(Voice of Germany) The global stock market's landslide last year also made many rich people's money bags a lot. According to data released by the consulting company Capgemini, the number of people with at least one million US dollars of investment assets was reduced by 3.3% to 21.7 million globally. %, Fell to \$ 83 trillion. Kaijie said that this is the year when the total assets and total number of total assets and total have fallen in the past ten years. "The unstable factors of geopolitical and market environment have caused this result."

In Germany, the number of "Millionaire Clubs" in 2022 decreased by 20,900 compared with 2021, a decrease of 1.61 million. The total assets of these rich people fell by 2.2% to \$ 6.1 trillion. In 2021, the total assets of the rich man also increased by 7.4% to \$ 63 trillion. Throughout Europe, the number of rich men in 2022 decreased by 3.2% compared to the previous year, and total assets fell to 182 trillion. The total wealth of the rich man in North America decreased by 7.4% to 256 trillion.

third

According to Kajie's evaluation, although wealth has shrunk, but in the ranking of the number of million rich people around the world, Germany still ranks third in Germany Essence The first ranking is still the United States, the number of million rich people is 6.9 million (7.46 million in 2021), Japan ranks second, and the number of millionaires is 3.55 million (3.65 million in 2021), while China ranks fourth. The number of net assets (HNWI) is 1.5 million (1.54 million in 2021). In the global wealth report released by Kaijie in 1997, the assets that take care of them include stocks, fixed income securities, private equity and other alternative investment, cash and non -self -use real estate. Collection and consumer goods are not calculated.

In 2022, the German stock index fell more than 12%.

Other analysts also agree with the trends depicted by the Kajie report: As early as October last year, Allianz Insurance Company issued a global financial asset report every year It has been said that after the growth period of more than 10%for three consecutive years, in 2022, due to the influence of the Russian -Ukraine war, currency tightening policy, and inflation, global wealth is expected to decrease by 2%. This will also be after the 2008 financial crisis. The maximum wealth shrinks.

Federal Bank of Germany also said that due to the landslide of stock markets in 2022, German shareholders have suffered heavy losses. As of the end of 2022, German private families including cash, stocks, deposits, and insurance returns, which were 7254 billion euros, were significantly lower than the 7624 billion wealth levels recorded at the end of 2021. The German Dax stock index fell 12.3%last year, and MDAX, which reflects the situation of the small and medium -sized enterprise stock market, declined by 28.5%.

There is a drone attack in Moscow, and Ukraine is not responsible for it

(Voice of Germany) This is a spiral. As in the past few days, from Wednesday to Thursday night, Russia once again conducted a large-scale air strike on Kiev, and this time used missiles. It was reported that two women and a child died. The Belgorod region adjacent to Ukraine and Ukraine has reported the news that it was attacked again by firepower. It may be the "Russian Volunteer Legion" attack, which launched an operation from the Ukrainian territory. In addition, a Russian media said that a drone was shot down in the Camaraga region. [The day before, a drone attack on Moscow and the surroundings became headlines around the world.](#) Such drone attacks have appeared for nearly a year. The first is to target military and energy infrastructure, and the goal is not limited to the Ukraine region of Russia, including Crimea, but also includes Russia. One of the earliest attacks was a refinery in the Rostov area in June 2022. It is rare to attack in Russia. In December, the strategic Engels Air Force Base was attacked twice.

On May 3rd, the Kremlin said that he was attacked by the drone

Behind the drone attack on Moscow

[Ukraine usually shows that it is not responsible for these attacks.](#) At the same time, Russia launched an attack on Ukraine throughout the territory, which

frequently launched attacks such as various weapons such as missiles and missiles. From the perspective of losses and casualties, the two could not be compared. However, in the past month, drone attacks that are not close to the border areas have increased. This is how the same thing?

Experts have different opinions. Gerhard Mangott, an expert in Russia in Austria, believes that Moscow's air strikes, the fire attacks in the Russian border area, and the "guerrillas" moved there -s he said the "Russian Liberty Legion" and "The Russian Volunteer Russian Volunteer Corps" "guerrillas" are said to be a Russian citizen-there is a connection between the three.

Russian border area has been attacked in Ukraine and said it has nothing to do with this

Psychological tactics

Manste said to Germany: "Obviously, Wufang hopes to bring the fear of war to Russia. I want people there to feel that the country cannot protect them, whether in the border area or in Moscow." He It is believed that this is the illusion that the Kremlin is trying to create in Russia's society without war and everything.

柏林智库欧洲外交关系委员会的军事专家格雷瑟尔(Gustav Gressel)

柏林智库欧洲外交关系委员会的军事专家格雷瑟尔(Gustav Gressel)则认为，必须对无人机袭击和贝尔格罗德的情况加以区分。他向德国之声表示，对莫斯科的无人机袭击是战争中的心理战，"用高射炮把俄罗斯的干部们一早从床上轰起来"。格雷瑟尔认为，贝尔格罗德以及边境地区的袭击则与乌克兰的反攻有关。他认为，基辅想要迫使俄罗斯在边境地区加强兵力，为此也就必须从乌克兰境内撤走一部分兵力。至于这是否会增加乌方反攻的优势，在数周后才会比较清晰。

西方对无人机袭击莫斯科的反应

西方对新近的情势反应谨慎。周三，一名德国政府发言人向德国之声表示，国际法允许乌克兰出于自卫而向俄罗斯领土发动袭击，但他同时补充说，柏林反对将德国向基辅提供的武器用于这样的行动。乌克兰最重要的武器提供国--美国的反应也类似。[白宫发言人基尔比\(John Kirby\)表示，对莫斯科的袭击中没](#)

有使用美国的武器。 He also emphasized that the United States does not support attacks on Russia.

Russia: Ukraine tries to assassinate Putin with drones

F16 is only used for deterrence?

Kiev hopes to obtain more weapons from the West, but some analysts believe that this is mainly a deterrent effect. At the recent G7 Summit of Japan, US President Biden said that Ukrainian President Zernezki promised that the F16 fighter that the country has always wanted to obtain will not be used to attack Russia. So far, Western partners have only decided to train Ukraine pilots, but have not decided to provide F16 fighters.

(Voice of Germany) The Japanese government announced specific measures on Thursday (June 2) to suppress the decline in birth rate by increasing financial support for children's families.

The Japanese government said it will reverse this trend of about 3.5 trillion yen (about \$ 25 billion or 23.5 billion euros) per year. Although the decline in birth rate has affected many developed countries, it is particularly serious in Japan.

From birth to two years old, parents will have the right to obtain allowances of about 15,000 yen (about \$ 107) per month. Children over 3 years old will get 10,000 yen, and the age coverage will be expanded to high school.

According to the draft policy, the state will no longer use household income as the standard for issuing parenting allowances. The government also plans to open a childcare or day care center for children, even if their parents do not work.

Starting from fiscal 2025, the Japanese government will also increase childcare fake benefits. Even if both parents are reconciled, the disposable income of the family will remain unchanged for up to four weeks.

These measures also include increasing paid parenting leave and subsidies for fertility treatment.

Why do you want to introduce this "birth" policy?

Data show that in Japan with a population of 125 million, the number of births of the year last year was less than 800,000. It has reached a new decline in eight years earlier than expected.

Japanese Prime Minister Kishita Kishita proposed the plan in March, at the time he stated that he was proposing "the policy of declining birth rates in unprecedented scale" And seeking income of childcare.

He said to a group of ministers, experts and business leaders: "We will continue to take these measures to cope with the problem of decline in birth rate without asking the public to bear more burdens."

Japan is the second largest aging country in the world after Monaco, and its relatively strict immigration policy means that it is facing the problem of labor shortage.

A public opinion survey from Reuters shows that more than nine -tenth Japanese companies have a sense of crisis on accelerated fertility rates.

At the same time, the cost of taking care of the elderly is also soaring. The Kishida government was criticized for failing to rely on the sources of funds that reducing expenses and eager to improve the economy.

On the day of June 4th, a netizen named Li came forward to accuse Wang Dan's sexual harassment in Taipei, and asked Wang Dan to apologize before midnight on the 6th of Taipei. Wang Dan responded again. Taiwan recently set off "#Metoo"(Mi Rabbit) The upsurge of sports, blue and green are named politicians.

* Wang Dan's seizure of sexual harassment "Li Yuanjun" was interviewed for the first time

李姓网友两天前先在个人脸书发文指控，9年前应王丹之邀前往美国，遭到王丹性骚扰。4日上午他在台北市议员林亮君陪同下，以公开露脸方式重述当时的经过。

李姓网友称，2014年6月6日晚间，在纽约某饭店，遭王丹强吻，并“强暴未遂”。他说，接下来的几天中，王丹不时对他言语骚扰、有意无意暗示试图发生关系。他说，因为在美国举目无亲，语言又不通，一周多的时间他担心受怕，最后提前返台。

李姓网友拿对话截图为证

对于有部分网友对他的指控表示质疑，李姓网友拿出他与王丹的对话截图指出，王丹在2014年5月30号台湾时间下午4点47分传讯息“在纽约等你”，称这是一个明确的邀约。他也公布几张王丹私人住所照片，与王丹直播比对，像是挂画、台灯等位置都完全吻合，证明他确实去过。

由于前一天王丹以“没有性骚扰”以及“记忆落差”回应相关指控，李姓网友对王丹喊话称，他手上有录音等相关证据，要求王丹道歉否则提告。“如果6月6号之前，没有在社群为过去行为，向所欺负过或骚扰、甚至侵害过的人道歉，我会带着证据向检方提告。”

“欢迎提告，支持用法律的方式寻找事情的真相。”王丹接受本台查证时做上述回复。

The netizen of Li showed a screenshot of the dialogue with Wang Dan, proved to be invited by Wang Dan to the United States.(Reporter Li Zonghan Photo) **Why did the engine from revealing the engine before June 4th?**

Netizens named Li revealed the so-called sexual harassment inside story. The June 4th Memorial Museum, which happened to be involved in Wang

Dan, was unveiled on the same day in New York. Netizens named Li actively explained that June 4th is a very important day for democracy in the world, but it is also a stain. He said that Wang Dan stood in front of the tank at that time to suppress human rights to fight the power of the Communist Party of China. But now he is facing Wang Dan, "like the person standing in front of the tank car."

"I'm scared. I think if I am not careful, I may be killed by your tank. You have too much power than me. You have too much halo, and your hand can even reach politics or The academic circle. "Li surnamed Li said.

The netizen of Li surnamed Li once complained to the two former Taipei City councilors. However, he said that he was unstable in physical and mental condition nine years ago, and he was worried that he would be discredited into "Chinese assaults", so he stopped. Now that several recent political workers have revealed sexual harassment and inappropriate treatment in the workplace, they have given him the courage to stand up.

Taiwan politics set off #Metoo trend

On May 31, a former party worker of the DPP issued a letter on Facebook on Facebook. Director "Hui Ge" was sexually harassed. When she asked for help with Xu Jiatian, the director of the Women's Department of the Democratic Progressive Party at the time, she turned and left and was injured twice.

She quoted a well-known line of the recent political rammed drama "Candidate-Creator". Drop, you will die. "

In addition to Xu Jiatian, this post was in the Taiwan politics frying pot. At that time, Lin Feifan, deputy secretary -general of the DPP, also apologized for "ignoring the reason behind the parties not to take the appeal channel". Immediately after another female party worker was accused of being sexually harassed by his classmates, he reported to the then director of the youth department that he also forced her to apologize on the grounds of influencing the atmosphere of the department.

Regarding the sexuality of the party in the party, Lai Qingde, the current chairman of the Democratic Progressive Party, has repeatedly apologized to the victims and Taiwanese society. "Personal safety and rights are the most important.

Former Democratic Progressive Party and Taiwan President Tsai Ing -wen also posted on Facebook that in the past two days, the victims were revealed one after another. Essence "As a former party chairman, he is blame. To express his deepest apology to the victim's friends and the public."

Coincidentally, the Blue Camp also had politicians that were named and involved in the sexual show. Dong Chengyu, general manager of Mirror Literature, revealed on Facebook that a political figure who was the county chief and now the legislators. Grab her hand, and even suddenly stood up and "hug her head -in -law." According to its description, it is speculated that the Kuomintang legislator Fu Kunzheng, Fu Kunyi also issued a statement saying, "If there is any sexual harassment, please tell me!" Hou Youyi, a presidential candidate called by the Kuomintang, issued a statement calling on the Party Central Committee to "never ignore this."

The #METOO movement of Taiwan's political scene has been spreading more than ten in less than a week, and there are still how many unsteady bombs have been not exploded.

Genetic technology -The long -lasting development of grain production

Description: Around genetic food, there are various uneasy rumors. But in fact, with the continuous improvement of genetically modified technology, more and more experts believe that persistent food production has gained important and safe methods.

(Voice of Germany) For environmental protection, food production is simply a disaster. According to the "World Database" of the Internet magazine, agricultural production should not only be responsible for the quarter of the carbon dioxide emissions of the atmosphere, but also the most important persecution of biodiversity.

While the environment is destroyed, the global population is also growing. [The United Nations predicts that in 2057, the global population will reach 10 billion. So the question is, how can we increase the grain output by 50%?](#)

Can you reduce the serious consequences of losing the diversity of biological diversity as much as possible? Is genetic technology the key to solving this problem?

Matinqlaim, the director of the Food Economic Expert and Director of the Development Research Center of Bonn University, said: "We have now realized that expanding the area of grain planting is the culprit that causes climate change and harmful biodiversity. That is to say, in order to protect the environment, We must plant grain planting as much as possible. "

How can I feed 10 billion people?

Kaim said that in general, if you want to increase the output of food under the premise of protecting the environment, we must pay attention to two points: "One is that we must change the diet and pay attention to the durability of food consumption. Create less garbage and eat less meat. The second is that we need better technology to launch more favorable environmental protection agricultural production methods. "

On the one hand, we must change the way to produce food. For example, reduce consumption from the protein and nutrition of animals. But this is not enough to solve the problem. Kaim and other experts believe that genetically modified technology will become an important foundation for continuous food production.

"Everyone hopes to get the highest output on the smallest area, and it cannot use pesticides and pesticides too much. Is it a good thing? "

What is genetically modified food?

After the biological genes are changed, their characteristics will also change. Through the transformation of crop genes, not only will the yield increase, but also the resistance to pests and pests will also be improved. It can also tolerate drought and frost, and may also allow crops to provide more nutritional components.

In addition, crops can be optimized to reduce carbon dioxide emissions, thereby improving the sustainability of agricultural production. Although the popularity of genetically modified technology is getting higher and higher, the planting area of genetically modified food only accounts for 10 % of the total area of arable land.

Replanet is a non-governmental organization alliance dedicated to stop climate change and protect biological diversity with scientific means. The spokesman of the alliance DavidSpencer said to Germany: "GMI is actually a common technology in the process of plant culture. The hybridization technology used for thousands of years has been very similar. In fact, its technical means have become more exquisite, so that we can change plants faster and more accurately. "

Flood disasters are one of the natural enemies of rice planting.

GM technology was first used in agricultural production in the United States in 1994. After modification of tomato genes, its maturity period became slow, and the storage period was extended. Since then, genetically modified

technology has also been allowed to be put in soybean, barley and rice planting. At the same time, genetically modified bacteria also appeared, which can produce more protein.

Indian scientists have developed SUB1 -resistant rice, which greatly improves the ability of this rice to fight flood disasters. Flood disasters are the main problems of rice planting areas in northern India and Bangladesh, and with the changes in climate, flood disasters have become more serious and frequent. At present, 6 million farmers in the region are planting SUB1 to flooded rice.

The so -called golden rice is to improve the vitamin A content in rice through genetically modified technology to cope with the shortage of vitamin A in the Asian -African region.

Discussion caused by genetic technology

There are still many people who have doubts about genetically modified technology. A poll in 2020 shows that half of the respondents from more than 20 countries skeptical of the safety of genetically modified food.

Thirty years ago, when genetic technology had just appeared, even in the academic circle, some people doubted the safety of genetically modified foods Essence But this situation has changed today.

Rhodes made analysts of South African Biological Safety Organizations in in-depth research on the safety of genetically modified foods. He said: "We already have thirty years of experience and data. These data tell us that in terms of consumption, genetically modified foods are very safe and have no harm to the environment."

Roders believes that now in any country, the use of genetically modified technology needs to obtain government approval. "After being approved by planting and commercial operations, it also needs a long stage of research and development and experimental stage."

Mengshan has broken the reputation of genetically modified food

Kaim said that in discussions involving genetically modified technology, people often mix genetically modified technology with corporate industrialized planting. The bad effects caused by Mengshan are still shrouded in the entire industry. "Some people are worried that companies such as Mengshan will continue to promote a large amount of vicious agricultural production models that use pesticides and a single planting, and buy seeds to farmers at high

prices." Kaim said that the above issues are more manifested in related technologies. Supervision, not genetically modified technology itself.

Due to the serious use of pesticides, Mengshan made the entire industrial crop planting industry ashamed.

"Kaim said:" A small number of enterprises dominated industrialized agricultural production, this model itself is a mistake. But this has nothing to do with the genetically modified technology itself. Forbidden genetically modified organisms are like drug smuggling and pornography, so it is forbidden to prohibit The Internet is the same. "

The accident on Friday killed at least 288 people, and more than 1,000 people were injured

India collided and derailed in the evening of Friday (June 2), which had killed at least 288 people and more than 1,000 injured. There are many questions about the exact reason for this fatal accident to be answered.

According to reports, two special express passenger trains and a row of freight trains occurred near a small railway station in Audisha, Eastern Audisha. One of the passenger trains hit a row of cargo trains, and the carriage flipped into the third rail, causing a row to derail a train. The preliminary report states that the accident was caused by the fault of the signal.

The truth behind the accident will only be revealed after a comprehensive investigation, but it once again trigger concerns about the safety of the Indian railway.

India's railway system is one of the world's largest. The national railway network exceeds 100,000 kilometers (62,000 miles), and the number of

passengers per day is 25 million. Indian Minister of Railways Ashwinivaishnaw said that a new railway was paved about 5,200 kilometers last year, and about 8,000 kilometers of railways was upgraded each year.

He was in a recent communication [disclosed](#) Most railways are upgraded to adapt to trains with a speed of 100 kilometers per hour. A considerable part of them will be upgraded to a speed of 130 kilometers per hour, and some are prepared for high -speed trains at a speed of 160 kilometers per hour.

This is obviously part of the government's intention to run a faster train intention nation -the real high -speed railway line is built separately, connecting the financial capital of Mumbai and Ahamada Bad.

However, a former railway officer Viveksahai told me that derailment is still "a headache on the railway." There are many reasons for the derailment of a train- "maybe the rail maintenance is not good, it may be a problem with the carriage, or it may be a mistake in driving operations."

The Komand Express Train is derailed, turning over the neighboring rail, and was subsequently hit by another train closer.

A government in 2019-20 years [Railway Safety Report](#) It is found that 70%of the derailment of railway accidents has increased from 68%in the previous year. (Train fire and collision are ranked behind, accounting for 14%and 8%of the total of the total accidents).

Prime Minister Modi said the person in charge of the accident seriously punish the accident

The rescue operation of the train accident has ended, and officials said that the trapped and injured passengers had been rescued.

Prime Minister Modi visited the scene, saying that it was a "painful" incident.

He also said that guilty people were found in the accident would be "severe punishment."

This multi -train collision was described as the worst railway accident in India in this century. The current specific causes have not yet been clear.

The authorities have launched a comprehensive investigation on the incident. Officials of the railway authorities pointed out that the preliminary report stated that the accident may be caused by a signal failure.

According to the news, there are about 2,000 passengers on the two bus trains involved in the accident.

In the assessment year, 40 derailment accidents were counted, 33 times were passenger trains, and 7 times were freight trains. 17 of them are derailed due to the "defect" of the rails -may include the number of rails or settlement.

The report states that only 9 derailment accidents are due to the failure in the train -engine, carriage, car skin, etc.

The railway rails are made of metal. In summer and winter months, the temperature will be swollen and contracted due to temperature rising. They need to be maintained regularly -tightening loose parts, replacing pillow wood, and adding lubrication and adjustment to the transfer interface. This type of rail maintenance is done by artificial, hand -pushes, locomotives and tail vehicles.

The routine suggestion of the Indian railway is that the rail inspection vehicle carefully checks the geometric structure integrity of the track at least every three months to maintain the speed of 110 to 130 kilometers per hour.

Federal government auditors on derailment from April 2014 to March 2021 [Report](#) There are some disturbing discoveries:

There have been many discussions on the installation of anti -impact devices on the Indian train, but according to a railway official, the system currently only installed on two main lines -from Delhi to Kolkata, and from Delhi to Mumbai. As for how such a system can have a role in derailment or "strange" impact accident, it is unclear.

In 2010, a row of passenger trains in West Bengal was derailed and collided with a row of freight trains, causing more than 150 people to die

In 2010, a row of passenger trains in West Bengal was derailed and collided with a freight train, causing more than 150 people to die. Investigators said that the Maoist rebels destroyed the rails, causing this column to be derailed from Calcore to Mumbai's passenger trains, and five of them were thrown on

the track of another freight train. There are no signs that the accident on Friday has been deliberately destroyed.

The railway department pointed out that there were 34 "railway accidents that caused consequences" in 2021-22-collision, derailment, fire or train explosion, road cars and trains collided at the plane intersection, etc. many. The Hindus reported on May 31 that this type of accident rose to 48 years in 2022-23.

Report It is quite foresight that the railway authorities are concerned about the rise in the accident rate and have required their senior managers to "strictly evaluate the working time of the staff, especially the East Coast Railway and the Southeast Central Railway Department, and make urgent amendments." The accident on Friday night happened in the busy area of the East Coast Railway.

The 34th anniversary of the June 4th incident, Hong Kong Victoria Park, which has always held a mourning rally, has become a venue for the return of the "Rural Love" to the "Township City Collection" this year. The Hong Kong police strengthened deployment around Victoria, and the news that many people including the chairman of the Socialist Corporation, Chen Baoying, and former chairman of the Ji Jie Association were taken away by the police.

After the June 4th incident in 1989, Hong Kong Victoria Park's candlelight commemorative rally every year in June 4th was the world's largest June 4th commemorative event. In June 4th this year, Hong Kong did not have a candlelight party for the fourth consecutive year.

The former chairman of the community and the former chairman Wu Wenyuan posted on Facebook. At the seven o'clock in the evening, Chen Baoying, the chairman of the Society, held a yellow paper flower and electronic candle. He stood on the Jili George Street, Causeway Bay. Go to a police car. According to Wu Wenyuan's photo of Chen Baoying's police car, she has been raising yellow paper flowers in her hand, and the photo marking#refuses to forget.

At around 6 o'clock in the evening, Hong Kong's "Ji Zhishe" reported that Mai Yanting, former chairman of the Hong Kong Journalists Association, also appeared in Causeway Bay and was taken away by police officers present. According to the reporter of "Ji Zhishe", the police officer searched Mai Yanting at the entrance of Causeway Bay. The two sides were arguing. She was then taken away by the police. It is reported that Mai Yanting also interviewed the 33rd anniversary of the 64th anniversary of the 64th anniversary of Causeway Bay last year.

Mai Yanting has been the chairman of the Hong Kong Records Association for 25 years. The industry is called "MAK Sister MAK". The U.S. Congress and the Chinese Committee of the Executive authorities testified at hearing. The Wenwen Report also made Mai Yanting and two other associations, Yang Jianxing and Chen Langsheng as "anti -China -China Random Port".

In addition, the famous social movement, known as the "mother -in -law Wang", holds flowers in the afternoon and lifts the "5" and "1" gestures with both hands. It means that the 2019 demonstrators are often called "five major demands, lack of one indispensable". Surrounded by famous police officers, bringing away from Causeway Bay.

In addition, the police also took many people in the afternoon, including women with the word "conscience", and the three -character script of the stage drama "May 35" with the theme of June 4th, young people at Mo Station in Causeway Bay.

Behavioral artist Sanmu was arrested and shouted, "Don't be afraid of Hong Kong people, don't forget June 4th"

There have been sporadic commemorative activities on the eve of June 4th, and many participants have been arrested. On the evening of the 3rd, near the Causeway Bay Business District, AFP reporters witnessed the police pushed several acting artists into a police car.

After being arrested on the 3rd of Hong Kong artists on the 3rd, he shouted on the streets of Causeway Bay: "Don't be afraid of Hong Kong people, don't forget that tomorrow is June 4th."(Screenshot from Twitter) The police announced in the evening that four people had been arrested, and the crime was "destroying order in public places" and "behavior with incitement". After the artist Chen Sanmu was arrested, he shouted repeatedly on the streets of Causeway Bay: "Don't be afraid of them (police). Don't be afraid of Hong Kong people. Don't forget that tomorrow will be June 4th." Behavioral artist Chen Meitong was also taken on a police car in the nearby area at night.

Hong Kong artist Huang Guomai appeared at Taipei Liberty Plaza on the 4th to attend the June 4th Evening Party, and accepted an interview with this station that Sanmu's performance in Causeway Bay has exceeded 10 years. In the past, he also performed with Sanmu. In his opinion, this kind of terrorist caution in Hong Kong is normal, because the Hong Kong police have become a terrorist group to perform a drama of "scaring you".

"My friend Sanmu is very brave. When he was caught, he told Hong Kong people not to be afraid, don't forget that tomorrow is June 4th. I think he is demonstrating to us. The secret of freedom is courage." Huang Guo said.

Taiwan University's overseas Chinese student Liu Jiayi Garden's arrest of Taiwan college student group support

At the same time, according to the "Ji Zhishe" report, Liu Jiayi, the representative of the group "Tiananmen Mother" of the group, and Guan Zhenbang, volunteer, wearing a candlelight "Truth" shirt on the 3rd, and the "89 6420" black top , Mourning in the pond in Victoria. Liu Jiayi holds six white roses and four red roses, and is posted on her body with A4 white paper with "fasting". It is planned to start a hunger strike at 89643.4 seconds at 6:44 to mourn the June 4th incident and support the "Tiananmen Gate

Mother". The police officer then blocked the scene with an orange band and took them to the police car away.

On the evening of the 4th, Xu Guanze, President of the Graduate Association of Taiwan University, and Sun Yuqian, the president of Taiwan University Student Students held a press conference at the Free Square in Taipei to support the National Taiwan University Architecture and Urban -Rural Research Institute(Urban area)Graduate Liu Jiayi. Xu Guanze shared a conversation with Liu Jiayi at the "Urban and Rural Communications" in the National Taiwan University Urban and Rural Institute in 2021.

He said that today's thirty -four years ago, the Chinese government violently suppressed the students of Tiananmen Square with tanks. At this moment, China still has no advancement at this moment, and now he has stretched the black hands into Hong Kong. Peaceful demonstrator. He admires Liu Jiayi not only a graduate student from the National Taiwan University from Hong Kong, but also a sportsman who dedicated his life to the pursuit of freedom and democracy. They will pay close attention to the personal situation of classmate Liu, and also call on the presidents of the National Taiwan University to support their students and give necessary assistance.

In the evening, the National Taiwan University responded that Liu Jiayi was a Hong Kong student in the urban and rural institutes. The June 4th incident is a major historical event that the world cares about, and it is always worthy of vigilance. The National Taiwan University is currently in contact with relevant units, hoping that the competent authorities and all walks of life can support and assist Liu Liu.

Qiao Xinxin, former special reporter of the Chinese Department in Southeast Asia, recently reportedly lost contact with the outside world. Network screenshot/rights protection network

Qiao Xinxin, the initiator of "Disassembling Wall", recently reportedly lost contact with the outside world. The news released by the Rights Rights Network on June 4 pointed out that on the occasion of the 34th anniversary of the June 4th incident, Qiao Xinxin, who was in Laos, lost contact with the demolition of the Chinese network firewall movement, which caused the outside world to worry about the Chinese police's implementation of cross - border arrest.

The report quoted the attention of Qiao Xinxin's Internet news. On the evening of June 3, a friend Qiao Xinxin arrived at his residence and found that the door of his residence was locked. A Laos neighbor said that about 3 days ago, 2 Laos police and 6 Chinese police came. Another friend said that he was tracked last night, so he had to change his residence frequently and temporarily inconvenient to be interviewed by the media. Other people called Qiao Xinxin's call, but Laos and English reminded "unable to connect."

According to reports, Qiao Xinxin disclosed in April this year that the Chinese police organized the provinces to organize the provinces to enter Beijing and conduct a special battle for a month with the "Overseas Internet Army". At the same time, the authorities also instructed the Hunan Provincial Public Security Department, Qidong County, town police station and village cadres to investigate his personal situation and put pressure on him through local relatives and friends.

Rights Protection Network pointed out that as of now, it is not clear whether Qiao Xinxin has been arrested back to mainland China.

"We can't do big demolition and construction because of urban renewal." On the afternoon of March 7, the Minister of Housing and Urban -Rural Development said in an interview with reporters this year. A era is coming to an end.

In the 20th year of the 21st century when the real estate economy was singing, the development of almost all cities in China was accompanied by land acquisition, demolition, compensation and reconstruction. It is the most prominent logo in Chinese cities in the past few decades. In 2009, some media proposed the word "disassembly" that could be seen everywhere on the outer wall of the building at the time as the Chinese character this year.

Description: Taipei continued to rain on June 4th, and the 34th anniversary of the 64th anniversary of Liberty Square attracted nearly a thousand people to participate. Although the scale is not compared to the commemorative crowds of the previous years in Hong Kong Victoria Park, the Chinese government has continued to scare the martial arts. There are still many people from all ages in Taiwan to respond, and Voice of Germany reporters also saw several Hong Kong participants who wiped out tears at the scene.

Taipei June 4th Week 34 Week commemorative event scene placed 8964 cloth strips on the ground and put electronic candles on it.

(Voice of Germany Chinese website) Hong Kong artist Huang Guo Cai, who moved to Taiwan for two years, appeared on Sunday (June 4), appeared at the 34th anniversary of the 64th anniversary of Taipei Liberty Plaza. He told DW that he was able to do this is a miracle. Sanmu was arrested in Causeway Bay on June 3rd]](<https://www.dw.com/zh/zh/六四香港六千警防街頭悼念-多人被帶走/a-65820016>)He couldn't help crying.

"I caught any behavior without doing any behavior, more than 30 to 40 policemen. At that time, he said two words:" Don't be afraid of Hong Kong people!Don't forget that tomorrow will be June 4th. "

There are many people who are as sad as he are at the scene. A 50 -year -old Ms. Wu moved to Taiwan for a year, saying that she was the first time to participate in the Taiwan party for the first time, and "I want to miss it."

"Last year is the last time, everyone can't go in, it's a pity." She [said that Hong Kong people can only commemorate themselves now](#) Essence She showed DW to show the candlelight generated by her mobile app in Hong Kong last year, with tears and said she hoped that this activity would continue in Taiwan.

Taiwan [June 4th 34th Anniversary](#) The theme of commemorative activities is based on the theme of "the expansion of authoritarian expansion to defend democracy to condense the star fire to support freedom", and emphasizes that "care about China's human rights, freedom and democracy is not only the responsibility of the region, but also a part of strengthening Taiwan's democratic defense."

Danish artist Gao Zihuo's art shame shame pillar replica was placed on the spot, reminding everyone [Hong Kong cannot publicize the June 4th incident except for publicity](#) There is no space for artistic creation. The original products displayed in Hong Kong have been seized by the National Security Department in May as evidences for investigating the suspicion of subverting the state power.

The scene of Taiwan's activities has the mourning pavilion to enlighten the people's memorial service and flower offering. There are various human rights issues on the democratic market setting up stalls, and there are many issues in Hong Kong. One of the Hong Kong couples exhibited the works of democratic athletes who served in prison in Hong Kong prison. It is hoped that Taiwanese will pay attention to Hong Kong's still human rights.

The sir of the couple's pseudonym "went to the soup" in 2019 was sued by the Hong Kong authorities for riots. He said that he and his wife at the time just assisted the girls who rescued the streets and helped the other party to escape to the alley. Congress, although he was not convicted in the end, but later felt followed, the couple decided to move to Taiwan.

Different from the early June 4th commemorative activities of Taiwan, only the organizers and a few human rights workers, and the participation of hundreds of people. Since the Hong Kong Victoria Garden June 4th Candlelight Gala cannot be held, Taiwan has been regarded as the Chinese region that can finally publicly mourn publicly publicly. In addition to the increase in Hong

Kong people participating in June and Fourth, there are more and more international media interviews.

Taipei June 4th Week commemorative activity site used electronic candles as a symbol of mourning.

Huang Guocai was interviewed by a number of foreign media at the scene. He told DW that Hong Kong and Taiwan seemed to be "identified". In the past, Taiwan had experienced white terror in the authoritarian era. It has been democratized today, but Hong Kong has turned back into Taiwan.

He said: "For Hong Kong people, Taiwan becomes a place of freedom, so that everyone is nostalgic, but to breathe free air, so now Hong Kong and Taiwan become a community of fate of suppressive."

For two years in Taiwan, Huang Guo said that he was surprised at first. The Taiwanese seemed to have no sense of the fate of the Hong Kong people. Even the Beijing launching missiles had passed his head and did not respond. "The first line has been suppressed by the CCP", and Hong Kong people have also understood the essence of the Chinese regime in 2014 and the 2019 CIA.

He believes that Taiwanese people must recognize that the Communist China has changed. No matter what kind of war type, including information and cognitive wars, it is impossible for Taiwanese people to rely on themselves: "The only way out is unity."

Taiwan's political figures

When the June 4th incident broke out in 1989, Taiwan once resonated with democracy and freedom, and the call of the National Government at that time with "national feelings", which made the people in Taiwan very much concerned about June 4th.

However, with the process of democratization in Taiwan, the Chinese authoritarian government continued, and even after Xi Jinping took office to strengthen the control of Chinese society, cross -strait moved towards different routes of democracy and autocracy. More and more young Taiwanese think they are not Chinese, and therefore do not need to care about "other countries' affairs."

At the beginning of the Taipei Party, Wu Renhua, a June 4th family, delivered a speech. In addition to re -talk about his research on June 4th, the content of

the speech also hoped to persuade Taiwanese to continue to care about June 4th. Taiwan respects human rights.

"The June 4th incident was a global incident. Until 34 years later, 33 cities around the world were holding the June 4th Evening Party commemorative event." Wu Renhua is telling Taiwan that paying attention to June 4th can cause countries around the world to project their attention to Taiwan.

Danish artist Gao Zhihuo's artistic shame pillar replica was exhibited in the commemorative event of the 64th week of Taipei.

Zeng Jianyuan, the chairman of the organizer of the organizer of the organizer, said directly: "The regime of suppressing the June 4th is still aimed at his weapons on Taiwan. In the future, the leaders of our country will face such problems."

He believes that regardless of Taiwan's presidential election next year, it will be "the choice of war and peace" or "the choice of democracy and autocracy". Political figures in Taiwan, especially the presidential candidates, should make a statement to the June 4th, saying that this is like a "shiny mirror" like a "demon mirror". Looking at their persistence on constitutional democracy and the determination to protect Taiwan.

Taiwan President Tsai Ing -wen posted on Facebook on the day of June 4th, mentioning the "Guizhou Metro Chorus Incident", emphasizing the differences in free creation on both sides of the strait. In the case, there is only enthusiasm and no worry. "

Vice President Lai Qingde, also the presidential candidate of the DPP, was suppressed by the June 4th incident and Hong Kong human rights. China's biggest difference ".

The party presidential candidate Ke Wenzhe and the Kuomintang candidate Hou Youyi also posted on Facebook respectively. The former said: "You can't just confront, but have dialogue; The value of progress that should be pursuing between the two sides of the strait is the actual display of the June 4th to the Republic of China pursue the faith of freedom and democracy. "

There are many young participants in various places

Another phenomenon at the scene of Taipei is that most of the participants are young people. The 19 -year -old Taiwanese classmate stated that "identifying Taiwan's nativeness does not mean that you do not need to care

about June 4th." She believes that the significance of participating in this activity is that everyone gathers together. Entering Taiwan society.

The Chinese -based Chinese student Lu studied at Zhengda University. He actively participated in various human rights movements in the Philippines. He said that he had been arrested by police in the social movement. Opportunity.

"The Philippines is because of the memory of the martial law, and the authority of the authoritative rulers will be in charge of the regime. Taiwanese should also pay attention to freedom that freedom needs to be continuously reminded and continuously defended," he told DW.

Taipei June 4th Week 34 Week commemorative event setting a mourning pavilion, the picture shows the people offending the flowers.

At the scene of the event, there were even 15 -year -old middle school students who came to support. They learned about Chinese issues through YouTube. Classmate Chen said: "We have not been able to speak like China, but we finally launch those movements successfully, but China also launch these movements at the same time, but it is not successful, so I think this is close to us of."

He said that he often encountered "little pink" in playing games. In addition to regarding Taiwan as part of China, he would also use "frogs" and other words. This also caused him to discuss this issue with some classmates. "Back to", they later learned more about the problems facing the Chinese people.

Another classmate said that in the game, there are many "normal people" in the game: "There are many normal people who are normal, not everyone is" small pink ", and they are willing to share, but they are just they "White Paper Movement" is not successful. "

DW also visited a student from Mainland China. The 22 -year -old Zhou classmate studying in Taiwan said: "It is theor to say that there should be activities in many places in the mainland in June 4th, but unfortunately we have no way to participate in the mainland. Since it is in Taiwan, in Taiwan, in Taiwan, in Taiwan. A relatively safe place, I should go to participate even more. "

He from mainland China said that the older mainland people knew June 4th, but some people could not say that some people would say "student riots"

from a government perspective, so it is important to continue to pass the truth.

After the implementation of the National Security Law in Hong Kong, Taiwan has become the only place in Chinese society that can mourn June 4th With the addition of increased vocal volume in Hong Kong people, and the concerns of China's authoritarian expansion, can Taiwan become the last fortress to commemorate June 4th? Or, like facing other Chinese issues, the Taiwanese have long been accustomed to it and cannot have a greater response?

On the night of the 34th anniversary of the 64th, some citizens went to Victoria Garden to hold mourning activities in different forms, and the police took 24 people. Associated Press Picture

According to the Hong Kong "Ming Pao" reported on June 4, on the night of the 34th anniversary of the 64th, some citizens went to the Weiyuan area to

hold a mourning event in different forms. The police took 24 people, including Xu Hanguang, member of the former member of the Association.

It is reported that after the night, the police's cloth defense was significantly strengthened, but from time to time, some citizens took candles or wearing "special clothes" to Mourning June 4th, and several citizens went to Victoria Garden to mourn. At nearly 8 o'clock in the evening, the 25 -year -old man named Li held the book "The People will not forget". After passing through the inlet of the Victoria Garden, he showed that he was here to commemorate June 4th, but he was then closed for search. Deng Jianhua, the former vice chairman of the Practitioners of the Black Together in the June 4th report of the "Wen Po", was also intercepted and took on the police car.

The Hong Kong police said on Sunday evening that from noon to 11 pm, the police found that someone was "suspected of destroying social tranquility" in public places in Wan Chai District and North Point District of Hong Kong Island. At about 9.40 pm, the police patrolled a woman in Victoria Park, and found that a woman was suspicious, and then stepped forward. The woman refused to show the identity document to the police officer and made a verbal warning at the scene of the police officer. Then she arrested the 53 -year -old woman named by a 53 -year -old district. In addition, the police also took away 11 men and 12 female citizens who were aged 20 to 74 on the grounds of "suspected damage to social tranquility".

Many Chinese students hold flowers and self -made slogans, and silently joined London June 4th rally. Photo by Lu Xi

On the occasion of the 34th anniversary of the 64th, although there was no candlelight in the Victoria Park in Hong Kong, the commemorative activities

blossomed all over the world. There were more than 50 parades, exhibitions and rally activities around the world. Among them, the June 4th commemorative event held on Sunday (4th) in London, England, was first launched by Chinese students and led the Hong Kong people, Tibetans and Uighurs to march in London to the Chinese embassy in the British ambassador to the UK. The rally lasted for 34 years of tradition.

A group of non -profit organization "ChinaDeviants" (temporarily translated "Chinese Anti -Thief"), which is composed of a group of students in Britain and China, rally held in the Square Square in London in the afternoon. They showed the giant "pillars of the country" poster, the historical photos of the massacre, plastic tanks and other props, as well as various posters and slogans. In the "imitation" method, they imitated the students in Tiananmen Square that year, and their heads were tied to the cloth strip of "the last generation", "freedom of the press", and "freedom of speech". And repeat the scene of tank cars to students.

Seeing at the scene, many Chinese students held flowers and self -made slogans, and silently joined it. Chinese students are made by oranges to participate in the rally of the slogan "In the history of the history, in the hearts of people, don't let the truth hidden in the dust and smoke", and the font contains the word "64". She told this station that this sentence comes from a TV series in China. She hopes to express it. As long as there have been similar commemorative activities, June 4th will stay in the history book and people's hearts; Pass.

Orange said that the organization of the rally was spontaneously established by Chinese students after the "white paper movement", representing the voice of Chinese students. She believes that the platform can gather in British Hong Kong people, Xinjiang people and Tibetans to carry out collective memory activities, which is of great significance. She also expresses the courage of Chinese students who host activities, and quickly coordinating the organizational ability of different units to express their appreciation.

As a Chinese student, although she still has security concerns about participating in the June 4th commemorative activities in Britain, she still feels that she needs to participate.

Chinese student M said that although she had some awareness of June 4th, she had not seen Chinese students standing up to hold a mourning activity. Now that the Chinese students are finally waiting for the June 4th commemorative activities, she feels that she needs to participate, and at the

same time, she expresses comprehensive dissatisfaction with incidents such as epidemic prevention policies, "iron chain girls" incidents, and Dr. Li Wenliang's death in the past two years.

Hong Kong people Billy said that the first time Chinese students came out to host the June 4th Memorial Campaign, which was of great significance. He believes that the June 4th commemorative event should have been done by the Chinese, but in the past, Hong Kong people should be done. Billy was relieved to take the connection of Chinese students to commemorate June 4th and believe that there are still many people with conscience in mainland China, emphasizing that as long as they are awakened Chinese, he will support it.

In Hong Kong, Victoria Park not only has no mourning candlelight, but also has been seized by the Beijing community to host the "Carnival". At least 23 people were taken away by the Hong Kong police, saying that they were suspected of "destroying social tranquility".

Ye Qiyuan, executive director of the "29 Principles" of the Legal Organization of Overseas Hong Kong people who participated in the rally in London, told this station that Hong Kong was originally a very free place. However, since 2019, it has been like China. Both are prevented. She believes that overseas Hong Kong people and Chinese people should continue to speak, asking the Chinese government to be responsible for evil deeds, and support political prisoners who are still trapped.

Chinese students later led a team to the Chinese Embassy in the UK and joined the evening party organized by the International Amnesty Organization. The rally holds the slogan and electronic candle to mourn the dead of June 4th, and support the former vice chairman of the former Hong Kong Branch Federation of the Hong Kong Federation of Hong Kong in prison. About 400 people participated in the rally at the peak.

China warned the Western army that if they want to avoid dangerous guns

with the PLA, they should not enter the waters and airspace near the Chinese border. This highlights that with the intensification of geopolitical competition, the risk of accidental conflicts is increasing.

Before the Chinese Minister of Defense Li Shangfu sent these tough information shortly, a Chinese warship almost collided with an American destroyer last Saturday. At that time, the U.S. warship was crossing the Taiwan Strait with a Canadian warship, and the Chinese warship passed by the US warship.

Washington and Beijing have competed fiercely in the fields of diplomacy, military, science and technology, and economy. The U.S. military has strengthened its APIS to fight against the increasingly strong China. China has recently held several rounds of military exercises around Taiwan.

A spokesman for the U.S. Embassy in Jakarta yesterday told AFP that the U.S. Navy has sent a coastal battleship to participate.

The spokesman also said that the exercise will "resolve common challenges with like -like countries, allies, and partners", such as humanitarian rescue and disaster response.

The Chinese Ministry of Defense also stated last week that at the invitation of the Indonesian Navy, a destroyer and a frigate would be sent to the exercise.

According to the list of AFP, Australia and Russia also plans to send warships to participate.

Indonesian officials said that 17 foreign warships will participate in this time, and the exercise will focus on "non -military operations" with major allies.

A spokesman for the Indonesian Navy said through a statement: "Mnek is a kind of non -war training that gives priority to maritime cooperation in the region."

The Heat forward Jimmybutler said this is the perfect result of the Heat in the difficult and injured season. In this season, strong will lead the team to experience the changes, continuous defeats, and playoffs of the team, and finally defeated the top seed Gonglu and the second seed Celtic team in the East District.

The Heat defeated the number of seed gold block teams in the Western District last night. At present, the two sides played a 1-1 draw in the championship series. In this game, the star star Nikolajokic scored 41 points. The Heat still won with a strong strength, causing the Golden Bag team to swallow the first home playoffs in the first playoffs. And the fourth battle.

When Batler talked about the key to the toughness of the Heat, "We don't care how anyone thinks."

"Overall, we focus on what we are good at and our identity as a team. This is what we depend."

"Whether the shooting or failure, we will do ourselves, because we don't care about anyone else. This is the whole year, and the future will not change."

"So this is my idea. I think this is the factor that" I don't care at all ". "

The center Bam Adebayo added: "For us, there is noise to hear noise throughout the playoffs. The most important thing is that we have will and faith and have been looking for the way to win."

The hot and bad shooting rate is destined to lose the first battle. When the Golden Block team got rid of the slow start in the second game last night, and scored a 15-point lead in the second quarter, the Heat seemed to fall behind 0-2. The Golden Block team led 8 points in the third quarter, but the Heat found the way out again. "I don't think there are any secrets", "we just move the ball, pass the ball to the vacant players, and play some simple basketball." "We shot. This is the essence of this alliance. This is the essence of the basketball game. This is a game where you go to or not entered or not entered." they do not".

The latest employment data in the United States, as well as the Congress finally passed the debt limit bill, to avoid US debts from falling into breach of contract. In addition, the latest media reports show that China's intention to renew the real estate will boost the market psychology.

On the 2nd, the United States announced the addition of 330,900 new employment last month, which was significantly beyond expectations. It shows that although the Federal Reserve has raised interest rates for more than a year, the labor market is still strong and the Wall Street stock market has soared.

However, the employment report also shows that the salary has only risen mildly, which causes less pressure on inflation.

Analysts pointed out that the number of "appropriate" means that the economy has not faced the risk of immediate recession, and it is expected that the Fed will provide a space for the Federal Statistics to follow the soldiers.

The National Australia Bank analyst Rodrigocatril pointed out: "The U.S. debt limit bill passes, and the just employment data is still conducive to the suspension of interest rates in June. China may consider further further further. The real estate industry that is in trouble extended a helping hand to raise market risk emotions. "

Market return confidence also caused the volatility index (VIX), known as the panic index (VIX), once fell below 15, and returned to the level before the outbreak of the epidemic outbreak of the COVID-19 (2019 coronary virus disease).

Most of the Asian stock market closed today, and the Japanese stocks 225 index closed 2.2%to 32217.43 points, hitting another 30 years of high. Hong Kong stocks continued to rise by 4%on the 2nd today, and the Hang Seng Index closed up 0.8%to 19108.50 points. The closing of the Shanghai Comprehensive Index rose slightly by 0.1%to 3232.44 points.

As for other Asian stocks, Sydney, Singapore, Seoul, Manila and Jakarta have all closed up.

Last week, China became one of the focus of international public opinion.

First, although the Minister of Defense between China and the United States went to Singapore to participate in the Shangri -La dialogue, they were the most powerful defense director of the world's most powerful countries. , But European and American companies gathered in China last week.

The above phenomenon reflects the reality of the relationship between China and the United States today, namely: confront each other, and no one can overwhelm anyone for the time being; but bilateral relations are in a sensitive and dangerous situation.

Sino -US cognition is too far away

The National Defense Minister of China and the United States did not meet at the Shangri -La dialogue. The fundamental reason is that the two countries have far awareness of major issues, and they are not even on a track at all. question. This is inevitable to worry about the world's first and second largest powers, and even for the world.

The public reasons for the Chinese Defense Minister to refuse to meet with the US Defense Secretary is that the Minister of Defense of China is still in a state of sanctions by the United States, although the sanctions were implemented in the Trump era.

According to China, a conversation with the United States Minister of Defense in the context of its national defense minister was sanctioned. It is essentially the sanction of the US Minister of Defense against the Chinese Defense Minister by default, and it can even be understood as a call by the United States. This is absolutely unacceptable in the context of Chinese political culture. This is the so -called "distinguishing between the enemy and the love and hate."

Professor Shen Dingli, a professor in Shanghai Fudan University, said: China does not want to meet with American officials when they think they have lost dignity. "We must meet on the basis of mutual respect." Seek to compromise. "

The Chinese government believes that sanctioning Chinese officials has improving the improvement of relations between the two countries. Chinese Ministry of Foreign Affairs spokesman Mao Ning said that Washington should

terminate the sanctions against Li Shufu in order to "create the necessary atmosphere and conditions for the communication between the Sino -US military." She reiterated China's position on Tuesday that if Washington wants to restore the dialogue between the two armies, she should "immediately correct the wrong practice."

Therefore, the Chinese Defense Minister does not meet with the US defense ministers, indicating that it is a principle attitude, and its essence is the issue of dignity.

The US views are different. The United States believes that it is not impossible to meet and communicate by sanctions.

Bonnieglaser, Director of the Asian Project in the Marshall Foundation in the United States, said: "No dialogue brings unacceptable risks to both parties", including the risk of "conflict on the Taiwan issue".

The United States even believes: "China often considers its senior leaders as a reward for obedience, rather than creating a tool for stable or solving differences." Tang Anzhu, who once served as an official in China in the United States, understood this. The actual expression of China this time is: "If you want to arrange a meeting, you must accept the conditions of China."

Therefore, US Secretary of Defense Austin said at the Shangri -La dialogue on June 3: "It is essential to maintain communication with China, especially between our national defense and military leaders." "Dialogue is not a reward. This is necessary. of".

In addition to the above -mentioned positions, the purpose to be achieved in propaganda is of course to push all possible responsibilities to China. Not only are the US government people, but American media are also promoting.

Therefore, Sino -US relations have entered the dead Hu Tong. At the same time, the Shangri -La dialogue will never become a platform for Sino -US improvement relations. There is only one effective way to adjust the relationship between the relationship between China and the United States in the future, that is, the first diplomacy of China and the United States, in addition, there is no way.

Difficult to leave China by multinational companies **

At the same time, a group of well -known entrepreneurs of a group of world multinational companies gathered in China last week and received by high - level Chinese high -level Chinese, including the CEO of the British Increasing Company of the Global Integrated Circuit, the CEO of the British Incorcer, the

CEO of the British Incorceous CEO Rene Has, Tesla Elon Musk, Starbucks's Laxman Nalansi, and Jamie Dimon of JP Morgan Chase. The international media said that these entrepreneurs were invited by the Chinese government. However, in the context of the Sino -US game today, these entrepreneurs can call it, which shows that these multinational companies attach great importance to the Chinese market.

Musk's reception in China is the most solemn. International media commented: In just two days this week, Musk's number of meetings with high -level Chinese high -level Chinese officials has been more than a few months older than Biden government officials. He not only met three Chinese ministers and Chen Jining, secretary of the Shanghai Municipal Party Committee. According to Reuters, he was even received by the Standing Committee of the Political Bureau of the Central Committee of the Communist Party of China.

According to reports, last Tuesday, Chinese Foreign Minister Qin Gang and Musk met the Chinese government's point of view during the meeting, that is, the "health, stability, and constructive" Sino -US relations are beneficial to the two countries and the world. The two countries need to know when to "step on the brakes" to avoid "dangerous driving" and when to "step on the accelerator", suggesting that they should "step on the brakes" to stop the danger and "step on the accelerator" development cooperation.

In response, Musk said that the two countries were "intertwined" and Tesla opposed the "decoupling and breaking (supply) chain". This is consistent with the stance that Western countries attempts to reduce their dependence on China's industry.

The international media quoted analysts: Even if Beijing really wants Musk as a special envoy, he is not suitable for this heavy responsibility. The reason is said that Musk is a "controversial political" character, and it may be difficult to convince Biden government.

But this statement is probably bad. Red capitalists provide consultation with the country, and the Soviet -Russian Russia in Lenin Times. The more powerful the blockade, the greater the value of these people.

The international media also quoted Han Lei, the Chinese Affairs Director of the National Security Council in the Bush administration and the Chinese government of the Obama government and the Obama government: "When China talks about seeking stable relationships, it is often more stressful to

reduce the United States' strategic pressure on China." Want to stop the US sanctions and cancel export control."

Shen Dingli of Fudan University commented: "What we want to discuss is how to export to the United States without harming US national security and how the United States enters the Chinese market without respecting China."

Western analysts told the international media: Although China is still a market that the heads of American companies cannot ignore, they have limited ability to alleviate geopolitical friction. For U.S. policy makers, the security concerns of China's tough military position and the dominant position of the manufacturing supply chain are better than commercial considerations.

The author believes that as long as China does not block the domestic market, China 's attractiveness to multinational companies is beyond doubt, and the more such multinational companies, the greater the balance of the above -mentioned policy makers.

"Many concepts related to art are too vague and confused today, because there are many power that affects art. I have been thinking about to what extent can I compromise." It is a kind of persistence.

During the dialogue, she and her team were busy in doing things for the year.

At the end of May, the atmosphere was still a bit lazy in the Beijing 798 Art Park. The sun has not become too burning yet. On those straight roads and various strange alleys around them, tourists are gathered or gathered in high and low factory buildings, buildings, sculptures, and different appearances. Between shops. The landscape in front of me is both dazzling and disorderly, but also presents a sense of vividness that echo each other.

The color identification of the seventh "Gallery WeekendBeijing" is one of the few visual symbols for uniform and eye -catching. The large and small publicity posters everywhere seem to be issued to the people here, asking them to pay attention to the real protagonist in this park.

Even today, with the significant trend of art decentralization, it can still be called the "home" of contemporary Chinese art. More than 20 years ago, the artist and gallery began to settle in 798, and here are further shaping the form of Chinese contemporary art. The old industrial factory area, which was once located on the edge, has gradually developed into a contemporary art landmark of Chinese and foreign attention.

Turn around, and it is not difficult to feel the unique energy field born due to art. In the perspective of the Grand Director of the Euns Art Center, in 798, you can not only see various art exhibitions presented, but also experience "improvisation" related to art: restaurants, bars or streets here The corner may meet the acquaintances of the art circle inadvertently.

As the director of the gallery Zhou and Beijing, Wang Yifei has worked for the 798 art activity for 6 years. Unlike the exhibition plan of the gallery single - fighting style, the original intention of the gallery Zhou and Beijing is to amplify the vocalization of the local gallery under the unified evaluation standards and organizational system. At the same time, it is different from the exhibition experience in the huge convention center. The gallery will invite more art lovers in the city to 798 to interact with the more real artistic ecology.

According to Wang Yifei's words, she hopes that the gallery Zhou Beijing can help the ecology of art form a certain "joint force": "The gallery week is not a single gallery, but a polymerization platform, which is showing the artistic ecology of the entire city. "

(Gallery Zhou Beijing public unit works: "White Box", 2023, sculpture device, artist: Wang Guangle)

However, at the moment, the 798th park is facing its own "critical moment", and the problems presented are also reflecting some tensions in the contemporary art ecology.

In recent years, as the rent of the park has risen, artists and art institutions have continued to leave 798, and the commercial stores, tourists and various management issues that settled in, and the sound of anxiety continued to sound: the artistic atmosphere of 798 is flowing. There are fewer and fewer art people. The once pure and pioneering art gathering place is gradually drifting away from his golden age, and gradually becomes a background board that satisfies the masses' shooting.

At the same time, the gallery is still struggling with the hard business environment. After a long epidemic, although life began to gradually recover vitality from stagnation, how to find the eagerness and anxiety of survival in the market is almost full of industry. For galleries, this urgency is reflected in a more conservative choice for artists and works, as well as more straightforward catering to collectors. Although it is understandable, this trend is also shaping a more distinctive circle. It is like a subtle wall, which isolate the art circle and a wider world.

"Closure" is also derived from even more unspeakable reasons. Contemporary art originally originated from the "exhaustion of the words", but the hard -cold and cold and self -permeable art exhibitions undoubtedly represent the intangible threshold. For a broader group of audiences, before identifying and appreciating the problems and emotions interpreted by art works, they may be stepped on because of fatigue and even the wisdom level.

This is like a deadlock between temples and fireworks. Although art can not reduce the bottom line infinitely because of the relocation of the public, but the observation and absence of each other will not affect the art itself. Just as the ivory tower is built on the plain, the tower body is getting higher and higher, although it represents the advancement of skills and realm, but it also means that the life of the ground is getting farther and farther. The understanding and reflection of the person.

(His gallery Zhou Beijing public unit works: "Ren Dou", 2023, sculpture installation, artist: Zhang Yongbei)

When the "publicity", "artistic" and "business" of art have a tight tension. What can a local art platform do? For the gallery Zhou, Beijing and 798, this problem has a deeper metaphor: how to face the tide, high towers and fences of contemporary art of Chinese contemporary art?

Maybe it is difficult to find an immediate answer, but we still throw various questions to the princess. Wang Yifei also responded to her thinking. In her opinion, on the road of re -searching the anchor point, constantly exploring and understanding the essence of art is the starting point of all actions.

__ : : 妃: _

FT Chinese website: In the past two days, I walked in 798. The atmosphere of the gallery week is very strong, and many important characters in the art circle have also come. After several years of development, this activity is being accepted by more people, and it is also showing their own weight.

Wang Yifei: Gallery Week Beijing has been held for 7 years. Especially in the past three years, many activities have been stopped. It may be the reason for luck. We have stopped running in a year.

In fact, gallery Zhou has been facing many doubts, but the voice of questioning can also urge us to improve. I am a person who likes to do things silently. This year's gallery opens as scheduled. I am very pleased. Everyone can know what we usually work in silence.

(Works: "Boxer Mozer Mozart" (partial), artist: Li Nu, device, A26 space)!! []

(Gallery Zhou Beijing main unit non -profit institution exhibition: "Who is he? - He Geng Jianyi's Works Review Exhibition", UCCA Ullens Contemporary Art Center) **Wang Yifei:** I am learning art history, and I will respect more art. But doing a large -scale event, there are very many factors that need to be considered. Sometimes doing it, you may forget your original intention.

Those who work in the art industry always face many compromises. So what is compromised? Where is the bottom line of compromise? What you said may be here.

For me, the bottom line is "what should the art ecology should be?" And "What is the contemporary art?".

What is contemporary art? There is no conclusion to this day, and the concept is always overthrown. For the director of the art museum, the curator, and the art practitioners, they can clearly identify contemporary art, but it is difficult for contemporary art to spread to a wider range. One of the reasons is that contemporary art itself is very abstract, and another reason is that many of the power that affects art is too powerful.

Today, many people who devote themselves to the art circle not only do not make money, but also continue to invest. Funding is very difficult. But can you compromise for funds? "For me, what I can't compromise is: In order to let this matter survive, I will bring things in not contemporary art. I hope to present the work of people who really promote contemporary art, which is refreshing and refreshing. , Clean.

FT Chinese website: Does this presentation include establishing two - way communication and understanding between galleries and public?

Wang Yifei: I think the focus is not the need for galleries, but the public's needs for art. The most critical factor affecting the survival and development of galleries is collectors and art galleries; but the public who really needs to pay attention to art exhibitions. This is a very important underlying logic that cannot be confused. In terms of content, we are not catering to the public.

FT Chinese website: So because of this positioning, you need to repeatedly consider the "sense of distance" and "scent" of art?

Wang Yifei: I feel questioning all the fast and lost thinking ability. I don't think it can be a long -term continuous health method. I usually watch Douyin and love to watch Internet celebrities, but I know it is entertainment, and I will be alert to whether to invest too much time.

Sometimes we are restricted by our ourselves, thinking that we have learned about the world. But in fact, the channels of the world have narrowed, and the level of consciousness is getting more and more closed. The content we get is what others think you want. But the role of art is to continuously challenge and break the cognition of solidification. It can show that people are rich and there are many possibilities.

(Works: "The Threesister style", 2020, artist: Hans OP De Beeck, Sculpture, Evergreen Gallery)

FT Chinese website: What do you think of the "circle" and "threshold" in the field of art?

Wang Yifei: In fact, in the past two years, there are still a lot of new faces in the art circle. The so-called "threshold" is because contemporary art, as an industry, does not have a long history in China, and the development time will have a threshold. In Western contemporary art, as the industry has developed for more than 100 years, the public will know and be familiar with art museums and galleries. And art is very expensive, so (in China) the public naturally feel that contemporary art is far away, and it is not necessary to feel the necessity of contemporary art.

But I think this is exactly the potential. More and more people are willing to understand art. Maybe they originally wanted to hang a painting at home, and then gradually became interested in art.

FT Chinese website: In addition to calling on the public to approach art, does contemporary art also need to find more ways to actively "approach the public"? If artists or art agencies are closed in an ivory tower for professionalism and purity, will they also limit their ability to understand and deal with the times? It will affect creation and

expression. In the original intention of the establishment of Gallery Week, it seems that this can be seen for the shaping of two -way path.

Wang Yifei: The idea makes sense, let everyone observe what the "opposite" is in their respective fields. "Opposite" outside the gallery also has something worth observing and thinking.

However, things are prioritized. It is not to say that the gallery cannot care about the public, but because the gallery is a commercial institution. You must put the operation first and need to survive. For galleries, the primary work is how to connect with the artist and how to promote the artist to the right collectors and institutions. Now that these problems can be solved in the industry, everyone is doing their best.

The priority of the first -level market is collectors and artists, and the public and public platforms that can take care of the public. For Gallery Week, our platform has both galleries and art museums. The purpose is to allow everyone to find their own sense of presence and have their own gains.

(Exhibition: "Hu Wei, Bait", artist: Hu Wei, Macalline Art Center)

FT Chinese website: Visit several galleries of 798, can feel the anxiety of the gallery owners, and they are also anxiously looking forward to seeing the market feedback as soon as possible. How to evaluate the gallery's situation today?

Wang Yifei: The people who are a gallery in China today are all of my respectable people. Their energy and money they invest may have been able to gain a lot in other industries. It takes some axis to run a gallery.

Speaking of anxiety, the gallery owners of the world are now trying to find ways to find the way. After walking the epidemic, many economic and commercial influences are slowly emerging.

FT Chinese website: This year's Hong Kong Basel, the sales situation still looks good.

Wang Yifei: But some changes in the structure of the art market. The market will tend to choose more secure choices, and the cultivation part is becoming more and more difficult.

If I am a collector, I may make a different choice with everyone at this time. Because if you look at it for a long time, if you are always driven by fear, judgment will have deviations.****

FT Chinese website: You have experience in operating gallery and experience as collectors. Now as an organizer of a public platform, what is the value system that supports contemporary art?

Wang Yifei: This is a difficult problem. The most fundamental is the creation of artists.

Behind the price of art works is value. Where is the innovation of the artist's work? How does his work affect the times? What is its position in history?

Sometimes the market will have a short -term impact. For example, because of some interests of collectors and capital, it may cause a brief deviation between the prices and values of art, but the ending is still an artist who insists on.

FT Chinese website: What is the part of art touched you?

Wang Yifei: sincerity. True, goodness and beauty may be very vulgar, but it is exactly the most rare thing now.

What can feel from the heart is getting less and less. Many factors now affect the creation of artists, but if the artist can still insist on expressing the expression he thinks, choosing a different way, this is the place that can move me the most.

FT Chinese website: When you enter the industry, it was in 2008, which was a trough of a economic cycle. Nowadays, Chinese contemporary art is in a low tide. What do you think of the prospects of contemporary art?

Wang Yifei: will always find the method of responding. It is normal for an industry to experience the peak and trough. Look at it in the long run. How do you seize the opportunity when you are in the trough? If the industry returns to its peak after a few years, then what should I think about now?

The economic cycle is more impact on the industry. For artists, it may become difficult to survive, but creation will continue. Sometimes the environment is not good, and what artists want to express will be more urgent.

FT Chinese website: Gallery Zhou Beijing has gone through 7 years, what value did you settle?

Wang Yifei: I want to give it to others to evaluate this question. My own point of view may be subjective.

There is no need to consider such a bet. After nearly three years of popular blockade, China has reopened, and investors expect that the world's second largest economy will recover quickly. The Chinese stock market will soar.

But this bet has failed. This week, Chinese stocks traded in Hong Kong have entered a bear market briefly, down more than 20% from January high. The mainland stock market is also falling this year.

For a long time, China has been the driving force for global economic growth, but the decline in the stock market reflects that people's feasibility of China's recovery after the new crown is becoming increasingly optimistic. Although the geopolitical situation between China and the United States continues to be tight, the two countries still have inextricable connections in economics and business.

Teng Yan, an analyst at CMC Markets, New Zealand, said: "All signals from China show that the economic rebound has stumbled and difficult."

Beijing is dealing with consumer expenditures below expected, [slowing house sales](#) Unpredictable with manufacturing. [Weakened currency](#) Make the problem more complicated. It is not yet sure what actions of the Chinese government may take -if so -to support growth.

Last year, China has implemented blockade measures for many times due to the new crown epidemic, which has caused a heavy blow to the economy. The economic growth is 3%, which is [the slowest growth rate in decades](#) One is far lower than Beijing's own goals and the growth rate of 2021.

The real estate industry has always been the root cause of the pain of stock investors. Developers have bears heavy debt to become the characteristic of the industry. Qilai shen for the new york times

Last fall, the authorities introduced stimulus measures to support the real estate industry, which brought shock to the stock market. With the sudden end of the "clear zero" policy, another impact appeared in December. The stock market rose into a new year and reached its peak at the end of January.

Therefore, in recent weeks, many economists have lowered their expectations and led to the decline in the stock market. However, some analysts, including Nomura Securities and Barclays Bank analysts -still expected that the growth rate of domestic GDP this year will be higher than 5%of government forecasts.

People in the world's largest economy in the world are relatively low, but the performance of the US stock market is far better than China. The S & P 500 has risen by about 12%this year.

"The recovery has stagnated, partly because Beijing cannot boost the confidence of consumers and business investors," the economist of Nomura Securities wrote in a report last month. "With the emergence of disappointment, we see that the risk of spiral decline risk rises, leading to weak activity data, rising unemployment rates, continuous deflation, decline in market interest rates and soft currencies."

Victoria Garden in the past few years

Since 1990, the June Fourth Candle Light Gala held by the Hong Kong Federation Association on June 4th will attract tens of thousands of people to gather in Victoria Park in Hong Kong to mourn the June 4th incident.

However, since the outbreak of the new crown epidemic in 2019, the Hong Kong authorities have banned rally twice on the grounds of epidemic prevention. Next, the "National Security Law" adopted in 2020 will be regarded as illegal activities. In 2021, the Federation will be dissolved. Since then, the June 4th Memorial Party will not exist. The picture shows the Hong Kong people spontaneously on June 4, 2020 to the Victoria Garden to commemorate June 4th with candlelight.

Hong Kong Freedom News (HKFP) reported that near Victoria's Pork Tosa, a woman wearing a black T -shirt was also intercepted and taken away by the police. The police lifted her four feet to the police car. She shouted on the police car and shouted on the police car. : "Is it like this in the future?"

On the eve of the 64th anniversary, the Hong Kong police arrested 4 people on the 3rd with the crime of "incitement" and "disrupting order"; the other four were detained for suspected damage to social tranquility. "Ming Pao" reported that the artist Sanmu, the volunteer Guan Zhenbang of the former branch association, and Liu Jiayi, a member of the mother of Tiananmen.

The artist Sanmu was taken away by the Hong Kong police in Causeway Bay on the evening of the 3rd. During the period, he shouted, "Don't forget June 4th", "Hong Kong people are shocked."

On the day of the 34th anniversary of the 64th, the Hong Kong police officer dispatched about 6,000 police forces alert Essence After the night, the police strengthened the Fangfang Park, but there were still sporadic citizens who came to Victoria Garden to mourn. On that day, some stores also gave candles in a way, low -key, autonomous mourning June 4th Essence In the evening, dozens of candles can also be seen in the US consulate in Hong Kong, which shines next to the building windows. Overseas includes Taiwan , Britain, Australia, the United States, Japan and other places, all the June 4th commemorative activities were held.

Many human rights organization criticism

Hong Kong used to be the only place in China to commemorate June 4th, and it was also the largest and oldest city in the world to commemorate the largest and oldest cities in June 4. After the "Hong Kong National Security Law" was introduced in 2020, the Victoria Garden June Fourth Candle Light Party, which has more than 30 history, was forbidden to be prohibited on the grounds of the new crown epidemic. , Victoria Garden was blocked; this year's first "recovery", but Victoria Garden was changed by pro -Beijing group to apply for a hometown collection carnival. [Beijing is accused of trying to rewrite the June 4th collective memory of Hong Kong people](#) Essence

The UN Human Rights person in charge Volkertürk's office issued a post later on the 4th that he was shocked by Hong Kong's "detention notification" and called for "to release any person who was detained by exercising freedom of speech and freedom of peace rally." Essence

Humanrightswatch calls on the Chinese government to recognize the responsibility of killing democratic protesters. Human Rights Observation Senior Chinese researcher Wang Yaqiu said through a statement: "The Chinese government continues to escape the responsibility for the Tiananmen Holocaust decades ago, which has made it arbitrarily detention, severe review and monitoring of millions of people, and the internationally disrupted rights. The effort is even more bold. "

The International Terminal Organization pointed out that the Hong Kong government prevented people from commemorating the "shameful action" of the 64th anniversary, reflecting the insults of the Chinese central government's review system, and an insult to the people who were killed in Tiananmen.

Maglida Marcos is from the Portuguese Democratic Party. He had previously held important positions at the EU Cultural Division and Communication Division of the EU Commission. Later, he returned to Portugal in 2015 and served as the State Secretary of European Affairs in Portuguese Prime Minister Antonio Costa Cabinet. After the 2019 European election, she was successfully elected and became a member of the European Parliament, and was a member of the European Parliament's delegation to China. She had her unique understanding and insight in Sino -European relations.

As a policy consultant of the former European Parliament, the author communicates with members of the European factions and countries in Europe after three years. We can deeply feel the cautiousness and sensitivity of members when talking about everything related to all issues related to China. There are many reasons behind this, but from the perspective of European perspective, the core problem comes from the outbreak of the Russian and Ukraine War. It is precisely because of this war at the European door that many Europeans feel that they have hit the "South Wall wall ", Thus a significant change in the attitude towards Russia and China. Although it seems that everything has been relieved as Germany, France, and Spain's heads and EU Council's chairman visit China. However, for the overall Sino -

European relations, the war itself is still a topic that Central Europe cannot be around for a period of time. We can even say that the real substantial "recovery" between China and the European Europe will not really start until the dust of the war settled.

The Chinese and American military and ship insurance collided, and the two countries competed for Asian leading risks to intensify

Utilizing a meeting held in Singapore, senior officers in the United States and China put forward different visions on Asia's future security -a security net headed by the United States and a well -equipped partner, or a new international order in China as the new international order The center of the center.

The US Minister of Defense Lauda Austen III and officials of the allies may explicitly explicitly states that Russia's invasion of Ukraine shows that Asia urgently needs to accept an alliance network led by the United States to curb the increasingly powerful China. On Sunday, General Li Shangfu, the Minister of Defense of China, systematically criticized the United States, and said that compared with Beijing, it will be a very different leader. Essence

"Some countries want to intervene in other domestic affairs and regional affairs, and they can sanctify unilateral sanctions and force," Li Shangfu said. He refers to the United States and his allies. They "left after a region and left a mess," he said. "We must never let this kind of thing be copied in the Asia - Pacific."

Austin and Li Shangfu made these remarks at the Shangri -La dialogue in Singapore. This is one of the few regular forums of decision makers and public decision makers and public in Beijing and Washington. At this year's meeting, the National Defense Minister from Ukraine, Britain, Germany and

Canada attended the meeting. The meeting highlighted that the competition between the United States and China is becoming a competition on the global geopolitical pattern in the future. More active participation in the rejuvenation of partners is still moving towards a order led by China, at least in Asia.

The narratives shrouded in the conflict between the two countries are the Ukrainian war and the threat of Asian conflicts. The risk of unstable accidents between China and the United States seems to be rising. Saturday, [US Indian Pacific Command said](#) When the U.S. Navy's destroyer Zhong Yun, when passing through the strait between mainland China and Taiwan,, in order to avoid collision with a Chinese navy ship passing from it, it slows down.

Li Shangfu faded the danger. He said that the best way to avoid accidents was to let countries outside the region leave, such as the United States, "control your own warships."

However, many European officials who attended the meeting believed that the government of their own countries should participate more in Asian affairs to protect their economy, and Asian countries should support Ukraine more.

advertise

EU diplomacy and security officials Hesep Borrell Forteris said the Ukrainian war "changed the rules of the game." This war told Europe that "nothing is far away in the global world." He said the security issue in a region "affects everyone in all places."

As evidence, many European defense officials mentioned that Ukraine's restrictions on food exports have led to rising food prices in global food.

They also tried to depict Russia (the country did not participate in this meeting) as a recent threat of Asia, because it has a powerful navy that moves north of Japan, and has implemented a designed to [Destruction](#) The region connects the global planning of submarine cables and energy supply.

"All these military strength entered the Pacific Ocean, we should realize how this impact on our hidden dangers will be," said British Defense Minister Ben Wallace.

China does not agree with Europe's need to play a greater role in Asian security affairs, saying that this is a strategy adopted by the United States to establish a Asia -Pacific version of the North Atlantic Convention.

The former Chinese ambassador to the United States, Cui Tiankai, said at the meeting that the "best thing" that Europe can do for Asia is "do nothing". He also said, "We don't need a Asian version of NATO."

In 2014, Hawaii, the U.S. Zhongyun destroyer. On Saturday, in the strait between China and Taiwan, Zhong Yun was forced to slow down to avoid collision with the Chinese naval ships passing by. Hughgentry/Reuters

At a symposium, Cui Tiankai was sitting next to Ukraine Minister of Defense Oleksey Ritzkov. Learn from Europe's "failure".

This is a point that the Chinese military's general repeatedly emphasized: from Beijing's view, the siege of the West against Russia forced Moscow to participate in the war. Any strategy that curbs China may trigger similar results. As another Chinese official proposed on the forum: "Have you ever thought that this curb itself is a problem, or a failure, the Ukrainian war proves this?"

advertise

But in such a multi -party talk about the most severe wording of Russia's invasion, China 's continuous support for Russia has also caused criticism. At the end of the discussion with Cui Tiankai, Reznikov turned his head directly to the Chinese envoy about the changing power structure between China and Russia. He said that unlike decades ago, China is now a "big brother" and Russia is a "younger brother".

"Will you say to your younger brother to stop invading Ukraine?" Reznikov said, which aroused applause from the audience.

Indonesia's Minister of Defense Plabooovo Sophia has emphasized the [differences] of western powers and many developing countries on war issues.(<https://cn.nytimes.com/world/20230224/c24russia-ukraine-geopolitics/>)Later, a Ukraine Peace Plan was proposed, which did not include the Russian army withdrawal. On the contrary, he called for a referendum of a national referendum on a ceasefire, the establishment of a non -military zone, and eventually holding a national referendum on controversial territories.

The proposal immediately attracted the criticism of Western officials and Reznikov.

"I will try to be polite as much as possible," Reznikov said, he also said, "but it sounds like a Russian plan."

Zhuang Jiaying, a political scientist at the National University of Singapore, said that many efforts such as Indonesia to avoid choosing border stations between the United States and China may soon find that they cannot affect the situation, because more and more countries outside the region are seeking performance More role.

"The problem is that the world is changing," he said, and "this more passive attitude means that they cannot participate in the shape of the world."

Even the countries that were swaying between Washington and Beijing were doubtful to China.

The Philippine military officials emphasized the gap between China's statement and the actual actions of China -mentioned several aggression in the Philippines's exclusive economic zone in the Philippines, including harassing fishing boats.

The Philippine Coastal Guard of Jie Tarriera said: "Although China says dialogue, their actions show confrontation."

The vigilance of Chinese intentions and ambitions has prompted the United States' allies in the region to strengthen its military relations with the West. Japan took the lead in taking action and announced a few weeks ago that it was working hard to open a NATO contact office in Tokyo.

Although Chinese officials quickly described such efforts as futile and dangerous, the Japanese Defense Minister Hamada Yichi emphasized that the connection between countries and regions was "not for fighting."

"Even if we expand their military capabilities, diplomacy is still more important," he said.

advertise

This is a proposal that China refuses to respond to the United States' request for direct talks with senior military officials in the United States, which has appeared many times in speeches like this.

Compared with colleagues in the People's Liberation Army, Li Shangfu, who was born in aerospace engineering, is considered a relatively mild attitude.

Some people think that from his attending Singapore meeting, we can see that China hopes to show a more friendly attitude in the forum.

However, Li Shangfu did not meet with Austin. The two just shook hands at a dinner on Friday night. On Sunday, he quoted a lyrics warning that China would not retreat in defending its rights and interests:

"Friends are here with wine, and there are shotguns when the wolf comes."

On the same day, US Secretary of Defense Llloyd Austin also shouted that Beijing "do the right thing" to control its troops' behavior.

Chinese Foreign Ministry spokesman Wang Wenbin stated at a regular press conference on June 5 that "China has always respected the rights and flying

rights of navigation and flying in accordance with international law. It is also reasonable and legal. " He also asked "The so -called unsafe and unprofessional incidents mentioned by these officials of the United States, why occurred in the leader and the sea of the sea in China, rather than the aim of other countries and near the territorial sea?"

Chinese Defense Minister Li Shangfu issued a conversation in the Dialogue of Shangri -La, Singapore on the 4th

The U.S. Indo-Pacific Command issued a statement on Saturday (3rd) that the USS Chung-Hoon and the Harry Fax-class patrol ship "HMCSMONTREAL" (HMCSMONTREAL) and Harry Fax, Canada, In conjunction with the Taiwan Strait, the Chinese missile destroyer "Suzhou" (PRC LY132 "suddenly cut into the channel of the Bell Cloud in the United States in the" unsafe way ", forcing the Zhong Yun to decelerate to avoid collision.

The statement states that the closest distance between the two ships is only 150 yards (137 meters), and the Chinese military's behavior violates the "road rules" at sea with the safety of international waters.

The first report was the GlobalNews in Canada. The media interview team has followed the Canada Montreal in the South China Sea since late May, witnessed and photographed the incident process. "Global News" reported that the Canadian Montella commander Paulmountford said that when the Suzhou Suzhou changed its way, the Radio notified the US ship to "turn around, otherwise it would collide", and the US ship personnel responded to China requesting China to request China Warship away.

Colonel Monteford said that the Chinese warship also notified the radio before acting, obviously intentionally traveled through the provocation. He said that the US -Canada warships were carried out in international waters, but Chinese warships continued to warn them that they were entering the sea of China. He hopes that this is just a case. In the future, it will not happen to Canadian warships. "Because we have international law as the basis, this is the international waters."

According to the report, the US -Canada ships have sailed together in the South China Sea for nearly a week before entering the Taiwan Strait. During this period, Montello had witnessed the end of the Chinese warships with the ship of the Chinese warship with the ship, but did not approach harassment.

China -U.S. warship meets the Taiwan Strait

A spokesman for the Chinese Ministry of Foreign Affairs accused "the United States is provoking, and China is dealt with in accordance with laws and regulations. China has always respected the freedom of navigation and flying by countries in accordance with international law. Reasonable and legal, security specialty. China resolutely oppose the creation of relevant countries in the Taiwan Strait area, and resolutely defend national sovereign security and regional peace and stability. "

The Ministry of National Defense of Taiwan said on the 3rd that the relevant situation was grasped throughout the process. In order to be safe and stable in the Taiwan Strait, it has been applied to the monitoring of the sea and air forces. The Taiwanese party calls on the Chinese authorities to respect the right to navigation, avoid excessive provocations, and jointly maintain the peace and stability and security of the region.

Reuters reports that this offshore encounter is the latest close -range contact of the Chinese and American military. Less than a week ago, the Indo -Pacific Command of the United States stated that [a Chinese fighter aircraft approached the US military aircraft in the international leader in the South China Sea on May 26](#) And "unnecessary attack".

Liu Pengyu, a spokesman for the Chinese Embassy in Washington, did not comment on military aircraft incidents at the time. It only stated that the United States "frequently dispatched aircraft and ships and carried out near -reconnaissance against China", which seriously threatened China's national security.

According to the Ministry of Foreign Affairs of China, Deputy Foreign Minister Ma Chaoxu and US Assistant Secretary of State Kangda, who are responsible for East Asia and Pacific on June 5(Daniel Kritenbrink)The talks were held, but the details were not disclosed yet. Earlier, the U.S. Embassy in China has released news that Kangda and the Senior Director of China and Taiwan Affairs of the National Security Council Berlan(Sarahbera)In Beijing, it will be "a key issue for discussing bilateral relations" with China.

White House: Maintain the stable dynamics of the Taiwan Strait

U.S. -China relations have encountered a historical trough, since February "[spy balloon](#) Since the incident, conflicts have been constantly, and recently have been almost in conflict with the Chinese military in the sea and airspace, and the tension has continued to rise. In this regard, the White House

national security adviser Jake Sullivan (CNN) program "Fareed Zakaria GPS" on the 4th of the 4th, the United States is seeking to maintain a "stable" stable. The two sides of the Strait".

Shalvin said that the Bayeng government has repeatedly stated that its cross-strait relations policies have not changed, and they are still based on the "One China Policy" and the "Taiwan Relations Law". The United States supports that "Taiwan or China will not change the status quo unilaterally."

White House National Security Consultant Shaliwen (Data Photo)

Shalvin also said in an interview that US-China relations have gone through extremely turbulent and nervous year, and the two countries are also working hard to return to normal relations. US president Joe Biden may meet with Xi Jinping at a "point in time": "I hope that in the next few months, we can see high-level China-US high-level contact in the next few months to continue this work (referring to the restoration of the relationship between the two countries). Then, at a certain point of time, we will see President Bayeng get together again with President Xi."

He added that the United States and China "fiercely compete in important areas such as economy and technology", and at the same time "ensure that this competition will not evolve into conflict or confrontation", Bayeng believes that these two things will not conflict with each other.

Shooting

A balloon in China fluttered over the United States for a few days. On February 4, the U.S. military shot down in the coastal waters of the South Carolina. The United States has accused China of using balloons for espionage. But China said that this is just an out-of-control meteorological balloon.

After the United States shot down China's suspected spy balloon, the tension between the United States and China further intensified. This time, the Minister of Defense of China had rejected the US Secretary of Defense Austin to discuss matters related to balloons. China claims that the U.S. shot down is an over -reaction and violates international standards. The U.S. Department of Commerce will add 6 entities related to Beijing's suspected spy ball plan to be on the blacklist of exports. In the past few days, the U.S. military has shot down three flying bodies over the Alas California Coast in northwestern United States, Yakong areas in northwestern Canada, and the overhead of the US -Canada border.

Henan Internet celebrities Chen Shaotian

(known as "Guo scolded Brother" and "Tiange") recently set off from Turkey, and went to the United States to seek political asylum. This Monday successfully arrived in Mexico. Later, he proposed political asylum.

Thousands of Chinese citizens cross the Latin American "Route" to steal the United States * Continuous "moisturizing"? The number of Chinese people's "wiring" has increased sharply in the United States

This Sunday is still in Henan, the Henan Net Red Sky, who has arrived in Mexico on Monday. On the same day, the seven or eight candidates from China were arranged by the "snake head" at a rest station with a pig farm. He said that there are still refugees from other countries: "I will arrange me here after getting off the car. This should be a place for pigs, and the door here is closed. This Portuguese person brought three children. Very Hard."

On May 17, Tiange arrived in the capital of Ecuador in Istanbul, Turkey, and began a long "wiring". After three days, he arrived in Metalin, Columbia, arrived in Panama on the 28th. Entering Nicaragua, I arrived at Honduras the next day, went to Guatemara on the 3rd, and entered Mexico on the 4th.

In an interview with Radio Asia on the same day, Tian Ge said that he had reached the Border area of the United States and Mexico. Tapuchra, a city in the southeast of Mexico: "I have been to Tapuchra, and I hit a car in 6 yuan to the hotel. It's time to go to the refugee reception station tomorrow or the day after tomorrow."

In recent years, in order to get rid of violence and poverty, thousands of Central and South America refugees have fled to the United States when they wading, and Mexico is the only way for the United States to escape in the United States. Since the beginning of this year, many Chinese have also taken this escape.

Ten days ago, Henan Net Red Tiange set off from Turkey. After two weeks of "wiring", he arrived in Mexico this Monday. (**天 [()] Snake head arrangement means of transportation, letting off the police along the way to avoid the police**)

Brother Tian said that along the way, the "snake head" arranged the itinerary and transportation, and there were motorcycles on the way to act as a "look - looking whistle" to avoid police investigations: "Snake head leadership, on the bus, there is a motorcycle to put a whistle in front, and there is an end to the back. The arrangement is very complete. Two days before entering Mexico, there are many avoiding (police check). Because before entering Mexico, a

police officer got on the car to search twice, and he didn't ask for money. He first looked at your passport. After reading it, he Just reach out to you and ask you to ask for money. I 'no, no' shake my head, and he asked the next person to ask for money. "

Brother Tian said that there were also police officers called the people in their car and asked for money one by one: "Bring you to the back of the back of the car, even the bag is opened directly, and pay for it. I gave it 20 (US dollar). "

According to people familiar with the matter, the Chinese people have formed a scale for the Chinese people, and the "snake head" has developed to professionalism. The territory of various countries is responsible for receiving the underground organizations of the smuggling passengers to Mexico. From Turkey, it has a fixed "snake head" response through the country.

Brother Tian said that if the first stop from leaving China is the starting point, the special person escorts 20,000 to 300,000 yuan, which is called a "big bag". " ". He chose "small bag". Brother Tian said, "Snake head is thorough, detailed, especially before entering Mexico before Guatemala. There are three motorcycles in front of their bus and at the intersection. There are walkie -talkies on each intersection. To see if there are any police. They are very contact. Where do you get on the car and where to get off, there are snake heads waiting for you. There are special persons (snake heads) in each section. The interface has a snake head waiting for you to arrange a hotel for you. "

"Snake Head" in various countries exchange information with WeChat **

Brother Tian also said that in the process of his "wiring", the "snake head" of each country took a photo for the smugglers and sent it to the "snake head" that responded in the next stop to prevent the smuggling of the smuggling of the non -payment. In order to ensure the safety of smuggling passengers: "Before the front and rear stations are handed over, they will contact WeChat, they will not charge more, and they will not lie to you. The only one encounters a black police officer on the road. No one can control it. In a box under the bus, the black policeman comes to ask for money and say no. "

Brother Tian said that there is a Red Cross Club along the way, and you can get the water and basic drugs provided by the Red Cross. He hopes to serve the Red Cross to help more people after the US political asylum.

The 48 -year -old brother Chen Shaotian, his real name, many years ago, he was sentenced to 14 months for his remarks for criticizing the Chinese government for criticizing the Chinese government on overseas social platforms. He was released from prison last year.

Former US President Donald Trump last month(Donald Trump)It is judged to be sexual assault reporter E • Qiong Caroler(E Jean Carroll)When responsible, some observers may hope that this will reduce his attractiveness to American voters. However, it is not. If you take a look at the University(Quinnipiac)The polls released will find that 56%of the current Republicans will support Trump in the 2024 election.(Ron Desantis)More than twice.

It is true that about 56%of the respondents said that they did not support Trump, but there were similar proportion of the voters who did not support Joe Biden(Joe Biden)Essence Peel(Pew)A survey also shows that 56%of Americans currently believe that the United States cannot solve its own problems, higher than 41%in June last year. The most important thing is that the survey found that "about three -quarters of the public stated that the wisdom of Americans in political decision -making is not confident or completely unconcerned at all, higher than 62%in 2021."

How to explain the imbalance of this level? It is often told us that US politics is controlled by dark forces -political manipulation and large technology companies have promoted these dark forces -error information destroyed democracy. It may be true to a certain extent. However, from another perspective, Biologists and complex scientists who use big data to study ecosystems using big data to study ecosystem(Peter Turchin)Some of the views are worth thinking about. He uses these methods to analyze the way of complex society's rise and fall.(cliodynamics)。 Overwhelming(Clio)He is the goddess of Greek mythology.

Turqin uses a lot of economic and sociological information in history to explore the political and economic cycle of the world for thousands of years. He concluded that there was a basic model: that is, the elite seizing power, and then over time, trying to protect this power by seizing more and more resources. This will inevitably lead to the poor and poorer of the poor ("mass poverty") and trigger "elite excess" -to too many positions with too few elite competition -this in turn leads to extreme frustration, anxiety and internal fighting.

The result is usually the social explosion and political disintegration. The model of Turqin shows that in a complex society, this structural change usually occurs every 100 years. Before Trump was elected as the President of the United States in 2016, Turqin predicted that the United States and Western Europe were destined to go through the "turbulent 20s".

Turqin's point of view is controversial. Twenty years ago, he was in "Historical Dynamics"(Historical Dynamics)The empire theory explained in the book was opposed by historians. A critic said: "Complex mathematics cannot support the naive social theory." But as Trump tried to return, Turqin also returned. His new book "Time: Elite, Anti -Elite, and Political Demolition"(The End Times: Elites, Counter-Elites and the Path of Political Disintegration)He believes that the dynamics he predicted before will only intensify. He said that the decline in actual wages over decades has had an impact, just as the poor in the United States' expected life data decreased. At the same time, excess elites are surging. As the number of college graduates surge, employment competition is becoming more and more intense, which has intensified the unshanding and resentment of 1%of the group (even includes top -level).

In fact, when Turqin runs a historical dynamic model in the past 60 years of economic and sociological trends in the United States, the results show that even if you do not consider other details of Trump and Biden- "By 2020, (by the United States from the United States, (the United States's in the United States) Poverty and excess elites ... have reached a very high level. The radical curve began to rise after 2010, and it really broke out in the 1920s. Political violence is the same. "In this world, like the US Congress on January 6 The incident of the building may only be a front shock.

To put it bluntly, this shows that the appearance of people like Trump is the symptom of the United States turbulent, not the cause. According to data, the only way to change this trajectory is to re -implement the new policy of the United States(NewDeal), Reduce inequality by re -distribution. For example, in the 1950s, the maximum tax rate of US federal income tax jumped to 90%, compared to 7%in 1913, and now 37%.

This appeal may scare many American elites, so that they may decline these predictions, or point out that the model of dependence is rigid is dangerous. But Turqin is not the only contemporary Cassandra (Cassandra, a princess with prediction ability in Greek mythology, but his prophecy is not believed - translator's note); even another person who believes in periodic changes is performed cyclical. Hedge fund billionaire Lei Dario(Ray Dalio)It is also warned that inequality exacerbation may lead to social explosion.

Therefore, U.S. leaders will be stupid to ignore Magin. Not to mention, the concept of excess elites can at least explain why the United States' current elite education is so expensive and so competitive, which will cause damage to future elite children and adults.

Tsinghua Rainbow Banner Incident and China The LGBTQ space that is constantly narrowed in China

Description: After distributing the rainbow flag on campus and confronting the school, two girls were punished. The cases of the two prosecuted the Ministry of Education were not accepted by the court. Their experience shows that in China, even the subtle homosexual and transgender expression space is narrowing. Gilles Sabrié for the New York Times Caroline Lee and Christine Huang is in Beijing. The two students of Tsinghua University are fighting the rights of the Rainbow Banner on the campus with the Chinese education authorities.

Caroline Lee still remembers that she was preparing to Shen University in

high school to see the brochure of Tsinghua University, the top Chinese university in China. It mentioned a graduate who participated in the establishment of a LGBTQ rights group. This campus tolerance implied surprised by Ms. Li, who recognized herself.

Ms. Li finally entered Tsinghua University. Ms. Li, who is now a 21 -year -old junior, believes that this booklet is very ironic. In the past year, she and her 23 -year -old senior student Christine Huang have been fighting a victorious struggle with the school and the national education department on the problem of homosexuality and transgender expression.

Last year, the school managers who distributed the rainbow flag on campus and resisted their confrontation with them, the school made a punishment for the two to be permanently recorded in the case. In March of this year, they tried to leave flowers outside the dormitory of a cross -sex classmate who committed suicide and were surrounded by security. In May of this year, they took a photo with the Rainbow Flag. A university staff ran over and said that they were not allowed to publish photos to the Internet.

"These things add up to me, how can things become so bad?" Said Ms. Huang, who was self -agreed as homosexual.

In late May, a court of Tsinghua's city in Beijing informed them that the court would not accept their lawsuits filed with the Ministry of Education, and they asked the university to cancel the disposal of the Rainbow Banner in the lawsuit.

The experience of Ms. Huang and Ms. Li shows that in China, even the vague homosexuality and transgender expression, the space is shrinking. With the ruling Communist Party's control of ideological and civic society, nationalist critics in social media try to depict Chinese LGBTQ activities as a tool for foreign hostile forces.

Long Darui, a senior researcher at the Chinese Center of Yale University of Law School(Dariuslongarine)It is said that the main allegations of these groups are that they "cause conflicts within the society, the purpose is to destroy social stability."

In May, the Eastern City Hangzhou Police [detained six gay men for 13 days](#) The report said that they participated in the "adultery party" and disclosed their names. In the same month, the well-known rights protection organization "Beijing Comrade Center" said that after 15 years of operation, it said that it was terminated due to force majeure.

The dissolution of the North Tong Center made Ms. Huang donate to the organization every month. She said that the center made people feel safe and mentioned that one of her friends was receiving low psychological counseling there.

For a long time, Chinese citizen groups have been moving forward within the scope of official tolerance, and this range is blurred and changing, and activists often face the threat of being arrested. Ms. Huang and Ms. Li were

born in the early 2000s. At that time, the authorities slightly relaxed social control. Homosexuality is deleted from the list of mental illness in China. Shanghai Pride(Shanghai Pride)Organizations can host large -scale public celebrations, and dozens of Ku'er advocating groups have appeared.

However, under the leadership of Xi Jinping, who has served as the highest leader since 2012, the authorities have strengthened the suppression of human rights lawyers, feminist groups and other activists. Although it is not clear about the right of homosexuality, Xi Jinping emphasizes the values of Confucianism on order and obedience, that is, citizens must abide by the traditional gender role.

In 2016, China banned television programs and movies. In 2020, the Shanghai Pride Festival announced the suspension of unlimited time, and indirectly mentioned that it was due to security concerns.

In 2021, it was called a turning point by activists. China's hottest application WeChat suddenly deleted the LGBTQ organization account operated by at least a dozen universities.

One of the accounts is operated by Purple, a community where Ms. Huang and Ms. Li are located, and there are more than 300 members of Tsinghua. All the articles written by its members -about sex education, coming out to family, and mental health -disappeared overnight.

Ms. Huang worked hard to help the sad friends. "Although many things make people feel hopeless, each of us has to live, we will be brave this night," she sends a message to everyone.

Ms. Huang and Ms. Li came from the very different world, because they became friends because they were studying in the same university. Li reads a foreign language school in Wuhan City, central China. Her classmates dared to stand up in political classes, and accused the teacher who claimed that homosexuality was a disease discrimination, and she explored her gender identity in such an environment.

Huang's family is not so superior. She is from a small city in Jilin Province, northeast of China. Childhood is raised by her grandmother most of the time. When discovering a female character on TV, she realized that she was a homosexual, but she did not dare to mention it to the vast majority of students.

In front of his parents, Huang Li basically kept the image of a good girl. Listening to them, his academic performance was excellent. But at high school, they and their parents had a fierce quarrel on the outbreak of homosexuality, and since then, they have been avoiding the topic of coming out with them.

Both want to get freedom after coming to Tsinghua. Purple has become their core social circle, a entrance to many new ideas. The community will show European films that talk about homosexual labor actionism.

Purple gave them an ambition. A member was risky infected with HIV, and Ms. Huang helped him go outside school for testing. They carefully practiced actionism, such as presented flowers to women employees on the school on the day of Women's Day. In order to express their opposition to Russia's invasion of Ukraine, they went to eat a goose pot -because in Chinese, "goose" and "Russia" are the same.

Later, on May 14 last year -on the eve of a Chinese comrades in China, they put 10 rainbow flags on the table in a supermarket in the school, with two lines of small characters next to them: "Please take yourself ~#Pride".

Ms. Li and Ms. Huang showed the rainbow flag displayed in Tsinghua Campus Supermarket. Christine huang

The two said that school officials broke into their bedroom that night. Later school [Explanation](#) In the written documents of the reason for punishment, they are accused of "adverse effects".

The school insisted that the two did not apply for approval before distributing the banner, and accused Ms. Huang of the school staff who scolded and insulted their confrontation with her, and also shared their names and positions on WeChat. Ms. Huang admits that she has published her name, but denies that she has abuse. A representative of Tsinghua University did not respond to the comments request.

This punishment caused them to be suspended for six months and increased their difficulty in applying for graduate students in China.

Ms. Li, who is mainly based on history, is trying to go abroad to start a new life and hopes to study graduate degree from foreign universities.

Ms. Huang, who mainly practiced sociology, recently wrote a letter to her parents, and asked them Chen Ming's sexual orientation. In case the police found her parents, she intends to send them the photo of the letter.

I was admitted to Tsinghua Tsinghua to make Ms. Huang a topic figure in her hometown, making her family dream come true. Now that she will graduate in a month, she will graduate, and the employment prospects are not good. She hopes to work in LGBTQ non -profit organization, but she knows that the choice is getting smaller and smaller.

In February, Huang Li said the Ministry of Education, because protesting their encounters through the judicial system seemed to be the safest way.

Ms. Li and Ms. Huang sued the Ministry of Education and asked the school to cancel the sanction of the Rainbow Flag to show them. They believe that protesting their encounters with litigation is the safer way. Gilles Sabrié For the New York Times

There were no response three months after the lawsuit was submitted, so they took a lawyer to the court on May 24, and as a result, they learned that the case would not be accepted from a judge. According to the two, the judge said that he would not make a written explanation, but mentioned that related regulations prohibit the acceptance of lawsuits that endanger national security or national unity.

They intend to challenge this decision and exhaust all legal means, although they know what the result may be.

On Sunday of the United States (June 4), the F-16 jet fighter was emergencyly chasing a light aircraft that violated the Washington SAR, and the light aircraft crashed after the light aircraft. There is no one in the plane.

Reuters reports that the Federal Aviation Administration (FAA) said that a CESSNACITATION aircraft equipped with seven to 12 passengers was chased by the fighter and crashed in the mountainous area of southwestern Virginia. A U.S. official said the crash of the plane was not caused by fighter jets.

CNN quoted the news that there were four people on the plane.

According to the Flight Aware information of the flight tracking website, the registrar of the aircraft was ENCORE MOTORS in Melbourne, Britain, Florida.

The boss of Ecola, Lenpel, told the Washington Post that his daughter, granddaughter and nanny were on the plane.

The incident took place at 3:30 pm on the same day (Singapore Monday 3:30 am). According to the FAA statement, the plane took off from the city of Elizabeton, Tennessee, and originally scheduled to fly to Long Island, New York. The FAA and the National Transport Safety Commission will jointly investigate the incident.

According to the flight tracking website Flight Aware information, the aircraft seemed to turn his head after arriving in New York, turned close to 180 degrees, and finally flew to Virginia.

According to a source who is familiar with the incident, when the plane broke into the Washington Special Economic Zone, he was believed to be in a state of autonomous driving. The authorities tried to talk to the pilot, but did not get any response.

Residents in Washington and Suburb reported that they heard the deafening sounds, and windows and walls were shaking, and the public asked on social media what happened.

U.S. officials said that Sonic Boom's sound explosion (Sonic Boom) was generated by fighters during supersonic flight. The Fire Department of Washington Special Administrative Region and the Safety and Emergency Management Department said that there are currently no threats or emergencies.

Although pilots did not respond to the call of the authorities, although it was rare, it was not unprecedented. In 1999, Golf player Payne Stewart was killed in an airplane accident. At that time, the pilots and four passengers including Shiduo did not respond to the author's call. The plane crashed thousands of miles after flying over thousands of miles.

Saudi Arabia will reduce 1 million barrels of oil supply every day in July to boost the sluggish oil prices.

Reuters reports that the Saudi Energy Department announced on Sunday (June 4) that the oil output of Saudi Arabia in July will be reduced from about 10 million barrels per day in May to 9 million barrels per day. This is the biggest decline over the years.

Saudi Energy Minister Salman said that he would do his best to stabilize the market, and the reduction in production in July may also be extended.

Saudi Arabia announced that it would be voluntarily reduced out of production after meeting with OPEC+ composed of Oil Alliance and other oil-producing countries; other member states agreed to extend the voluntary production reduction agreement that was originally scheduled to end at the end of this year to the end of 2024.

The main winner of the talks is the United Arab Emirates. The daily output quota of the UAE will increase, but the daily output quotas of some African members will decrease.

According to Bloomberg, after Saudi Arabia promised to reduce production in July to stabilize the market, oil prices rose sharply.

Sett Sas's median crude oil rose nearly 5%to \$ 75.06 per barrel (about S \$ 101.40), while the price of Brent crude oil futures rose to \$ 78.47 per barrel.

The Russian Ministry of Defense said that the Russian army defeated Ukraine's major counterattack in Ukraine in southern Ukraine, and hundreds of parent auxiliary troops were killed.

Reuters reported that the Russian Ministry of Defense issued a statement on Monday (June 5) on TELEGRAM in the instant messaging that Ukraine had dispatched six mechanized infantry battalions and two tank battalions on Sunday for counterattacks.

The statement said: "On the morning of June 4th, the enemy launched a large -scale counterattack in the five areas of the front line of the Soutonhnc."

Reuters cannot immediately verify Russia's claims. Ukraine did not immediately comment on the Russian statement.

On the other hand, Granco, Governor of Belgor, Russia, said that a drone attacked a energy facility in the state in the early morning of Monday Monday morning, causing fire.

Grankov said in Telegram: "A fire in a energy facilities in Belgore. Preliminary investigations showed that fire caused by an explosion device dropped from a drone."

He said the attack did not cause casualties.

In the past few weeks, the frequent meeting of US -China officials seems to indicate that the two countries are trying to ease tension. Prior to this, China

and the United States complained about each other and stopped high -level contact for several months, which caused people to worry about the risk of conflict -whether the conflict was due to accidents or other reasons.

The earliest US National Security Consultant Sarawan met with Wang Yi, the highest diplomat in Vienna in May this year. Then the first cabinet -level talks of the highest business officials in the two countries in Washington for several months. The Chinese Ambassador to the United States also arrived in Washington last week, and finally filled the positions that had been vacant since January this year.

However, while Beijing returned to the negotiating table on some issues, the Chinese government also came up with a more tough attitude, allowing President Biden President Biden to predict the US -China relations last month "Trust" "It becomes more complicated. China's sincerity of Washington Expressing doubt , And adopted its own restrictions to fight back to the US technical export control, and also required the United States to cancel sanctions against Chinese officials.

The Pentagon said this week that Beijing rejected the invitation of the United States Minister of Defense Li Shangfu and US Secretary of Defense Louger Austin at the Singapore Security Conference this weekend. Last Friday, a Chinese fighter was approaching an American reconnaissance aircraft over the South China Sea. It passed directly from the head of the US aircraft. The U.S. military described this operation as "no need to fight."

"China often regards senior leaders who contact it as a reward for obedience, rather than creating a tool for stable or solving differences," Tang An Zhu, who once served as an official in China in the United States(DrewThompson)He said that he is now a researcher at the School of Public Policy, the National University of Singapore. "If you want to arrange a meeting, you must accept the conditions of China."

The Pentagon said that China refused to allow the two countries to meet at the Shangri -La dialogue held in Singapore this week. It was a "worrying" example that Beijing was unwilling to contact military issues. Li Shangfu has been the Minister of Defense in March this year. Since 2018, he has been sanctioned by the United States for purchasing military equipment from Russia. Pentagon officials said these sanctions did not prevent Li Shangfu from meeting with Austin.

However, China believes that sanctioning Chinese officials has an improvement in the relationship between the two countries. Chinese Foreign Ministry spokesman Mao Ning said that Washington should terminate the sanctions against Li Shangfu and "create the necessary atmosphere and conditions for the conversation between the Sino -US military and the United States." She reiterated China's position on Tuesday that if Washington wants to restore the dialogue between the two armies, she should "immediately correct the wrong practice."

Shen Dingli, a professor of international relations at Shanghai Fudan University, said that China does not want to meet with American officials when they think they have lost dignity.

"We have to meet on the basis of mutual respect," Shen Dingli said. "We hope that the United States will be relieved of sanctions and seek compromise through concessions."

In recent years, the United States has imposed sanctions on some Chinese officials and companies, accusing them of violating human rights, engaging in technical spy activities, and a series of other issues.

The Asia -Pacific Economic Cooperation Organization Annual Forum will be held in San Francisco in November this year. U.S. officials want to establish a smooth communication channel with China. As the military aircraft interception incidents were shown last week, the army of the two countries often patrolled in a controversial area (such as the South China Sea), increasing the risk of accidental conflict. Austin said on Thursday that some activities of China in international airspace and waters are "provocative." (Beijing accuses US aircraft and ships from being too close to the Chinese border.)

Biden suggested setting up a "guardrail" to prevent the sudden turn of the US -China competition. However, Chinese officials rejected the suggestion that it was the efforts of Washington to curb and suppress China.

"No dialogue brings unacceptable risks to both parties," Ge Laiyi, Director of the Asian Project Director of the Marshall Foundation in the United States(BonnieGlaser)Said, including the risk of "conflict on the Taiwan issue".

The United States has also seen the potential of deeper cooperation with China to reduce climate change and reduce the debt of poor countries. These two competitors are more likely to find things in common in these fields instead of sensitive military and security.

Biden's climate special envoy Kerry said last month that China had invited him to "recently" visit. Minister of Finance Yellen was also in April this year Represents She hopes to visit China and call for the establishment of an economic relationship of "constructive" and "healthy".

For China, restarting trade negotiations with the United States can help domestic economic recovery. After implementing the three -year strict "new crown and clear zero" policy, China's economic recovery this year is not balanced, and export growth has slowed down. The situation of geopolitical tensions, coupled with the government's attention to national security, leading to an uncertain business environment Essence

"What we want to discuss is how to export to the United States without harming US national security and how the United States enters the Chinese market without respecting China," said Shen Dingli of Fudan University.On Tuesday, Chinese Foreign Minister Qin Gang and Musk met the Chinese government's point of view when meeting with Musk, that is, the "health, stability, and constructive" Sino -US relations are beneficial to the two countries and the world. "They want the United States to stop sanctions and cancel export control."

Even if the negotiations are restarted, some problems may be difficult or unsolved. Washington has repeatedly warned that if China provides a fatal weapon for Ukraine War in the Ukrainian war, it will lead to serious consequences. Analysts say that the political actions against China may restrict the space for the Bayeng government to reconcile efforts.

A comment article published by the Communist Party's main newspaper "People's Daily" last week stated that Ambassador Xie Feng arrived in Washington on May 23 and "pulled back the tension from the edge of the cliff, which signs signs of relaxation in Sino -US relations."

However, the article also accused the US decision makers of destroying the relationship between the two countries, saying that the improvement of the relationship depends on whether Washington is willing to "avoid damage to mutual trust, avoid misunderstanding of misjudgment, and take specific steps to fulfill their promises."

The 3rd train collided near the town of Balasore, Odisha, eastern India on the evening of the 2nd, causing nearly 300 deaths and hundreds of people injured. The train is now beside the broken carriage.

Officials initially reported that 288 people died, but the Orissa Provincial Government had repaired the number of deaths to 275, because some of the remains were repeatedly calculated.

The authorities said yesterday that 382 of the 1175 wounded were still hospitalized.

However, many people are worried that the number of deaths may increase, because many people in the hospital have serious injuries.

The 3rd train collision accident occurred in India on the 3rd, which is the worst train accident in the country for decades

(Voice of Germany) [Indian Train accident](#) As a result, nearly 1,500 casualties are the worst train accidents in decades. The Central Bureau OF INVESTIGATION announced the preliminary investigation results on Sunday (June 4) showed that the "fundamental reason" was "disturbed" due to the "electronic lock system".

The "electronic linkage system" is a complex signal system that is responsible for arranging the operation and mobilization of the train on the track to prevent the train from colliding.

The train accident occurred near Balasore, Odisha, on June 2, and the three trains collided. Local reports said that at the time of the incident, the high-speed passenger train "Coromandel Express" received a signal that entered the main track, and the signal was then withdrawn. The collision of the two trains caused several cars in the Cordonist Express to the other track and hit the third-column passenger train "YESVANTPUR-HOWRAH Express".

Thousands people were injured and 275 people died

The accident occurred on Friday evening, more than 200 kilometers southwest of Kolkata, a rural area. There are currently 275 people who are killed, but this number may still increase. The number of injuries reached 1,200, and nearly 400 people were treated in the hospital on Monday. The preliminary investigation believes that the cause of the accident may be signal errors.

India several severe train accidents many times

India, with a population of about 1.4 billion, has one of the world's largest railway transportation networks, but it is also a long time. The Indian government has a lot of investment in high -speed trains. However, there are still many trains and rail facilities that have disrupted for a long time and need to be updated urgently. According to the "Indian Times" report, the most serious accident in the past was in 1981, and at least 800 people were killed. The collision in 1995 also killed at least 350 people.

Test of security discussion

The accident once again triggered a discussion on the safety of Indian railways. In all parts of the world, leaders of many countries have issued mourning and condolences, such as President Bynden and British Prime Minister Sunak. German Chancellor Savz also said that he was shocked, and his thoughts were together with the dead and his family members.

The Indian authorities said that the on -site rescue had been completed. After two remains, the number of deaths was repaired from 288 to 275, and it should not be raised again. 260 people are still being treated, and one of the patients are in critical condition. The Indian Central Investigation Bureau stated that it has ruled out that the matter is related to the negligence of the train driver.

The Indian Times reported that although the results of the preliminary investigation showed that the accident was suspected of criminal, the Indian Railway Minister Ashwinivaishnaw did not mention deliberate damage and only told the media that the railway safety commissioner has found that the number of deaths and the accident have been found. The reason will be submitted in detail soon.

Waishino said, "According to preliminary investigations, people suspected of interfere with the electronic locking system are criminals." However, before the final investigation report was released, he should not disclose too much information. This incident will be transferred to appropriate investigation agencies for processing.

Indian about 75%of the accidents are caused by derailment

India has one of the world's largest and busiest railway networks, and tragic accidents have once again aroused the outside world's attention [railway safety issues](#) Essence

In 1999, the two trains of the West Bangladesh collided, causing 285 people to die; in 2010, a passenger train of the same state was derailed and hit by another freight train, and 145 people died. In 2016, a passenger train slipped out The orbit causes 160 people to die.

Although the final investigation of the accident has not yet been released, experts have accused that the broken infrastructure in India has led to many train accidents and questioned the funds for train maintenance and rail renewal.

According to government statistics, 163 from 217 from 2017 to 2018 and 2020 to 2021 were caused by derailment from derailment, accounting for about 75%of the accident.

The report submitted to the parliament in December last year showed that one of these accidents is that the railway track lacks maintenance, reduces funds for rail renewal, or is not fully utilized. More importantly, people have a serious shortage of manpower -especially in the safety of rail safety - expressed concerns, and many departments have positions vacancies.

The Indian authorities say that the accident rescue has been completed

Modernization at the cost of security?

In the past few years, the Modi government has been trying to introduce high -speed and automated trains to stimulate [Railway modernization](#) Including a

plan to achieve 100%electrification of the railway by 2024, as well as the carbon neutralization of railway networks by 2030.

Earlier this year, the German engineering giant Siemens obtained huge orders for India to manufacture 1,200 electric trains, and Japan's professional technology has been commissioned to provide technology and funds to assist the construction of the first bullet train.

Economic analyst Mkenu questioned in an interview with DW: "If the Modi government has achieved a number of growth in the modernization and expansion of the railway network, and capital expenditure has increased unprecedentedly, will security investment increase proportionally? "

Indian Prime Minister Modi went to inspect the accident scene on the 3rd

: Increase can be avoided

Due to the accident, the Indian government faced the severe criticism of the opposition party. Many public opinion called on the Minister of Railway Waisino to resign.

Former Indian Railway Minister Mamata Banerjee criticized that she proposed to install a train anti -collision device during his tenure. At that time, if the device was successfully installed, it would have been avoiding this fatal regret.

The Hindustantimes reported that the opposition politician inspected the accident on the 3rd that the Indian Railway Ministry had no independent budget, and the railway did not receive special concerns caused by special attention. As a result, the accident had surfaced. Call for India to pay special attention to the railway network.

In response, Vaishno responded on the 4th that the collision anti -anti - collision system mentioned by Bannajib was "nothing to do" with the cause of the accident, and said that the former minister's speech was "based on her limited knowledge".

Martin Nansi served as president from 2009 to 2014, and was charged with national funds that illegally obtained from illegal income from 2010 to purchase most equity of "Editora Panamaamerica".

Last week, the prosecutor had been imprisoned for 12 years to him and 12 other defendants.

Nonetheless, Martin Nili still won the party primaries in the party's "Achieving Goals" today, which is the political party he founded in 2021.

The Election Commission stated that Martin Neli received 96% of the votes, but the voting rate was only 25%.

The Panama presidential election is scheduled to be held in May next year.

Prosecutors said Martin Nedi and others used a series of shell companies to obtain nearly \$ 44 million from the national infrastructure contract.

It is said that Martin Nili subsequently used a part of the money to purchase a controlling stake in the "Panama America Publishing Company", and the social orientation of this media company's newspaper will help the interests of the former president.

Martinnelli is a Panama chain supermarket giant. He denied any illegal income and claimed that he was a victim of political conspiracy. The conspirator intends to prevent him from participating in the presidential election.

Martin Nili was investigated after he stepped down the presidential position and was investigated for many corruption scandals. He was charged with spines and misappropriation of public funds, but was not guilty for the second time in 2021. (Translator: Ji Jinling/Calculation: Chen Zhengyi)

Russia is providing advanced fighters to the Burmese military and training their pilots how to use them in the war against their people.

More than two years after the coup, the Burmese military was facing a national armed uprising. Recently, they are increasingly using air strikes to attack the anti -military government forces, and this strategy has brought devastating consequences.

We follow the people who counterattack in the ground and the air to meet the military rebels and listen to them to analyze the strategies and psychology behind these deadly machines.

June 4th Memorial Museum in New York, USA The June 4th Memorial Hall is provided by the sea

On June 2nd, the June 4th Memorial Hall officially opened in New York. I know that some audience friends are very concerned about the relevant development of the memorial hall, and make some explanations here.

The first is the meaning of establishing a memorial hall. Everyone knows that in the spring of 1989, countless Chinese young people, in order to make China a democratic country, went to the streets to make a call. At that time, the Chinese had the opportunity to embark on the development of civilization and became a responsible big country in the international community.

However, the gunfire on June 4th broke the dream of the Chinese people. Since then, China has embarked on a path of strong national strength but people without freedom. What happened in 1989 was not only China but also the world. When the world began to realize the Xi Jinping regime this morning, when the human civilization constitutes a threat, we should know that all this is from 1989. Therefore, the exciting democratic movement, and the ruthless suppression of the ruthless and ruthless suppression, not only is not only not only not only it is not only not only The turning point of China's democratic development is also the true origin of the global crisis. Such an incident not only connects the past and connects today and the future; the last incident feels that we deserve to all of us to remember, remember those who have given life, the democratic dreams of the Chinese, and the efforts to give for it. Remember the true face of the Communist Party of China, this is why we build this memorial.

Secondly, I want to represent the preparatory committee of the Memorial Hall here, thank all those who support the establishment of the Memorial Hall again, thank you for your donation support and cultural relics gifts. Young volunteers. They were risked by the Chinese Communist Party authorities, and they worked hard during the construction of the museum, paid a lot of time and energy, and did not receive any remuneration. In my opinion, such a spirit of dedication, such enthusiasm, is the continuation of the spirit of eight or nine.

Third, on behalf of the Preparatory Committee of the Memorial Hall, I announced that the preparatory committee has decided to appoint Mr. Dahai as the curator. In the past year of more than a year, Mr. Yu Hai has played an excellent leadership ability and invested a large amount of time and energy. Without him, there would be no successful establishment of the June 4th Memorial Hall. The preparatory work will be over today. The planning and development of the Memorial Hall in the future will be fully responsible for the curator and his team. As the initiator and convener of the preparatory committee of the Memorial Hall, I think I have completed my staged task. In the future, as the chairman of the Memorial Hall Council, of course, I will do my best to assist the work of the Director of Dahai, but regarding any specific issues of the memorial hall, please go to our official website to contact the Dagai Museum. It is getting better and better.

Fourth, although the June 4th Memorial Hall has been established and received a lot of attention from the outside world, I personally maintain a cautious and optimistic attitude towards the future development of the

memorial hall. Said to be cautious, because our current funds can only maintain the rent of up to two years. To allow the June 4th Memorial Museum to operate permanently, we also need continuous support from the outside world. The second-step fundraising goal of the June 4th Memorial Museum is \$ 15 million to 2 million. If we can complete this goal, we can buy a space. Only in this way can the memorial can exist for a long time and carry out long -term planning. Therefore, applying an old saying, "The revolution has not yet succeeded, and comrades still need to work hard." We are willing to continue to move forward with supporters to preserve historical memory.

China Defense Minister Lee Shangfu Shangri -La Dialogue released a comprehensive tough signal

9:44 am on June 5, 2023![] Image source, AFP

Image adding text,

Li Shangfu served as the Minister of Defense in March.

Chinese Defense Minister Li Shangfu delivered a major speech at the Shangri -La dialogue after taking office. It mentioned that if a fierce conflict between China and the United States, it will be the "unbearable pain" in the world.

At this summit in the field of security defense, Li Shangfu pointed out that "some countries" are intensifying arms competitions in Asia.

However, he said that the world is large enough and can accommodate the common development of China and the United States. The two superpowers should seek a win -win situation in cooperation.

In his speech, Li Shangfu did not mention the United States directly, but said that "some countries want to intervene in other domestic affairs and regional affairs."

He said that China "never" allows the United States to launch the "Color Revolution" and the agent war in multiple regions to repeat itself in the Asia - Pacific region.

The United States had previously accused the Chinese destroyer's "unsafe" operation when a US warship was approaching a US warship.

On Saturday (June 3), the U.S. Navy pointed out that a Chinese destroyer sailed near a U.S. warship "in an unsafe way. At that time, the US warships were passing the Taiwan Strait with Canadian ships.

China has criticized the United States and Canada to "intentionally create incidents, deliberately provoke risks, and maliciously destroy regional peace and stability." Meijia claims that he sails within the allowable range of international law.

In his speech, he said that China would not allow the United States and its allies to "sail hegemony in the name of navigation freedom" in the South China Sea.

Last week, Washington announced a video that the Chinese fighter plane approached the US military aircraft with the "unnecessary provocative" action in the South China Sea.

China "is not afraid of any opponent" on the issue of Taiwan

When asked about the Taiwan Strait issue, Li Shangfu said that it was the tension of "foreign countries" intensifying the region.

He reiterated that the Taiwan issue is the core of China's "core interests", and any "blur" and a Chinese principle behavior is "absurd and dangerous."

Image source, reuters

Image adding text,

The Taiwan issue has continued to become a contradiction in Sino -US relations.

He criticized the Taiwan Democratic Progressive Party to "conspire alone", and the external forces "controlled the Taiwan China" to interfere with China's internal affairs, saying that this was the root cause of the tension of the Taiwan Strait.

"We are willing to strive for peace and reunification with the greatest sincerity, but never promise to give up the use of force," Li Shangfu said. "If someone dares to split Taiwan from China, the Chinese army will not hesitate to be hesitant and not afraid of any opponent. No matter how much the price is paid, it will resolutely safeguard national sovereignty and territorial integrity."

Criticizing the "Cold War Thinking" in the United States

Li Shangfu, who served as China Defense Director in March this year, accused the United States of "Cold War Thinking" and "caused a great increase in security risks."

He mentioned the "Indo -Pacific Strategy" proposed by the United States, saying that China believes that any strategy can "draw lines with ideology" and build his military alliance with "threatening threat".

He also pointed out that the essence of trying to promote the "Asia -Pacific NATO" is to abduct the countries of the region and rendering conflict confrontation, which will only cause this area to fall into the vortex of tearing, disputes and conflicts.

Li Shangfu made the above remarks when attending the Shangri -La dialogue in Singapore. This is the only annual safety defense summit in the Asia - Pacific region.

The United States imposed sanctions on Li Shangfu on the issue of Russian weapons in 2018. In order to protest, Beijing has recently rejected the request for the dialogue between the two national defense ministers.

Li Shangfu, the Chinese Defense Director, who was sanctioned by the United States in 2018, rejected the invitation to meet with the US Defense Minister Austin.

At the Singapore summit, US Secretary of Defense Lloyd Austin accused China of refusing to conduct military discussions.

A member of the Chinese delegation told AFP that the U.S. relief of sanctions against Li Shangfu was a prerequisite for dialogue.

Some experts said that neither the United States and China were interested in truly communicating with each other.

U.S. Defense Criticism criticized China

Earlier, Austin delivered a speech entitled "The United States' Leadership in the Indo -Pacific Region" at the Shangri -La Dialogue Summit, which was "deeply concerned" about China's unwillingness to participate in military crisis management.

Image adding text,

US Secretary of Defense Austin said, "The more we talk about, the more you can avoid misunderstanding and misjudgment that may cause crisis or conflict."

He emphasized that the Taiwan Strait War will be devastating and will "affect the global economy in a way we can't imagine."

He criticized that China "alarmed the number of dangerous interceptions on the United States and allies aircraft in the international airspace, and reiterated that the United States would support allies and partners to fight against" coercion and bullying. "

He also pointed out that the United States is firmly committed to maintaining the current situation of Taiwan. In recent years, Washington and Beijing have experienced tensions on a series of issues, including China 's sovereignty on Taiwan and the sovereignty dispute over the South China Sea.

Image adding text,

China's sovereignty in the South China Sea is a major issue in the security issue in the Asia -Pacific region.

Meeting with British and German Defense

During the summit on the weekend, Li Shangfu held bilateral talks with Britain, German defense and EU representatives.

Josep Borrell, a senior representative of EU diplomacy and security policy, said that the two sides had a constructive dialogue, and German Defense Minister Borispistorius called on China to stop recruiting German retired pilots for training for Chinese combat pilots.

The German Defense Minister told AFP that Li Shangfu did not deny the statement during the talks, but tried to dilute the importance of this incident from his perspective.

In addition, Li Shangfu also had talks with the British Minister of Defense Ben Wallace, which showed the Chinese side to the Chinese side's views on issues such as Hong Kong's democratic movement, freedom of navigation, Uyghur human rights, and Taiwan Straits.

The mainstream demands of Beijing June 4th protesters are anti-corruption, anti-officials, and reforms. Therefore, the fierce action of the portrait of Mao I, the three warriors of the Hunan Warriors, was actively suppressed and twisted to the public security organs by the protesters. However, such a gentle and rational protest movement was

eventually affected by the ruthless suppression of the CCP army. The blood of the dead pierced the CCP's lies, which made people who countless counts realized that the so -called New China was just a party country wearing a republic coat, and the PLA was just the SS of the People's Army.

June 4th is a watershed. Before June 4th, although there was a period of relatively open ideas, only individual prophets ancestors criticized the CCP and denied the legitimacy of the CCP regime. After June 4th, a variety of anti -communities emerged, reflection history, criticizing the present, and looking forward to the future. Where does China come from? Where to go? Among them, the trend of the Republic of China is particularly turbulent. A large number of literature, art, and film and television works have tapped and showed the glory and glory of the Republic of China, and the heroic and fierce sacrifices of the National Army. More and more reflexes realize that the Republic of China established by the 1911 Revolution is the right path to democracy. With the support of the CCP, the CCP uses lies and violence to force the Republic of China government to retreat in Taiwan, achieving autocratic restoration. The so -called People's Republic of China, one is not China, two people, and the three -African republic. Ending the CCP, the call of Angelica Angelica from the Republic of China rose.

The Taiwan Freedom Zone, after twists and turns, fully realized the blueprint for Mr. Sun Yat -sen's constitutional democracy. How much do people in the occupied area and exile to identify with the Republic of China and the Taoist Republic of China hope that the Republic of China government can conform to the historical trend and promote the wave of returning to the Republic of China in the entire territory of the Republic of China.

However, it is regrettable that the mutation of the Republic of China has begun to Taiwan, and then has evolved from Taiwan's independence. As early as 2000, Mr. Wang Bingzhang explicitly stated: "The Taiwan regime has gradually abandoned the essence of the Republic of China, abandoned Sun Yat -sen and the Three Civilianism, and put the Republic of China 'Taiwan independence'. In a word, the Taiwan regime betrayed the Republic of China. " Based on this, it advocates the "rebuilding the Republic of China."

Today, more than 20 years later, the Republic of China Executive Yuan issued a document to clearly make a clear order: the people of the mainland "not belong to the nationals of the Republic of China." Once again, the Taiwan regime abandoned the essential Taiwan independence position of the Republic of China, and also provided a new evidence for Mr. Wang

Bingzhang's assertion, and at the same time crushed many people from the Republic of China to the Taiwan regime.

Today, when commemorating June 4th and commemorating June 4th, in addition to remembering, it should be more effort, ending the authority of the Communist Party of China, and also a well -democratic and clear sky in China to comfort the undead of pioneers.

Rebuild the Republic of China!It is the most loud slogan to end the CCP's authoritarian autocracy!Gathered under the banner of the Republic of China and advance together, democratic China is ahead!

Ukraine President Zelezisk said Russia is through a supplier network to evade international sanctions aimed at preventing it from creating missiles and other weapons.

Reuters reported that in a video speech on Sunday (June 4), Zelenezki did not name some countries and companies being helping Russia to obtain technology, and the focus was on the technology of creating missiles.

Since October last year, Russia has launched hundreds of missiles to Ukraine.

"Unfortunately, this terrorist country said through a supplier network to bypass international sanctions through a supplier network and obtain world technology."

He said that Ukraine knows how much Russia has worked hard to avoid sanctions, and he vowed to make every effort to ensure that Russian missiles were "no products from the free world."

In April of this year, a senior official of Zelenski said that after the supply from the West was blocked by sanctions, they found more and more components from China in the Russian weapons that attacked Ukraine.

After the Hong Kong Court of Final Appeal revoked Cai Yuling's conviction in the license plate, Cai Yuling embraced with supporters outside the court

(Voice of Germany Chinese) "Happy -I can't think of any words to describe my mood now", senior reporter Cai Yuling said outside the Court of Final Appeal after the judgment was issued on Monday (June 5). She said that many people may have the same feelings, and this judgment is also a good news for the Hong Kong news industry.

Cai Yuling applied for a license plate to check the license plate to the Hong Kong Transport Department for the "Yuen Long 7.21 Incident" in 2020 ("Checking" refers to the record of the ownership of the authority to verify the ownership of the authorities). Specifically, when the application certificate is

selected by the license plate check, Cai Yuling chose "other related traffic and transportation" (the other two options were "used for legal lawsuits" and "for sales and purchase of vehicles") The court and lower -level appeal court believed that this did not include her news purposes.

Cai Yuling was convicted in April 2021 and fined 6,000 Hong Kong dollars, becoming the first case of the first reporter being convicted for a license plate check. Cai Yuling refused to convict and appealed, and was rejected in November 2022. After that, she appealed to the Court of Final Appeal. The final month of the Court started the trial last month and made a ruling on June 5.

According to Agence France -Presse, the judges of the Court of Final Appeal decided to overthrow the previous conviction on June 5th, and ruled that "there is no reason to exclude the sincere news survey" in Cai Yuling.

"Outside, Cai Yuling's use of the use of the book is not a false statement.

The judges said in the ruling that they can understand "other related traffic and transportation", which includes investigative news work conducted by the appellant here. The judges also said that the understanding of a wide range of understanding is because of the "Constitution Protection and Freedom of Press".

Cai Yuling was interviewed after the decision of the Court of Court of Appeal in Hong Kong, emphasizing the importance of remarks and freedom of news

Cai Yuling said that the judgment of the Court of Final Appeal emphasized the importance of speech and press freedom, "I think this is the greatest significance of today's ruling."

Agence France -Presse reported that this is a rare victory for the Hong Kong news industry. Since Beijing's implementation of the Hong Kong National Security Law in 2020, two major independent news agencies in Hong Kong have been forced to suspend.

The Hong Kong Radio "Ji Ji" program broadcast the "Yuen Long 7.21 Incident" special documentary about the 2019 anti -delivery of the demonstration in July 2020. The report mentioned some vehicles, car owners, and their relationship with the incident that appeared in the "Yuen Long 7.21 incident". Some details showed that some of them were in touch with the pro -Beijing and political influential village committees. Cai Yuling participated in the production of the show.

Agence France -Presse reported that the investigation of the award -winning work believes that the police failed to respond to the Yuen Long attack in July 2019. [Yuen Long attack event](#) It was the watershed of Hong Kong's democratic protests in 2019, which caused the public's trust in the police.

Rights protection person Chen Guangcheng Reuters Pictures

To this day, the world's world-renowned democratic movement, which happened in the falling area of the Communist Party of China in 1989, has passed 34 years.

I don't know if friends noticed that in the past three decades, whenever the movement was mentioned, the most talked about the most often was the CCP from the middle of the night from June 3rd to the early morning of the

4th to 4th. The bloody massacre of demonstration students and citizens described the bloody and tragic of the slaughter scene. This was right. The CCP regime was really brutal, and the use of the army to suppress the people was shocked!

However, I think that the people of the people of the CCP are not afraid of power, dare to go to the streets to ask for free human rights, and use their actions to achieve the great and lofty spirit of social fairness, and it is more worthy of praise and promotion.

Of course, the "June 4th" massacre of the CCP's sister -in -law must face directly and cannot avoid it. However, just repeating the bloody scenes, it will also play a role in spreading terror and fearfulness to benefit the CCP.

Therefore, I think that while emphasizing the blood debt owed by the "June 4th" of the Communist Party of China, we should also shift the focus to the spiritual value of promoting the "eight or nine civil movements".

It is regrettable that decades have passed, and the evil CCP's tyranny is still far away. What's more, in the past three decades, the CCP has not only changed from stealing in the occupied area. The penetration and corrosion of the free world is also a three -pointer, and even the degree to blatantly threatens to kill objections to exile overseas.

Fortunately, the warriors were not scared. On the contrary, with the continuous efforts of everyone, the freedom world not only recognizes the evil nature of the Communist Party of China, but also recognizes the dangers and dangers of their appeasement policies for decades, and is constantly adjusting policies to the Communist Party. With the continuous deepening of the world situation, it will definitely create a new favorable environment for the CCP's occupied areas to achieve republican and democratic democracy, bringing historic opportunities. We must seize this opportunity.

"Self -help" is a matter of heaven, and there is also a knowledge and summary of "confidence determines success" in the world. No matter how difficult it is to achieve freedom, human rights and social justice in the falling area of the Communist Party of China, we can only try to overcome difficulties and move forward. Because republics, constitutionalism, and democracy are the guarantee and prerequisite for achieving freedom, human rights and social justice, and the only way to achieve freedom human rights and social justice. Without them, the dignity of the people and the people in the occupied area can only be continuously trampled by the dictator under the iron hoof of the autocratic tyranny.

If you do not want to be slavered by the Communist tyranny by themselves, you will immediately get up and embark on the only way to fight for republican constitutional democracy!

Indian officials are investigating one of the most deadly train accidents in the country's history, focusing on the possibility of the disaster in the signal failure. The rescue work has ended Sunday, and all derailment compartments have been removed from the railroad track.

The accident that occurred in Oriza, eastern India caused at least 275 people to die. Two days later, the family members of the victims still suffered from the crashes near the town of Balla Sol to claim the remains of their loved ones. Due to the lack of train services, this A journey becomes more complicated. It was not until the later Sunday that the railway was repaired.

Officials said that the body of most deceased has not been confirmed on Sunday. After officials said that some victims were counted twice, the number of deaths was lowered from at least 288.

On Sunday, the Indian railway police was at the rescue site. Atul loke for the new york times

In addition, more than 1,100 people were injured, and the official said in a preliminary government report that this was a "three -party accident", involving two passenger trains and a idle cargo train.

The disaster gave Indian Prime Minister Modi's efforts to achieve the modernization of infrastructure in the country. He used the modernization of infrastructure as the core of his third term campaign.

The following is the latest development of the accident.

- The Minister of Railways of the Indian Railway Ashvini Vaishnav told reporters at the accident site that investigators are investigating why the electronic signal system used to prevent accidents does not work as expected. He said that the service of this route is expected to be restored at the latest on Wednesday.

- Indian railway officials Jaa Valma Xinha said at a press conference that a passenger train with a speed of about 130 kilometers hit a list of cargo trains with iron ore. Xinha said that in less than a second, another passenger trains driving at a high -speed driving on another track passed through the collision scene.
- Doctors and officials said that the identity of about 200 victims was not determined on Sunday. The corpse was stored in the major hospitals in Bubaneswal, the capital of the state, as well as a elementary school in Barlatier and a temporary muling room in a commercial park.
- This disaster once again triggered a long -term questioning of the safety of the railway system, and the system transported more than 8 billion passengers each year. Although the serious railway accidents reported in India are far less than the past few decades, the expenditures used in basic track maintenance and other measures have been declining in recent years.
- The survivors of the accident said that when the train collided, their train was crowded with hundreds of migrant workers, students and daily salary workers. They were crowded in at least three ordinary compartments, most of them stood. "It was crowded with people," Saayel Ali said, and he was admitted to a hospital near the accident scene.

Oppose the U.S. military airport to the Okinawa citizen group, which was relocated to Namu, the Namu City, and published an advertisement on the newspaper to call for peace diplomacy.

Kyodo News reported that U.S. Putian Airport is located in Yino Bay, Okinawa Prefecture. Faced with the Japanese government's strengthening of the defense, the self -reliance shifting the focus to strengthening the defense of the Southwest, the "Okinawa Opinions Advertising Movement" on the Okinawa citizen group on Sunday (June 4), in "Tokyo News", "South Japan News", "Okinawa", "Okinawa", "Okinawa" "Times" and "Ryukyu New News" four newspapers have been advertising, calling on "diplomatic than missiles than missiles" and "do not turn Okinawa, do not turn islands into battlefields."

Advertising pointed out that Japan has the ability to counterattack and increase defense expenses.

The national initiator of the "Okinawa Opinion Advertising Movement" waited for a press conference in Tokyo last Tuesday (May 30).

The former principal and honorary professor of France and Government University said: "Japan is advancing enhanced military backup at the time. The problem of Okinawa is the problem of all Japanese people."

Description: Hong Kong was the only place in China to publicly commemorate the "June 4th", but commemorative activities have now become criminals like all forms. This year, the authorities have also cracked down on the smallest commemorative posture and arrested many people. Louise Delmotte/Associated Press on Saturday before the anniversary of the "June 4th" massacre in China, the behavior artist Chen Sanmu shouted on the streets of Hong Kong, "Hong Kong people, shocked", "Don't forget June 4th", the police will Its arrest.

For decades, Hong Kong was the only place in China to publicly commemorate the "June 4th". People used candlelight to mourn the night to mourn the night of the Democratic Movement of the Beijing Tiananmen Square in 1989. This year, Hong Kong made the people forget the people in various ways in various ways.

This year's "June 4th" is Sunday. A few days ago, even small shops showing the items that shown the suppression would be closely monitored, and the police visited many times. On the weekend, thousands of policemen patrolled the streets of Causeway Bay, which had previously held nighttime activities, and also set up temporary tents to search for those suspected of mourning. Police are suspected of "[doing the actions with incitement](#)" "The four were arrested and the other four were detained.

Zhou Fenguo, a student leader of Tiananmen Square protest, said that Hong Kong is now under the "tyranny" as the Mainland.

"We did not complete the mission of Chinese democracy in 1989," said Zhou Fengsuo, and he is currently the executive director of New York advocating the organization of "Chinese human rights". "Later, the resistance of Hong Kong encountered the same suppression, and the process of the same stigma and the memory of memory was very similar."

The democratic movement in 1989 still won strong support in Hong Kong, which was still a British colony at the time. After the Chinese army shot hundreds of or even thousands of people, after removing the students who occupied Tiananmen Square, some students in Beijing sneaked into Hong Kong to escape in a safe place.

In 2019, thousands of people held a candlelight night -night activity in the Victoria Park. This is the last time in Hong Kong to hold such a large "June 4th" massacre commemorative event. LAM YIK Fei Forthe New York Times

For more than thirty years after that, the group representing the victims of the Holocaust- "Tiananmen Mother" held an open mourning event in Victoria Park in Hong Kong every year in the "June 4th" to express hope for a more free China. Each year's candlelight rally has attracted thousands of people, although in the past ten years, some of the unique Hong Kong identity younger generation Actors began to doubt whether the movement centered on the Mainland was correlated.

However, since the central government's implementation of the National Security Law on Hong Kong in 2020, almost all forms of disrespect have become crimes in this city. Similarly, the pro -civilian and anti -government protests that swept Hong Kong in 2019 have been strangled.

The authorities pay particular attention to the commemorative activities of the Tiananmen Massacre. They raided a museum that commemorated the "June 4th", took away books related to suppression from the library.(<https://cn.nytimes.com/china/20211214/hongkong-jimmy-lai-tiananmen/>)Essence

In the past two years, the authorities have banned all the activities that publicize the "June 4th" on the grounds of curbing the epidemic. Although the epidemic restrictions have been canceled this year, Victoria Park does not have the "June 4th" night -night event, but is occupied by a market. The activity called "Hometown City Collection Carnival" was organized by a group of pro -Beijing to celebrate the return of Hong Kong in 1997. That anniversary was about one month later.

The "June 4th" night -time organizer was imprisoned, which caused a problem, whether Hong Kong still allowed the public to peace peacefully to mourn the victims of the Tiananmen Massacre.

Hong Kong Chief Executive Li Jiachao did not explicitly answered this question, but just said, "Everyone should do it according to law, and think about whether they are preparing for the consequences when they act."

But Saturday's arrest has made a clear answer to this question. The arrests include Liu Jiayi, a member of the "Tiananmen Mother" movement, and Guan Zhenbang, who had worked as a volunteer for the night guarding activity. The two of him held white paper with "fasting" in his hands. The police also arrested Chen Sanmu, a behavior artist. He shouted "Hong Kong people, shocked", "don't forget June 4th", and a group of police officers rushed to him and took it away. Police also detained men and women holding chrysanthemums with chrysanthemums and wearing white clothes. Chrysanthemums and white clothes symbolized mourning.

Several more people were taken away by the police on Sunday, including workers Chen Baoying, former chairman of the Hong Kong Journalists Association Mai Yanting, and "Mother -in -law Wang" Wang Fengyao, many protests often waved the British flag.

Before the "June 4th" arrived this year, the authorities had begun to fight the commemorative gesture even the smallest.

Chen Jialin, a democrat of the district council member, sent a few photos of her grocery stores on her own grocery store on Tuesday on Tuesday on Tuesday. She said that the police and people from three different government departments had come to her shop many times because of the photos. But she was not scared.

"The more they don't let us talk about' June 4 ', the more they adopt these practices, the more I feel that I do this right," she said in an interview with me.

Guan Zhenbang (left) and Liu Jiayi were in Victoria Park on Saturday. They handed in the paper with "fasting" and "personal mourning". They were later taken away by the police. Kanis Leung/AssociatedPress

The playwright Linghui believes that Hong Kong has the responsibility to preserve and inherit the memory of the "June 4th" suppression, especially this memory has been distorted and erased in other parts of China.

In 2009, she established the "June 4th stage" with others with others in order to let young people in Hong Kong understand the history of "June 4th" in a more unique way. The most popular play of the troupe is the stage drama "May 35". Some people in mainland China use this euphemistically to refer to the suppression operation. That stage drama can no longer be staged in Hong Kong, otherwise it will face the risk of prosecution. Liechi Hui is currently living in the UK, and she is trying to bring the show overseas. The play was first performed in Cantonese and performed in Mandarin for the first time in Taipei last Friday.

The stage drama "May 35" premiered in Taiwan last Friday. The picture shows a scene in the play. Chiangying-ying/associated present

"For our" June 4th "survivors, it is very distressing to lose the most important position like Hong Kong's most importantly losing Hong Kong. In 2021, after the "June 4th" museum in Hong Kong was searched and forced to close it, Zhou Fengsuo gave several Tiananmen cultural relics to New York Newly established permanent exhibition Including a bloody banner, a tent and an oil printer. The exhibition has a exhibition room specially established in Hong Kong.

Zhou Fengsung also said that he understood and sympathized with a wave of strange people who had left Hong Kong, understood the pain of their exile, and the difficulty of maintaining sports vitality in the place where they were far away from their hometown. Although they are abroad, they are helpful to keep the memories of the "June 4th" suppression in other places, and he said.

"From the other side (looking at it), it was obvious to Hong Kong people who have arrived overseas last year last year. They will eagerly join the activities of various places to commemorate the " June 4th ". More than more, "he said. "There are also many cities because of the arrival of Hong Kong people (talents) to commemorate 'June 4'."

Next stop, Malaysia.

Online brokerage Futu Holdings Co., Ltd.(FUTU.US)It is announced that it will continue to expand global business based on Hong Kong and enter the Malaysian market. Internationalization is the main direction of the company's recent development, and its business has expanded to more and more developing countries and developed countries.

In the latest financial report released at the end of last month, entering Malaysia is the most striking title. The financial report also shows that the company continues to add more products and services to customers in Hong Kong, the United States, Singapore and Australia.

In addition to regional expansion, the company also announced a large -scale plan to improve the scale of wealth management assets to attract customers who need diversified investment selection. The business has attracted more and more attention among its customers, and we will introduce it in detail later.

First of all, Futu's latest financial report continues the recent trend -such as the increased profit growth, the company's net profit has doubled in the first quarter, reaching 1.19 billion Hong Kong dollars(10.7 billion yuan), Increased by 108%compared to the same period last year.

The growth of net profit is mainly due to the significant increase in interest income, thanks to the Fed and other central banks trying to curb inflation in the past year and greatly increase interest rates. Futu's interest income increased by 125%in the first quarter to HK \$ 1.29 billion, becoming the company's largest source of income. Brokerage commissions used to be the company's main source of revenue, but the growth rate in the first quarter was 11.6%, which was more than 1.08 billion Hong Kong dollars.

The above two sources contributed most of the revenue to Futu, which increased the total revenue of the whole quarter to 52.3%to HK \$ 2.5 billion. It further accelerated on the basis of 42%of the strong 42%growth in the fourth quarter of last year. Although these numbers look strong, the Fed has basically ended radical interest rate hike measures, and revenue growth may begin to slow down.

Based on the possibility of the above, analysts of Yahoo Financial Survey predict that Futu's annual revenue growth rate will slow to approximately 13%, and the profit growth rate will slow to approximately 18%. The analyst group is still very optimistic about the company. Among the 21 analysts surveyed by Yahoo Finance, 15 of the 21st analysts of Yahoo Finance gave the company a "strong buy" or "buy" rating. Their average target price is \$ 56.9, about 50% higher than the current stock price level, indicating that they have seen relatively large potential.

Based on the analyst's prediction of its 2023 profit, Futu's current price - earnings ratio is 12 times lower. This is with the US discount securities firms Yonglou Securities(IBKR.US)13 times close, but lower than Jiaxin Finance(SCHW.US)16 times and Tiger Securities(TIGR.US)23 times.

Futu's stock price rose slightly by 1.3% on the day of the announcement of the financial report, indicating that investors have seen the company's global transformation, but still facing challenges. Futu's largest customer group is currently in Hong Kong and Singapore. Although it does not provide specific figures, the company said that its application in Hong Kong is 43% and in Singapore is more than 25%. The company in its original Chinese market There are also a group of old customers.

Malaysia's potential

Next, we discussed the topic mentioned earlier, first to enter Malaysia. The company has previously stated that it will enter two new Asian markets this year, and Malaysia is one of them. The company has not announced which country is the next stop, but it is likely to be a Southeast Asian country.

Management stated at the financial report call that Futu's Malaysian subsidiaries have obtained the "principle approval" of securities regulatory agencies in the country's capital market, and it is expected to enter the market as early as the second half of this year. Management added that Futu has many advantages compared to existing competitors, including more powerful applications, and markets in its core advantages, such as the United States and Hong Kong, providing lower trading rates.

Li Hua, the founder and chairman of Futu, said at the conference call: "We look forward to using the huge market opportunities in Malaysia to further strengthen our influence in the Southeast Asian market."

Internationalization has always been an important strategy for Futu. The company has been working hard to expand its business outside the Hong

Kong and Singapore markets. However, given that the local capital market in Hong Kong has not fully recovered, the company has also raised its early warning on its growth in Hong Kong. CFO Chen Yu said at the conference call: "(Hong Kong stock market)The scope of transaction is very narrow, and the market has no meaningful IPO project. "

Another key point in the future will be the wealth management business. The growth rate of this business is much higher than the overall business of Futu. The scale of wealth management assets in Futu in the first quarter increased by 77%year -on -year to 37 billion Hong Kong dollars, which was more than twice as much as its overall asset growth rate.

Wealth management assets now account for about 10%of the total assets of Futu. Chen Yu said at the conference call: "I hope that this proportion will continue to increase to 20%to 30%in the next three to five years. Of course, there are still long ones. The road is going. "

The expansion of business areas and services will help offset the uncertainty faced in China. Futu has removed the application from the Chinese application store last month and waited for the problem to finally solve it. The impact of this situation on the company seems to be controllable, at least from the perspective of financial reports.

When talking about the application of the next shelves, Chen Yu said: "We are glad that our existing Chinese customers are very calm about this headline. We have not seen any meaningful abnormal loss rate, and the net assets of customers in the past week. "

On June 3rd, German Defense Defense Petrius (first from left) and China Defense Director Li Shangfu (third from right) met in Singapore

(Voice of Germany) [German Defense Minister Pestorius called on Chinese Defense Minister Li Shangfu](#) Stopping retired German fighter pilots to provide training for China. Pestorius said with Li Shangfu on Saturday on Saturday: "I clearly stated to him that if I did it, he would not think it was an interesting thing."

According to Germany, Pestorius said that Li Shangfu responded very much. "He did not deny it, but it faded its meaning from his perspective."

German Media: Training in China may have been leaked for several years

"Mirror Weekly" and German TV reported on Friday that retired German fighter pilots have provided training for the Air Force pilots for several years in

China. It is reported that at least several German Air Force retired officers serve in China. In multiple cases, they were paid "obviously through the bag of the bag in Seychelles." In addition, some of them are related to a company exposed to a Chinese spy. It is reported that many related pilots did not reply to the interview request. One pilot denied the relevant accusations. Pestorius announced the investigation.

"Mirror Weekly" and German television two reports stated that the German security department and intelligence department believes that these retired pilots are likely to leak military professional knowledge, the German federal army, and NATO's secret tactics, and may even simulate training there. The attack scene, which may be helpful to China to attack Taiwan.

German Minister of Defense Pestorius (the People's Party)

annual salary up to six digits euro

It is reported that the pilots were recruited by South Africa and New Zealand companies, which were not suspicious after retiring, and were introduced to China. It is said that its annual salary in China is as many as six digits of euros.

It is reported that German fighter pilots are usually retired at the age of 41, because the response speed and vision are less than before. If you join the army at the age of 20, then the salary of half after retiring at the age of 41, which means that it is very sad, so many people return after retirement. It is said that most people will accept the return of related companies related to the German Federal Defense Force, and it is rare to work in China.

and a suspicious company association

It is reported that in addition to German retired fighter pilots, retired pilots in the United States and Britain have also been recruited by China. One of the US retired pilots was arrested in Australia And may be repatriated to the United States. Among the three retired pilots reported by "Mirror Weekly", one of them left by the Chinese address was near Qiqihar Airport. Of these three, one person's name appeared in the "Panama Document". In addition, the reporter's investigation believes that these three are likely to be related to a company, and the company is opened by a Chinese spy that was later exposed Essence The company was blacklisted in the United States and was suspected of providing a list of C-17 related technical personnel of the US military transport aircraft C-17 for Chinese national hackers. Chinese national hackers stole about 630,000 C-17 data through fishing emails.

The German political community calls for more stringent retirement regulations

According to the "Mirror Weekly" report, the German Federal Parliament's National Defense Commission, Marie-Agness Strack-Zimmermann (Liberal Democratic Party), said: "German retired Air Force soldiers trained fighter pilots in China, which we cannot accept. She calls for to formulate stricter federal defense forces retirement regulations as soon as possible, to ensure that retired soldiers are allowed to only be allowed to engage in military training in NATO and strategic partners Essence

According to reports, the German Ministry of Defense has investigated what the retired Air Force pilots have taught to their students and whether they will leak the professional secrets of the Federal Defense Force. The Ministry of National Defense said: "The German Military Anti -Love News Agency (MAD) closely cooperated with the Federal Constitution Protection Agency, the Federal Intelligence Agency, and international partners under the investigation framework."

Obviously it is a factory, but in order to evade the payment of the labor contract compensation, the factory dares to ask the workers to sign a voluntary resignation letter illegally. why?

As early as 2012, the Jiaxin Factory established the "CPC Jinjiang Jiaxin Light Industry Development Co., Ltd. [Company Branch Committee](#)". Since there are party branches, there should be factory unions. The illegal acts of the factory occur under the eyelids of the party branch and union. So where is the union? And when the workers have already moved their rights to defend their rights, Why can't I see the shadow of the union?

On March 14 this year, that is, Jiaxin Factory suddenly announced the suspension of business and asked the workers to sign the voluntary leaving letter 6 weeks before, China Industry Network had published an article [report](#) It is said that the Jinjiang Federation of Trade Unions continue to explore how to better use collective consultations to safeguard the rights and interests of employees and promote the development of the enterprise.

We have reason to doubt that the party branch and trade union of Jiaxin Factory is well-known, and has not played any role in ensuring the right of the workers in the factory. China Industry.com reports that the continuous exploration of collective negotiations by the Federation of Trade Unions of the Jinjiang City is only in order to complete the propaganda tasks and publish the so-called positive energy reported by the unions reported by the unions in various places.

In reality, truly meaningful collective negotiations and collective negotiations have never entered any enterprise. Otherwise, Jiaxin, a 27 -year -old factory, and was a good factory that was difficult to enter in the minds of workers. What about this unscrupulous employer?

With these issues, I tried to find the local unions of Jinjiang there, and tried to persuade the union to enter the scene of the labor and management confrontation, representing the workers negotiating negotiation with the factory. The process can be described as twists and turns.

It turned out that in Fujian, who had been the governor of Xi Jinping, to this day, the village staff knew that the labor and management confrontation had occurred but was unwilling to go to the scene to understand the situation. The so -called grid work is even more terrible. If the labor and capital confrontation is not assigned to the lattice of the union staff, the trade union cannot go over to the scene to represent the workers and the enterprise.

As early as 4 years ago, in 2019, the former General Secretary of Fujian Governor [Xi Jinping once scolded](#) Full of food all day long, lazy and inaction.

As the saying goes, you let me go to Yang Guan Dao, but I only love Dulin Bridge. 4 years ago, the current lazy officials actually made a layer of "cocoon" for themselves, and used "making cocoons self -binding".

What's more, in the Jinjiang River, there are still regulations at the township level, and it is not possible to provide the phone number of the union chairman to the people looking for the town union. In this way, I do n't know if some of the preparation leaders, including the chairman of the union, can hide behind those who are likely to answer calls who are likely to be unliked. What about the day, the muddy day "?

On February 11, this year, that is, the Jiaxin Factory violated the law and required workers to sign the voluntary resignation letter 10 weeks before, China Industry Network once reported [report](#) It is said that the Fujian Quanzhou Trade Union deployed the special work deployment of the General President and the Provincial General Manager of the Provincial General Manager, and the municipal and county trade unions quickly acted to establish special classes, formulated plans, and focused on political leadership. Licensed up and down and advance steadily.

However, in this Jiaxin closure factory incident, the special classes, solutions, linkages, and promotion of the bridgehead of Jinjiang Trade Union could not be found at all.

According to China Industry.com, members of the Federation of Union of Quanzhou Municipal Federation of Trade Unions are linked to 1 to 2 county - level unions and 2 to 3 grass -roots unions, which are normalized.

So, as a large factory, which member of the Federation of the Federation of Quanzhou City is connected and communicated with normal communication? It seems that the people who may be responsible for the release of China Industry.com are precisely some people who are "mediocre and peaceful stalls, peaceful peace, and mixed days." These people only care about publication, and do not care about the lack of missing missions in the living incidents such as Jiaxinguan Plant. They do not care whether the exaggerated achievements have happened in the reports issued.

Another report that CICC has also issued on March 2 this year, the title is "[\[Fujian Jinjiang Federation of Trade Unions Construction Models full of effects to make the county -level trade union full of vitality \]](#)" It reported that the Jinjiang Trade Union focused on the" top five "goals with strong political leadership, strong organizational functions, strong service positions, strong institutional mechanisms, and strong functions. , Strive to consolidate the staff and the masses at the grassroots level, actively perform their duties, and take their responsibilities.

However, in reality, during the closing factory of the Jiaxin Factory, illegal violations of the rights and interests of the workers, but the local union staff did not want to go out to the scene to represent the workers, but wait for the workers to come to the door. Do.

In other words, the "five top five" mentioned in China Industry.com, as well as focusing on the grass -roots level, condensing employees and masses at the grassroots level, actively performing their duties, and being courageous. It has not happened, and even has always been a pile of empty slogans that use the "Xuanke of the Make -ups, and have no intention".

In this report, CICC has also piled up a series of new terms, such as: Jinjiang Trade Union innovative "hierarchical fixed, classified management" model, and step by step to grasp the demonstration to form a "cultivation, improvement, demonstration" enterprise with gradual step -by -step enterprises. The construction mechanism of the union, and so on, the clouds of Yunshan are dazzling.

The good situation of enterprises ".

The report also specifically mentioned a bunch of unknown effects, including: creating a working base for the integration of employees in the Jinjiang Economic Development Zone, building a work pattern of "union standing, departmental construction, and sharing of employees", integrating trade unions, justice, mediation mediation For the forces, the service structure of "one center, one stop, two points, two courts, and three rooms" is formed to achieve seamless links of conflict adjustment, labor arbitration, and judicial ruling to resolve the "full response" of contradictions.

Looking at these nouns and numbers, I thought of the two scammers tailors in the Andersen fairy tale "Emperor's New Clothing".

For scammers, as long as the money is coming, as for the emperor's buttocks on the street, it is his own business.

The fantastic achievements of the unions reported by China Industry Network, whether the leaders and the leaders of the Communist Party of China and the Communist Party of China can understand, I don't know anyway, I don't understand anyway.

In fact, you only need to illegally ask workers to sign a voluntary resignation letter with the Jialin Customs Factory, but the union has nothing to do with this two things, and put these two things together. Those all day The true face of the scammers who are busy making new clothes, there is nothing to do.

Please listen to me about illegal infringement of workers' rights and interests in Fujian Jinjiang Jiaxin Light Industry Development Co., Ltd., and look for the talks of the union. After listening, tell me how you feel.

Radio of Liberty Asia

(Eagle, dragon debate)

Last time, when we talked about the country, we were to be a father and mother for the people. We must not relax the management of children. Today, I will continue to teach you how to be a mother!

([Https://www.youtube.com/watch?v=k6aaiv9witq](https://www.youtube.com/watch?v=k6aaiv9witq) .

Eagle is endless, right? Who do you want to put a big word for this time? Taiwan? Hongkong? Can't it be Manchuria, right?

Dragon is Fujian and Guangdong this time-

Eagle? Do you have to separate these two places?

Long wants to be beautiful! Ning Ke Guangdong is not long ...

Eagle, are you stringing?

Longyi, yes, you are angry. I am talking about the Dragon Family of Fujian, Guangdong and other provinces overseas!

Have you ever thought about a possibility, that is, people leave the Dragon's house, maybe, because you can't stand you?

Long, you are guilty at our Dragon's family! No matter where you are, no matter you are the first generation of immigrants, as long as your ancestors are born in this land, the mother of the motherland will always remember you!

The eagle is really ancestor "Jide". You must be because of this reason that you do n't treat yourself as an outsider so that the so -called "overseas police station" is opened around the world, right?

What is the dragon? It is to save them in the water deep! Think about how many people are bewildered by you and running to you, but the language is not unacceptable, and the cultural and soil is not convinced. At this time, comrades in their hometown to solve their problems for them. This is really the warmth of the home!

([Https://www.rfa.org/mandarin/xinwen/6-04172023142941.html](https://www.rfa.org/mandarin/xinwen/6-04172023142941.html)

<https://www.rfa.org/mandarin/Xinwen/2-05112023104804.html> .

Eagle, you are afraid that overseas Chinese can not enjoy all the "warmth of the home" that focus on the party state. Speaking of this, it is your main business!

Long Hey, this is to remove harm for the people! It is the Dragon family, and I do n't wait to see this group of strange people.

([Https://www.rfa.org/mandarin/yataibaodao/shehui/jw-05102023103747.html](https://www.rfa.org/mandarin/yataibaodao/shehui/jw-05102023103747.html)

<https://www.rfa.org/mandarin/yataibaodao/gangtai/sc-05052023101910.html> .

You said so, before letting the overseas Chinese delegation protesting Taiwan President Tsai Ing -wen to visit the United States, and even harassing other members of the state is "the voice of the people"?

([Https://www.rfa.org/mandarin/yataibaodao/junshijiao/LF-0509202308253.html]])(<https://www.rfa.org/mandarin/yataibaodao/junshiwaijiao/lf-05092023082253.html>).

Long is right, dare to criticize us, it is anti -China!Anti -China, of course, the overseas dragon family must be angry!

You are Hua?

Of course, the party is the country, and the party is Hua. The final explanation right belongs to us all wow.

The eagle finally said. Everyone has a need for associations. You cannot prohibit the overseas dragon family's associated community. In order to monopolize the significance of this community, the highest goal will never escape the words "the motherland". It is clear that encouraging the country's country's feelings, in fact, it is interfered with other domestic politics, and some practices are illegal in the local area!

Long Hey, what is "Fa"? After doing so, you can also clear the sources of overseas chaos.

The U.S. Navy announced a video, saying that the video showed that a Chinese warship "unsafe" in the Taiwan Strait crossed a U.S. destroyer.

At that time, the two Sino -US warships were only 137 meters apart.

From the video released by the U.S. Navy Sunday night, you can clearly see a Chinese warship passing through the Zhongyun channel. At that time, the sea was calm. The Zhong Yun did not change the direction.

In the video, you can hear that someone can not "try to limit the freedom of navigation" at an English warning, but because the recording is mixed with the sound of the sea, the words that are not clearly used are not clearly used.

The Chinese government has not directly responded to the United States' criticism of the incident last Saturday, and the Chinese Ministry of Foreign Affairs did not immediately respond to the request of comment on Monday (5th).

The Chinese military accused the United States and Canada of "deliberately provoking risks" on the day of the incident.

On the weekend, the United States put pressure on Beijing in two aspects.

On the one hand, warning about military accidents in the short term, on the other hand, warned the dangerous competition in nuclear weapons, which caused a Chinese general to strongly blame Washington to incite confrontation.

On President Biden's national security adviser, Shalin [Friday](#) The speech made, and the Minister of Defense Austin [Saturday](#) In a speech delivered in Singapore, the Biden government tried to attract China to negotiate the rising military danger.

Austin also said that the United States will continue to dispatch warships and planes in international waters and airspace near China, although it has recently gained a collision with the Chinese army. The United States will continue to provide support from Taiwan. Taiwan is an autonomous island, and Beijing regards it as its own territory. Both are pain points in China.

"We will not be scared by dangerous actions at sea or international airspace," Austin's annual meeting held in Singapore [Shangri -La dialogue](#) I said to military officials and experts.

In the Washington speech, Shalvin explained the idea of Biden - [How to deal with](#) A world of "major cracks in our post -Cold War nuclear foundation". Russia against [tactical nuclear weapons](#) The threat is becoming more and more frequent. Although it is usually vague, China is [expanding its own nuclear arsenal](#) Essence Shatin said that the United States is modernization of its nuclear weapons, but it will not be caught in a competition to create more nuclear warheads than Russia and China.

"We are also going to contact China without prerequisites -to ensure that competition is managed, and competition will not evolve into conflict," Saimin said.

National Security Consultant Shalin gave a speech in Washington on Friday. He explained the idea of President Biden -how to cope with the world of "major cracks in our post -Cold War nuclear foundation". Drew Angerer/GetTyimages

Biden's two highest -level officials discussed the danger of confrontation with Chinese military, which illustrates the severity of this geopolitical differences, although Washington and Beijing are restarting discussions between trade and foreign issues.

Director of the US -China Relations Center of the New York Asia Association [Xia Wei](#) (OrvilleSchell)In an interview with telephone, China's recent economic difficulties are a factor that prompted Xi Jinping, the supreme leader, Xi Jinping this year. "But I don't think the basic assumptions of the hostility of the relationship between the two parties have changed," Xia Wei said.

The Chinese military delegation attending the Singapore Conference held a press conference after a speech on Austin, questioning Austin's speech, highlighting this tension.

Lieutenant General Jing Jianfeng of the Chinese People's Liberation Army told reporters that the United States' military sales and other support for Taiwan are equivalent to encouraging Taiwan independence.

"The United States calls for communication and is concerned about the interests of the Chinese side," said Jing Jianfeng. "The issue of Taiwan is related to the core interests of China, and you can't tolerate any compromise."

Sino -US has reached any agreement on the issues raised by Shalvin and Austin -even the prospects of these issues in depth seem to be far away. China believes that it is a disadvantaged party, and it seems that detailed agreements, whether it is military control or regulating military conflicts near its coast, will only help the United States maintain its dominant position. In other words, opaque may be beneficial to China.

Ge Laiyi, Director of the Indo -Pacific Project of Marshall Foundation in the United States(Bonnie Glaser)It is said that Beijing's support for Taiwan is particularly angry, and it will stop dialogue as a way to warn the United States.

"They want to attract our attention," she said, and said that Beijing may not see the value of restarting military negotiations. "Chinese -have been like this for a long time -they are really not interested in reducing measures to reduce risks," she said. "Because they think that by maintaining a certain degree of risks, we will be more cautious."

In its 20 -year history, Shangri -La dialogue has become a place where Washington and Beijing military officials have been confronted, but they have also held bilateral discussions designed to ease the tension. However, this year China National Defense Minister [Li Shangfu](#) Admiral refused to meet with Austin.

At the opening dinner of the forum on Friday, the two shook hands briefly. Austin said in his speech, "Careful shaking hands can not replace substantial contact during dinner."A photo released by the US Navy shows a missile destroyer in April to transit the Taiwan Strait in April. U.S. Navy, VIA Association Press

He also condemned China's dangerous military exercises in international airspace. According to [U.S. Indo -Pacific Command](#) It is said that at the end of May, a Chinese J-16 jet fighter was in danger of approaching an RC-135 reconnaissance aircraft from the US Air Force over the South China Sea.

Beijing returned to the negotiating table on some issues. Chinese Minister of Commerce Wang Wentao recently [Visit the United States](#) , Shalvin [A talk with a senior diplomat in China last month](#) Essence But the hostility accumulated between China and the United States is more difficult to overcome.

Li Shangfu served as Minister of Defense in March this year, and he scheduled to speak on the forum on Sunday. In 2018, China purchased a Russian fighter and ground -to -air missile system, so he [sanctioned by Washington](#) Essence China said the punishment was why he refused to meet with Austin. Pentagon officials said that this should not hinder negotiations, and because the Chinese military is unwilling to communicate, it is more difficult to avoid or resolve potential crises.

Zhao Xiaozhuo, a Chinese People's Liberation Army, who participated in the Singapore Forum, said that Washington called for a "guardrail" when military planes and ships met, which can be used as an excuse for the United States to monitor China's legalization.

"Crisis management is a good thing," he said in an interview with English. But he said that US warships and aircraft often monitor near the Chinese coast. "According to my understanding, the US preferred guardrail is to legalize the United States' provocations to China."

Zhao Xiaozhuo, the Chinese People's Liberation Army, was interviewed by reporters in Singapore on Saturday. "Crisis management is a good thing," he said in an interview. Caroline chia/reuters

It seems that it is even more impossible to succeed in the short -term.

Chinese officials refused to discuss an agreement to limit its nuclear weapons. According to [American Scientist Federation](#) In a annual survey, China has about 410 nuclear warheads. [Pentagonal estimate](#) If the current speed is maintained, by 2030, this number will increase to 1,000 pieces, and it will increase to 1,500 by 2035. If the nuclear warhead owned by Beijing is close to this number, the two largest namurs in Washington will have a combination of nearly 3,000 nuclear warheads.

Zhao Xiaozhuo, a delegation in China to Singapore, said that the United States' prediction of China's nuclear arsenal is "basically basically not found". "The number of Chinese nuclear warheads, or the quality of Chinese nuclear weapons, is far from the United States and Russia," he said, but refused to reveal his estimate.

Strategic, Technical and Military Reserve Control Director of the Institute of International Strategy [William Albek](#) It is said that even if China refuses to sign any treaty that restricts its total number of nuclear warheads, agreements on transparency and establishment of mutual trust may also help restrict the risk of increasing its nuclear warhead.

advertise

"Establish a hotline and establish a missile launch notification system -so it is necessary to notify the test or space launch," Albec said in an interview. "The first step should be: Why don't you tell us directly, how many warhead do you have?"

On May 31, 1989, the six-fourth case diagram of Beijing Tiananmen Square

Audio-LLINK: <https://www.rfa.org/mandarin/chelun/chenpokong/js-06052023114954.html> @[stream](#)

On the 34th anniversary of the 64th, the Chinese and the international community at home and abroad have not forgotten. As always, they have a grand commemoration, thinking about

democracy, and stimulating democracy. The Chinese Communist Party is still nervous, highly nervous, and is nervous year after year. They have no confidence and sense of security. After talking about four self -confidence, they have no confidence; they have said more than a hundred security, but they have no sense of security.

Zhongnanhai has all kinds of defense and set up countless sensitive words on the Internet. Even the leaders' own names have become the anti -verbs (on the game platform), which is extremely ridiculous and absurd. However, the accidental fighting incident continued to occur, which caused them to be invincible. A woman bravely waved on the top of the Beijing National Gymnasium -the top of the Bird's Nest, which was brave in the star flag symbolizing freedom, sprinkled the leaflet, had an independent declaration, and her own compatriots. On the big screen of the Student Union of Tsinghua University, the slogan of "defeating the Communist Party" and "overcome Xi Jinping" appeared, and at the same time, five major appeals were put forward to call on democracy and constitutional government.

Thirty -four years have passed and the years are ruthless. Time consumes 1989 (including intellectuals and young students of the year), but also consumes a dictator. In 1981, from youth to middle age or even old age, youthful years are no longer, and democratic ideals have not yet been realized. But looking at the dictators, Deng Xiaoping and Li Peng, known as the June 4th butcher; the beneficiaries of June 4th and Jiang Zemin, the culprit that suppressed Falun Gong, had died. They did not take away any glory and wealth.

Zhongnanhai's leaders today think that a unique and one -person dictatorship, fantasy red dynasty can be thousands of generations. However, looking at history, all dynasties politics and authoritarian systems are just eye -catching. Or hundreds of years, or decades, or years, have disintegrated and died. The period of the autocratic dynasties is more shortened and overwhelmed. The dictators of all ages did not take away any glory and wealth. There are no exceptions and future dictators.

Looking at the world today, only democratic countries show strong vitality and lively. The reason is very simple. Only the election of the government can we help; only the democratic system can we take long for a long time. This is an objective law, and China will not be exceptions.

The 1989 Democratic movement and the June 4th slaughter city not only deeply affected the contemporary history of China, but also profoundly

affected the contemporary history of the world. At that time, it became a major driving force for Eastern Europe and the disintegration of the Soviet Union. Thirty -four years have passed, and the international community has not forgotten. All major democratic countries continue to support the Chinese people, support Chinese democratization, or vocate through the statements of governments, or vocate through various countries in China. Countries around the world have awakened and understand a simple truth: not a Chinese threat, only the CCP threats, which is a common threat facing the Chinese people and the people of the world. The world peace calls a democratic China; human beings will need a democratic China in the future.

The Chinese Communist Party has attempted to make generations forget history. However, China today, economic landslides, serious unemployment, foreign -funded foreign companies have accelerated the evacuation, and high -speed economic growth has become a yellow flower tomorrow. The elderly have nothing to guarantee, the middle -aged people have nothing to do, and the young people lay down peacefully. As a result, more and more Chinese people are against the rulers and their wishes. They are increasingly understanding a basic truth: the fundamental obstacle to hindering China's development and progress lies in one -party dictatorship; the fundamental path to promote China's development and civilization lies in democratization.

At that time, in 1989, as the participants and leaders of the democratic movement, the 1989th generation held a democratic torch. Today, as a insistor of the Overseas Democratic Movement, they also played the role of the torch conveyor. Because Hong Kong has fallen, the candlelight in Victoria Park is no longer, and the overseas democratic movement has taken over the democratic torch of Hong Kong citizens. Essence At the same time, the 1989th generation also had obligations and responsibilities to convey a democratic torch to the younger generation.

It can be seen that the 89th Democratic movement has never been out of date. Thirty -four years later in China, Chinese people who yearn for democracy have continued to increase, especially young people who are pursuing democracy. At the end of last year, the white paper sports and the white paper revolution, which was soaring at the end of last year. There is also the main body of awakening overseas students. They are the hope of China and they are the future of China.

The torch of the 89th Democratic Games will be inherited in the hands of the younger generation. The fire is immortal, and the ideal will continue to burn. A democratic, freedom, and civilization, or late or early, will be born in the east of the world. No forces can be blocked; any forces will be futile. Time will prove everything, history will prove everything.

U.S. destroyer Milius(USS Milius, data map)(Voice of Germany Chinese website) Washington and Beijing are competing fiercely in diplomacy, military, technology, and economy. The U.S. military has strengthened its Asia -Pacific operations to cope with China, which is stronger and has recently held military exercises around Taiwan. However, both the United States and China have dispatched warships to participate in Indonesia on Monday to Thursday (June 5th to June 8th) in the waters near its Sulawesi Island 2023 "Komodo-20123" Multi-National Maritime United exercise.

The American Embassy in Jakarta told AFP on Sunday (June 4) that the U.S. Navy sent a coastal battleship to participate in the exercise. The spokesman said that these exercises will work hard to solve common challenges together with the like -like countries, our allies and our partners, such as humanitarian operations and disaster response.

The Ministry of National Defense said last week that at the invitation of the Indonesian Navy, China will send a destroyer and a frigate to participate in the exercise Essence

According to the Chinese official media reports, the Chinese ship formation consisting of the Chinese Navy Zhanjiang Ship and Xuchang Ship arrived at the "Komo-20123" "Multi-National Maritime joint exercise of joint exercises on the morning of the morning. According to Chinese official media reports on Monday, "the naval representatives from 36 navy signed a plaque to witness the start of the exercise."

Russian warships also appear?

The "Komodo-20123" Multi-National Maritime Joint Exercise is a multi-country co-starred by the Indonesian Navy. This year is the fourth session, including the Hong Kong shore stage and the maritime stage. The last time the "Komodo" military exercise was conducted in 2018, and China also sent two warships at the time. Subsequently, the military exercise was suspended due to the new crown epidemic.

Indonesia invited many countries to participate in this military exercise. According to a list of Indonesian military seen by AFP, Australia and Russia are expected to send warships and exercises.

Indonesian officials said that a total of 17 foreign ships will participate in the exercise. The focus of the exercise is non -military operations with major allies.

Indonesian Navy spokesman I Made Wira Hady said in a statement that this multi -nation -to -sea joint exercise is a non -war training, focusing on maritime cooperation in the region.

At the time of the tension between the US -China relations

Agence France -Presse reported that there are differences and disputes on Asia -Pacific issues such as Washington and Beijing. After being seen by the United States as a "spy balloon", the Chinese balloon was shot down in the United States, and the tension between the United States and China was further upgraded.

US Defense Secretary Lloyd Austin said in the "Shangri -La Dialogue" held in Singapore last week that the United States and China need to resume dialogue to avoid "misunderstanding" and cause conflicts.

American Defense Minister Austin, Chinese Defense Director Li Shangfu, etc. at the Dinner of Shangri -La Dialogue

According to the US media "Wall Street Journal" report, the United States originally hoped that the US -China Defense Minister met during the forum, but China rejected the US meeting request Essence

At the Shangri -La dialogue, which opened on June 2, US Defense Minister Austin and Chinese Defense Director Li Shangfu nodded and shook hands. However, it is reported that the two did not have substantial communication at the meeting.

A spokesman for the Chinese Ministry of Foreign Affairs said last week that "the reason for the difficulty of the two forces between the two Sino -US military is clear and the United States" shows the sincerity. "

This date is slightly later than UBS CEO Sergio Ermotti. An Sijie said before that the merger and acquisition case is expected to be completed at the end of May or early June.

Under the strong pressure of the government, UBS, Switzerland's largest bank, agreed on March 19 to acquire rivals with 3 billion Swiss francs (US \$ 3.25 billion) to prevent Credit Closing.

UBS said in a statement: "UBS expects to complete the Credit acquisition case as early as June 12, 2023. At that time, Credit will be merged into the UBS group."

According to the statement, after the completion of the merger, Creditkin's stock and US deposit vouchers will be on the market from the Swiss Stock Exchange and the New York Stock Exchange.

An Sijie once said that the mergers and acquisitions will create a super bank with an investment asset in charge of up to \$ 5 trillion (about NT \$ 154 trillion). (Compilation: Liu Shuqin/Calculating Draft: Chen Zhengyi)

(Voice of Germany Chinese) "Business Daily" commented that "Shangri -La" originally had excellent meaning and symbolized "Xanadu" without disputes and conflict. However, Singapore's annual "Shangri -La dialogue" It has become a "battlefield" between China and the United States. This article entitled "China must prove that it is a responsible country with actual actions":

"On the eve of the dialogue, the Minister of Defense Li Shangfu has repeatedly rejected the invitation of the US Defense Minister Austin to conduct dialogue between the two sides. What's more, the dialogue has not yet begun, Li Shangfu issued a solemn warning to Washington with the help of Chinese official media: For Taiwan The question, 'We never make a commitment to use force, China must be unified. And threat.

'](https://www.dw.com/zh/zh/美国国防部长批北京拒绝对话-中国责任在美方/a-

65815175)The Minister of Defense of the two nuclear martial arts could not sit down and exchanged exchanges on the differences between the two sides. Instead, they accused each other through public speeches and statements. This status quo must be worrying. The development of the recent development of the Taiwan Strait has explained how necessary Beijing to strengthen exchanges with Washington. In the past two weeks, two consecutive collisions occurred between China and the United States. The situation is very serious, and it may even cause military conflicts between China and the United States. "

The two collisions mentioned in the comments refer to the Chinese military aircraft approaching US military aircraft over the South China Sea on May 26 and make dangerous actions. On June 3rd, a Chinese destroyer cut into the U.S. destroyer channel in a "unsafe way", forcing the other party to slow down and change the channel. Comments:

"In order to avoid conflicts, Washington and Beijing must restore dialogue as soon as possible. Not only should they restore the conversation between the Minister of Defense between China and the United States. In terms of Chinese leaders, China should show the sincerity of China willing to be a responsible country and restore Sino -US dialogue as soon as possible.

Germany should also contribute. At the upcoming German -Chinese government consultation, the German government should clearly tell Beijing that if the situation of the Taiwan Strait is upgraded, China will pay a painful price. It must be clear that once the conflict occurs, Berlin will stand on the Washington side. "

German Defense Minister Boris Pistorius also attended the Shangri -La security dialogue in Singapore and held talks with Chinese Minister of Defense Li Shangfu. The Frankfurt Report published a comment saying:

German Defense Minister Boris Pistorius made a speech at the Shangri -La Security Forum.

"The primary topic of the German Defense Minister's visit to Asia will certainly be the situation in Ukraine. In Singapore's security dialogue, Pestorius hopes to make Asians soberly realize that Russia's aggression war is related to everyone. This is indeed the same. Once Putin won in Ukraine, it was tantamount to inviting invitations to modify the rules of the game to the Asia - Pacific region. However, Pestorius is also very clear that most of his Asian audiences may draw the opposite conclusion: Since Europe hopes that Asian countries are on the side of Kiev, then Europe should also show to Asian

countries that Europe will also be in Europe that Europe will also be in Europe. At the critical moment, the hand of rescue of Asia, that is, fight against China together.

In view of this, the Social Democratic Party politician has promised that no matter where the international order is threatened, Germany will defend. At the same time, Pestorius also said that Germany will adjust its weapon export plan in order to provide more support for the self -defense of the 'partner' country. Whether it is weapon exit or sending warships to the South China Sea again, Germany will not play an important role in Asia. When Berlin reflects on its policy on China, Berlin always considers the consideration of business interests. But the signal has been very clear: what the times should contain more than just the so -called "military restraint culture 'before the realization of peace before Ukraine. In Singapore, this signal will be generally welcomed, but will it be the case in Berlin? "

A person who commemorates June 4th was taken away by the Hong Kong police away [Audio-1-Link: <https://www.rfa.org/mandarin/yataibao/gangtai/ec-06052023111042.html> /@/stream(<https://www.rfa.org/mandarin/yataibaodao/gangtai/ec-06052023111042.html> /@/stream)] "June 4th Mourning" has become the taboo of Hong Kong. On the day of June 4th, the

police were involved in the "June 4th" to take away and arrest at least 23 people. Some arrested people pointed out that mourning cannot be stopped due to regime intimidation. In addition, the UN senior commissioner's office was shocked by the behavior of the Hong Kong government.

Hong Kong Night, there are people who commemorate the June 4th police near Victoria Park to take away twenty -four people * Police on the 64th anniversary of the Hong Kong Police are taken away by many commemorative people

"Don't forget June 4th, don't be afraid of Hong Kong people, don't be afraid of Hong Kong people!"

On June 4, the Hong Kong police just waited for the Hong Kong police to take away 23 men and women near Victoria. The Hong Kong Police said on Sunday (June 4) that the person who was taken away on the day of June 4th At the age of 74, it is necessary to investigate further in public in public.

On the day before June 4th, the white paper with "fasting" was posted on the body, and Liu Jiayi, a graduate student of Taiwan University who was accused of "incitement as a" incitement diagram ", said to this station on Monday (June 5) that he mourned the innocence and he was guilty. Just doing things that have persisted for more than 30 years.

Liu Jiayi: "The pain of June 4th, we haven't flattened it yet, mourning the dead of the dead and our mother to Tiananmen's mother. This is our persistence. So this year is just doing what I have done. The pain has not been flattened yet, and insisted on commemorating June 4th, mourning in Victoria Garden, there is no fear and fear. "

She said that she was temporarily approved for bail. She went to the police station in July to thank all circles for their concern for her and pursuing freedom of democracy in Hong Kong people and insisting on mourning.

** Chen Baoying: You cannot stop mourning to guard the history of June 4th because of the intimidation of the regime.

Due to the mourning of June 4th, Chen Baoying, a socialist chairman of the Social President took away in Causeway Bay, told the station after being released that the original plan to bring flowers in the pedestrian area in Victoria Garden expressed his grief for a short -term silent station, but did not succeed. She saw other citizens at the time, but she was taken away in black. It was not reasonable to criticize the Hong Kong government to even mourn in peace. She also pointed out that police actions have seriously restricted

the people's personal and expression of freedom. She believes that the person who stood up like her yesterday was a little candlelight who wanted to protect the June 4th.

Chen Baoying: "On the sixth day, several people who wanted to mourn near Victoria Garden were stated that they could involve" incite intention ". I think of this history written by so many people with flesh and blood, and even their mother wants to investigate the truth. The difficulties and hardships they face are many times more than us. I think it is more responsible to make people forget. The four mournings are unable to intimidate because of the regime, obstruct and stop personal mourning activities. We are just everyone who has returned to their own persistence. "

Cai Yaochang believes that many Hong Kong people are not full of senior Hong Kong government officials and deeds without fear and insistence on the streets to mourn June 4th

The former vice chairman of the branch association Cai Yaochang, on the June 4th night, came to Hong Kong University, who had placed the "Pillar of Guo Yan" alone, was also stopped by the police. It was also warned that if he did not leave, the National Security Police would act. Although he was willing to leave, he was also tracked by plainclothes for half an hour before leaving after the plain clothes. He returned to the old site of the June 4th Memorial Hall in order to complete the mourning without police intervention. He believes that the words and deeds of senior Hong Kong government officials this year are the reasons that inspire Hong Kong people to insist on mourning June 4th.

Cai Yaochang: "The biggest trigger point may be that the Chief Executive or the Director of the Law of the Law of the Law is unclear whether the Hong Kong people mourn the law in June 4th, but the director of the Security Bureau Deng Bingqiang warned that anyone would make a behavior that endanger national security on a special day. Police must enforce the law. The police also inspected the high -profile inspections of Victoria Park, and sent special forces to wait, making Hong Kong people who had mourned for more than 64 years felt that it was not a taste. Everyone tried to find some space to express. "

Xu Zhifeng worried mourning person or the successor of the Hong Kong government after the fall of the autumn

Xu Zhifeng, a former member of the Democratic School of the Hong Kong Legislative Council, said that he admires Hong Kong people bravely expressing their opinions and mourning June 4th under high pressure. He said that observing the law enforcement operations of the Police Police in June Fourth, and found that the standards of different standards made it difficult for Hong Kong people to express their opinions in a completely legal method.

Xu Zhifeng: "There are 64 items in the backpack. If there is no display, they must be taken away. This behavior obviously has nothing to do with the public order. It is only related to politics. , The Seed Demonstration of the Red Line is erratic. This is a portrayal of the post -National Security Law. It cannot be touched. What he wants. "

Xu Zhifeng said that although the mourning people who were arrested and carried in the past two days were temporarily released by the police and could be released on bail, according to the situation of the National Security Law, it was possible that after two or three years, the government was After the autumn, I believe that their willingness to take risks has moved many Hong Kong people.

The senior commissioner's office of the United Nations Human Rights Affairs was shocked by this, urging anyone who was detained by those who were detained by exercise of freedom of speech and freedom of peace assembly, and called on the Hong Kong Government to fully abide by the Obligations of the International Convention on Citizens' Rights and Political Rights.

The Journalism Office of the State Council of China held a routine briefing of the State Council in Beijing on June 5th Network screenshot

At the policies of the Chinese State Council on June 5th, the Ministry of Commerce stated that it would actively promote the construction of a unified market in the country, attract and use foreign investment, including continuous expansion of market access, increase investment promotion work, and continue to continue Do a good job in the services of foreign -funded enterprises and create an international first -class foreign investment environment, carry out "investment in the Chinese year" investment

promotion activities, and create more opportunities for domestic and foreign investment docking.

However, the American media Wall Street Journal reported on the same day that foreign-funded enterprises have implemented the "China+N" strategy to decentralize investment in response to the increase in risks in Chinese business. Multiple countries.

It is reported that factors including geopolitical turmoil, impact of the new crown epidemic, the competition of the United States and China, and the increasingly unpredictable positions of the Chinese government's foreign companies have enabled foreign capital to start building more production bases outside China.

Prior to this, many foreign companies including Tesla, JPMORGAN, Starbucks and other foreign companies just visited China. Although foreign companies opened their arms to welcome the Chinese market after unblocking, they are still uncertain. Hold doubt.

China's economic development has always been connected to the "debt" data map

The debt platform is not a new thing in China. China's economic development has always been connected to the word "debt". Since the 1990s, China has experienced Zhu Rongji to the four prime ministers of Li Qiang. After Zhu Rongji took office, the "triangle debt" achieved the hard work of the "triangle

debt", which made it known as the "most economical prime minister in China". Wen Jiabao is very lucky. Shang Cheng Cheng Zemin joined the WTO, and Zhu Rongji's reform of state -owned enterprises has created the monopoly of dozens of state -owned enterprises oligarchs. The world was deeply affected by the financial crisis in 2009, and the city was launched in 2009. This rescue was that when Li Keqiang and Li Qiang took over as the prime minister, they would take over the burden of handling debts.

Why did Zhu Rongji be known as the Prime Minister of Iron and Blood?

In 1990, the core issue of China's economic rectification was to clean up the bougainvillea. From 1991 to 1992, the "triangular debt" was the largest at the largest scale of the bank's total credit, and the country's triangular bonds reached about 300 billion (the total GDP in 1991 was 1991 trillion yuan). In the "triangular debt" chain, the so -called "triangular debt" is no longer a serial debt problem of A, B, and C in owing A in the simple sense, but ropes that tied the Chinese economy. Clean up the Bougainvillea and become the first single task after Zhu Rongji served as the Vice Premier of the State Council.

At that time, the national media talked about the serious triangle bonds. The main reasons for the formation of bougainvillea were summarized as: First, due to the serious budget of construction projects, insufficient investment plans and self -raised funds that year, a serious fixed asset investment gap was caused to form a pair of pairs. The production department's loans and construction enterprises have arrears in large quantities; the second is that the company's losses are serious and crowded the enterprise's own funds and bank loans. , Form input-output-backlog-arrears-re-input-re-output-back pressure vicious cycle.

In order to allow readers to understand at the fastest speed, Zhu Rongji chose the pilot to arrears in the northeast three provinces and four cities as an example. According to the investigation at that time, Zhu Rongji's cleanup policy set was based on the root cause of the root cause. Starting from solving the source of the triangle debt, focusing on cleaning up the source of the triangle debt in fixed asset investment projects, at the same time, it has paid close attention to the promotion of production and voltage libraries, adjusting the product structure, and increasing profits to increase profits. Essence The first stop was selected in the Anshan Iron and Steel Factory because the largest steel plant in China at that time was suffering from the "triangle debt" to torture: At that time, Anshan Steel sold for 30 million yuan of steel in Shenyang Cable Factory. Because there is no money, Ansteel cannot

pay the coal money required for steelmaking, which causes coal mines to no longer supply Ansteel Coal. The coal of coal mines cannot be sold, and wages cannot be paid, and the life of coal mine workers is difficult. Before the research team went, Anshan Iron and Steel was facing the risk of stopping production in boilers.

The "triangle debt" of coal mines, Ansteel, and Shenyang Cable Factory was a microcosm of China's economy at that time. Zhu Rongji believes that the serial clearing has the effect of unchanged recruits: for example, investing in funds for power plants, the power plant also gives the equipment manufacturer, and the equipment manufacturer will be given to the steel mills and steel plants to the coal mine and the railway. , Invest 1 yuan to clean up 3 yuan. If it is done well, it can achieve the effect of 1: 4 or even 1: 5. According to this instructions, Liaoning's first batch of pilot enterprises in owed are mainly selected from the production materials industries such as mechanical and electrical, metallurgy, coal, non -ferrous, and building materials. In the three northeast provinces, the first batch of companies to clean up the "triangle debt" chose about 300 households. In the case of the debt and debt of the pilot enterprise, the debt of the pilot enterprise was a solid and specific foundation, and the 14 working groups were sent to the key provinces and cities in the Northeast to help the arrears. Zhu Yan's fundamental people rushed to the "triangular debt" with the most tangled Eastern province, sitting in person, and the scene was arrears.

The results of the arrears are as follows: Use Zhu Rongji to inject funds, linked goods, structural adjustment, stretch the source, and the deserted arrears, etc., only 26 days, cleaning up 12.5 billion yuan in arrears, Northeast China issues Basically solved. After success in the Northeast, it was promoted to the whole country. In 1991 and 1992, 300 billion yuan involved triangular bonds of local governments, banks, and many enterprises. 100 million yuan triangle debt.

This is the first ax after Zhu Rongji was transferred from Shanghai to the Vice Premier of the State Council. Due to his sharp style, this most difficult work actually worked quickly, and was applauded by Deng Xiaoping and the country. Since then, the "Economic Tsar" and "Iron Blood Prime Minister" have become the nickname of Zhu Rongji, and "understanding the economy" is his golden signboard.

Why do Chinese local debt build high debt?

The Huwen period was the "Golden Ten Years" since China's reform and opening up. The Chinese economy has entered a growing fast track with an average annual double -digit growth rate. However Infrastructure construction and real estate development such as "iron publicity", local debt has accumulated rapidly. 2012 is the year of Hu Xi's handover. The following year, the Chinese Academy of Social Sciences issued a national balance sheet preparation and risk assessment report, announcing that the debt between the central government and the local government in 2012 was close to 28 trillion, accounting for 53 GDP of the year %. The overall national asset -liability ratio is on the rise, and the risk of debt has increased accordingly. Among them, local government debt is 1.994 trillion, which must attract great attention. The assessment report also pointed out that local government debt also involves many aspects such as urban investment companies, trust institutions, banks, and real estate companies. The risk points of the national balance sheet are also mainly reflected in projects such as real estate credit, local debt, and bank non -performing loans. The medium- and long -term risks are more concentrated in projects such as foreign assets, corporate debt, and social security debt.

According to the No. 24 announcement announced by the National Audit Office at the time, as of the end of 2012, the debt balance of 36 local governments (15 provinces and its capital cities, 3 municipalities and three cities) of the spot check was 3.85 trillion yuan, existing The pressure on debt repayment, high -repayment old rate, high -priced financing, outstanding financing, and other issues, including 16 regions, are not debt -if China allows the government to go bankrupt, these 16 provinces will become China's "Detroit".

In other words, China was a "Noah's Ark of the World Economy" in the 5 trillion saving market in 2009, but soon tasted the risk of excessive debt.

Hu Wen to Xi to clean up local debt four times

From the time to accepting the prime minister, Li Keqiang took over the hot potato of the local debt. Since 2011, based on the needs of standardized debt control, the central and local governments have gone through three local government debt audits (2011, 2013, 2014) and a trigger specifically for hidden debt. The policies have been introduced accordingly, requiring to further improve the local government debt mechanism, and propose measures to replace debt, special reinsurance debt, regional pilot and other measures for debt replacement. The debt quagmire cannot be extracted. By

2017, the Chinese government began to identify hidden debt, hoping to find out the debt chassis, solve the idea, and finally found that hidden debt was a confused account that the local government could not say. Quite even bigger.

Time is no longer: "There is no Zhang Juzheng in the world" **

Considering that the three -time debt clearance has not been seen, at present, governments from all over China are deeply trapped in local debt difficulties. Some domestic economists have proposed that solving local debt dilemma requires the central government to invest in "starting funds". This is from Zhu Rongji's experience of cleaning up the Bougainvillea. He hopes that the central government will invest 1 yuan and can reach the goal of 1: 3.

However, Zhu Rongji was no longer cleaning up the Bougainvillea debt, and things and reason were different. Look at my analysis.

At that time, when Zhu Rongji was appointed as the Deputy Prime Minister, when China was still transitioning to the market economy, the reason why the "Iron Blood Prime Minister" could ban is because of this era;

At that time, the triangular bonds were mainly in the real economy field. To clean up the source of production and supply and marketing, the economy could be revitalized. The issue of local debt is due to the excessive dependence on land and infrastructure projects in the real estate market. The real estate market is now seriously saturated and there is no enough buyer to enter the market. Infrastructure projects are the public welfare of the government and do not pursue market benefits. The source of the problem lies in the government. In the field of financial, the central government has re-injected capital. It is still used to solve the local financial financial, and it cannot produce benefits in the production field.

Zhu Rongji's 300 billion -mesh -billion -dollar debt accounted for only one - seventh of the total GDP at that time. Nowadays, local debt is too huge, and 66 trillion local debt accounts for half of China's second largest economy in China. Even if the central government is interested in injection of capital, it can only be printed to invest in people's finances, resulting in soaring inflation. China RMB is not as hard as the US dollar in the world. The US dollar is over -issued and inflation is processed.

In the past ten years of Ming Wanli, Zhang Juzheng was undergoing righteousness, and his economic prosperity was full. After Zhang Juzheng, the Ming Dynasty finance began to show serious problems. At that time, people lamented that "there is no Zhang Juzheng in the world." The word is quoted here. One layer of meaning refers to Zhu Rongji's ability and courage,

and more refers to the time and potential of the "Iron Blood Prime Minister" to clean up the bougainvillea. The first level of the United States is a local autonomy, and the bankruptcy of Detroit rots the city. China is a layered management under the centralized centralization. Once the local government bankrupts, the central centralization is rooted.

The Hong Kong government arrested more than 20 people during the 34th anniversary of the 64th anniversary, including Mai Yanting, former chairman of the Hong Kong Journalists Association. UNITED NATIONS HighCommissioner for HumanricHTS "shocked" on Twitter on June 5, and

called on the Hong Kong Government to release anyone who was detained for "exercising freedom of speech and freedom of peace."

The Hong Kong Security Agency issued a statement on June 5 that the "strong opposition and condemnation" of the UN Higherman Senior Commissioner's Office and the Hong Kong Records Association unreasonably discredited police law enforcement operations. The action made upside down, and emphasized that any attempt to slander the rule of law and freedom of Hong Kong and try to destroy Hong Kong's prosperity and stability will only be futile.

Chinese Foreign Ministry spokesman Wang Wenbin said at a regular press conference on the same day that he firmly supports the Hong Kong government, but in response, he did not mention the words "June 4th Tian Anmen Incident". " ".

This station had previously reported that June 4th was the fourth consecutive year that Hong Kong did not commemorate the candlelight party, but the Hong Kong police still waited strictly and sent at least 5,000 police forces on the day of June 4th. Many people were arrested and taken away in the evening.

Chinese ambassador to Japan Wu Jiang Hao Wiki Encyclopedia

According to the news released by the Chinese Embassy in Japan on June 5, Chinese Ambassador Wu Jianghao recently said in a speech at the Japan International Trade Promotion Association that if Japan insists on setting up Sino-Japanese semiconductor cooperation, it will be not only huge in China that will be lost. The market is the future of Japan's own business reputation and the semiconductor industry. He even said that the purpose of the United States is to re-establish semiconductor hegemony. If you go on the routine

designed by the United States, "that is the China -Japan Loster and the United States win alone."

In March of this year, Nishimura Kangyu, Minister of Economics and Industry of Japan, announced that it will strengthen export control of 23 high - performance semiconductor manufacturing equipment for 6 categories. Although it has not been named China, it is generally believed that this move is to respond The requirements of the Hua Gao's export review make the review of the semiconductor industry of China more stringent.

In addition, Wu Jianghao said in his speech that the current situation of Sino - Japanese relations is severe and complicated, and many new problems, new risks, and new challenges have been encountered. In particular, the US factors have become the largest external challenges that affect the stable development of Sino -Japanese relations. He also said that the Japanese side publicly positioned China as "unprecedented strategic challenges", and actively followed the United States to curb China at the Seventh National Group (G7) summit. Confidence in the world.

After the conclusion of the Seventh -way Group Leadership Summit last month, the Chinese government criticized the Seven Kingdoms Group to "speculate on the issue of China" and summoned the Japanese ambassador to China, but it was refuted by Japan's "reasonable and well -evident" issues.

The British "The Telegraph" published a study on June 4th that strict control measures were "insignificant" in reducing the role of new crown mortality, which is a "policy failure".

Scientists at the University of Johns Hopkins and the University of Longde, Sweden have investigated nearly 20,000 research on epidemic control measures. The research results show that severe seal control measures are "slightly insignificant" on reducing the mortality of the new crown epidemic, such as Sweden, such as Sweden Compared with countries, the implementation of strictly blocked England and Wales only reduced 1,700 death cases. The study concluded that compared with the alarming cost of sealing control measures, the number of deaths saved was only Ji Niu and one hair.

Larsjonung, a co -author of the report and a honorary professor at the University of Longde, Sweden, said this was the first study that comprehensively evaluated the impact of compulsory sealing city. He said that the results of this research represent the promise of Faing and control, which is very small for the benefits of national health, but it brings catastrophic economic, social and political costs to society. It is the biggest policy error in modern times.

Images: ["[000000.png](#)"]

According to the Turkish Bureau of Statistics, the annual growth rate of the Consumer Price Index (CPI) was 39.6%, an increase of 0.04% compared with the previous month, which was almost the same.

However, these official data released by the Turkish President Recep Tayyip Erdogan on May 28th were first announced by the "Inflation Research Team" (ENAG) established by a group of independent economists in Turkish groups. Essence

The Inflation Research Group pointed out that the inflation rate of Turkey falls between 105% and 109%. The question is whether the free natural gas provided by the government is calculated.

The EI section, who is about to start the 3rd presidential term, has stated that dealing with inflation is his primary task.

Turkey's inflation rate exceeded 85% in the fall of 2022, and then slowed down in November.

Although the price continues to rise every month, the increase is smaller than the same period last year.

In front of Radio Hong Kong, Cai Yuling accepted a reporter from reporter Wu Tingkang from the Court of Final Audit after the prosecution. (<https://www.rfa.org/mandarin/yataibaodao/gangtai/ec2-06052023125107.html>) Cai Yuling, former female director of Radio Hong Kong, was accused of false statements by the Hong Kong government when investigating the 721 attack of the Yuen Long 721 attack in

2020. Cai Yuling was dissatisfied with the verdict and had appealed for nearly three years and was dismissed.

Hong Kong Yuanlang Baiyi people who have attacked the citizen's incident still need to be pursued * Short light in news storms: Remember people who are still insisting

Former Director Cai Yuling, former director of Radio Hong Kong, re-shaped the truth about the 7.21 attack incident in Yuen Long in 2020. Using the survey method commonly used by reporters to obtain personal information involved in the involved in the attack on the attack, he was later reported by the Hong Kong government And the two items were ruled to make false statements. She refused to accept the judgment.

The Hong Kong Court announced the results of the referee on Monday (June 5), saying that the relevant information application, the restrictions and option requirements were unclear. Considering that Cai Yuling was sincere because of the news report, the application, and the number of media applications and the number of certificates of obtaining certificates issued a certificate. It is a serious injustice to think that Cai Yuling knows how to make a false statement. She unanimously ruled that Cai Yuling won the case.

** Cai Yuling: The judgment affirmed that the freedom of the press should be guaranteed by the law.

After hearing the judgment, Cai Yuling said that the court once again affirmed the freedom of speech and press. It was protected by the law. It was an encouragement for the press and the Hong Kong reporter who was still insisting on. It was also very meaningful for her personally.

Cai Yuling: "It has been 30 months from being arrested to appeal to the Court of Appeal. It is not a short period of time for many people. No matter today's winning or losing, insistence in the past few years is very meaningful. Things. It is really joyful to get this result today. This example shows that it is not an individual or group. Our insistence is worthy of paying attention and encouragement in today's society. I believe the belief in my heart is hard to be taken away. "

Cai Yuling said that he will continue to conduct investigations and reports, but it is acknowledged that this case may be applied to data surveys involving traffic categories. It is hoped that the society can understand that it is important to obtain public information and ensure the freedom of the press.

The Hong Kong Records Association welcomed the decision to explain the courage to Cai Yuling's perseverance, insisting on appealing, and the courage of maintaining the freedom of press. The moment Cai Yuling was arrested was a wrong decision. Success, weaken the role of media seeking truth and supervision of the government, and urge the Hong Kong government to respect the work of journalists to ensure that the right to know the right to know and keep the press is guaranteed.

The Hong Kong Journalism Executive Association stated that journalists to investigate and report on social incidents involving public interests are the responsibilities, and the Hong Kong government managers were urged to check the relevant information to set a clearer guidance.

Cai Yuling, former director of the Radio of Hong Kong, was accused of making false statements when he followed up the 7.21 attack of the Yuen Long to make a special report to apply for a license plate to check the license plate (reporter Wu Tingkang)

Legal community: It cannot be ruled out that the judgment of this case has triggered the government's amendment to tighten the opportunity to get the information to get the information.

The former "Law and Government Huisi" convener Ren Jianfeng said that Cai Yuling's appeal was successful to some extent, showing the importance of freedom of the press, but it is worth noting that the court's judgment is not the same as that reporters will not be charged in the future investigation report. At the same time, the government can also change the rules of the game unilaterally to prevent reporters from finding the required information.

Ren Jianfeng: "One of the factor that Cai Yuling won this time is that this time she is obviously doing investigations related to news reports. In the future, what is the definition of a news survey may be controversial. In addition, everyone cannot rule out that the government cannot be ruled out. The government cannot. They will change their rules, they can tighten the benchmark of getting the information. "

In the past three years, this case has experienced the application and procedures of multiple courts. Ren Jianfeng said that in addition to the parties to pay, if the appeal fails, it may be recovered by the government for 100,000, or even HK \$ 1 million. The road to righteousness is quite difficult for ordinary citizens.

The Malaysian head of state, Sultan Abdullah, was worried about the controversy of the word "Allah", and warned that if this problem was not resolved immediately, it would be a protracted debate, affecting national unity and national well -being.

"Malaysia Today" quoted the Malaysian Xinhe report that the head of Malaysia Adula on Monday (June 5) said at the bookmark ceremony of the head of state's birthday that the argument of Ala's eye is not about the debate of terms and linguistics, but it is Regarding the beliefs of Muslims, any confusion will only cause disaster.

He said: "The government should coordinate the current situation. At the same time, considering the national security, the interests of Muslims, and the status of Iran's head and other Malay ruler, I use Arah's eyes in the correct context of the correct context."

The head of Malaysia said that any argument related to religion, if it is not handled immediately, is like a fire line, and will eventually ignite the fire of hatred between race. Therefore, he said that when dealing with such sensitive issues, all parties should be in a wise and conservative way and embrace tolerance.

The head of Malaysia said that this is in line with Article the first of the national principles to "believe in Cang", and emphasizes that religious philosophy is very important in the social life of Malaysia, and should not be the basis of questioning and controversy.

He said that Islam's lofty and holy were guaranteed for a long time in the process of founding in Malaysia, until the federal Constitution's Article 3 (1) of the Constitution finally stated that the Idoalism was a federal religion.

"Islam was placed in the highest position in the Federal Constitution. It was a consensus reached by the understanding and consent of all parties when the country was independent."

The head of state of Malaysia pointed out that unity requires an enlightened mentality, noble souls, and acceptance of loyalty to monarchs and national loyalty. More importantly, it is not questioned, interfered, and not looking at the religious beliefs and affairs of other races.

"For the unity and future of the country, any religious disputes should be resolved immediately. The International Air Transport Association predicts that airlines in Asia, Latin America and Africa will continue to be in a loss state in 2023

(Voice of Germany Chinese) According to the Forecast of the International Air Transport Association (IATA) on June 5, in view of the end of China's epidemic prevention restrictions, the net profit of the aviation industry in 2023 will reach 9.8 billion US dollars, which is higher than the previous estimates. Double.

The association also said that the aviation industry's losses in 2022 were only half of the previously estimated \$ 3.6 billion.

"Airlines' financial performance in 2023 exceeded expectations", and Williewalsh, director of the International Air Transport Association, issued a statement at the association at the annual conference held by the association

in Istanbul. He said that several positive progress has promoted the enhancement of profitability, "China has ended the new crown vaccination restrictions earlier than the outside world this year."

Walsh also said that although the price of flight fuel is still high, it has eased in the first half of this year. He said, "In terms of cost, there are some relief."

Russia's invasion of Ukraine in February 2022, leading to surge in energy costs, and the inflation rate in the world surged. However, the prices of oil and natural gas later declined.

In addition, Walsh also said that economic uncertainty did not restrain people's desire to travel, even in the context of increasing fuel costs that led to rising air ticket prices.

The difficult three years of the aviation industry

In 2019 before the start of the global new crown epidemic, airlines' flights reached a record 4.54 billion.

In 2020, countries closed the border and implemented epidemic prevention and control measures. The aviation industry lost \$ 137 billion in this year.

In 2021, the industry lost another \$ 42 billion.

In 2022, the situation improved, but the aviation industry was still in a state of losing money (loss of about 1.8 billion US dollars). In this year, China's major aviation market continued to implement new crown epidemic restrictions and let go of December.

"1.2%net profit margin is also worth celebrating"

The International Aviation Transport Association said on Monday (June 5) that the total revenue of the aviation industry this year is expected to increase to \$ 803 billion, an increase of nearly 10%over 2022.

Although the entire industry will be profitable, Walsh pointed out that the net profit obtained from each passenger is only \$ 2.25-this is equivalent to about 1.2%of net profit margins.

The International Air Transport Association, which represents about 300 airlines and 83% of the global airline passenger volume, said that North American Airlines' net profit will rise to \$ 11.5 billion this year. The company's net profit is \$ 2 billion. At the same time, airlines in Asia, Latin America and Africa will continue to be in a loss.

According to the forecast of the International Air Transport Association, this year airlines will face a total fuel cost of US \$ 215 billion, that is, \$ 98.5 per barrel. This decreases from the average cost of \$ 135.6 per barrel in 2022. Fuel will account for 28% of the total cost of airlines this year, while the number is 24% in 2019.

"After experiencing the in-depth loss of the new crown epidemic, even 1.2% of the net profit margin is worth celebrating," Walsh said. "But given that the average passengers of the airlines only earn \$ 2.25, repair the damaged balance sheet and provide investors with sustainable capital returns, it will continue to be a challenge for many airlines," he added.

Several factors may affect the profitability of the aviation industry

According to the International Air Transport Association, the profitability of the aviation industry is "fragile" and may be affected by several factors, including the central bank's interest rate hike against inflation. In addition, the risk of economic recession still exists. If the economic recession leads to unemployment, the industry's prospects may change negative changes.

The association also said that although the Ukraine War did not have a "significant impact" on the profitability of most airlines, if the conflict was upgraded, it might damage Global Airlines. "A wider range of geopolitical tensions have affected the international trade. Any upgrade of this tension represents the downward risk of the industry's prospects."

Since the new crown epidemic, the supply chain problem of global trade has also existed. The International Air Transport Association said: "Airlines have been directly affected by the broken supply chain of aircraft components, and aircraft and engine manufacturers have not solved this problem. The ability to have a negative impact."

Chinese student M said that although she had some awareness of June 4th, she had not seen Chinese students standing up to hold a mourning activity. Now that I finally waited for this opportunity, she felt that it was necessary to participate, expressing their dissatisfaction with various incidents in China in recent years: "Because I think this is the obligation of every citizen. We use such activities to express our dissatisfaction. I think it is also a comprehensive dissatisfaction with the past two years, including the prevention and control policy of the epidemic, and the comprehensive dissatisfaction of large and small things. Many things have happened in China, such as the 'iron chain girl' Incidents, such as Dr. Li Wenliang's incident, there are countless incidents, comprehensive dissatisfaction. "

Hong Kong people: Even if we do not support ** Who supports it?

There are many Hong Kong people who support Chinese students in the crowd. Hong Kong people Billy have participated in the candlelight party participating in the Victoria Park in Hong Kong over the past few decades. He said that the first time Chinese students came out to host the June 4th Memorial Campaign, which was of great significance, and was pleased: "In fact, commemorating the June 4th activities should be done by the Chinese. We have always been helping them in Hong Kong. . Of course we are also in the same vein. If we do n't even support them, who will support them? There are still many people with conscience in the mainland, but some people cannot receive information. In fact Mainlanders, I am very supportive. "

Chinese students later led Hong Kong people, Tibetans, and Uighur communities to march outside the London City to the Chinese Embassy in the UK, and joined a party hosted by the International Amnesty Organization for

34 years. The rally holding a slogan and electronic candle, mourning the dead of June 4th, and supported Zou Xingtong, the former vice chairman of the former Hong Kong Branch Federation of Hong Kong Federations in prison. About 400 people participated at the peak.

Commemorating June 4th is considered illegal in China

(Voice of Germany) During the June 4th period, the review of related sensitive elements on the Internet is stricter than usual. For example, on June 3 last year, China's "Live Brother" Li Jiaqi was exposed to the tank -shaped cake because of the live broadcast of the goods, and the live broadcast was immediately interrupted by no warning Essence

In June 4th this year, some Chinese netizens said that some of the contents that could be sent last year could not be sent out this year, and even comments that forwarded or did not contain sensitive words would cause accounts for banned words or even permanent titles. According to Twitter "Teacher Li is not your teacher" The published netizens' submission and messages showed that netizens such as Weibo, WeChat, Douyin, Bilibili, Netease Cloud Music, and Xiaohongshu have encountered relevant

situations, and some online games and applications are "systematic maintenance". For the reason, it is forbidden to replace personal information such as avatars and nicknames last weekend.

In the above platform, it is reported that the short video community platform "Douyin" officially issued a notice on the eve of June 4th and requested that major Internet celebrities and brands from June 3rd to 5th. "," Numbers with unknown meaning "," old photos with age "," including crowd gathering, Victoria Harbor, Tiananmen, Summer Palace, candlelight, objects in a row "and Jackie Chan, Mei Yanfang, and other Hong Kong stars Essence It is even required that the number of reposts, comments and likes during this period cannot be a sensitive number. However, according to the actual test of the Voice of Germany, the current Tiktok webpage on Douyin can still search for keywords such as "Tiananmen" and "June 4th".

Foreign Embassy in China was deleted

Many foreign embassies in China have also released content related to June 4th on Weibo on June 4, but most of them have been deleted. The German embassy in China released a short candle short film on the early morning of June 4, which was deleted in about 10 minutes.

The British Embassy in China uploaded the "First Edition of the People's Daily 1989" on Weibo, and was then quickly deleted. The British Embassy later stated at its Twitter account: Although China prohibits any public discussion on the tragic incidents on June 4, 1989, "We posted this picture on social media today to explain that the party media is actually in fact He has reported this incident. "

The EU delegation released a well-known work "Scream" by the Norwegian painter Meng Ke on the Weibo account "EU", and wrote "We will not forget, we will never forget those who remember history." At present It has also been deleted. However, the Dutch Embassy in China uploaded a photo of the tank car at the Leaton Square in Amsteron on the same day. The Dutch Embassy in China wrote: "In the center of Amsterdam, you can see the Russian military vehicle destroyed by the Ukrainian army. Today is the last day of showing this military vehicle. The damaged military vehicle reminds the audience our democracy's fragility and recovery ability."

"Shut the mouth"

Unable to commemorate June 4th on the Chinese social media platform, netizens have changed to Twitter for discussion. Some Chinese netizens said

on Twitter that they "tried to distribute Weibo on 6:04, but how can I not send it in that minute" "Just post" After all, the West Lake is in mid -June, the scenery is not the same as the four o'clock ." It is also criticized that many foreign embassies on China have released posts related to June 4th. The posts have only been deleted, but the general public comments have been blocked: "It is always waiting for overseas forces to wait and punish the domestic farts." Some people also ridiculed: "It is recommended to set up the traditional Chinese festivals on June 4th every year in the future: shutting down the mouth", "Once yesterday, the examiner was relieved, watching the colleagues who were in black around him, full of exhaustion, he was exhausted., I can finally sleep. "

In addition, although the Hong Kong government banned the June 4th commemorative activities, the US Consulate General in Hong Kong and Macao still sent photos of candles filled with candles on the window sill of the consulate. Twitter at the point also released a candle photo on June 4.

A spokesman for the Chinese Ministry of Foreign Affairs in Hong Kong issued a statement at 9 o'clock that day and criticized this statement: "For individual politicians in the United States and some countries in Hong Kong, such as the United States, Canada, etc. today staged a poor political drama, manipulating human rights such as manipulation With some anti -China -China -Random Hong Kong elements singing and one time, trying to stir up the incident, interfere with Hong Kong affairs and the Chinese internal affairs, the spokesman of the Ministry of Foreign Affairs in Hong Kong expressed resolute opposition and severe condemnation. "At the same time And Xun, called on "a small number of external intervention forces and some countries such as the United States to recognize the situation and abide by the basic guidelines for international law and international relations, ..., immediately stop the futile political manipulation, and give up the delusional delusions of the chaos of Hong Kong to curb the China."

the 34th anniversary of the "June 4th". Among them, the event site of Vancouver reappeared the atmosphere of Hong Kong Victoria Garden. More than 3,000 people held candles and called for never forgetting the warriors who had struggled for democratic democracy in China and Hong Kong. In addition, Toronto also had two commemorative meetings, and more than 2,000 people participated.

Continue the Victoria Garden Candlelight Canada, Canada, nearly 3,000 people to mourn June 4th * Canada launched the first wave of June 4th Memorial Activities, the old and middle -aged three generations participated in it **Thousands of Canadian people burning candles to ignite the June 4th Embassy in China also issued a statement to mourn June 4th** * **US, Britain, Australia and Australia Sound in Hong Kong Human Rights Organization: Do not forget June 4, forget Hong Kong**

The singing of democracy and freedom and the spirit of Hong Kong fluttered in Vancouver Lin Sisi Park. From 4 o'clock in the afternoon on Sunday, the concert and June 4th exhibition appeared. As the sky was darker, more people poured into the garden lawn, more than 3,000 people, more than 3,000 people. Holding candles or mobile phones, paying tribute to those who were killed in June 4th in 1989 and those who were unfortunately killed in the past few years to fight for the freedom of democracy in Hong Kong.

The Vancouver Branch Federation has held a commemorative June 4th event since 1989. In previous years, it has protested in front of the Chinese consulate. Li Meibao, chairman of the branch association, said that in the past, more than 100,000 people gathered in Hong Kong Victoria Park to mourn June 4th. Now Hong Kong has changed. Vancouver has changed. Vancouver has changed. Hong Kong people have to condense together.

Many Hong Kong people say that Vancouver takes over the vitamin candle sea without forgetting June 4th.(Reporter Liu Fei shooting) "Through each candlelight, we will never forget the Massacre of Tiananmen, and we will not forget the warriors who fight for democratic resistance in Hong Kong. Although the candlelight of Victoria Garden is off, the candle seater in Vancouver is immortal."

Mai Haihua, former chairman of the Hong Kong Branch Federation, was forced to leave Hong Kong to Vancouver. When he saw a seater, he choked and said, "Hong Kong people are scattered in the world, and they are still together."

Former Hong Kong Internet Radio host "Jess" was also a political prisoner. After he was released from prison, he came to Vancouver 2 months ago. His speech on the stage set off a climax for the party. The director arbitrarily manipulated the National Security Law and destroyed Hong Kong, but it could not destroy the beliefs of Hong Kong people.

"We are full of the entire earth. Thank you, Li Jiachao, thank you Deng Bingqiang. He helped us call us more Hong Kong people to stand up. Full of all cities."

A group of Chinese students held a mourning June 4th activity in the University of Toronto. Although only more than two hundred people participated, they showed the pursuit of democracy in the younger generation of China.(Citizenship provides) Jess said: "The Communist Party of China wants everyone to forget, and to forget the June 4th of China, and forgotten Hong Kong in 2014. In 2019, because of forgotten, the Communist Party can continue to do things that hurt the law. We must not forget."

Hao Dan, the person in charge of the Chinese Democratic Party, said that the June 4th incident of Tiananmen opened the light of Chinese democracy.

"Because June 4th let the world see the nature of the CCP's evil, and also set off a wave of Chinese people's pursuit of democracy and freedom all over the world, laid the seeds of the Chinese democratic movement, and affected the thoughts of several generations of Chinese people."

Vancouver City Councilor, Chinese immigrants Zhou Nan and Ben Lami City Council, Hong Kong immigrants Li Canming and others also came to the scene. Zhou Nan said that he would gradually understand June 4th, who was only 2 years old. Li Canming also said, "There is still a period of time to change, so it is important to stick to it."The Toronto supports the China Democratic Games at the Six Four Candlelights held in Mel Lastman Square on Sunday evening, which will attract more than 2,000 people to participate.

As for the Toronto Citizens' Association to host the June 4th activities at the University of Toronto on Saturday, Lin Litong of the Citizen Association said that although only more than 200 people were present, most of them were young students from mainland China. They were willing to stand up.

The Afghan police said on Monday (June 5) that about 60 girls were taken to the hospital in a women's school in northern Afghanistan.

Reuters reported that the poisoning incident occurred in SAR-E POL in Afghanistan.

Police spokesman Nazari said: "Some people who are unknown enter a women's school in Sanchaar in Sanchaar and poison in the classroom. Girls are poisoned after entering the classroom."

Nazari didn't say anything poison, nor did the black hands behind the scenes. He only said that the girl was taken to the hospital and "the current situation is good."

Police did not arrest anyone.

After the Taliban regained the Afghanistan regime, most girls have been banned from going to school. In this country that has been ravaged by war, female education It is now strictly reviewed.

Before Taliban, during the administration of the Afghan government, which was supported by the Western support, there were also many poisoning incidents against women's schools, including suspected poisonous gas attacks.

A series of women's school poisoning incidents have also recently occurred in Iran, Afghanistan.

Since November last year, the poisoning incident in the Iranian women's school is estimated to have led about 13,000 poisoning, and most of the victims are female students.

The situation of the launching ceremony of the iron chain female sculpture.
(From Xiangli Twitter))

In the free sculpture park in Southern California, the completion of the "Iron Chain Girl" sculpture was held on the afternoon of June 4. This sculpture shows the image of the iron chain girl in Xuzhou Fengxian County, and carved the two characters of "China" behind the female statue of the iron chain.

The Iron Chain Women's Incident was a case of abuse and trafficking for women in January last year. In Fengxian County, Xuzhou, Jiangsu, a video of a mental abnormal woman who was imprisoned with an iron chain and gave birth to eight children was widely spread on the Internet, causing public

opinion uproar. The contradictory notice issued by the local government on this incident has also aroused the anger of many people.

There were hundreds of people at the "Iron Chain Girl" sculpture. The people attended the attending of Chen Weiming, the head of the Liberty Sculpture Park, Fang Zheng, Chairman of the China Democratic Education Foundation, Chen Guangcheng, a lawyer in the United States, and some local American officials. During this completion ceremony, people also carried out flower offering mourning activities to the June 4th Monument Sculpture in the park.

38th Army Chief Xu Qinxiang [Wikipedia \[AUDIO-LINK\]](#):

[@stream](https://www.rfa.org/mandarin/zhuolan/yehuazhongnanhao/gx_06052023093235.html)

Yesterday, on the 34th anniversary of the June 4th incident, our free Asian Radio published "" Tiananmen Mother: "Never forget that dark night" "reported that the sacrifice published by the" Tiananmen Mother "group wrote a saying. : Thirty -four years ago, today, the government used the field army to use machine guns, tanks and armored vehicles. On the capital Changan Street and other important streets, I ignored the many people on the road and fired at the crowd. The tank crushed and brutally suppressed the students and the citizens. Our loved ones, they fell

under the bloody night under the sin bullets, and presented a valuable life for the ideals in their hearts ...

The author is also one of the calendar of the eighth nineteenth tide and June 4th suppression. On the third day after the calamity, it confirmed from a secretary of a leader of a active soldier at the time, and then a secretary of the leader of the General Logistics Department of the PLA confirmed that on the early morning of June 4, Chang'an Street was from the west to east of Chang'an Street. The automatic rifle shooting all the way to the Tiananmen Square all the way is precisely the 38th Army of the CCP "Long Live" of the CCP "the people's army love the people" in advance.

At that time, the reason why the thirty -eighth army was "inverted" at that time was caused by the "anti -fate" of General Xu Qin, the commander of the 38th Army, who had occurred.

In his book "Political Strike of China's Reform Times (Revised Edition)" in his book, Mr. Yang Jizhong recorded in detail the process of Xu Qin who refused to lead the army to participate in martial law and suppress the students at that time: "At that time, Xu Qin first suffered from kidney stones in the Beijing Military Region. The hospital for medical treatment ... (1989) On May 17th, Xu Qin received a notice from the Beijing Military Region. Li Laizhu, deputy commander of the Beijing Military Region, announced the order of the Central Military Commission to let the captains of the (several of them) immediately stated. The long did not express different views. Xu Qin said first: 'Oral orders can not be executed, I need a written order.' Li Laizhu said: 'There is no written order today, and it will be made up in the future. 'Xu Qinxian said: Now is not the war period period , Oral order I can't execute it!"Li Laizhu said:" Then you call your political commissar and convey the order. ""The book continued:" Xu Qin first called the political commissar, and then said: If you do n't participate, this matter has nothing to do with me. 'After returning to the hospital after speaking. When he returned, he talked to his friends about this, and he was preparing to kill the kill. He said:' Ning Killing, not a historical sinner!'"

In the article, the author 's" Wu Dajiu Store "published in this column on April 21 this year introduced Liu Ya, who was once selected by Jiang Zemin as one of the 30th Army's key training targets, in this column. The burst of Zhang Kuang and self -confidence shown in the internal speech of the field is enough to prove that he is definitely not to be spoiled by Xi Jinping, who is "Wu Dalang's opening" to operate his cadre team. In this article, Liu Asia, who

was sorted out into the article "Belief and Morality", was sorted out into the Internet in November or December, which was "spread" on the Internet in November or December in the then Chengdu Air Political Commission.

However, it has not yet come and introduce the following content related to the June 4th incident:

The Beijing -Tianjin area is the center of political and cultural. People in Beijing are very concerned about politics. The army is not living in vacuum, but also cares about politics. Everyone is a small politician. However, at a critical moment, the more I can't use the Gyeonggi troops. The typical example of the June 4th "38th and 28th Army of the Beijing Military Region. Xu Qin, the 38th Army, was a general. When he was a division of the tank, he saw a exercise he conducted. He was sitting lazily, no, it was almost half a half lying on the chair in the tent, directing thousands of horses, clear heads like lightning, orderly, and well -planned. Moisture. There are not many people like the Chinese army. There are nothing to do with him xxxx, xxxx. Only the Lanzhou Military Region × commander than him. Unfortunately, Xu Qin was politically unreliable. , Zhou Yibing, commander of the Beijing Military Region, drove to Baoding himself and asked Xu Qin to bring his troops into Beijing first. Xu Qin first asked if there was an order from the Central Military Commission. Zhou said, yes. Xu You asked, do you have the orders of Comrade Xiaoping. Zhou said, Xu Xu. Also asked, whether there was an order of the executive vice chairman Yang Shangkun. Zhou said, yes. Xu You asked if there was no order from Zhao Ziyang, the first vice chairman of the Military Commission. Xu Qinxian's nose said, "I know your wife is a judge! Your two sons are in Tiananmen Square!"The Thirty -eight Army stationed in the Beijing -Tianjin area.

It is necessary to emphasize here that in his speech 21 years ago, Liu Asia was completely standing in the stand that resolutely supported the armed to suppress the 64th Tian'anmen Square Movement.

Please see the following content he said at the time: Since the reform and opening up, the Chinese army has played two important role in politics and will continue to play a role. Which twice? One was the "June 4th" political storm. Comrade Xiaoping said that the storm was about to come sooner or later. Since you have to come, you have been stronger than late. After the "June 4th", my country's reform and opening up cause revealed a new page. Recently, everyone is studying the political report of the "16th National Congress". There is an important proposition in it, which is the glorious achievements of the Party Central Committee with Comrade Jiang Zemin as

the core for 13 years. When will this "thirteen years" be divided? From "June 4th". It can be said that without the solution of the "June 4th" problem, there will be no situation of prosperity today in our country; without the army, the problem of "June 4th" cannot be solved, or there is no such glorious in the past 13 years. Essence On the morning of June 4, Beijing City suddenly calmed down after turning over the river overnight. Many clearance troops gathered in Tiananmen Square. I don't know how the next situation will develop, and the string of nerves is tight. That morning, all the phone calls in Beijing were unreasonable. Why can't I get through? Because all citizens hid at home and called, they called overload and were paralyzed. The rumor looks like his legs, flying across the country. Western rendering. Global eyes are gathered on Tiananmen Square. At that time, Chairman Yang Shangkun said such a sentence: "June 4th" Tiananmen Square this morning, if there is a problem with a class, it is incredible. "The group army party committee mentioned here, with the commander Xu Qin first "picking up", immediately fell completely in the master of Wang Fuyi, then the political member of the 38th Army. The political commissar named Wang was three years old than in 1935, and started serving as the military and political commissar since April 1988.

It was precisely because Wang Fuyi stood "the banner clearly" to Xu Qinxian's opposite side at the time, and resolutely supported the order of the promotion of the military commission's promotion. Suppressing the leader.

Because Zhang Meiyuan commanded the 38th Army to resolutely enforce Beijing to suppress the command, Wang Fuyi was promoted to the level after more than half a year, and was arranged to be the deputy political commissar of the Beijing Military Region and the secretary of the Discipline Inspection Commission of the Military Region. It was arranged as a member of the Central Discipline Inspection Commission. In July 1993, Jiang Zemin was awarded the rank of Lieutenant General.

As for Zhang Meiyuan at that time, it was originally awarded the same rank as Xu Qinxian as the deputy army commander of the 38th Army, and was sent to the Department of Defense Research at the National Defense University to study. Because Xu Qin first resisted the order of the implementation of the troops into Beijing to participate in the suppression, the then president of the National Defense University Zhang Zhen personally handed over the order issued by Zhang Meiyuan issued by the Central Military Commission as the commander of the army commander to Zhang Meiyuan. The work of the headquarters. Since then, Zhang Meiyuan has faithfully executed Deng

Xiaoping's order, moved the 38th Army Command Command to Beijing Xishan in a timely manner, and jointly operated with the Beijing Military Region Combat Department. The artillery brigade was transferred to Beijing in time, and made a leader in the suppression operation starting from the evening of June 3.

At 1 am on June 4th, the deputy division of the 38th Army, the deputy division of the 38th Army, took the "003" light armored vehicle to the east side of Tiananmen Square, but the armored vehicle suddenly turned off on the watching platform on the east side of Tiananmen City Tower. The 38th Military Political Commissar Wang Fuyi and the deputy commander (agent) Zhang Meiyuan's command vehicle arrived at the Jinshui Bridge of Tiananmen Gate. square.

The content of this natural paragraph is the article "Blood Blood Golden Water Bridge" who invited his merit "Blood and Golden Water Bridge" after suppression, which was included in the book "One Day" published at that time. The relevant records of this paragraph of the 38th Army's military history are: "Facing the mob's fight, smashing, grabbing, burning, killing, refers to the heroic and fearless of the soldiers. , Excluded 7 fire barriers composed of burning cars and trams set up, overcoming 7 kilometers of dense roadblocks. After 4 hours of hard work, it reached the front line of Jinshui Bridge at 1:30 on June 4th. As the group army of Chengcheng, the first to enter Tiananmen Square The group army 10,000 officers and soldiers, 45 armored vehicles drove to Tiananmen Square in front of the clear field to severely crack down on the arrogance of riots, destroying it After their western defense line, it shocked the stubborn people entangled in the square, and took a key step to the decisive victory of the anti -revolutionary riot. " Deng Xiaoping, Jiang Zemin and others have issued a reward order for them. Zhang Meiyuan was officially appointed as the captain after the "successful completion of the flat storm mission". However, it is wrong to have reported that he was promoted by the promotion of Lieutenant General in the future.

Next, when the actual host of the military commission, Yang Shangkun and Yang Baibing, when the 14th National Congress of the Communist Party of China held in October 1992, will temporarily stay in Zhang Meiyuan, who is still still in the position of the 38th Army, arranged. List of candidate candidates.

Originally, Yang Baibing had planned to arrange Zhang Meiyuan to enter the Central Committee of the Central Committee and promoted him as the deputy

commander of the Beijing Military Region to prepare to take over Wang Chengbin's commander position. At that time, Wang Chengbin was 64 years old.

What Zhang Meiyuan did not expect was that the second month when the 14th National Congress of the Communist Party of China had just been elected as a Central Committee, not only failed to be promoted to the deputy commander of the Beijing Military Region, but while being lifted the position of 38th Army, he received the transfer. The order of the commander of the Qinghai Provincial Military Region under the jurisdiction of the Lanzhou Military Region. At the same time, there was also a friend of Yang Baibing, named Zou Yuqi, and then deputy commander of the Beijing Military Region. He was also ordered by Jiang Zemin to be transferred to the deputy commander of the Lanzhou Military Region. It is said that when the two were ordered to order the Central Military Commission at that time, they asked them to bring only one guards and report to the Lanzhou Military Region within three days. Some insiders at that time analyzed that because the leadership team of the Lanzhou Military Region and the brothers of the Yang family had no political feat, Wang Ruilin, deputy director and director of Deng Xiaoping's office and deputy director of the Political Department of the then deputy director of the Central Office of the Central Office at the time. Political confidences cultivated by the Beijing Military Region are the most assured of the Lanzhou Military Region. It sounds good to be "flat mobilization", and it is ugly to "control the use". Compared with the 15th National Congress of the CPC held after Deng Xiaoping's 15th National Congress of the Communist Party of China and Deng Xiaoping's "South Tour" in 1992 after the death of Deng Xiaoping in 1997, it is not difficult to find one by one. Strange phenomenon: At that time, a group of 14 Central Committee members and alternate members of the 14th Central Committee of the 14th Central Committee of the Central Committee of the Central Committee of the 15th National Congress of the 15th National Congress were disappeared. In particular, the military generals who had achieved success in the "June 4th" incident like Zhang Meiyuan had been rewarded at the 14th National Congress of the 14th National Congress. This is because on the eve of the 14th National Congress of the Communist Party of China in October 1992, although Jiang Zemin defeated the Yang family's brothers with the support of Deng Xiaoping, because of the time relationship, the 14th National Congress of the Communist Party of China and the Central Committee of the Central Committee that had been formulated before The members' "candidate list" has been too late to replace, and even the army's senior generals who are

loyal to the Yang family brothers are still the sequence of the Central Committee and the Central Committee of the Central Committee at the 14th National Congress of the Communist Party of China. Zhang Meiyuan was born in 1937. At the fifteenth year of 1997, it was just sixty years old, and it was not young. According to the strict age standards of the CCP's military cadres, if the military -oriented cadres cannot rise at the age of 60, they can only retire. Therefore, at that time, Jiang Zemin signed an order in July 1996 before the 15th National Congress of the Communist Party of China. The rank of major general obtained with the position of deputy commander. In this way, without improving his level, he did not arrange for him to succeed the Central Committee members in the 15th National Congress of the Communist Party of China.

Zhang Meiyuan was announced at the end of 1997. At that time, Xu Qin had been released from prison and was announced by the internal announcement to the deputy military -level treatment and arranged in Shijiazhuang to "recuperate". It is said that Zhang Meiyuan once asked to visit Xu Qinxian, his "old chief", and received the grace of the Security Department of the Political Department of the Beijing Military Region, but Xu Qinxian himself declined.

After being released from prison, Xu Qin first visited Li Rui and talked about the situation of the "June 4th". His 70th birthday, he also invited Li Rui to meet the Shijiazhuang family. Li Rui handed him a handwritten hand to him: "The proud bone is virtuous and true, the hot intestines are cold and compassionate." Mr. Li Rui said: He is a rare general. He opposed the suppression of 'June 4th'. How can the people 's army shoot to the people? As a general, he knows what it means.

On the morning of January 8, 2021, Xu Qin died in Shijiazhuang, Hebei at the age of 86. The article published a more detailed report in a timely manner in a timely manner of Radio Asian Radio, the 38th Army commander Xu Qinxian, who died on the June 4th Army.

The Taiwan Central News Agency quoted people familiar with the matter on June 5 that the routine US Taiwan "Montereytalks", which focuses on strategies and security issues, was held in Washington, USA. General Li

Shiqiang, the director of the Planning Department, led a group to attend, and will focus on issues such as the increasingly severe threat of the United States to Taiwan and the CCP's threat to Taiwan.

The "Monterey talks" is one of the annual routine dialogues of high -level officials of the United States and Taiwan for bilateral strategies and security. It is reported that Weng Mingxian, director of the Institute of International Affairs and Strategy of Taiwan Tamkang University, stated that last year's "Monterey talks" mainly focused on the Russian and Ukraine War, but the Bayeng government in the United States has actively promoted the United States and Indo -Pacific countries in the past year. Bilateral or multilateral relations are expected to focus on the topic of the Taiwan Strait this year, and explore the response methods of the Indo -Pacific Alliance for the Taiwan Strait, and discuss how to deal with non -traditional threats such as the gray areas of Chinese maritime militia and maritime conflicts.

Su Ziyun, a scholar of the Ministry of National Defense Think Tank and the National Institute of Defense Security, told the Central News Agency that the "Monterey talks" is the highest level of Taiwan -US routine dialogue mechanism. It is positioned between the level of national security and national military strategy. Discussion is the field of safety management and military planning and communication.

When the tension situation of the Taiwan Strait became increasingly upgraded, the United States and Taiwan signed the first batch of agreements for the 21st Century Trade initiative last week. On June 5, the Taiwan representative of the United States Xiao Meiqin held a press conference to express their views on issues such as strengthening economic and trade relations in the United States and Taiwan and avoiding dual taxation. Some scholars have pointed out that Taiwan is expected to get rid of the dependence on the Chinese market through related US agreements.

US Taiwan Trade Initiative Preliminary Negotiations Complete Scholars: Copy Chinese Economic Coercion * Meitai Relations Raising Cai Yingwen: After the trade negotiation is successful, agricultural products are given priority to the United States

After nearly a year of negotiations, the US -Taiwan official finally signed the first batch of agreements to the 21st Century Trade Initiative. On the morning of June 1st, under the witness of the US Deputy Trade Representative Sarahbianchi and Deng Zhenzhong, a member of the Taiwan Executive Yuan, the executive director of the United States Association in Taiwan and the representative of the Taiwan representative Xiao Meiqin in the United States in the United States In the Taiwan Association (AIT) Washington headquarters officially signed relevant documents.

Xiao Meiqin: The second stage of negotiations will start as soon as possible

Xiao Meiqin said at a press conference held at the Shuang Oak Garden of Washington (5th): "We just signed the first batch of agreements, and both sides also agreed very quickly to start the second stage of negotiations as soon as possible. It also takes stocks and preparations for negotiating issues in the second stage. We also hope to achieve specific progress at the fastest speed. "

The main contents of the first batch of US Taiwan Agreement are aimed at 5 issues, namely customs management and convenient trade, good legal operations, small and medium -sized enterprises, anti -corruption and domestic rules of domestic regulations. The next second stage of negotiations will involve other more complex trading areas, including 7 issues such as agricultural, labor and environmental standards, digital trade, state - owned enterprises, and non -market policies. Essence

The signing of the above agreement will undoubtedly further pull closer to the United States and Taiwan, and at the same time, it will touch some of the

current Taiwan exports to dependence on the mainland market. According to Taiwan, the signing of the first batch of the United States and Taiwan was the most large -scale and comprehensive trade negotiations of the two sides since 1979. The Chinese Ministry of Foreign Affairs stated that "China has strong dissatisfaction with this and has proposed to the United States solemnly."

Ye Yaoyuan, a professor at the International Research Lecture of St. Tomas University in the United States, told this station: "The United States is still the largest market in the world. Taiwan can slowly sign this free trade agreement through the next. It is highly effective to let Taiwan slowly get rid of the Chinese market. "

Ye Yaoyuan pointed out that the first phase of the agreement laid a good foundation for the future of the United States and Taiwan to sign a bilateral free trade agreement, and it can be seen that some market effects can be seen: "Because this infrastructure is available, many manufacturers have begun to prepare how they are going to prepare. Export their products to the US market. This preparation has begun. "

Xiao Meiqin: Avoiding double taxation is the key point in Taiwan in the next stage

In addition to trade negotiations, the representative of Taiwan in the United States Xiao Meiqin also said that avoiding the double taxation agreement is another issue in Taiwan. "Also long for a long time(Taiwan)A problem raised by the US Chamber of Commerce, and we also hope to make progress as soon as possible. "

At the end of March this year, US Finance Minister Yellen(Janet Yelle)When testing by Congress, it was stated that the lack of relevant dual taxation agreement in the United States and Taiwan was a "very major problem" and will "see if it can find a solution" with the US State Department.

At the press conference, Xiao Meiqin thanked US Treasury Secretary Yellen to make a positive response. She said: "We also hope to be able to talk about this issue between the administrative departments as soon as possible. In this regard, we also thank the Congress and the cross -committees of Congress and the two houses. They also attach great importance to this issue. "

However, the United States and Taiwan signed a major obstacle to avoiding a double -course tax agreement involving a major obstacle. Because the United

States has not recognized Taiwan as a sovereign state, it cannot sign relevant treaties. Bloomberg had previously quoted sources that some US officials expressed hesitation, arguing that this may be regarded by Beijing as provocative.

Xiao Meiqin said that the US Senate Diplomacy and the Finance Commission have proposed relevant legislation proposals; in the House of Representatives in the United States, the fundraising committee in charge of the financial tax also has a positive attitude. State.

"In this issue, we see that whether it is Speaker McCarthy who had met in California before, or the predecessor of Perlis, or the current minority leaders, they also expressed their attention to this issue. In such an atmosphere In this case, we hope to achieve some specific progress as soon as possible.

"Xiao Meiqin said.

Xiao Meiqin emphasized that avoiding dual taxation issues will be an important task for the next stage of Taiwan's representative offices in the United States and Taiwan Trade Agreement.

Severe serious [train collision accident] three days ago in India [Train collision accident](#) Later, the train company's train service was completely suspended, and it was not until Monday (June 5) to re -departure.

According to Agence France -Presse, due to statistical errors, Odisha authorities in eastern India have repaired the number of deaths in the crash of the train in the evening of last Friday (2nd) to 275.

However, of the 1175 injured, 382 people were still treated in the hospital. Generally, the number of casualties is expected to increase.

The Indian Ministry of Railways pointed out that the first train to restore operations is a freight train loaded with coal. It is not clear that the restoration process of the crash rails is not yet clear, and the freight trains that resume operations will only use one -way route.

This is the worst train collision in India for more than 20 years. At the time of the incident, a passenger train from Kolkata to Chennai from Kolkata was due to [signal lamp loss of spirit](#) Enter the ring line and collide with the freight trains

parked on the rail. The passenger trains were derailed by multiple cars, and as a result, the passenger trains drove from Bandolo to howrah, West Banglah.

The authorities will conduct further investigations to determine the incident and the cause of the accident.

According to the Indian State -owned Railway Corporation, its average daily passenger volume reached 13 million. India's railway facilities are old and the safety measures are not perfect, so the incidence of accidents is higher.

The United States and the Chinese Navy on Monday (June 5) launched a multilateral military exercise at the sea with many countries in the Haiwangjia Strait in Indonesia.

This "Komodo 2023" maritime joint military exercise is four days, which is held in separation of the Strait of the Wanggang Strait in Sulawesi and Borneo.

According to Agence France -Presse, 17 foreign ships will participate in exercises this time, including Sino -US, Australia and Russia warships.

A spokesman for the U.S. Embassy in Jakarta said on Sunday (4th) that this exercise will let the United States and "like -minded countries, allies, and partners join forces to deal with common challenges, such as humanitarian rescue and disaster response.

The Indonesian Navy issued a statement saying that this multilateral military exercise is a "non-war military training" designed to strengthen maritime cooperation in the region.

The first Komodo exercise was held in 2014, and a total of 18 countries participated. As of August 2020, about 54 countries from Asia, America, Europe, and Africa participated in this joint military exercise.

The Nuclear waste water output of Fukushima First Nuclear Power Station in Japan reached a new low in 2022, a decrease of about 90 tons daily.

Kyodo News reported on Monday (June 5) that due to the effective decrease in the production of nuclear waste water, Tokyo Electric Power Corporation (Dongdian) delayed the saturation period of the storage of nuclear sewage in the first nuclear power plant to "February 2024 to 6, 2024 "Around the month"; the official inferred that the storage tank would be saturated in "Around the summer of 2023".

Before May 2014, the average daily sewage output of the nuclear power plant was about 540 tons. Dongdian subsequently set targets. It planned to fall to about 150 tons in 2020 and below 100 tons in 2025.

However, according to the officially announced report, Dongdian achieved the target of production reduction in advance in 2022, and reduced the daily output of nuclear wastewater to about 90 tons.

The East Power plan continues to reduce the rainwater of the inflow into the nuclear power plant to reduce the output of nuclear waste water to 50 tons to 70 tons at the end of 2028.

The wastewater discharge of the Fukushima Nuclear Power Station is full of controversy, but the Japanese authorities adhere to the nuclear waste water filtered by the "multi -nuclein removal equipment" (ALPS) to discharge the sea, which will not cause malignant impact on the environmental ecology, and announced that in "" in "in" in "in" "Officially drain into the sea before and after this summer Essence

ALPS can filter 62 kinds of radioactive substances, but it is still difficult to remove the water in the water, so it must be stored in about a thousand storage tanks. At present, the amount of wastewater stored is about 1.33 million tons, accounting for about 97%of the tank capacity, which is enough to fill more than 528 Olympic standard swimming pools.

In order to ensure that the reactor's scrap operation has sufficient space, Dongdian cannot continue to add storage tanks.

Some market analysts believe that Apple's "mixed virtual and reality" headphones may also completely change the way millions of people interact with computers and surroundings. (Reuters)

Apple Inc (Apple Inc) (Nasdaq Stock Exchange code: AAPL)

The technology giant Apple is expected to launch the most "ambitious" new products for many years. This not only excited many Apple investors, but also directly driven Apple's stock price, which has risen by more than 4 % over the past five trading days.

Apple will hold the "Global Developer Conference" at the headquarters of California at the headquarters of California today. Market sources generally predict that Apple will launch a "mixed virtual and reality" headset at the meeting. This headset can also provide virtual effects at the same time, and it is also augmented by reality. It is a technology that stacks virtual images on real-time screens.

This highly anticipated latest headset will be another large-scale hardware product release event since Apple launched Apple Watch in 2015. Some market analysts even believe that Apple's product may completely change millions of people to interact with computers and surroundings.

According to Bloomberg, this new headset will include applications such as games, fitness and sitting, and expand the ability to provide applications, including: Messages, Facetime, and Safari. For example: Through the Facetime option, Apple's headphones will "present the face and whole body of the user in virtual reality", creating the feeling of "in the same place".

The market is now rumored that although Apple considers the pricing of this product at \$3,000, because there are too many uncertain factors in the global economy, Apple has not yet made a final decision.

In addition to this headset, Apple is expected to launch a series of software updates. These updates will affect how people use the company's most popular iPhone and Apple Watch.

Not only that, Apple may also disclose how it will integrate artificial intelligence into its more products and services, and officially announced that it will be inserted in the boom of artificial intelligence. According to various parties, Apple has a set of digital services driven by artificial intelligence to help people exercise and improve sleep and eating habits. Although no one knows how it works, with [ChatGPT](#) rising rapidly, the digital service of Apple is also a time.

As many large technology companies have recently outlined their artificial intelligence strategy, Apple's "Global Developer Conference" is likely to be when the company comes to divide the artificial intelligence market. Perhaps because of this, 22 of the 28 analysts in Tipranks are given "buy" rating to Apple stocks, five "hold" rating, one gives a "sell" rating, the average target price of the one-year period is \$183.63.

The Kremlin pointed out that several Russian Radio was attacked by hackers to play false speeches for pseudo -Russian President Putin and spread the false news that the Ukraine had invaded Russia.

Agence France -Presse reported that the Kremlin spokesman Peskov confirmed the hacking incident on Monday (June 5), saying that "the control has been resumed."

False information pointed out that "the Urpical Army, which was armed in NATO, invaded (Russia's) KWRSK, Bryansk, and Belgorod with the consent and support of Washington.

The above areas are all the western border areas that borders Russia and Ukraine, and it is also a place that has been frequently hit by the enemy in the near future.

The false information sounds very similar to the voice of President Putin, and announced the martial law, military mobilization and civilian evacuation of the "invasion" of the three regions.

The Belgo Rhode Administrative Center said that the false information was "deep forgery" in order to "spread panic among local residents."

The Voronezh authorities adjacent to Belgo Rhoda issued a warning to residents saying that "the frequency of radio broadcasting is hacked" and appeases the public "there is no need to worry."

The EU hopes that technology companies have reminded users that there is a possibility of false possibilities for the content generated by artificial intelligence (AI).

Bloomberg reported that Vera Jourová, Vice Chairman of the European Commission on Monday (June 5), said that although the rapid development of AI technology can "act as a positive force", there is also a certain "dark side" and a certain risk. It has a negative impact on society; especially "new technology brings new challenges to respond to false information."

Yaojova said that companies that have adopted the EU's "voluntary behavior of false information", including TIKTOK, Microsoft, and Meta's parent company META, and "clearly label" the false information generated by AI.

The European Union is negotiating a AI Act to formulate the management regulations for generating AI and plans to launch a key voting at the European Parliament's plenary conference next week.

However, even if the European Union can introduce the final agreed bill by the end of this year, major enterprises are likely to wait until 2026 to comply with relevant regulations.

It is worth noting that the voluntary guidelines that the EU currently promulgated does not include the risks caused by AI to generate false content, making curbing false information a major challenge for governments of various countries.

Yaolova said, "Incorporate the generative AI into the signing party of the service, such as Microsoft's Bid, Google's Bard", now it should also be established to prevent related technologies from being used to generate false information.

Yaorova has met with more than 40 companies that adopt the standard. Twitter withdrew in May to perform voluntary behavior guidelines.

Multiple rounds of Western countries [sanctions](#) Influence, Russia's Energy revenue in May decreased by more than one -third, decreased to 36%.

Bloomberg reported that data released by the Russian Ministry of Finance on Monday (June 5) showed that tax budget revenue from oil and natural gas decreased by 36%year -on -year to 570.7 billion rubles (about 9.4 billion yuan).

Bloomberg estimates that Russia's crude oil and oil revenue decreased by 31%to 425.8 billion rubles, and this category of energy goods accounted for 75%of the energy tax revenue in May.

Petroleum and natural gas account for about one -third of Russian fiscal revenue. With the increasing cost of Russia's war, the Putin government's fiscal revenue continues to eat.

The analysis pointed out that the budget expenditure of the Russian authorities declined because the EU implemented most Russian oil and oil

products import ban , Plus Seventh Kingdom Group (G7) There is also a price limit for oil and natural gas.

Data show that Russia's natural gas income in May was nearly 46%year -on -year to 145 billion rubles, and the increase in mineral mining taxes failed to make up for the loss of export tariffs.

Following Russia's natural gas industry company to reduce natural gas to Europe, Russian natural gas export tariff revenue decreased by 81%to 38.3 billion rubles.
