於促成台灣關鍵轉型的「和平」、「繁榮」、「清廉」的主要政見，期望能持續推動。

在參選活動的幾十天過程中，握了數萬雙基層勞動百姓長繭的手，注視了無數對期待希望的目光，看見了許多含著淚光盼著和平的眼神，讓台銘深刻感觸到民心的向背與執政者施政的落差。

參與徵召過程獲得了許多朋友的鼎力協助，不管認不認得，您的支持一直是台銘繼續奮鬥的動力。台灣人民的純樸、善良、勤勞、誠實永記我心。

台銘仍會繼續不畏困難、不求私利挺身而出，為人民幸福而戰、為中華民國的和平而戰，永不罷休。

Guo Taiming, the founder of Hon Hai Group, congratulated Hou Youyi on Facebook. (Guo Taiming Facebook) Guo Taiming, who was dissatisfied with the last election, was unlikely to be recruited. This time, the soil came again. He visited the United States and visited the United States and held a press conference to apologize to the Kuomintang for a negative retirement of the party. He is a political amateur, claiming to be "Taiwan Amei", holding four 10,000 people in the north, central and south, and fighting feelings with voters. Go to Kinmen to publish the "Golden Gate Peace Declaration" and banquet Blue Camp for support. On the eve of the announcement day, Zhu Lilun Night Meeting and Guo Xiejie. There is also an independent "Taiwan State" organization, which pulls a banner on the street and stated that "the

Chinese party introduces the Communist Party and Taiwan changes to the graveyard." It is questioned that the Kuomintang will not be unified. Losing autonomy, subject to totalitarian China.

Qian Da, a person in the blue camp, and others were unhappy for Guo

Taiming outside the Kuomintang, and questioned the summary of the call.
(Photo by reporter Xia Xiaohua) ** Scholars: Integration success is amazing.

Liao Daqi, a professor at the Institute of Political Science, Taiwan, was interviewed and analyzed by Radio Free Asia. The Kuomintang called to come to an end. It is amazing that the outside world predicts that Guo is not so easy to serve.

Liao Daqi said: "Guo has no suspense morale and strength in the Kuomintang camp. How do you develop in the future? Basically, it brings a lot of hope to traditional Kuomintang supporters, and brings to the middle voters and young ethnic groups. It is very fresh. This turning point, some of Guo Dong's part, quite dramatic tension, is quite motivated. Taiwan's politics has not seen this for a long time. Politicians are generally known for being selfish. How can it be put down like this now? "

Liao Daqi analyzed that if Guo Dong was determined to win for the Kuomintang, the internal contradictions, frictions, and power of power were greatly reduced. Ke Wenzhe supporters a lot of "blue power". Now that the blue power is consolidated, Ke will slowly be marginalized. Guo Taiming had about 20% of the support and was poured into the traditional supporters of the Kuomintang. Then Hou Youyi's election was strong and optimistic. Lai Qingde had to be more cautious. The room for impact that Ke Wenzhe could move was gradually narrowing and narrowing.

On the 17th, the "Taiwan State" group pulled a banner on the street at the

Kuomintang, and it was painful to vote for the Kuomintang Taiwan to change the graveyard. (Photo by reporter Xia Xiaohua)

Shi Zhengfeng, a professor at Donghua University in Taiwan, was interviewed by Radio Free Asia. He believed that the election was still a "righteous triangle", and the three were equal.

Shi Zhengfeng said: "The Democratic Progressive Party and the Kuomintang looked down on Ke Wenzhe and believed that Ke was relatively weak. I don't think he has at least 20% or 25% of supporters. Young people who have no special political parties should have a lot of expectations for him."

Shi Zhengfeng analyzed that the Kuomintang's integration was successful. Guo Taiming may only want the seat of the vice president and the president of the Executive President to deal with it relatively well. Following Guo's legislators who came out to support the waist, he would also stabilize Zhu's

integration and cooperate with Hou to win the election campaign. The problem is that after these two or three years, although the DPP has declined, the Kuomintang's support has not increased relatively.

Shi Zhengfeng said: "Hou Youyi mentioned 23 million Taiwanese to decide the future of Taiwan. It acknowledged that I was Hua Du and leaned in the middle. I don't know if the voters eat or eat?"

The three members of the Cabinet of the US President Biden appeared in Congress. They warned that the reduction of budgets will weaken the United States' ability to compete with China in military, diplomacy, and economy.

Reuters reported that US Secretary of State Broskented, Minister of Defense Austin and Minister of Commerce Raymond, attended the Senate Hearing on Tuesday (May 16) to compete with the United States and China with The hook highlights the concentration of the United States and focuses on the competition with the Chinese superpower in China.

On the same day, the Senate Allocation Commission held a hearing on the budget requirements of Biden's Biden, and Brosken, Austin, and Raymond were testified at the hearing. The US Cabinet Minister rarely testifies at the public hearing, but Democrats and Republicans have always rushed to show that they believe that the Chinese government is the biggest challenge facing Washington.

The opening speech of the President of the Senate Delivery Committee Merry refuted that the Republican Party refuted the Republican Party's proposal to increase non -military expenditure as a proposal to increase debt limit.

She said: "Everyone should pay attention to whether China has not argued there to pay for the debt to repay the debt or break down its economy. China has no controversy whether to invest in the future, should we reduce and restrict investment that promotes competitiveness."

last year, The authorization government has allocated hundreds of billions of dollars to increase the advantages of the United States in semiconductor and other technological fields.

American legislators are now considering how to prevent mainland China from launching attacks in Taiwan, improving the relationship with third countries to curb China's influence, tighten regulations to prevent US capital from flowing to Chinese companies, and restrict US technology flow to China.

Raymond emphasized at the hearing: "Competition with China ... need to make full use of our economic, diplomatic and military means."

US President Biden and Republican leaders are raising the debt limit of US \$ 3.14 trillion (about S \$ 42 trillion) to avoid difficult negotiations on the United States' catastrophic debt defaults.

After the Congress of Biden and the Speaker of the House of Representatives McCarthy held a meeting again on Tuesday, both parties had confidence in reaching an agreement to increase the upper limit of the US debt, but Biden claimed that he "had to do work" and decided to shorten his foreign visits this week.

Former British Prime Minister Tras visited Taiwan and delivered a speech Agencence France -Presse Former British Prime Minister Tras(Liz Truss)Public speeches on visiting Taiwan emphasized that Taiwan is a lighthouse of a free society. She calls on Western society to closely cooperate closely at the security level to ensure that Taiwan has the ability to self - defense. When asked whether to consider risks to visit Taiwan, Tras said that

China tried to restrict Taiwan's guests. If this behavior is condoned, it will be easier for Beijing to achieve its goals in the future.

* * *

Tellas's speech in Taiwan first mentioned that Taiwan is at the front line of freedom, and Taiwan's threat comes from a totalitarian regime 80 miles away. Chinese leader Xi Jinping issued a unified declaration to send more fighter aircraft to disturb the Taiwan. This threat will not only disappear but also increase.

"The Communist Party of China clearly stated that it is the most direct challenge to the CCP in the current form." Tellas pointed out that Taiwanese are better, free, happier, happier, and happy index than Chinese people. 37th higher than China.

"The reason I came here this week, I want to help ensure that you continue to succeed. To improve the world's understanding of Taiwan's position." Tras has a sharp development of Taiwan's economy and democracy. In addition to semiconductors, there are pearls and pearls. Milk tea marketing world, 90 % of the world's most advanced chips, 60 % of mobile phones, and computer products are from Taiwan. Around Taiwan's shipping routes are absolutely essential for global business.

Xinjiang and Hong Kong are free to be threatened and not allowed to occur in Taiwan.

Tellas raised the scene that was freely deprived in China, including the 1989 tank entered Tiananmen Square. The "Hong Kong National Security Law" eroded the freedom of Hong Kong people and forced Uyghur labor in Xinjiang. Millions were imprisoned. She urged that this situation is not allowed to occur in Taiwan. "If the freedom of Taiwan is threatened, the people of Taiwan will come forward. But you also need the allies of the entire free world to support you. I am one of the allies and you have many friends in the free world."

Former British Prime Minister Tras visited Taiwan and delivered a speech
(Reuters) [] **Europe should not sit at Taiwan and suffer threats**

Tellas believes that "the biggest danger of Taiwan in the future is the theory of fate." Those theories advocate that China's attacking Taiwan is inevitable, and Xi Jinping is waiting for the opportunity to "do n't fight and bend people". She emphasized that people in a free and democratic country should not help and instigate such ideas. "European countries are completely irresponsible regardless of whether they are too far away or not the core part of our concern." She firmly believes that this is the core interest of the European people. Freedom and democracy, like Russia's invasion of Ukraine, will destroy the freedom and democracy of the Pacific Ocean.

She also mentioned that the statement of Chinese ambassador to France, Lu Shaye, publicly denied the independent existence of the Baltic nation, and found that Europe and Asia are inseparable. Tras believes that on the Ukraine issue, China should not allow China to have an influence and forced Ukraine to accept unfair solutions, which should accelerate the process of Ukraine to join NATO. She is also worried that any contract may make it difficult for the allies to defend Taiwan. "All free countries must be committed to a free Taiwan and are preparing to support it with specific measures."

Tellas advocates economic NATO to respond to China's threat

China's economic sharp strength still has fantasies in Western society. Tellas mentioned that he was engaged in public office experience, not just Britain, but the financial departments of other countries were keen to contact China because they did not want to give up the rich profits and commercial benefits investing in China. But look at Lithuania and other Eastern European countries, bravely resist China's attempt to destroy its business.

For how to cope with such challenges, Tras put forward three suggestions, "First of all, it cannot be relying on the UN Security Council led by Russia led by Putin, nor can it rely on the World Trade Organization(WTO)To ensure that the rules of fair trade are in place, the development of 'Economic NATO' is required. "

A country that supports free enterprises should coordinate a mechanism. When technical exports, trade investment, and face -to -face economic coercion, they should use the best practice for China, just like the Cold War should respond to the Soviet export control and coordination committee during the Cold War period.(COCOM)Essence At present, including G7, the European Union, and South Korea, Australia, and other countries that are willing to participate, the trade agreement and economic and trade organizations can be used as the cornerstone of freedom.

She hopes that the United Kingdom and the "Cross -Pacific Partner Comprehensive Progress Agreement"(CPTPP)The main members support Taiwan to join quickly, while preventing China from joining.

Secondly, Tras advocates response to China's economic coercion and needs to work closely at the security level. Existing NATO, "Sifang Security Dialogue"(QUAD)The mechanisms need to be more coordinated, especially to ensure that Taiwan has the ability to self -defense. "In the absence of' hard power ', we can't pretend to be deterrent. If we really want to prevent conflicts in the South China Sea, we need to take military and defense cooperation carefully."

She thinks this is why "Australia, Britain, and the United States' three -party security partnerships"(Sacrifice), "Global Combat Aviation Program"(Cap)Such an initiative is so important that Aukus announces a plan to provide Australian nuclear-powered submarines; G-CAP will jointly develop the next generation of fighters in Britain, Italy and Japan.

Third, Tras reminds that it must reduce dependence on China from various areas of economic and security cooperation. If Beijing upgrades to Taiwan's aggression, the deduction of substance will be inevitable. If you are not ready

for this, then everyone in the free world will feel the economic pain that follows.

At the end of the speech, she particularly emphasized that this week's visit should directly convey the support of the British people to the people of Taiwan, "your future is our future."

Tellas: Can't let China restrict access to Taiwan

At the press conference, China criticized China to restrict visiting Taiwan, and he should get up to oppose such bullying behaviors.(Reuters) "I came to Taiwan to be invited by the Taiwan government. I believe that the election government in Taiwan knows what kind of assistance is the best for the people of Taiwan." Tellas emphasized that Beijing tries to restrict Taiwan's guests and restrict everyone to discuss Taiwan. And let the supporters say. These intimidating methods are not only in the UK, but also in Taiwan. Therefore, we must get up to oppose such bullying behaviors. Some media asked whether she would weaken Sino -British relations when she visited Taiwan, and she refuted, "Do we really want China to decide which countries can Taiwan go with the world? This is a very dangerous idea."

The media asked that she had said that the former US National Security Consultant Obelin had said that China would invade Taiwan for two years.

Tellas said that Chinese President Xi Jinping had the ambition to win Taiwan, but it was not sure when and how to do it. She believes that Xi Jinping and the Communist Party of China are more inclined to not use force. Of course, if necessary, force will be used if necessary. What the free world can do is to let the Chinese government understand that there will be serious consequences of attack, including the export restrictions of economic sanctions and key technologies. She said, "We will ensure that Taiwan has self -defense capabilities, and people have various speculations about the possible date. The only answer is to prepare as soon as possible to ensure that we are ready."

Tellas visited Taiwan in China jumping.

When Tillas visited Taiwan, many Chinese departments would make high decibels, and Chinese Ministry of Foreign Affairs spokesman Wang Wenbin criticized at a regular press conference that Tellas visited Taiwan just to use the "Taiwan issue to brush the sense of presence". The Chinese Embassy in the UK immediately issued a long statement, thinking that Tellas was provocative, and he was angry with the Taiwan independence forces, trying to provoke cross -strait opposition and confrontation, and exacerbate the tension on both sides of the strait. The PLA did not have too many major actions. According to the Taiwan Ministry of Defense, from 6 am from 6 am to 6 am on the 17th, a total of 9 aircraft were discovered.

In February last year, Russia's invasion of Ukraine was fully invaded, which caused international condemnation. Several countries' diplomatic representatives in China raised the Ukrainian flag, or showed the image of the Ukraine flag on the poster and light boxes.

Diplomats pointed out: "We and other representative agencies received a photo of the embassies and representative offices from using the exterior walls of the building for" political propaganda ". "

The diplomat said that the representative agency did not intend to do it.

Three other diplomats in Beijing confirmed that China issued this photo. Although the content did not directly mention the Ukrainian flag, it was obviously aimed at this.

Photo: RFA Before the May 1st Labor Day this year, Yunfeng Electronic Technology (Shenzhen) Co., Ltd., located in Songgang Street, Baoan District, Shenzhen, suddenly began to dismantle and move the machine to cause workers to suspect that the boss wanted to close the factory. Emotionally

excited workers are at a loss, they will [] , Asking the boss to promise to make reasonable compensation.

The local police came to the scene, and the fire was laid the inflatable cushion downstairs to prevent unexpected. The local union was absent as usual.

A news from the website of Songgang Street Office, Baoan District said that just three weeks before the incident, the Songgang Street Trade Union just opened Chen Jinhua, vice chairman of Baoan District Trade Union, spoke at the meeting, requiring the grassroots trade unions to do their best to do practical things, do good things, and solve difficult things for employees, so as to continuously enhance the sense of perception, response, influence and cohesion of the union. The brand and union chairman are bright. "

Ding Yan, chairman of the Songgang Street Trade Union, stated at the meeting that she would work hard to build a strong team of union cadres to do well To realize "the yearning for employees for a better life", so that employees and masses can truly feel that the union is the "home of employees", and the union cadre is the most trusted "family".

The words of the chairman of the two -level trade union did not fall. Three weeks later, the Yunfeng factory appeared in the situation of "the party and government, the need for society, and the employee urgently".

According to Yunfeng Electronic Technology (Shenzhen) limited Data, in May 1984 Yunfeng Circuit Edition Co., Ltd. was established in Hong Kong. In May 1991, Shenzhen Songgang Yunfeng Circuit Board Factory was established. And renamed Yunfeng Electronic Technology (Shenzhen) Co., Ltd..

The factory Including internationally renowned brands such as Sony, Casio, Foxconn, Sanmei Electric, are "," The best supplier "and" key component supplier ", Foxconn's" quality performance supplier ", and twice received Sony's thank you.

In addition, the Yunfeng Plant was also awarded the "Green Enterprise" of Shenzhen, the advanced unit of legal education in Shenzhen, the excellent enterprise of Baoan District, the excellent enterprise of Songgang Street, and the China Customs Trusting Enterprise.

Such a customer stabilized and was awarded by governments at all levels, and the factory also established a trade union. Why is the trust between enterprises and employees so fragile? Why did workers ask for demands and developed to the roof of the floor at once? Have the workers looking for help

before going to the roof? After the incident, did the local unions say what the chairman said at the union congress "bright brand and bright identity" to give full play to the union perception, response, influence and cohesion.

Representatives of workers negotiated with corporate negotiations to solve problems?

Ganna Maliar, deputy minister of the Ministry of Defense of Ukraine, said Ukraine has retrieved about 20 square kilometers from Russia's plie -shaped offensive from Russia in Bacht. Bacht is the center of Russia's invasion.

Mariar pointed out in the community media: "At the same time, the enemy has promoted to some extent in Bachtt and is destroying this town with artillery fire."

Oleksandrsyrskyi, commander of the Ukraine ground forces, said earlier that he had visited the troops near Bacht and awards to the longest battles in the battle for the longest time to participate in Russia's full invasion.

Selski said: "The members of Wagner Group (Wagner) entered Bachum, just like a mouse entered the mouse cage." The Wagner Group was the Russian mercenary organization.

The British Department of Defense said: "In the past 4 days, the Ukrainian army has made progress in tactics, stabilizing Bachmart's two wings, and turning it into an advantage."

On the same day, Yevgeny Prigozhin said in a film shared by Russian military bloggers that an American volunteer was killed in the East with the Ukraine.

Porigjin said, "This American citizen came to meet us" and showed him a body that he claimed to be Americans. It is unclear when this film is filmed.

The U.S. Department of Justice announced a prosecution on its website on Tuesday (May 16), accusing the former 35 -year -old Wang Weibao (transliteration) of Apple's former engineer who stole Apple's autonomous driving technology and fled back to China.

According to the website of the Ministry of Justice, the indictment mentioned that Wang Weibao was employed by Apple in 2016 and lived in Shangjingcheng, California, as a software engineer. At that time, Apple also signed a confidentiality agreement with Wang Weibao and provided confidential training for it. After that, Wang Weibao was assigned to a team of Apple to engage in hardware and software designing and developing autonomous driving systems.

However, after obtaining the permissions of Apple's sensitive information, Wang Weibao accepted the employment of an American subsidiary headquartered in a Chinese company in November 2017. It was only four months later that Apple will resign. On April 16, 2018, on the last day of his departure, Apple censored his Apple online activity log and found that he visited a lot of sensitive and confidential information in a few days before leaving.

The law enforcement department searched Wang Weibao's residence in Mountain View in June 2018 and found a lot of data from Apple. At that time, Wang Weibao was present and told the agent that he had no travel plan, but that night he took one -way plane that night, left San Francisco, and went to Guangzhou, China. In the subsequent investigation, the law enforcement department found that after leaving Apple, Wang Weibao also visited Apple's proprietary and confidential information while being hired by the new company.

The Kuomintang officially announced on the 17th that Hou Youyi, the mayor of New Taipei, was involved in Taiwan President in 2024. The picture shows him attending a situation in November last year.

(Voice of Germany Chinese website) After a long time, the Taiwan party finally launched the presidential election candidate next year. Kuomintang Chairman Zhu Lilun announced on Wednesday (May 17) that the current mayor of New Taipei Hou Youyi on behalf of the party was elected. Zhu Lilun said that Hou Youyi, a police officer, was "the hero of the violent and safe". He believed that he could unite the Kuomintang and "jointly defend the Republic of China and protect the democracy and freedom of Taiwan. "".

Hou Youyi said that Taiwan is currently facing the "international situation in the international situation." He said: "Guarding the Republic of China, the land of the land of love to Taiwan is the only belief in my life, and never change." It is also specifically called by Taiwanese: "The Republic of China is our country, and Taiwan is our puppet. ","

Both Zhu Lilun and Hou Youyi thanked the founder of Hon Hai Group Guo Taiming, and repeatedly emphasized the importance of unity. However, before the middle of the 17th, he had congratulated Hou Youyi through Facebook, saying that he would "keep his promise" and would "do his best to support Mayor Hou's victory."

DPP legislators revealed during the Taiwan media interview that the party candidate Lai Qingde was called on Hou Youyi, reacting bland and stable. Lai

Qingde also proposed a "3 -point consensus" response, and one of them called for the nominated candidates of all parties, "It is necessary to ensure that the sovereignty of Taiwan's Taiwan sovereignty is not eroded, and the free democracy constitutional system is not destroyed."

The DPP announced in April this year that Lai Qingde, the current vice president, was nominated for the president of Taiwan.

Why is he called Hou Youyi?

At the Kuomintang on the 17th, Zhu Lilun claimed that the decision to recruit Hou Youyi was to consider the opinions of the party's polls and the heads of counties and legislators.

According to the Kuomintang Cultural Conference announced the internal ginseng polls in May, the "mutual comparison of the party" showed that Hou Youyi's support was 40.77 %, and Guo Taiming was 31.77 %; La Lai Qingde 4.97 percentage points, while Guo Taiming lost 5.63 percentage points.

Liu Zhengshan, director of the Political Research Institute of Sun Yat -sen University in Taiwan, pointed out to DW that before Guo Taiming expressed his intention to run, Hou Youyi was already the focus of discussion in the Kuomintang, and his momentum was not sudden. As a "variable", Guo Taiming, unless the support in polls, local chiefs and the Central People's Republic of China has "strong competitive advantages", it is possible to nominate. Next, we must test how party chairman Zhu Lilun integrates; as for

Guo Taiming's next step, it depends on whether he can exert its influence within the party.

Now Guo Taiming publicly expressed support for Hou Youyi. Professor Liao Daqi, Professor of Political Research of Sun Yat -sen University in Taiwan, believes that this will bring bonus effects for the Kuomintang. Liao Daqi told DW that it would not only let Stress, it is "unprecedented pressure" to the DPP.

If the outside world cares, is it possible for Guo Taiming to run with Hou Youyi as a vice presidential candidate. Liao Daqi said that from Guo Taiming's attitude, he has always judged that the possibility of "does not rule out"; Tell Dw that Guo Taiming wants "complete power", but what he can do as the vice president is limited, so he believes that the opportunity to form "Hou Guo" is not great.

On the 17th, the Kuomintang announced the call for New Taipei Mayor Hou Youyi, and the Taiwan people's party also ran through the nomination chairman Ke Wenzhe. The picture shows Ke Wenzhe participated in the Shanghai -Taipei City Forum in China when he served as the mayor of Taipei in 2017.

Expert: Hou Youyi is "Cai Yingwen of the Kuomintang"

Hou Youyi graduated from the Central Police School of Taiwan, starting from the grass -roots police officer; in 1989, he led his team to attack Zheng

Nanrong, a Taiwanese independence person in his lunch and prisoner at the time. Since then, Hou Youyi has continued to rise step by step in the police community, with officials and police chiefs. In 2010, Zhu Lilun was elected as the mayor of New Taipei. He invited Hou Youyi to serve as the deputy mayor and also laid the foundation for Hou Youyi to twice in 2018 and 2022.

Although he has experience in the municipal political region, as a presidential candidate, Hou Youyi Testing from all walks of life. Compared with the Democratic Progressive Party Chairman Lai Qingde, Hou Youyi's position in this regard is relatively vague.

At the end of April, Hou Youyi repeatedly mentioned the so -called "cup of water theory", which caused internal disputes in Taiwan. He advocated that "the Republic of China is a cup and Taiwan is water." The two are "symbiosis". What is important is to strengthen self -defense capabilities and national security and avoid "cup breaking water overwhelming."

In early May, Hou Youyi was once again asked about his cross -strait position. He said that he opposed "one country, two systems" and "adhere to Taiwan's own democratic value", but also called "Taiwan independence has no legal basis", so he opposes Taiwan independence. Hou Youyi emphasized that "everything is in accordance with the Constitution of the Republic of China", and at this stage, the governance of the Republic of China is in the "Taiwan Golden Horse."

Hon Hai founder Guo Taiming congratulated Hou Youyi to the Kuomintang's call on the 17th through Facebook. (Data photo)

Experts point out that one of the key issues in Hou Youyi's discussion is that the definition of "Taiwan independence" in his mouth still needs to be clarified.

"He opposes one country, two systems, and Taiwan independence. These two will become contradictions if they are not good." Liu Zhengshan, a political scholar in Sun Yat -sen University in Taiwan, told DW that he could judge Hou Youyi on the one hand that he wanted to express it. "One country, two systems", on the one hand, because of the "Republic of China", therefore, "there is no such thing as the so -called whether to change the constitution and re -establish the country." Liu Zhengshan believes that because Hou Youyi did not say clearly, he "gave himself a misunderstanding."

Other experts pointed out that Hou Youyi said to Taiwan's positioning, followed has a difference. Professor Liao Daqi, a Professor of Rongtong, Taiwan, told DW that Hou Youyi said that he was "not much worse than Lai Qingde." He can be said to be like "Cai Yingwen in the Kuomintang", which is not so dark, but he can ask for demands from middle voters."The DPP, Hou Youyi and Ke Wenzhe's discussion on both sides of the strait seem to be increasingly reduced. I think this is also a good thing. Taiwan's consensus will become closer and closer." Fan Shiping told Dw It is the mainstream, and this set of discussion is more reflected in Guo Taiming; the next thing to observe is whether this discussion will be replaced by Hou Youyi in the party, or

through Guo Taiming and Ke Wenzhe Choose yourself to promote your position.

Aitai or selling a table? Why do the Kuomintang "big guys" frequently travel to China

Ma Ying -jeou to the mainland to worship the ancestors of the Democratic Progressive Party: "The chess piece under the promotion of the Communist Party of China"

Former Taiwan President Ma Ying -jeou will go to mainland China from March 27th to April 7th. The Presidential Palace stated on the 20th that he had received a visit to Ma Ying -jeou on the same day. It is hoped that "Ma Ying -jeou is the former head of state. Standage to communicate with peer dignity. " The DPP criticized Ma Ying -jeou to go to China in the name of worshiping ancestors. "But related itineraries cooperated with the Chinese United Front. Such planning arrangements obviously did not think from the stance of the country and the people, and the people of Taiwan could not accept the departure of the Republic of China. "A chess piece".

Taiwan Wind Media quoted anonymous news that Ma Ying -jeou's trip was mainly to worship Hunan. He would not go to Beijing, nor did he arrange to conduct a "Ma Xi Society" with Xi Jinping, the General Secretary of the Communist Party of China. The political effects are expected to decrease significantly. However, Ma Ying -jeou has become the first head of Taiwan to go to the mainland since the relocation of the Republic of China government in 74 years. "As far as cross -strait relations are concerned, it still has great historical significance." On November 7, 2015, Xi Jinping and Ma Ying -jeou, the top leaders on both sides of the Taiwan Strait, met in Singapore. This is the first meeting of the top leaders of the two sides since the cross -strait political separation in 1949. During the meeting, the two parties were mainly exchanged on cross -strait relations. The two parties did not sign an agreement or issued a joint statement.

On March 16, Liang Wenjie, deputy chairman of the Taiwan MAC, announced that from March 25th, all Taiwanese and land distribution can take small three-way and transit flights. Two classes are adjusted to 3 classes per week; Matsu 2 routes are adjusted from 4 shifts per week to 14 classes. However, if the certificates held by the landlords are "Golden Horse Peng Entry Outbound License", according to the existing relevant regulations, Taiwan cannot be transferred to Taiwan. From February 10, 2020, in order to respond to the new crown epidemic, Taiwan has implemented the "suspension measures" of small three links.

Vice Chairman of the Kuomintang Xia Liyan led the group to visit the mainland for the second time

Xia Liyan, vice chairman of the Taiwan Kuomintang from February 8th to 17th this year, led a group to visit mainland China. During his stay in Beijing, he met with Song Tao, the newly -appointed director of the State Council, and Wang Huning, who was still the "Chairman of the National Committee of the Chinese People's Political Consultative Conference" at the time. The observation and review article published by Hong Kong media Hong Kong 01 pointed out that Xia Liyan visited the land twice in the past six months. The reception of Xia Liyi's intended to Taiwan shows that this is the beginning of the Chinese Communist Party of Taiwan. The central government may have expanded the scale to communicate with elites from all walks of life in Taiwan, and even "carry out extensive in-depth consultations".

Pelosi visited the Taitai Strait tension and the situation quickly heated up

On August 2 last year, Perlis, the Speaker of the House of Representatives of the United States House, visited Taiwan in Beijing severely. The mainland PLA announced that night to launch military training operations in the six sea airspace surrounding Taiwan from 12:00 on the 4th to 12:00 on the 4th. Organize real bombs shooting. The report from the Japanese Ministry of Defense pointed out that Japan has preferred that China has launched 9 missiles from the direction of Taiwan in the afternoon of the 4th, and four of them fly over Taiwan's island. Last year, China sent a total of 1727 military aircraft to enter Taiwan's air defense identification zone (ADIZ), which was almost twice as many as 2021. Moreover, after Pelosi visited Taiwan, the PLA military aircraft continued to fly over the central line.

Xia Liyan visited mainland China during the sensitive period

Shortly after the military exercise of the PLA surrounding Taiwan last year, Xia Liyan, vice chairman of the Kuomintang, ignored the absence of the Taiwan party and led a delegation to visit mainland China. The Kuomintang's press release mentioned that Xia Liyan and Zhang Zhijun communicated with issues such as Chinese military exercises, agricultural product inspection and quarantine issues, ECFA earlier lists, cross -strait increases (resumed small three links), and Taiwanese businessmen's rights and investment guarantee. Xia Liyan claimed that the Chinese people had reflected to the Chinese people who were dissatisfied and worried about the Chinese military in the surrounding waters of Taiwan. Taiwan President Tsai Ing -wen stated at the Democratic Progressive Party that at this moment, the Kuomintang still insisted on going to China to disappoint the people; the Kuomintang's approach also passed the wrong information to the international community.

Wang Jinping's "Seeking peace" in CCTV show

In September 2020, the Kuomintang originally intended to send former Legislative Dean Wang Jinping as the head of the delegation to attend the 12th "Straits Forum" held in Xiamen. However, due to the days before the forum, when CCTV, CCTV reported on the "central video" of social media, reported that Wang Jinping will play the title of "Taiwan Strait's fierce war, this

person comes to summon" on behalf of the Kuomintang forum on behalf of the Kuomintang forum. The opposition and the opposition are dissatisfied. The Kuomintang announced the cancellation of participation in the Strait Forum in the form of a party, and also stated that in such an atmosphere, the Kuomintang's return group may cause the cross -strait public opinion.

The attitude of the Chinese government to Hou Youyi

In response to Hou Youyi recently called "opposing Taiwan independence and opposition to one country, two systems", a spokesman for the China State Council, Ma Xiaoguang, responded on the morning of the 17th: "The system is not a unified obstacle, nor is it an excuse for division." Based on the "1992 Consensus" and anti -"Taiwan independence", they "jointly promote the peaceful development of cross -strait relations."

In this regard, expert Liao Daqi said that the Chinese government originally echoed consistent with the statement of Taiwanese politicians, but they need to reiterate their position. "Fan Shiping believes that this" to some extent refutes Hou Youyi's view to some extent "What China is even more hopes that people like Guo Taiming intend to launch a unified political negotiation with China, but Hou Youyi's statement may mean that he will refuse to develop in this direction.

The Political Propaganda of the "Notice of May 1st" made by the Beijing Red Council Central Academy of Fine Arts "Gemina Red Flag" in 1967.

Screenshots of the network Hello everyone, welcome everyone to listen to "History of the Great", I am the host Sun Cheng. Today, we will continue to carry out historical stories related to the Cultural Revolution history, telling historical stories related to the symbol of the Cultural Revolution.

Just when I wrote the draft of this lecture, my western time in the United States was on May 16, 2023. On May 16, 1966, the Central Committee of the Communist Party of China launched the May 16th Notice, marking the official start of the Cultural Revolution. On such a day to tell you the "May 16th

"Notice", it can be said that it is quite a coincidence. A friend of mine is today, saying to me, "It's a year after a year, and it has been 57 years since the outbreak of the Cultural Revolution." Another friend said to me, "Fifty It has been seven years. "It can be seen that in the minds of many people, the memory of the history of the Cultural Revolution has not disappeared. And in such a scene of the decision and death of millions of people 57 years ago, it can be said that it is really very meaningful.

Then, let's continue that history.

In the previous lecture, we talked about the main content of the May 16th Notice, and clicked this document that marked the outbreak of the Cultural Revolution. It looks like the criticism of Peng Zhen's "February Outline". These criticisms were attacked by Peng Zhen with a very high tuning door, setting all the guilt represented by this outline to Peng Zhen's head, and buckled the "Main Main mistakes of the February Outline". ", Think that this outline" stands on the position of the bourgeoisie "," violates all class struggles is the basic argument of political struggle, "and said it distorted Mao Zedong's speech. The May 16th Notice also believes that the "February Outline" attempts to limit the criticism of Wu Yan to the academic scope. The bourgeoisie's academic "is not qualified to compete with the" proletarian academic "equal competition at all, and only the" overwhelming and elimination ". The May 16th Notice has also raised the criticism of the February Outline to a height that is unsuccessful. "And" future appearance ", even" a top priority to the world revolution. " In other words, the "May 16th Notice" raised the route represented by the "February Outline" to a height of "saving the earth".

So, what do you need to do to the kind of struggle mentioned in the May 16th Notice? In fact, the last few paragraphs of this notice can be said to be the core, and it is repeatedly cited repeatedly by various cultural revolutionary history works. Now, let's listen to these contents.

2. Movement of large -scale political cleaning: the intention of the "May 16th Notice"

The first half of the third natural paragraph of the "May 16th Notice" requires the party committees of the Communist Party of China to immediately stop the implementation of the February Outline and say:

"The whole party must follow the instructions of Comrade Mao Zedong, hold high the banner of the proletarian cultural revolution, and completely expose the bourgeois reactionary position of the so -called 'academic authority' of the

anti -party and anti -socialism, and completely criticize the academic, educational, and press. , The bourgeoisie of the literary and artistic circles, the publishing industry, the reactionary thinking of the bourgeoisie, and seize the leadership in these cultural fields. "

Judging from these contents, this notice seems to be placing the goal in the academic, educational, pressing, literary and art circles, and publishing circles. "The proletarian cultural revolution." In other words, it seems that this political movement seems to be limited to cultural and intellectuals. But next, the second half of the third natural paragraph of "May 1st notice" turned around and said, saying:

"To do this, we must also criticize the bourgeois representatives in the party, the government, the army, and the cultural fields at the same time. To clean these people, some need to mobilize their positions. In particular, these people cannot be credited to these people To do the leadership cultural revolution, and there are indeed many people doing this kind of work in the past and now, which is extremely dangerous. "

It can be seen from this paragraph that the "proletarian cultural revolution" that Mao Zedong's upcoming "proletarian cultural revolution" is by no means just the people in the cultural world, but at the same time in the CCP, the government, and the army at the same time. Expand cleaning with the cultural world. This paragraph also states that it is not allowed to make these so -called "bourgeois representatives" that will be cleaned and mobilized as "the work of leadership cultural revolution" because "this is extremely dangerous." It can be said that although this political movement is called a "cultural revolution", its substance is far beyond the cultural cleaning, which is a large -scale political cleaning. Moreover, judging from the phrase "the work of not being able to do these people to do leadership cultural revolution", the target of being cleaned also includes people at high.

The second natural paragraph of the "May 16th Notice" is more intense. This content is like this:

"The bourgeois representatives of the mixed party, the government, the army, and the various cultural circles are a group of counter -revolutionary correctionists. Once the time is mature, they will seize the regime. Dictatorship. Some of these characters have been seen by us, while others have not been recognized. Some are being credible and cultivated as our successors, such as characters like Khrushchev. They are sleeping in our body. Beside, party committees at all levels must pay full attention to this. "

This content indicates that those who are about to be cleaned or mobilized are "bourgeois representatives" and "counter -revolutionary correctionists" of the so -called "mixed" of the Communist Party of China and the cultural circles. When the time is mature, it will seize the CCP's regime and engage in the so -called "bourgeois dictatorship". Moreover, some of these people not only "have not been seen yet", but also received credit and were trained into "successors". It can be said that this content depicts a group of people trying to seize the CCP's regime from the party, government and military and cultural circles, and some of them are still in a "latent state". In the words "May 16th", these people are what the CCP calls "Khrushchev who sleeps next to us."

On September 15, 1966, Mao Zedong and Liu Shaoqi, Zhou Enlai, and Lin

Biao carried out the "Seeing Red Guards" on the Tiananmen Tower. (Wikipedia) Even more "explosive" is the description of "Khrushchev who sleeps around us" in the notice. Khrushchev was the Soviet leader who became the leader after the Stalin's death after his death. His well-known actions in history made a secret report that criticized Stalin in the 20th National Congress of the CPSU in 1956, and severely criticized Stalin's personal dictatorship and personal worship. After that, the CPSU and the Communist Party of China broke step by step, and Khrushchev was defined as a traitor in the official ideology of the CCP, thinking that he had betrayed Marxism -Leninism and Stalin's political route. Regarding these grievances of the Republic of the Soviet Union, we will tell in detail in the subsequent content. Here we just need to understand that in the political context of the Chinese Communist Party in 1966, "Khrushchev" was actually a synonym for "traitor", and "Khrushchev, who sleeps around us" Big vernacular means "traitors who lurk around us."

It is worth noting that before Stalin's death, Khrushchev was at a high position in the Central Committee of the CPSU and became a celebrity around Stalin. After Stalin's death, he denied Stalin. This resume of Khrushchev is actually easily reminiscent of Liu Shaoqi. In the May 16th Notice, the saying "successor" as "Khrushchev who sleeps next to us" is easy to make people think that if Mao Zedong died, would Liu Shaoqi also Like Khrushchev's negation of Stalin, he denied Mao Zedong's political route and personal worship.

It can be said that in the "May 16th Notice" of Peng Zhen and the "February Outline" directly on the bright side, Mao Zedong showed his greater political cleaning plan. There will be a group of people being cleaned in the cultural world, and it also implies that someone is lurking like Khrushchev, ready to deny Mao Zedong's political route and deny the so-called "proletarian dictatorship". The "successor" is used to describe these "Khrushchev", which implies that the goal of this political cleaning will include Liu Shaoqi.

3. CCP leadership collectively press the start button of the Cultural Revolution

Although there have been so many hints in this notice, Liu Shaoqi, who is responsible for the daily work of the Central Committee of the Communist Party of China, can only be presided over the expansion of the Political Bureau of the CPC Central Committee in May 1966 in accordance with the internal procedures of the Communist Party of China. The May 16th Notice.

According to Yu Ruxin, a historian of the Cultural Revolution, the record of Qi Benyu, the backbone of Mao faction, Qi Benyu once recalled the process of passing the "May 16th Notice" at the meeting. Qi Benyu, who had attended the meeting, recalled: "Liu Shaoqi, who presided over the meeting, invited members of the Politburo to vote for the meeting and did not objection. After that, Liu Shaoqi told the attendees sitting in the back row. In this way, the attendees also raised their hands, and those who attended and attended the meeting were "consistently passed", but the latter should not be included in the number of votes."

So, it is worth asking for the approaching of Mao Zedong's step -by -step approach, Liu Shaoqi is really so "honest" and so on the ears? He presided over the meeting through May 16th, would he really capture like this? At this time, Mao Zedong, who is not in Beijing, what kind of political plans do you have inside, how to further advance to his political goals step by step, and how to launch a large -scale political cleaning? In fact, of course, Liu Shaoqi will not be so soft, and Mao Zedong also has more backhand. The "fighting method" between the two of them will soon ignite the fire of the violent

Cultural Revolution and involve countless livelihood into the violent flow of political movements.

Thank you everyone, this week, we will see you next week.

Vladivostok is the largest port city of Russia on the Pacific coast.

(Voice of Germany Chinese website) The official website of the China Customs Department issued an announcement on May 4, saying that "the strategic deployment of the country's rejuvenation of the northeast old industrial base and the promotion of the use of overseas ports to carry out cross -border transportation cooperation in domestic trade, the General Administration of Customs Agency, the General Administration of Customs Agency Decided to further expand the scope of cross -border transportation business of domestic trade goods in Jilin Province "," agreed to increase Russia's cross -border transportation of Russia on the basis of the scope of cross -border transportation business in the original Jilin Province's domestic trade goods The transit port has increased the two ports of Zhoushan Yushan, Zhejiang Province, and two ports of Jiapu Port in Jiaxing.

Public information shows that "cross -border transportation of domestic trade" refers to the business that domestic trade goods are launched from ports in China and through overseas operations to another port in China.

In the announcement of the General Administration of Customs, the content of "Russia's Vladivostok Port has become a cross -border transportation port of domestic trade" has attracted public opinion. Some public account issued a post and asked "Russia's Vladivostok Port to become Northeast China " out of the sea "?

Once the Chinese Land

The Russian Vladivostok, formerly known as Vladivostok, was Chinese territory in the Qing Dynasty and the previous Yuan and Ming dynasties. In the 1860 "China -Russia Beijing Treaty", the Qing Dynasty ceded the Russian Empire to the east of the Ussuri River, including Vladivostok. Essence

Today, Vladivostok is the largest port city along the Pacific Russia and is a near -sea transportation center in the Far East of Russia. It is also the largest city and economic and cultural center in Russia in the Far East, and it is also located at the headquarters of the Russian Pacific Fleet.

Land transportation from Jilin greatly shortened the estuary of the Haikou **

Said, "Jilin and Heilongjiang provinces have not been out of sea. They have long been transferred from Dalian Port, Liaoning for a long time. After obtaining the estuary of the Russian Far East Port, the land transport distance will be greatly shortened." And Suifenhe and Hunchun to Vladivostok, Russia only about 200 kilometers, the cost of land transportation can be greatly reduced. "

"Caixin" reported that since 2022, China -Russia trade has increased sharply, and the transportation capacity of container ships from the port from the southeast coast to the port of Vladivostok, and the capacity of ship return has increased. "At this time, in September 2022, the Jilin Yichun City Airlines Bureau applied to increase the transit port of Vladivostok as a cross -border transportation transit port of domestic trade goods, and increased Zhejiang's two ports for cross -border transportation ports for domestic trade goods."

The report quoted a senior cargo generation in Shanghai that the goods of Jilin and Heilongjiang used the overseas port to transport the south, "not only reduced the cost, but also conducive to the closeness of China's industrial chain and supply chain between neighbors." The contradiction is that China's major ports transporting goods to Russia have been congested due to rapid rising goods. Although it is close to the distance, it is not easy to transport the goods to Vladivostok. "

The "Customs Release" WeChat public account released. On May 15th, the head of the port supervision department of the General Administration of Customs held a reporter from the Northeast China to conduct an international trade transit business. "Winning cooperation model".

"New Breakthrough of Sino -Russian Economic and Trade Cooperation"

Chinese official media And quoting the words of Chinese experts, saying that "this is another new breakthrough achieved by China -Russia economic and trade cooperation under the conflict of Russia and Ukraine, and it is also a new breakthrough in local cooperation between China and Russia." The report also pointed out that from January to April this year, China -Russia's trade volume increased by more than 41%, exceeding \$ 73 billion. China supplies electronic products, equipment, household appliances, automobiles and other consumer products to Russia; Russia sells large amounts of oil, natural gas, coal, food, metal, wood and chemical products to China.

Some netizens also call them "major benefits" and fantasize that China can "return to Vladivostok." A netizen who knows: "Recently there is a good news, ... Russia agrees to provide Vladwarstok (Vladivostok) to China to transfer, which means that after 163, the Chinese have re -owned the Chinese people re -owned the re -ownership of the Chinese people. One important reason why this netizen said that the economic lack of economy in the Northeast in

recent years is "there is no real estuary in the Northeast". Embarrassing situation. "

German media: Russia has always been alerting to China in the Far East

German media It is pointed out that in Russia, people have traditionally been alerting China's expansion in the Far East. It is reported that the Russian Ministry of Foreign Affairs has confirmed the Chinese announcement, "But it is currently only confirmed by its representative in Vladivostok, and the latter only quotes the corresponding Chinese information on its Telegram channel. The person in charge said on May 15 that they will deal with the transportation that may be increased. "

The Frankfurt Report reported that Russia has always been uneasy about China's expansion in the Far East, but in recent years and at least in 2014, it has not expressed this publicly. After launching a war invading Ukraine, This report also mentioned the official new map specifications of China at the beginning of this year: the Ministry of Natural Resources of China ordered in February that in Chinese maps, eight Russian place names should be added to the Chinese name in history. "Including" Vladivostok ".

controversial pipeline project

As early as the prime minister, Schroord was committed to building Russian natural gas through the Baltic Sea to the Beixi Natural Gas Pipeline in Germany. Poland and Ukraine felt that they were thrown aside. There is also no shortage of criticism in Germany. But Schroder said that Beixi was the most successful European and Russian project.

From Prime Minister to Natural Gas Boss

After the term of office of the Prime Minister, Schroder took over as the chairman of the Beixi Company's shareholders committee in December 2015. 51% of the company belongs to Russian Gas Company. Putin had previously urged him to hold the position. To this end, Schroder has caused strong criticism in Germany because he has vigorously promoted this natural gas pipeline project during his tenure.

In August 2017, Schröder will become the chairman of the Russian Petroleum Corporation's Supervisory Board, causing a public opinion storm in Germany and Europe. Because Russia annexed Crimea, semi -state -owned Russian oil companies were included in the European Union's sanctions list. However, Schröder accepted the position, and now it may also be on the EU sanctions.

Participate in the Russian Embassy Enrollment

The German news website "Ming Mirror" pointed out that the reason for Jin Suyan was the close relationship between her and former Prime Minister Schröder and Russia. Specifically, it may be related to the couple's participation in the Russian Embassy in Germany on May 9 to commemorate the 78th anniversary of victory in Nazi Germany.

Because Russia launched a war against Ukraine, many politicians in Germany refused to attend this recruitment to protest. It is reported that it was also invited to attend the enrollment that day, and the German Options Party Chairman Alexander Gauland, the party chairman of the German Options, was invited that day. The Schroeder couple attended the victory day of the Russian Embassy.

The United Nations International Court will begin trials in Ukraine on June 6 to sue Russia to violate the UN treaty and support pro-Russian divisor.

Reuters reports that the international court is scheduled to hold a four-day hearing on June 6th, 8th, 12th, and 14th.

It is responsible for the Malaysian Airlines flight MH17 in 2014.

The Dutch court also found in the trial that Russia has "comprehensively controlled" the Donetsk People's Republic of Ukraine in mid-May 2014.

Two of them, Russians and one Ukrainian were sentenced to life imprisonment, and the other was declared innocent.

The defendants of the three sins were Russian intelligence agents Igor Girkin and Sergei Dubinsky, and Ukraine separated leaders Leonid Kharchenko. Member Oleg Pultov.

The Russian Ministry of Foreign Affairs said that the judgment was "failed to justice" and was based on political motivation.

On July 17, 2014, Malaysia Airlines flight MH17 took off from Amsterdam, Netherlands to Kuala Lumpur, Malaysia. It crashed in Ukraine near the Russian border area. All 298 people were killed on board, including 196 Dutch.

In September 2016, a joint investigation team formed by the Dutch, Malaysia, Ukraine, Belgium, and Australia announced the report that the passenger plane was crashed by a "mountain hair" missile. Russia resolutely denies that he is responsible for the crash of flight MH17, and accuses the joint investigation of the joint investigation team prejudice to Russia.

On June 19, 2019, the joint investigation team led by the Netherlands announced that the four suspects involved in the case filed a criminal lawsuit. On March 9, 2020, the Hague District Court officially opened the trial.

In 1913, the painting saw the day again, -before, a art trader "betrayed" Peruja to the police.

The shocking case that happened in dawn

The two members of the criminal gang broke into the Treasure Museum from a window of the Dresden Royal Palace. They smashed a display cabinet and escaped with treasures that can be traced back to the 17th and 18th centuries.

The prosecutor said that the gang had repeatedly conducted reconnaissance at the location and disassembled a section of cast iron drainage ditch in advance, so that it was easier to break in. Before entering, these people set fire and cut off the power of the street lights outside the museum.

They stole about 4,300 diamonds and other gems from 21 jewelry. Although the value of these gems was estimated to be about 113 million euros (\$ 122 million), many people think they are priceless.

It is estimated that the loss caused by breaking the door is more than 1 million euros. Before they fled to Berlin, they burned a car in a nearby garage. A few months later, After the preliminary negotiations of the debate transaction, most of the stolen treasures were returned to the National Museum Collection, part of which was damaged.

The history and status quo of the Green Dome Treasure Museum

The Dresden Green Dome Museum is one of the most famous museums in Germany. The buildings used in the Green Domine Treasure Museum were built in the 17th century. In 1723, Saxon elected Emperor "Power King" Augustus(August the Strong)The royal treasure house is set up. Today, the museum is divided into two parts. The first floor is the eight room layout of the original history of history to display the collection. The second floor of the Green Dome Museum exhibits special treasures.

The museum's name comes from the green pillars and green velvet walls of many rooms.

February 1945, During the period, 3 of the eight decorative exhibition halls in the Green Dome Treasure Hall were destroyed. Fortunately, some collections have been removed in advance and stored in a fortress near the Mount Embandistan nearby to be properly kept. These treasures were confiscated by the Soviet Red Army Warriel Commission and shipped to the Soviet Union after the war until Moscow passed a resolution to send them back to Dresden.

Due to the damage to the Green Domine Treasure Museum in the war, some collections can only temporarily live in Albertinum, the city. It was not until half a century after the war that these treasures were able to return to the Green Dome Pavilion in 2004. 1,080 precious collections were exhibited that year.

Two years later, after a major renovation of millions of euros, the Green Dome Treasure Museum was officially reopened, and then German Chancellor Merkel attended the opening ceremony.

The treasures displayed in the Green Domine Treasure Hall include small statues inlaid inlaid, rings of Martin Luther, which belong to the new education reformers, and the ostrich eggs inlaid and the rhino horn high cup.

Reuters reported on May 17 that Chinese officials have notified foreign embassies and international organizations in China to do not conduct "political propaganda" in Chinese buildings.

Since the outbreak of the Russian and Ukraine War in February last year, Chinese old friends Russia caused international condemnation due to its war behavior. The Ukrainian flags in several foreign envoys in China also showed the representative color of the Ukrainian flag in posters and lights to express support.

On May 17, 2023, the Slovakia Embassy in Beijing demonstrated a billboard that supports Ukraine. (Associated Press) The Chinese Ministry of Foreign Affairs notified the country to China and the China Representative Office in China on May 10th.

Four diplomats in China who did not want to be named told Reuters that although the above notice did not clearly mention the Ukrainian flag or specific publicity and display, it was obviously related to the Ukrainian unity exhibition.

Chinese Foreign Ministry spokesman Wang Wenbin was asked at a regular press conference on the 17th, but he did not clearly point out that the Chinese notice is related to Ukraine. He said: "According to the" Vienna Foreign Relations Convention "and the relevant international agreement, the embassies of various countries in China and representatives of international organizations in China have the obligation to respect Chinese laws and regulations."

Witnesses told Reuters a few weeks after Russia initiated the so -called "special military operation" to Ukraine, the Ukrainian flag poster on the exterior wall of the Canadian embassy was damaged by NATO's graffiti.

Xinhua News Agency reported that the United Nations Department of Economic and Social Affairs of Economic and Social Affairs released the "World Economic Situation and Outlook of 2023" on Tuesday (May 16), which raised the expected expectations of China's economic growth from 4.8%to 5.3%at the beginning of the year. The economic growth expectations of the United States and the European Union were raised from 0.4%, 0.2%to 1.1%and 0.9%, respectively.

Among the other major economies, Japan's economic growth is expected to be lower than the beginning of the year; the British and Russian economy will

shrink, but the shrinking range is better than the forecast at the beginning of the year; Brazil's economic growth expectations are slightly higher than the forecast at the beginning of the year.

The report predicts that the developed economies in 2023 will increase by 1.0%, higher than 0.4% of the predictions at the beginning of the year; the development of economies will increase by 4.1%, slightly higher than the 3.9% of the forecast at the beginning of the year; The 4.4% predicted at the beginning of the year was also far lower than the annual growth rate required to achieve 7% of the 2030 sustainable development goals.

The report predicts that the world's goods and service trade will increase by 2.3% in 2023, higher than the forecast at the beginning of the year. However, factors such as the delay in the epidemic of the crown disease, the tension of geopolitical tensions and the tightening of monetary policy will continue to restrict the growth of world trade.

The report believes that affected by factors such as the delay in the epidemic, the Ukraine crisis, the climate change, and the changes in the macroeconomic situation, the world economy may enter the long -term low growth stage.

"I will take responsibility for this, stop all performing arts, deeply reflect, and re -study."

On the same day, the Beijing Evening News posted news on Weibo, which was more specifically talked about the so -called "inappropriate metaphor" mentioned in the apology statement of Xiaoguo Culture Company. It is reported that "some netizens recently broke the news that when watching the Beijing scene of the comedy company 'laughing fruit', they found that there were very inappropriate expressions. A actor talked about it. When squirrel, let him think of eight words-'excellent style and can win the battle'. At present, the talk show actor and 'laughing fruit' involved in the incident have apologized and acknowledged the wrong existence. "

However, although Li Haoshi and Xiaoguo Culture Company have apologized, the incident is far from over. The Beijing Evening News wrote in the same report, "the reporter learned that the Beijing Cultural Law Enforcement Corps stated that it has been known about this on the morning of May 15th, and the relevant company has been investigated."

Liberation Army Strong Army slogan

Hong Kong 01 wrote in the incident, "Netizens said that the actor's lines made him feel uncomfortable. Objective: 'Listening to the party's command, can win the battle, good style'. These 12 words have also become the slogan of the PLA strong army. "

In March 2013, Xi Jinping, who was elected as the General Secretary of the Communist Party of China after the 18th National Congress of the Communist Party of China, and took over as the chairman of the Military Commission, emphasized at the PLA delegation at the First Session of the 12th National People's Congress to "build a party command, win the battle, work style, The excellent people's army is the goal of the party under the new situation. "Since then," excellent style and winning the battle "has always been the slogan of the PLA, and it is also used to describe the PLA.

The Chinese official media "People's Daily" commented on the incident, "A talk show actor was accused of offending the people of the people, and his company was investigated by his company. , I caught up with a misunderstanding. I have a fear of my heart, a word of words, and a stop of behavior. This should be the professional bottom line, and it should become an industry consensus.

On Weibo, netizens left various comments under relevant reports. Someone wrote, "Blocking the laughing fruit culture, killing a hundred hundred"; "The Chinese People's Liberation Army is the bottom line, let the laughing fruit disappear";

Some people also asked: "Which law did you commit?", And some people left the comments of "going online" and "guilty of words". Some people lament, "This environmental talk show is actually impossible to play", a netizen who claims to be "a retired soldier" wrote: "I personally don't feel very wrong. Why are we always sensitive, in the Wangwang team Dogs can be agents. Dogs can be intelligence staff in cats and dogs. There can be roles such as dogs chef, dog scientists, etc. "

Xiaoguo staff: The content of the controversy is not in the text that is reviewed in advance

Public information shows that Xiaoguo Culture Media Co., Ltd. was established in May 2014. It is headquartered in Shanghai and is a Chinese artist agency and comedy industry company. The company has produced the "Tucao Conference", "Talk Show Conference", "Measures Family", "What to do!Variety shows such as talk shows and "National Bubbles Superman" have won the "Top Ten Shanghai Cultural Enterprises".

In recent years, Xiao Guo culture has burst at least two serious negative incidents. In 2020, Kam, an artist and talk show of Xiaoguo Culture, was detained in the drug involving drugs. Swordsman culture then apologized and decided to stop all the work of Kam. In 2021, an advertisement from the artist

Li Xuan was accused of vulgar content and humiliated female dignity. Xiao Guo Culture Company "was confiscated for the obligation to be reviewed" and fined 200,000 yuan. Li Xuan is the originator and shareholder of the "Talk Show Conference". He has led the artist many times Essence

According to the Jimu news report under the Hubei Daily Media Group, a staff member who claims to be a Swordsman Cultural screenwriter introduced to Jimu Journalist that the content company performing the talk show actor will be approved and reported to the relevant departments. According to his understanding, the controversy in House's performance is not in the text reviewed beforehand. Current, house(Li Haoshi)The Weibo account has been banned.(Comprehensive report)

The Ukrainian Air Force spokesman Yuriy Ignat said, "Don't worry, the Patriot is all right." He refused to disclose whether the patriot's missile defense system was damaged.

Ignat also said, "Patriots are now in service, everything is all right."

Kiev received the first batch of U.S. Patriot land -to -air missile systems in April this year.

The United States CNN quoted US officials and reported that Russia launched a missile attack Kiev in the early morning of Russia, and the US - owned patriot's air defense system may have been damaged.

The Russian Ministry of Defense said yesterday that the Russian army launched a "dagger" to hit the Patriot missile system of Kiev.

Kiev claimed that the Ukraine's air defense system shot down 6 Russian sound speed missiles, but was refuted by Russian Secretary of Defense Sergei Shoigu.

The "dagger" sophisticated missile was one of the "next generation" weapons announced by Russian President Vladimir Putin in 2018. At that time, Panting claimed that the dagger missile would not be shot by any air defense system in the world.

(Voice of Germany Chinese website) "New Zurich" commented that May 4th is the Youth Day of China, but this year's "May 4th" does not seem to have made young people happy to have a holiday. It has exceeded 20%, which is the highest record since relevant statistics. This article entitled "Xi Jinping's call to the countryside to wake up the pain of pain in the countryside" and wrote:

"Chinese young people use 'we are the last generation' on social media, which is reminiscent of the hopeless atmosphere of Western young people in the early 1980s. Protest. There is no doubt, Essence This situation is likely to evolve into social explosives that threaten the CCP's rule. The younger generation has shown the courage to express dissatisfaction with the system: Essence This time, it is publicly criticized by college students. In China, about 80 college students participated in the protests. Their actions did put pressure on the authorities. Two months later, Xi Jinping announced the cancellation of epidemic prevention measures.

© HECTOR RETAMAL/AFP/Getty Images

In November last year, young Chinese people walked on the streets of the mountains to protest the "clearing policy" of the authorities.

If the crisis faced by the younger generation further intensifies, normalized, or emergencies set off a larger -scale protests among young people, what will happen? The Beijing authorities are very clear that the younger generation hides special risks that affect social stability. In view of this, school education does not allow free thinking and questioning, but to cultivate a younger generation who obeyed command and death. Now, in order to better control the younger generation, Xi Jinping obviously wants to take further measures: he wants to send young people to the countryside.

Xi Jinping has previously emphasized the suggestions for young people to go to the countryside. However, this proposal appeared on May 4 this year's "People's Daily" on the top version of the important position, which has never been before. Xi Jinping issued a warning that young people should take responsibility and prepare for a hard life. Young people should go to the countryside to find a job to revitalize the local economy. Those young people who leave the city and help poverty alleviation in remote and backward areas are worthy of praise. Xi Jinping left Beijing at the age of 16 and began his life in the mountains. Xi Jinping said: 'Seven -year rural life is a good exercise for me. '"

The comments pointed out that at the end of 2019, the China Youth League organization had proposed a plan to allow 10 million college students to go to

the countryside to find employment, and Guangdong and Shandong also made relevant suggestions.

"In China, the rural life is not much related to the rural poetry, which means that the prospects are dim. But in order to ensure social stability, the Communist Party still wants to exile the younger generation of the future and educated younger generation of the country to the countryside.

This measure worked in the Mao Zedong era, and it also worked in the Xi Jinping era: dispersing young students to remote mountain villages across the country, and they will not be able to protest. Although they have been used to a large degree of personal freedom in the past three decades, such as freedom of travel. However, the long -term clearance policy shows that when facing crisis, the government can completely force the number of people to give up personal freedom. However, the Communist Party will also pay heavy economic and social costs for its continuous overweight suppression policies. The younger generation's sense of distrust of the government will also be increasing day by day. "

While the government calls on young people to enter the countryside, there are indeed many unbearable urban young people who take the initiative to go to remote areas. "Editorial Network" wrote here:

"The new sacred place for the countryside is the northernmost tip of China's remote mining city: Hegang. This small town near Russia is known as the lowest cost of living in China '. In the past few months, hundreds of each day Young people come to this city. Because even if there is not much savings, they can realize the real estate dream here: less than 80,000 yuan can buy a small apartment, and the heating fee is borne by the municipal government.

However, the cost of low living costs actually requires a high price: the temperature in the winter of Hegang can be as low as minus 40 degrees Celsius, and the recent hospital also takes a few hours of drive. "

The European Council, which is composed of the 46 State, formulates the register of damages platform to provide evidence records for future litigation that may be filed by Russian leaders in the future, and then lays the foundation for claims.

The European Council Summit is held in Iceland. The Secretary-General of the European Council Marija Pejcinovic Buric said on the second day of the meeting that this platform was a "urgent first step" to ensure that "the victims of the war would be upright."

Brek also said that as of today, 40 countries have signed the establishment of the war -walked login platform, including members of the United States and all the seven major industrial groups (G7) member states. Another three countries are completing the internal procedures signed.

Brek and other leaders emphasized that countries outside the European Council can also support this platform. The European Council is an pan - European power organization that is independent of the European Union, but all EU member states participate in.

Ukrainian President Volodymyr ZELENSKY mentioned in the video of the opening ceremony of the summit yesterday: "There is no reliable peace without justice."

As a member of the European Council, Ukraine has strongly welcomed the initiative of the construction of a war -sharing loss. Russia was disqualified from the membership of the European Council after the full invasion of Ukraine last year.

Several EU countries support the requirements of Ukraine's establishment of international special courts to judge the Russian invasive crimes.

The International Criminal Court (ICC) headquartered in Hague, Netherlands issued an arrest warrant for Russian President Vladimir Putin in March, accusing him of illegally led Ukrainian children out of the country.

The battle loss login platform will also be established in Hague and open a satellite office in Ukraine, which will record the damage and damage caused by Russia during the war.

The European Council stated in the statement that the war -damage login platform will be initially established for three years, and said that the platform "will be paved with the victims of Russian aggression to provide a future international comprehensive claim mechanism."

EU foreign policy leader Josep Borrell

(Voice of Germany) on During the interview, Joseporell, the head of the European Union's foreign policy, said that the EU should find ways to reduce Moscow's revenue from refined fuel, saying that the European Union should crack down on India's behavior of transferring Russia's oil processing to Europe.

Brell said, Brussels knows , Then process it into fuel and sell it to Europe. The Financial Times reported that this is the first time Boriel stated that the European Union should take action to prevent this behavior.

Reuters pointed out in its relevant reports that after Moscow invaded Ukraine on February 24, 2022, India has become a big buyer of Russian oil in the past year. The cheap Russian crude oil has increased the output, profits and competitiveness of Indian refineries, allowing it to export refined oil to Europe and occupy more market share.

"This must be a avoidance of sanctions"

Borel told the Financial Times that he would mention the matter with Indian Foreign Minister Subrahmanyamjaishankar at a meeting on Tuesday. He said that if diesel or gasoline from India and enters Europe is produced with Russian oil, "this must be a avoidance of sanctions."

The head of the European Union's foreign policy also said: "India buys Russia's oil, which is normal ... but if they use this, they will become a

Russian oil processing center and sell the products to us We must take action. "

Indian Foreign Minister Su Jiesheng said that his understanding of the EU sanctions rules is that Russian crude oil that has been processed in the third country is no longer considered to be Russian products (data pictures)

At a press conference after Boriel and Indian Foreign Minister Su Jiesheng after Tuesday, Su Jiesheng said that his understanding of the EU sanctions rules is that Russian crude oil, which has been substantially transformed in the third country, is no longer considered to be Russian products.

EU Council Vice Chairman Margrethe Vestager said that the European Union will discuss with India on this issue, but it will be accusing the tone with a cooperative attitude.

"We must see who is buying"

Reuters reports that India's refineries have rarely purchased Russian oil due to high transportation costs. However, from April 2022 to March 2023, India imported an average of 970,000-98 million barrels of Russian oil per day, accounting for more than one-fifth of the country's overall fuel import.

Russia's largest petroleum producer Rosneft and Indian refining giant Indian Oilcorp also signed an agreement to greatly increase the oil grade delivered to India to diversify it.

India's appetite for Russian oil is getting bigger and bigger

According to the ship tracking data from the French commodity tracking company KPLER, the Reliance Industries and Nayaranergy are the main exporters of refined fuel and Russian oil buyer. These companies did not immediately respond to Reuters' inquiries.

Before Russia invaded Ukraine, India usually exported 154,000 barrels of diesel and aviation fuel to Europe average daily. Data from KPLER show that since the EU has banned Russian oil products from importing from February 5 this year, this number has increased to an average of 200,000 barrels per day.

Brell told the Financial Times that any mechanism that restricts Russian oil flow needs to be implemented by authorities of various countries, suggesting that the EU can target Indian refined fuel buyers. He said, "If they are selling, it is because someone is buying. We must see who is buying."

Chinese President Xi Jinping welcomes the President of Kazakhstan, the President of Kazakhstan on Wednesday. According to Reuters, Liu Bin/Xinhua Via AP said that Chinese President Xi Jinping said on Wednesday to the visiting Kazakh President Toccerv on Wednesday that China hopes to further deepen the relationship with Kazakhstan on the occasion of "prosperity and adversity". The report pointed out that the background of this statement is that China hosting the five Central Asian Summit is about to

open. China wants to establish a contact with Russia's backyard, and the relationship between China and the West has deteriorated. The five Central Asia, Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan, which were participating in the summit, are part of the former Soviet Union, but they are currently seeking other sources of investment because Moscow has invested its resources into the Ukraine War. Takayev told Xi Jinping that Kazakhstan set the bilateral trade target with China by 2030 to \$ 40 billion per year, higher than \$ 31 billion in 2022. He also praised Xi Jinping's Belt and Road Initiative and stated that Kazakhstan was interested in expanding exports to agricultural products to China. It is reported that Xi'an is now symbolic as the place of the summit. Xi'an plays a key role in the trading route of the ancient Silk Road in Central Asia. (Responsible editor: Wang Yun)

The European "Nuclear Union" held a meeting in Paris to formulate a "roadmap" for the European nuclear energy development. It is expected that the EU nuclear power installed capacity will increase from the current 100 Gilva to 150 Gava.

Xinhua News Agency reported that under the convening of the French Energy Transformation Department, representatives of 14 European "Nuclear Union" member states such as Belgium and Bulgaria attended the meeting on Tuesday (May 16). Essence

According to the news bulletin issued by the French Energy Transformation Department on the same day, this meeting mainly discusses two topics: one is how to establish an independent European nuclear supply chain; the other is the conditions for the rejuvenation of the European nuclear industry. Participants signed a joint statement calling for the formulation of the

European Action Plan to promote cooperation in technology, innovation, and security standards in nuclear energy departments.

Based on the continuous and safe operation of the existing nuclear power facilities, if the European Union built 30 to 45 large nuclear reactors and developed a small modular nuclear reactor at the same time, its nuclear power installed capacity will be increased to 150 GW by 2050.

According to the commissions, the conference issued a clear signal, that is, the importance of nuclear power in the European energy strategy, which is not only to strengthen Europe's energy sovereignty, but also to accelerate carbonization and achieve climate goals.

This is the third meeting of the European "Nuclear Union".

The European Nuclear Union was established under France. The first meeting was held in Stockholm, the capital of Sweden on February 28 this year.

According to Bloomberg, the American Institute of Institute of Goldman Sachs, Goldman Sachs, has been brewing a large -scale reduction in Chinese projects and employees after the three -year bonus of the financial market opened in China, including Goldman Sachs and Morgan Stanley and other companies. The report pointed out that these companies believe that due to the continuous deterioration of the geopolitical environment, Chinese President Xi Jinping can sacrifice the economy, and to deal with security

issues priority, suppress the private sector, and kill mergers and acquisitions. More and more slim. At present, Goldman Sachs has reduced the expectations of its five -year plan. Morgan Stanley has also decided not to set up a China broker in China for the time being, and reduced the investment in derivatives and futures business to \$ 150 million. The Morgan Chase Group began to abolish Chinese full -time employees as early as earlier this year. It is reported to describe the choice of these investment giants to "bend". 18 months ago, they also believed that they could compete in the main business of China's large banks. Now they have said that they must completely reflect on their strategies for China. Some industry executives said that banks around the world are layoffs, but the scale of layoffs in China has been the largest over the years, and its strength is stronger than other regions. Since September last year, these investment giants have cut off at least 100 full -time employees in China, and Goldman Sachs has cut one -tenth of Chinese manpower. (Responsible editor: Wang Yun)

One -minute reading: Chinese Ministry of Foreign Affairs spokesman Wang Wenbin recently said that the Wall Street Journal has disclosed that the US Pentagon has formulated a research and development plan to combat opponents with genes. The genes of the Middle East Arabs are included in the scope of the US military collection.

Asian factual investigation of the laboratory found that there was no evidence that the Wall Street Journal had released such reports. The Chinese network records show that the rumors of the US military's research and development of race -based genetic weapons have been circulating for more than 20 years in the simplified Chinese world. Earlier sources have been publicized by the Russian world since the Soviet era. In response to this allegations, the US State Department responded to the Asian factual investigation laboratory that China had no basis for accusations. Scientific and technological reports and recent statements of the US Department of Defense have also showed that the current technical level of human beings cannot achieve "murder according to specific genes."

Foreign Ministry spokesman Wang Wenbin (pictured from the official website of the Ministry of Foreign Affairs of China)

Deep analysis:

On May 10, 2023, a spokesman for the Ministry of Foreign Affairs of China : "The United States is a country that is widely collected and used in genetic information. According to the Wall Street Journal, the Pentagon of the United States has formulated a research and development plan to combat opponents with gene weapons. Genes are included in the scope of the US military collection."

On the same day, the Ministry of Foreign Affairs of China Essence Asian facts check the laboratory found that Wang Wenbin's statement has no basis and obviously violates the operating logic of international affairs.

1. "Gene weapon" accusation lacks basis

The search page of the Asian Fact Inspection Labs on the English website of the Wall Street Journal uses the combination of keywords such as "Genetical Engineered Weapon" and "Pentagon". No relevant reports are found.

Search by the same keywords such as Google, Bingbi, and other search engines cannot find related content.

Asian facts checking the laboratory sent an email to the Wall Street Journal, but did not receive a reply before the deadline.

On Monday, the U.S. State Department said that the Laboratory of the Asian Factation Inspection said that China 's accusations were not foundable and it was completely wrong.

The State Council said in the reply:

"American genetic research uses genome information to improve human health, not to attack human health, and related research is carried out under the premise of protecting personal rights and privacy;

We cherish the benefits of biotechnology to all human beings, and continue to lead and formulate the norms and rules of advanced biotechnology with partners and allies. These norms and rules meet our values and protect human rights principles;

However, other countries, including the People's Republic of China, are abusing these technologies. "

** 2. On the Chinese network, the US military has collected Chinese genes to make biological weapons for at least 20 years, but it is still a "plan".

Asian facts checking the laboratory on the Chinese network with the "Wall Street Journal", "Pentagon Building", "Asian Chinese, European Arajans, Middle East Arabia" search shows that the US military has collected Chinese genes to create weapons. The less from the official media, such as the article released by the China National Defense News in January 2014 [] To.

The earliest report can be back to Essence The reporter Chen Weimin interviewed a activist named Tong Zeng. The work "The Last Line" declared that the United States and the United Kingdom have been stealing Chinese genes, and the Agascus is likely to be a genetic weapon for China for Western countries. In the interview of the China Youth Daily, there is such a paragraph: "In order to ensure the future dominance of the United States, the U.S. military has formulated a plan to use gene weapons as a secret weapon

to combat enemies. Chinese Chinese, European in Europe, and the genes of the Arabs in the Middle East are all collected by the U.S. military."

Like the "China National Defense Daily" article, the articles of Chinese official media mentioned the Wall Street Journal, but none of them provided the date, title, direct quotation and original links of the report. The interviewees have no specific information such as names, occupations, and only vague claims of "participants".

Asian facts investigation of the laboratory recently believed in the Chinese Ministry of Foreign Affairs and asked the news about the news and the specific information reported by the Wall Street Journal, but did not receive a reply as of press time.

In fact, in addition to SARS, the rumors of "gene war" and "gene weapons" repeatedly repeatedly repeatedly repeatedly repeatedly repeatedly been repeated in network space during the new crown epidemic and the Russian and Ukraine War. According to them, the "plan" of developing gene weapons in the United States has begun 20 years ago, but to this day, it is still only known as the "plan", and the Wall Street Journal has not made any follow -up reports.

3, "gene weapon" and "biological warfare", are the themes of Soviet and Russian information war growth.

Historical data recorded by the official website of the US State Department showed that since the former Soviet era, , AIDS, anthrax, Ebola, SARS, and new crown virus have all been called biological weapons made by the United States or Western by the Soviet Union and Russia. The "SARS may be a genetic weapon for China" claimed by Tong Zeng's works, similar to Russia's propaganda caliber.

Screenshot of the webpage of the School of Public Policy of the University of Maryland. The report did not show that FSB mentioned information such as Chinese and Middle Eastern people. However, after translating it into Chinese, the communicator joined information such as "Pentagon", "Asian Chinese", European Yalian, and the Middle East Arabia" and other information. The mouth was announced to the world.

4. The weapons of murderers of specific genes cannot be achieved at the current technical level

British released in 2021 [NO TIME to DIE](#). Among them, a gene weapon engineering called the "Projectheraclis" is fictional. The nano robot developed by the project to discharge the virus according to a specific DNA encoding. Others with a specific DNA are not affected. This bridge section of "killing by genes" is common in literary works. In April 2022, a popular science website of Cambridge University It is clearly explained that the weapons that are murdered by specific genes cannot be achieved at the current technical level.

5. The United Nations Convention on Biological Weapons has strictly restricted biological weapons

However, the development of science and technology is thousands of miles a day. If there is no restriction on the use of technology, it is likely to cause out

of control. Biotechnology is like nuclear weapons technology. The choice faces is not "can", but "should".

Biological weapons convention, BWC It has made comprehensive restrictions on the development, production, acquisition, transfer, storage, and use of biological weapons in the world, and has established specifications for the peaceful use of biotechnology. At present, there are 183 signing of the convention, and the United States and China are both parties.

In the spring of 2022, when the false information of "the United States established a biological laboratory in Ukraine" flooded the network space, And reiterated again that the United States, as one of the Contractors of the Biological Weapon Convention, has been strictly abide by the Convention.

China-Central Asian Summit logo displayed on May 16, 2023 outside the Xi'an Media Center in Shaanxi Reuters picture The China-Central Asian Summit and the Seventh Kingdom Group Summit (G7) will begin this week. What issues will the two summits focus on? In addition, the two summits are similar to the date, does this imply that the international order in the future will become a confrontation between developing countries and developed countries led by China?

*** China-Central Asian Summit Synchronous G7 to international demonstration?** The China-Central Asian Summit will be held in Xi'an on Thursday. Chinese President Xi Jinping and Kazakhstan, Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan will attend. General analysis of the outside world is that the summit will focus on the energy supply chain. Especially after the Russian and Ukraine War, China realized that Russia was deeply influenced by economic sanctions. Therefore, if they want to establish an energy supply chain with Central Asian countries, in order to cope with the war in the Taiwan Strait, the current route of imported from the Malacca Strait may be due to Western sanctions. And restricted.

Scholars: Central Asian countries will ask China to provide more "Belt and Road" funds

According to Hong Kong 01, Dai Bing commented on the upcoming China-Central Asian Summit on Tuesday on Tuesday. —Exposed by the Central Asian Destiny Community. "Dai Bing added that at the summit, China and Central Asia will emphasize mutual respect for sovereignty and territorial integrity, jointly crack down terrorism, and jointly deepen cooperation in the" Belt and Road ".

Chinese Foreign Ministry spokesman Wang Wenbin also mentioned on May 8th that the China-Central Asian Summit "is the first major home diplomatic activity in China this year, and it is also the first time that the sixth countries have held the summit for the first time in the first 31 years of the establishment of diplomatic relations."

Zack Cooper, a senior researcher at the Washington Think Tank American Institute (AEI), told reporters in an interview with this station that in the China-Central Asian Summit, Central Asian countries should pay attention to the "Belt and Road" issue: "Central Asian countries I hope to maintain China's investment in Central Asia. China 's" Belt and Road "funds have declined in recent years, so Central Asian countries will ask Beijing to provide more funds and resources. At the same time, members of the meeting will focus on Russia and the members of the meeting. China's power interaction in Central Asia. "

The Broadcasting Corporation reported on the 17th that the stage that Xi Jinping chose was not Beijing, but Xi'an. Xi'an used to be the starting point of the Silk Road. This main road connecting China and Central Asia, the Middle East, Africa, and Europe is also an important channel for China's economic and diplomatic expansion.

Ten years ago, Xi Jinping, who came to power shortly, proposed the "Belt and Road" plan that revived the ancient Silk Road in Kazakhstan, Central Asian countries.

On May 16, 2023, the countdown clock showed that the Seventh Kingdom Group Summit will open in Hiroshima, Japan after three days. (Agencelet) □
Scholars: The Qi Kingdom Group Summit will focus on China's harm to global economic security

At the same time, the Seventh Kingdom Group Summit is about to be held in Hiroshima, Japan on Friday. The outside world estimates that the summit will focus on the issues of China. According to international media reports, this summit will release 6 results documents. The above documents will not only require China to bear the "responsibility of being a member of the international community", but also reiterate the importance of peaceful resolution of the Taiwan Strait. In addition, the above documents will also mention Ukraine issues, nuclear disarmament, and how to face China's economic stress and improve economic security.

In response to the Summit of the Seventh National Group, Cooper analyzed the Seven Kingdoms Group will focus on exploring China's economic coercion issues and issued a statement. The main information will be to maintain the existing order, so China will be mentioned at the meeting, but I

think that there will be more parts of Russia, especially for the Russian and Ukraine War. As for the part of China, the summit should discuss how to deal with China's unfairness. Economic operations and economic coercion, although it may not be named China in the statement. "

Bonnieglaser, Director of the Indian Project of the Marshall Foundation (GMF) in Washington, USA, also said in an interview with this station that members of the Seven Groups are highly concerned about the economic threat of China: " A separate statement will be issued for economic security issues. Although China is likely to not be named, the discussion at the summit and the content of the post -after -to -event statement will show their concerns about China. And discuss specific measures. They will also discuss the issue of overseas investment review. "

Scholars: China-Central Asia Summit is intended to compete with the Seventh-way Group Summit to compete

For the China-Central Asian Summit and the Seventh Kingdom Group Summit chose to be held at a similar time, June Teufeldreyer, a professor at the Department of Political Department of the University of Miami, told the reporter that this is China 's intention to compete with the Seventh National Group:" China chose to hold this time to hold it at this time. The China-Central Asian Summit is intended to compete the public's attention to the Seventh Kingdoms Group Summit. China has generally abandoned the impact of the developed countries, that is, a member of the Seventh Kingdoms Group. China will focus more on improving the support of China to China. Including Central Asian countries. "

In this regard, Cooper also has a similar view: "I am not sure that the time for the China-Central Asian Summit is to be finalized before or after the Seventh National Group Summit, but it is worth noting that China often holds diplomatic activities in large diplomatic activities in the United States in the United States. So I would not be surprised if China specially chose to hold a summit at this time, which is likely to be China intentionally to confront the Seventh Kingdom Group. "

Chinese leader Xi Jinping showed on the billboard behind the Chinese soldiers "can win the battle and excellent style" Reuters picture Chinese talk show actor House (House) recently performed by the official media, "the offending the people's army", Xinhua News Agency commented: "The People's Army protects the country and everyone must be in awe." Li Haoshi was investigated and the company was fined huge sums. A talk show is so stimulating. Who does it touch?

talk show quoted Xi Jinping's "excellent style can win the battle" was accused of insulting the army According to the Weibo number "Ping An Beijing Chaoyang", the Beijing Chaoyang Police reported on the 17th that "the plot of serious insults of the people's army during the performance for actor Li Moumou (male, 31 years old), which caused a bad social impact during the performance, causing bad social impact In the case, the public security organs have filed a case in accordance with the law. "

Li Moumou here is obviously Li Haoshi, a talk show actor of Xiaoguo Culture Company. According to the recording circulated on the Internet, in the two performances in the afternoon and evening on May 13th, he said that the two stray dogs he adopted made him think of "excellent style and winning the battle" eight characters. Essence This stalk caused him to make him trouble.

First of all, a Weibo user called "Manchester United fans who didn't want to disclose names" posted: "If this stalk is unintentional, then I advise you to delete it next time. If this stalk is intentional, then I think you do it. Dead. You and you have insulted the people of the people. "The relevant discussion then opened warmly on the Internet, and some netizens reported to the authorities. Beijing and Shanghai Cultural Tourism Department immediately involved in the investigation.

The Beijing Municipal Cultural Tourism Bureau announced on the 17th that administrative penalties for Xiao Guo culture, warning and confiscation of illegal income of more than 1.32 million yuan, and fined more than 1.335 million yuan. And its performance brokerage agencies and operating units of the performance field "further accountable in accordance with laws and regulations."

Swordsman Culture later said in an interview that a series of rectifications will be made, including immediately lifting the actor's labor contract and an artist brokerage contract; the audit department that is independent of the performance business will be set up And form a normal state to avoid "touching the political red line and the public bottom line because of ignorance."

At present, actor Li Haoshi's Weibo account has been banned.

The comedian House said on the stage that his two "wild dogs" chased the squirrels, thinking of "can win the battle, excellent style", causing a big disaster. (Posted on Weibo/Guting) **Official media: The People's Army "must be in awe", " must not offend"**

For Li Haoshi's talk show, official media also made a lot of articles. At noon on May 16th, Xinhua News Agency posted through Weibo: "The People's Army protects the country and everyone must be in awe;" listening to the party's command, can win the battle, and excellent style ', each word cannot be offended!"

"People's Daily" also commented on the same day that under the name of "joking", degrading the honor of soldiers was a serious problem of breaking through the legal red line.

In this regard, some netizens said, "This stalk does step on the thunderbolt of most people, and there is a feeling of wanting to laugh and laugh. Although the talk show is offending culture, it is a bit more joke with the war." Said: "The bottom line cannot be touched. So laughing fruit is damn. The

company's party building is not in place, indicating that there is not enough political awareness. In China, political awareness is very important."

Some netizens said: "The People's Liberation Army is too glassy, and people have not named them. They have to put themselves up. So they are afraid of insults, and fight? People have defeated the PLA." Some netizens pointed out: "Now The atmosphere is very confusing, I was reported when I was everywhere, and I insulted it when I was everywhere ... Is everyone who takes a red book ??? Is it a period of the Cultural Revolution? Is it me trapped? "

Who did this talk show "offend"?

What exactly is China's official red line in this incident? Why is the official media emphasizing that "listening to the party's command, being able to win the battle, and excellent style", each word is "not allowed to offend"?

In fact, this slogan comes from Chinese leader Xi Jinping. In 2013, Xi Jinping said at the PLA delegation at the First Session of the Twelfth National People's Congress: "The building of a people's army that listened to the party, can win the battle, and excellent style is the party's goal in the new situation. "Official media often quoted this passage to describe the Chinese army.

Henghe, a scorching commentator in the United States, told the station that the official movement was to work hard because this talk show actually offended Xi Jinping. "Because now the personal worship of Xi Jinping has reached the point of reaching the peak. For example, in that museum, the tea cup he stared at. Then what he said and the definition of the CCP army, can you use it casually? The most important thing is that he uses this to use these words, and of course it is not allowed. "

Henghe said that the official believes that this talk show is a "disrespect" to Xi Jinping, but it cannot be said directly, so it has to be used as "insulting the PLA". In fact, the CCP has never really respected the soldiers. "Those soldiers who killed Laoshan had no money to go there for decades to sweep the grave for decades. Who cares? There is no such thing. "

Yao Cheng, former Chinese Navy Lieutenant Colonel, also told this station that the CCP severely punished the talk show actor and company, but appeared on the surface to maintain the army's posture and maintain its rule. "The Communist Party now relies on the gun to protect its rule and its own interests. The army is its lifeblood, and it must fall down when it loses the

army. Therefore, it must maintain the so -called 'reputation' of the soldiers. ah?"

For example, Yao Cheng said that in the confrontation between the Sino - Indian border, the army of the two sides used stones to fight, and more than 20 people died in India. The official held a national burial, while the Chinese side died more than 40 people, but the authorities secretly buried them. The family members were not allowed look. "How much honor does Chinese soldiers have? To be honest, even dogs are not as good as dogs."

Yao Cheng believes that after the June 4th massacre of 1989, soldiers have fallen extremely high in the minds of Chinese people. Now, soldiers have no sense of honor for their identity. "The current army is no longer the soldiers of the country and the people. It is a member of the SS, and even Xi Jinping's personal watch dog. So this talk show is not accidental." In addition to laughing fruit culture and actor Li Haoshi, the case also caused a chain effect. According to the Chinese Digital Age, on May 16, a Weibo netizen@hwy commented on the topic of the "Xiao Guo talk show performance storm", thinking that it should not be permanently blocked by the artist, and at the same time, a ridicule should be released at the same time. Comment, "Isn't the soldier brother who is a dog brother?" However, this comment was reported by other Weibo users. The netizen was subsequently detained by Dalian Public Security because of "publishing improper remarks involving soldiers on the Internet."

In February of this year, the Chinese talk show actor Chi was touched in North America. The suspected performance of the performance involved the sensitive topic of the authorities and was blocked on the domestic network. In November last year, the Weibo account of the talk show actor Meng Chuan was also banned. The online screenshot of the circulated showed that he protested by the "white paper movement" and praised the students.

These stalks are all expressed exaggeratedly to find the laughter and weakness of society, so the talk show is the easiest to be "taboo".

At present, the control of the Chinese authorities for public opinion is considered the strictest period after the Cultural Revolution. Henghe said that in recent years, the CCP has returned to the Mao Zedong era more and more, and the literary and art circles have returned to the program of "Yan'an Literature and Art Symposium". "Because Xi Jinping missed that era, it was impossible to reproduce the Cultural Revolution, but the control before the Cultural Revolution was his ideal state of Chinese society."

"Things are changing ... "

May 16 this year is the 57th anniversary of the Cultural Revolution. Regarding this talk show, Yu Maochun, director of the China Center of the Hudson Institute in the United States, issued a meaningful tweet on the evening of the 16th: "things are changing ..."

Henghe said that the rectification talk show is to kill a hundred hundred, indicating that whether it is in the officialdom or in the entertainment industry, "Xi Jinping's authority is absolutely impossible to challenge."

Britain is planning to build a "International Alliance" with the Netherlands to help Ukraine purchase F-16 fighters and conduct operation training for Ukraine pilots.

The United States CNN reported that British Prime Minister Sonak held a meeting at the Icelandic Summit of the European Commission on Tuesday (May 16), a Dutch Prime Minister, on Tuesday (May 16). Ability ... including training and delivery of F-16 fighters. "

Ukraine has repeatedly emphasized that the F-16 fighter is essential for defending Russian missiles and drone attacks.

The director of the Ukraine's office, Yeermack, welcomed the news announced by the United Kingdom and the Netherlands, and thanked "our allies decided to work hard in this direction."

Yermark also said that another NATO League Belgium has "confirmed preparing for training" Ukraine pilots.

The British Air Force does not have a F-16 fighter, but the Netherlands and Belgium have this fighter. The US Air Force Fleet has nearly 800 F-16 fighters.

According to the U.S. Air Force, the F-16 fighter in 1978 was a "relatively low-cost, high-performance weapon system". It can act in the air or ground attack mode and fly under all weather conditions. The voyage is 860 kilometers.

Since the outbreak, although the President of Ukraine has appealed many times, no international allies are willing to provide F-16 fighters to Ukraine.

CNN reports pointed out that if the F-16 fighter is obtained, Ukraine's current military aircraft equipment will usher in a substantial upgrade.

Profile picture: Chinese dissident Guo Feixiong New Citizen Movement
International public opinion believes that Guo Feixiong, a well-known human

rights defender, disagreement, and an independent writer who have just been sentenced to 8 years in prison. So, what is his main political view?

Guo Feixiong was sentenced to eight years of prison in Guangzhou on May 11 with the crime of inciting subversion of the state power. Nearly 57 -year -old Guo Feixiong is Yang Maodong, from Hubei, who graduated from the Department of Philosophy of Shanghai East China Normal University in his early years. In the past 20 years, the main rights protection activities he have participated in include the incident of village officials in Taishi Village, Guangdong, supporting Falun Gong's support, calling on official property of officials, and the new citizen movement.

Guo Feixiong published an article on overseas websites to discuss China's political system and rights protection movement. Judging from the information disclosed by the Rights Protection Network, the Guangzhou Intermediate People's Court sentenced Guo Feixiong for 8 years, related to his long -term publishing articles on the Internet, creating the World Constitutional Democratic Forum, and receiving interviews with Radio Free Asia.

What does Guo Feixiong published an article on the Internet reflect the political claims and ideological views? In today's "Network Game" program, please listen to our interview with Zhang Yu, a writer and a free Writing Committee for overseas independent Chinese strokes. The strokes registered in the United States are the branches of the international writer group pen, and the title of Honorary member of Guo Feixiong was awarded.

In January 2021, Guo Feixiong was arrested when he was preparing to take a plane to the United States to visit his seriously ill wife at Shanghai Pudong Airport. Guo Feixiong sent an open letter to Chinese leaders Xi Jinping, Li Keqiang and others, hoping that the government could allow him to go out to the United States to visit his wife.

On January 27, 2021, Radio Free Asia issued a reporter Xue Xiaoshan's interview with Guo Feixiong. Guo Feixiong talked about why he was fighting for a hunger strike at the time and asked the Chinese government to allow him to visit his wife who was sick in the United States. In January 2022, after Guo Feixiong's wife died of illness in the United States, Guo Feixiong was arrested for suspected instigating the subversion of the state power.

The Chinese government prohibits the media and the Internet from expressing different voices. The Chinese people cannot understand Guo Feixiong's political propositions and views on China's online platform.

The U.S. State Department recently issued a statement that condemned the Chinese government for eight years in prison, calling on China to release Guo Feixiong and allow him to go to the United States to reunite with his family.

The U.S. State Department urges China to fulfill its international commitments, respect the human rights and basic freedom of citizens, including freedom of speech, and stop arbitrarily detained citizens at will.

Description: (France-France-France-France, Geneva, 17th) The phenomenon of gas emissions of greenhouses and the phenomenon of holy infant has caused the surface temperature of the earth. The United Nations warned today that it can be determined that it will be the hottest five years since 2023-2027.

Videos: []

Images: ["[000000.png](#)"]

The World Meteorological Organization (World Meteorology Organization) said that the global temperature will soon exceed that the restrictions set by the Paris Climate Agreement will not exceed 1.5 degrees Celsius, and the chance of 2/3 will occur in the next 5 years.

The hottest eight years since the record has all fallen from 2015 to 2022, but with the acceleration of climate change, the temperature will rise further.

The World Meteorological Organization stated that 98% of the chances will be the hottest year since the next five years, and the overall five years will also be the hottest period.

In 2015, the Paris Climate Agreement agreed to restrict the global average temperature increase, exceeding the level of more than 1850 to 1900, which was "far lower than" 2 degrees. If possible, it was limited to 1.5 degrees Celsius.

The global temperature in 2022 was 1.15 degrees Celsius from 1850 to 1900.

The World Meteorological Organization stated that during the five years from 2023 to 2027, 66% of the opportunity to at least one year of global surface temperature will exceed the level of 1.5 degrees before the industrial revolution era. In the past 5 years, the temperature increase range of each year will be predicted from 1.1 degrees Celsius to 1.8 degrees.

This does not mean that the global temperature will permanently surpass the goal of the Paris Climate Agreement, but Petteritaalas, Secretary -General of the World Meteorological Organization, said: "The World Meteorological Organization is issuing a warning to remind us that we will temporarily increase the temperature by more than 1.5 degrees Celsius. The frequency will increase. "

"It is expected that the phenomenon of warm infants will occur in the next few months, and the climate change caused by humans will push global temperature to unknown areas."

"This will have a profound impact on human health, food safety, water management, and environment. We must be prepared."

Malaysian government revokes Continue to burn. Malaysian Prime Minister Anwar announced that the cabinet agreed that the government had canceled the appeal and was obtained by the head of state of the head of state to the Malaysian rulers' council to strengthen the policy of implementing the word "Alla".

Anhua issued a statement after the cabinet meeting on Wednesday (May 17), saying that the Cabinet Conference discussed the approach of the general procuratorate to withdraw the appeal and agreed to the government to do so. "This is to comprehensively solve the problem of how to use the word" Allah ", and strengthen the harmony and unity between the religions between the Malaysia."

He emphasized that the government decided to do this because the judgment of the Kuala Lumpur High Court involved only the administrative affairs of the relevant CD -ROM, and did not change the federal court's judgment in 2014.

In 2014, the Federal Court rejected the Catholic Church to the Ministry of the Interior's ban on the use of the word "Ala" in the Church Weekly "Ara".

Deputy Prime Minister Ahmad Zahi pointed out on Facebook on Wednesday that Anwar will be committed to defending the government's policy on the use of "Ala" on the basis of the relevant judgment of the Federal Court in 2014. He said that the government will streamline the problem of using the word "Alla" and submit suggestions to the ruler's meeting.

He pointed out that this is to maintain the status of official religion stipulated in the "Federal Constitution", while maintaining domestic racial and religious harmony at the same time.

The United Nations Organization urgently needed more than US \$ 3.03 billion (about S \$ 4.072 billion), thinking that the domestic people with a constant national armed conflict provided humanitarian assistance.

Reuters reports that Rameshrajasingham, director of the UN Humanitarian Affairs Coordination Department in the Geneva Office, said on Wednesday (May 17) that 25 million people in Sudan currently need humanitarian assistance and protection. It is half of the country's population.

Rajinsin Ham pointed out that the UN humanitarian emergency plan hopes to raise nearly \$ 2.6 billion in humanitarian rescue funds for the Sudan people, which is also the biggest.

At the same time, the UNHCR Department (UNHCR) also called on the international community to donate \$ 472 million in funds to assist those refugees who escaped Sudan in the next six months. The United Nations predicts that as many as 1.1 million people will escape from Sudan this year.

Last month, So far, more than 670 people have died, and more than 700,000 people in the Sudan are displaced. The conflict also threatened the regional stability.

Due to the stress of the situation and the progress of local humanitarian work, dozens of UN organizational staff were killed in the conflict.

When the Presidential Office announced the dissolution of the parliament, it stated that La Suo "disbanded the National Assembly in view of a severe political crisis and national turbulence."

The day before, La Suo proposed a defense against his impeachment case. He denied the allegations of corruption and said that his government was amended the contract signed a few years before he took office for the benefit of the country.

Although the Congress Supervisory Committee listened to the testimony of the opposition members, officials and lawyers of La Shun, he stated that impeachment was not recommended in the report. Most members still

supported a resolution, accusing La shuttle for allowing corruption contracts to continue.

La Su said in a film: "This is a democratic decision, not only because it meets the Constitution, it also gives power to the people of Ecuador ... decide their future in the next election."

In the same film, La Shu also ordered tax reform, saying that this would reduce the tax burden of Ecuador.

Ecuador's Constitution is loaded in a principle that allows La Shun to request the presidential and Congress elections under certain circumstances. These conditions include when the legislature hinders the government's operation.

The election court must decide to hold the election date within 7 days of the Congress.

Some members said that any dissolution of Congress operations are unconstitutional and they will refuse to follow.

Musk said he did not resign from Tesla CEO's plan. (Reuters)

Tesla (Nasdaq Stock Exchange code: TSLA)

After overnight, Tesla held an annual shareholders' meeting. At the conference, Tesla's various matters for the company, including: board members and shareholders 'voting, long -term planning of various measures, and Tesla's former executives' return to members of the board of directors.

This is also the third time Tesla held an annual shareholders' meeting at its Texas GigaAustin factory. The company also shared matters such as the clean energy plan mentioned in the car production target and development direction, the clean energy plan mentioned in the overall development blueprint of Tesla, and the software development of fully autonomous driving, and even the software development of Optimus humanoid robots.

In fact, the date of this year's annual shareholders' meeting was several months earlier than last year. From various news platforms and social platforms, some investors are unhappy about this. They believe that Tesla did not give them enough time to make some matters that need to allow shareholders to vote at the conference. Nevertheless, there are still several notable highlights at the overnight conference.

The first is the members of the board of directors. Tesla's co -founder and former chief technology officer JBSTRAUBEL returned to the nest, and he was also selected as a new member of the Tesla board. Steraberg left Tesla in 2019 and turned to start his battery recycling company RedwoodMaterials. The market has always been whispering in the industry, saying that Musk has a fickle personality. Only Straberg can stabilize the business for Tesla only at the board of directors.

Another topic is Robyndenholm. She was elected as the chairman of the board this time and had a term of three years. In the past, Danhom and members of the board of directors were criticized for "control" CEO Mask, which allowed him to focus on Tesla's business. Some shareholders even stated before the shareholders' meeting that they would vote against her again elected members of the board of directors. Nevertheless, she was selected.

CEO Musk was re -elected as his position in the board of directors. In his speech on shareholders, Musk also announced the start of Tesla's new generation of motor plans. He also believes that the global economy will begin to improve after 12 months.

Not only that, Musk also revealed that the company is developing two new cars, one of which is called a new third -generation platform; the second model may be the updated version of the rumored Model3 sedan. Musk also expects that the sales of these two models will reach 5 million each year.

Another project proposed at the shareholders' meeting is: "Key Person Risk" proposal. This proposal talks about the issue of succession and also requires Tesla to make a clear report on "key figures and behaviors to reduce potential losses." In fact, this proposal is mainly for Musk. These shareholders also require the company to formulate "a clear succession plan or strategy to reduce the impact of Musk once." However, the shareholders of the conference voted to veto the proposal. At the same time, Musk also said he did not resign from Tesla's chief executive.

On the occasion of the Tesla's shareholders conference, 15 of Tipranks's 30 analysts gave Tesla's "buy" rating, 11 rated "holding", and four gave "selling" selling "selling" to sell "The average target price of the one -year period is \$ 202.84.

The British Finance Minister Hunter said that it is impossible to make a tax reduction commitment in front of the election that is expected to be held next year. The current top priority of Britain is to reduce inflation.

Bloomberg reported that Hunter wrote the above remarks during the 2023 British Chamber of Commerce on Wednesday (May 17) in London. He emphasized that Britain is trying to achieve the goal of reducing inflation, and at the same time allows interest rates to return to the decline.

Hunter pointed out that the government is currently unclear whether there is any tax reduction space (Headroom for TaxCuts), but he suggested that when it involves tax cuts, he gives priority to reducing commercial taxes. "We must reduce taxes and especially reduce corporate taxes, but the worst tax is inflation taxes."

Affected by inflation, people's nominal currency income increases, but the larger proportion of income will be transferred to government fiscal revenue in

the form of taxation. This hidden tax increase caused by inflation is called inflationTax.

Prime Minister Sunak and his Conservative Party have been lagging behind the Labor Party in recent months. Sunak was under greater pressure from the party members in the party and asked him to reduce the British tax burden to attract voters.

However, Hunter said that he and Sunak were more focused on maintaining the reputation of the British in the financial market and hoped to avoid pouring fuel to inflation problems, thereby further increasing interest rates and borrowing costs.

Hunter also said that the authorities are considering subsidizing a strategic industry to respond to the United States' "Reduction of Inflation".

A report issued by the UN Environmental Planning Department shows that if various countries and enterprises use existing technology to conduct in-depth policies and market reforms, by 2040 [] It can reduce 80 %.

The report issued by the Environmental Planning Agency on Tuesday (May 16) pointed out that in the next few years, it is important that the world must minimize plastic products and reduce disposable plastic consumption to curb the aggravation of environmental pollution.

Agence France -Presse reported that the influence of plastic has attracted more and more attention. From the deepest trench to the highest mountain peak Mount Everest, micro-plastic fragments have been discovered. Human blood, breast milk, and placenta can also detect plastic fragments.

The report entitled "The Roots of cutting off: how the world ended plastic pollution and created a circular economy" was released two weeks ago in

Paris negotiations. At that time, negotiating representatives of nearly 200 countries will hold a second round of negotiations in Paris, aiming to reach an agreement to terminate plastic pollution next year.

The report briefly introduces the scale and nature of the change of plastic pollution and the need to create a circular economy, and provide reference information for government decisions and business actions. It formulates a three -pronged approach based on reuse, recycling and material use, so that by 2040, it will generally reduce plastic pollution by 80 % and reduce disposable plastic output by half.

In 2020, about 238 million metric tons of short -term use of plastic waste, such as the packaging of goods. The report pointed out that time is crucial: delaying five years of implementation may lead to an increase of 80 million metric tons of plastic pollution by 2040. First, it is necessary to eliminate problems and unnecessary plastics to reduce the scale of problems.

The report quoted research estimates that by 2040, the greenhouse gas emissions of plastic may account for 19 % of global emissions.

According to the Paris Agreement passed by the United Nations Climate Change Conference in December 2015. Countries agreed to control the global temperature rise of this century to the average temperature of two degrees Celsius during the average temperature higher than 1850 to 1900. The most ideal is to control the increase of the increase of 1.5 degrees Celsius. Greenhouse gas emissions caused by plastic may make the goal of the Paris Agreement unable to achieve.

The United Nations News Center quoted the Executive Director of the Environment Department, said: "The way we produce, use and handle plastic are polluting the ecosystem, bringing risks to human health, and destroying climate stability. If you follow this route, you can achieve a significant victory in economic, social and environmental aspects. "

However, environmental protection organizations believe that the plan listed in the report is not ambitious. The report assumes that the amount of plastic will continue to maintain a significant level. Xiao Chi Honglong, a member of the Green Peace Organization, said: "They try to change the pipeline, valve or anything else, but they have not tried to close the faucet ... they are not talking about reducing production."

Prince Harry and Princess Meghan were involved in a "nearly catastrophic" drag racing incident on Tuesday (May 16).

The BBC reported that after Harry and Meghan attended a awards ceremony on Tuesday, they encountered a paparazzi while driving and almost collided with other vehicles, pedestrians, and police on the road.

Prince Harry's spokesman said in a statement on Wednesday (17th) that although public figures will inevitably receive the attention of the public to a certain extent, they should never be "at the cost of anyone's safety."

Prince Harry's mother, Princess Diana, was killed in a car accident in Paris in 1997. At the time of the incident, her vehicle was chased by the paparazzi. In the interview, Prince Harry expressed his disdain to the lingering paparazzi around Diana.

NATO Cooperative Cyber DEFENCE Center of Excellence (NatoCCDCOE) also pointed out that at the same time, Iceland, Ireland and Japan were added.

The center issued a statement quoting Estonian Defense Secretary Hanno PEVKUR: "We are particularly happy to see Ukraine to join us."

"This provides a unique opportunity. At the same time, the Russian cruel war is also studied on the Internet battlefield, and the network security of all members is improved."

The Ukraine ambassador Mariana Betsa applauded this "milestone event", emphasizing that this is "a major step for Ukraine to officially join the road of the North Atlantic Convention."

This center was located in Tallinn in 2008, and NATO member states and other eight countries have joined.

Data experts from Europe and the United States serve the center and invest in the information network of this Western Defense Alliance.

Images: ["[000000.png](#)"]

At the same time, Kiev officials are trying to eliminate doubts caused by the Russian army's claim to destroy a set of Patriot air defense systems provided by the United States.

Li Hui arrived at Kiev yesterday and began a two -day talks with the Ukrainian authorities. This is a part of his trip to Europe, which aims to promote the Russian -Ukraine conflict settlement plan proposed by Beijing.

Unknown high -level Ukrainian officials told AFP that Volodymyr ZELENSKYY may meet Li Hui "maybe this afternoon".

Three weeks after the Chinese President Xi Jinping and Zerrenceki, Li Hui became the highest -level Chinese diplomat who arrived in Kiev since Russia had completely invaded Ulan last February last year.

Kiev warned yesterday that "mediation for mediation" was unnecessary for Ukraine.

High -level officials of Ukraine pointed out: "Ending the war at the expense of Ukraine, this does not work."

Beijing stated that Li Hui's purpose was to "communicate with all parties on political resolution of the Ukrainian crisis."

Xi Jinping has always attempted to create the posture of China as a neutral mediation. He visited Moscow in March, but was criticized for rejecting to condemn the Kremlin's attack on neighboring countries.
